

## MUNICIPALITIES PROMISE TO ADDRESS COMMUNITY OUTCRY ABOUT WATER

Residents of Mhlava Cross have blasted government for poor supply of water in the village. Speaker after speaker complained about poor delivery of water in the area. They spoke about inconsistent distribution of water through mobile tankers and disfunctional boreholes

Responding to the questions, Mopani District Municipality member of the Mayoral Committee (MMC) Councillor Sefufi said the district municipality was conducting an audit into the boreholes throughout the district to identify nonfunctional boreholes. She said that a transformer and cable were stolen before the borehole could even be commissioned for use.

Councillor Thomas Mushwana also responding to questions about water said that pipelines were being vandalized by residents and water supply was affected.
