7.1 The municipality shall, by not later than last day of every month, receive all final billing data of the previous calendar month in an electronic off-line format which has been digitally signed and certified by the successful bidder.

7.2 This data will be in a format acceptable to the Municipality specified software. This format will be provided by the Municipality and is subject to change as and when required by the Municipality with no additional cost to Council.

7.3 The service provider will be responsible to ensure that this data is received by the Office of the Chief Financial Officer and the Electrical Engineering.

7.4 A list of meters on which the readings were not remotely or manually read due to unforeseen reasons by the end of the 3rd working day of each calendar month must accompany, with reasons in every case, the final billing data mentioned in paragraph 7.1

7.5 Meters not read for reasons attributable to the service provider will incur penalties after the fifth (5) working day of the calendar month.

7.6 Accounts not yet finalized must be clearly indicated as such on the website (and printed account), so as to prevent confusion.

8. Events and Alarms

Alarms will be used to provide early warning of any problem areas. Technicians will visit the site and attempt to rectify the problem, regardless of whether the reason for the problem can be attributed to the Municipality. The Municipality will only be required to intervene in exceptional circumstances such as failure of equipment. The following alarms should be monitored:

- Tampering
- Time adjustment

- Battery Failure
- Negative Energy
- Poor Power Factor
- Voltage swells and sags (if supported by meter)³

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse.
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals. ² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
