The Service Delivery and Budget Implementation Plan (SDBIP) is developed in terms of the Municipal Finance Management Act (Act no.56 of 2003). In terms of the MFMA Circular 13 of the National Treasury, "the SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and budget are fully aligned with each other, as required by the MFMA." The budget gives effect to the strategic priorities of the municipality and it is therefore important to supplement the budget and the IDP with a management and implementation plan, therefore the SDBIP.

The SDBIP serves as the commitment by Council to reaching the service delivery targets per Key Performance Area (KPA) and Thrust area (Economic Growth, Serivice Delivery & Good Governance) as set in the Integrated Development plan (IDP), in an attempt to address the needs expressed by the community. The SDBIP is therefore developed annually to form the basis for monitoring and measuring the performance of the Municipality against quarterly service delivery targets and budget projections. The SDBIP is therefore a vital link between the Mayor, Council and the Administration and a tool to hold Management accountable for its performance in terms of execution of the budget and the performance of Senior Management in the achievement of the strategic objectives as set by Council. The SDBIP therefore also forms the basis of the Performance Agreements of the Municipal Manager and other Senior Managers.

Approved by the Honourable Mayor:
Signature: Date:
