PART C General undertakings by the bidder

- 1.1 Definitions
- 1.1.1 "Acceptable bid" means any bid, which in all respects, complies with conditions of bid and specifications as set out in the bid document, including conditions as specified in the Preferential Procurement Policy Framework Act (Act 5 of 2000) and related regulations.
- 1.1.2 "Chairperson" means the chairperson of the Greater Tzaneen Municipality Bid Adjudication Committee.
- 1.1.3 "Municipal Manager" means the Accounting Officer or Municipal Manager of the Municipality.
- 1.1.4 "Committee" refers to the Bid Adjudication Committee.
- 1.1.5 "Council" refers to Greater Tzaneen Municipality.
- 1.1.6 "Equity Ownership" refers to the percentage ownership and control, exercised by individuals within an enterprise.
- 1.1.7 "HDI equity ownership" refers to the percentage of an enterprise, which is owned by individuals, or in the case of a company, the percentage shares that are owned by individuals meeting the requirements of the definition of a HDI.
- 1.1.8 "Member" means a member of the Bid Adjudication Committee.
- 1.1.9 "Historically Disadvantaged Individual (HDI)" means a South African citizen- (i) Who, due to the apartheid policy that had been in place, had no franchise in national elections prior to the introduction of the 1983 and 1993 Constitutions; and/or (ii) Who is a female; and/or (iii) Who has a disability?
- 1.1.10 Service providers" refers to the bidders who have been successful in being awarded Council contracts.
- 1.1.11 SMMEs" (Small, medium and Micro Enterprises) refers to separate and distinct business entities, including co- operative enterprises and NGOs, managed by one owner or more, as defined in the National Small Business (Act 102 of 1996.
- 1.1.12 Contract" refers to legally binding agreement between Greater Tzaneen Municipality and the service provider.
- 1.1.13 "Bid" means a written offer in a prescribed or stipulated form in response to an invitation by the Municipality for the provision of services or goods
- 1.1.14 "Contractor" means any natural or legal person whose bid has been accepted by the Council.

- 1.1.15 "Closing time" means the date and hour specified in the bid documents for the receipt of bids.
- 1.1.16 "Order" means an official written order issued for the supply of goods or the rendering of a service in accordance with the accepted bid or price quotation.
- 1.1.17 "Written" or "in writing," means handwritten in ink or any form of mechanical writing in printed form.
- 1.1.18 Functionality" means technical capability, financial and other resource availability that the service provider needs, to successfully and efficiently render the service and/or deliver in accordance with the specifications.

1.2 INTERPRETATION:

- 1.2.1 In this agreement clause headings are for convenience and shall not be used in its interpretation and, unless the context clearly indicates a contrary intention: -
- 1.2.2 An expression which denotes: -
- 1.2.3 Any reference to any statute, regulation or other legislation or official policy shall be a reference to that statute, regulation or other legislation or national policy as at the signature date, and as amended or re-enacted from time to time.;
- 1.2.4 When any number of day is prescribed, such shall be reckoned exclusively of the first and inclusively of the last day, unless the last day falls on a day which is not a business day, in which case the last day shall be the next succeeding day which is a business day;
- 1.2.5 Where any term is defined within a particular clause, other than the interpretation clause, that term shall bear the meaning ascribed to it in that clause wherever it is used in this agreement.
- 1.3 I/we hereby Bid:
- 1.3.1 To supply all or any of the supplies and/or to render all or any of the services described in the attached documents {Forms, Schedule(s) and/or Annexure(s) to the Greater Tzaneen Municipality.
- 1.3.2 On the terms and conditions and accordance with the specifications stipulated in the bid documents (and which shall be taken as part of and incorporated into, this bid);
- 1.3.3 At the prices and on the terms regarding time for delivery and/or execution inserted therein.
- 2.1 I/we agree further that: The offer herein shall remain binding upon me/us and open for acceptance by the Greater Tzaneen Municipality during the validity period indicated and

calculated from the closing time of the bid. This bid and its acceptance shall be subject to the terms and conditions contained in the Forms, Scheduled(s)

and/or Annexure(s) attached hereto with which I am /we are fully acquitted. notwithstanding anything to the contrary in the Form(s), Schedule(s) and /or Annexure(s) attached hereto:

- 2.1.1 if I/we withdraw my/our bid within the period for which I/we have agreed that the bid shall remain open for acceptance or fail to fulfil the contract when called upon to do so, the Greater Tzaneen Municipality may, without prejudice to its other rights, agree to the withdrawal of my/our bid or cancel the contract that may have been entered into between me/us and the Municipality.
- 2.1.2 In such event, I/we will then pay to the Municipality any additional expenses incurred by the Municipality for having either to accept any less favourable bid or, if new bids have to be invited, the additional expenditure incurred by the invitation of new bids and by the subsequent acceptance of any less favourable bid.
- 2.1.3 The Municipality shall also have the right in these circumstances, to recover such additional expenditure by set-off against monies which may be due or become due to me/us under this or any other bid or contract or against any guarantee or deposit that may have been furnished by me/us or on my/our behalf for the due fulfilment of this or any other bid or contract.
- 2.1.4 Pending the ascertainment of the amount of such additional expenditure the Municipality may retain such monies, guarantee, or deposit as security for any loss the Municipality may sustain, as determined hereunder, by reason of my/our default.
- 2.1.5 Any legal proceedings arising from this bid may in all respects be launched or instituted against me/us and if/we hereby undertake to satisfy fully any sentence or judgment which may be obtained against me/us as a result of such legal proceedings, and I/we undertake to pay the Greater Tzaneen Municipality legal costs on an attorney and own client.
- 2.1.6 if my/our bid is accepted that acceptance may be communicated to me/us by letter or facsimiles and that proof of delivery of such acceptance to SA Post Office Ltd or the production of a document confirming that a fax has been sent, shall be treated as delivery to me/us. The law of the Republic of South Africa shall govern the contract created by the acceptance to this bid.
- 2.1.7 I/we have satisfied myself/ourselves as to the correctness and validity of this bid, that the price(s) and rate(s) quoted cover all the work/items(s) specified in the bid documents and that the price(s) and rate(s) cover all my/our obligations under a resulting contract and that I/we accept that any mistakes regarding price(s) and calculations will be at my/our risk

2.1.8 I/we accept full responsibility for the proper execution and conditions defaulting on
me/us under this agreement as the principal(s) liable for the fulfilment of this contract. I/we
declare that I/we have participation/no participation in the submission of any other bid for the
supplies/services described in the attached documents.
If your answer here is yes, please state the names(s) of the other Bid(s)
involved

PART E GENERAL PROCEDURES

- 1. General Directives
- 1. The following general procedures contained in this document have been laid down by the Council and are applicable to all bids, orders, and contracts, unless otherwise approved by the Council prior to the invitation of the bids.
- 2. Where applicable, special conditions or procedures are also laid down by the Council to cover specific supplies or services.
- 3. Where such special conditions or procedures are in conflict with the general conditions and procedures, the special conditions or procedures shall apply.
- 4. The bidder shall satisfy himself/herself with the conditions and circumstances of the bid. By bidding, the bidder shall deem to have satisfied himself/herself as to all the conditions and circumstances of the bid.
- 5. Formal contract are concluded with the contractors only where this requirement is stated in the bid invitation.
- 6. All bids with regard to the bidding of a service e.g., materials, cleaning services; professional services, etc. shall be subject to the negotiation of a Service Level agreement between the successful contractor and the Municipality. The acceptance of this Service Level Agreement is subject to the approval by the Council of the Municipality.
- 7. The written acceptance of bid shall be posted to the bidder or contractor concerned by registered or certified mail.
- 8. Process for competitive bidding Following are procedures for a competitive bidding process for each of the following stages:

8.1 Compilation of bidding documentation

- (a)Take into account ♣ The general conditions of contract; ♣ Any Treasury guidelines on bid documentation; and ♣ The requirement of the Construction Industry Development Board, in the case of a bid relating to construction, Replacement or refurbishment of buildings or infrastructure.
- (b) Include evaluation and adjudication criteria, including any criteria required by other applicable legislation.
- (c) Compel bidders to declare any conflict of interest they may have in the transaction for which the bid is submitted as MBD 4

- (d) Require the bidders to furnish the following if the value of the transaction is expected to exceed R10 million (VAT included):
- ♣ If the bidder is required by law to prepare annual financial statements for auditing, their audited annual financial statement * For the past three years; or * Since their establishment if establishment during the past three years
- ♣ A certificate signed by the bidder certifying that the bidder has no undisputed commitments for municipal services towards a municipality or other service provider in respect of which payments is overdue for more than 30 days
- A Particulars of any contracts awarded to the bidder by an organ of state during the past five years, including particulars of any material non-compliance or dispute concerning the execution of such contract
- A statement indicating whether any portion of the goods or services are expected to be sourced from outside the Republic, and, if so, what portion and whether any portion of payment from the municipality is expected to be transferred out of the Republic (e) Stipulate that disputes must be settled by means of mutual consultation, mediation (with or without legal representation), or, when unsuccessful, in a South African court of law.

8.2 Issuing of bid documents

on the date that the advertisement appears in the Municipality's Bid Bulletin, and or media, prospective bidders may request copies of the bid documentation. The Supply Chain Unit will keep a register and potential bidders should sign for receipt of the bid documentation. If a fee is payable, an official receipt must be issued before the bid document is handed to the bidder. No bid responses from any Bidder should be accepted if sent via the Internet, e-mail or fax.

Only the Supply Chain Management Unit will have direct communication between the potential bidders and will facilitate all communication between potential bidders and the Municipality with regard to any advertised bid. No line function staff should be allowed to communicate with potential bidders without the approval by the Chief Financial Officer: Supply Chain Management Unit. The Supply Chain Management Unit will only consider request for the extension of the closing dates of advertised bid if the postponed date can be advertised in the media used to advertise before the original closing date. The closing time may be postponed only if all potential bidders can be advised of the postponed time, in writing, before the original closing time. The decision to extend the closing date or time rests with the Chief Financial Officer: Supply Chain Management Unit, who must ensure compliance with all relevant rules and regulations and must confirm prior to the action being taken.

8.3 Payment of bid documents

To ensure that only bona fide bidders collect documentation, and to recover printing costs, bid documents will be issued only after payment of the following amounts to the cashier:

Category Contract	Contract Value	Bid Payment
Micro	R30 000 – R200 000	R200.00
Small	R200 001 – R1000 000	R700.00
Medium	R1000 001 – R2 Million	R1500.00
Large	Above	R2000.00
Professional Services		R5000.00

8.4 Public Invitation for Competitive bids

the following are procedures for the invitation of competitive bids:

- (i) Invitation to prospective providers to submit bids must be by means of a public advertisement in newspapers commonly circulating locally, the website of the municipality or any other appropriate ways (which may include an advertisement in the Government Bid Bulletin) and
- (ii) Public advertisement must contain the following: The closure date for the submission of bids, which may not be less than 30 days in the case of transactions over R10 million (Vat included), or which are of a long term nature, or 14 days in any other case, from the date on which the advertisement is placed in a newspaper; subject to (iii) below; and (iii) Accounting officer may determine a closure date for the submission of bids which is less than the 30 or 14 days' requirement, but only if such shorter period can be justified on the grounds of urgency or emergency or any exceptional case where it is impractical or impossible to follow the official procurement process
- (iv) Bids submitted must be sealed.
- (v) The following information must appear in any advertisement:
- * Bid number,
- * Description of the requirements
- * Closing date and time.

- * The name and telephone numbers of the contact person for any enquiries.
- 8.5 Inspection on loco A fully explanatory site inspection will be conducted.
- 8.6 Handling of bids submitted in response to public invitation

(a) Closing of bids

All bids will close at **12H00** on a date as stipulated on the advertisement, which must be reflected in the bid document. Bids are late if they are received at the address indicated in the bid documents after the closing date and time. A late bid should not be admitted for consideration and where practical should be returned unopened to the bidder accompanied by and explanation.

(b) Opening of bids

Bids are opened in public as soon as possible after the closure in the presence of the Senior Supply Chain Officer: Supply Chain Management or his/her delegate. The official opening the bids should in each case read out the name of the bidder and the amount of the bid. The bid should be stamped with the official stamp of the Municipality and endorsed with the signatures of the person opening it and of the person in whose presence it was opened. Bids should be recorded in a register kept for that purpose.

8.7 Validity of the bids

The validity periods should not exceed 90 (ninety) days and is calculated from the date of bid closure endorsed on the front cover of the bid document. Should the validity period expire on a Saturday, Sunday or Public holiday, the bid must remain valid and open for acceptance until the closure on the following working date.

8.8 Consideration of bids

The Council takes all bids duly admitted into consideration. • The Council reserves the right to accept the lowest or any bid received • The decision by the Municipality regarding the awarding of a contract must be final and binding

8.9 Evaluation of bids

The following are criteria against which all bids' responses will be evaluated:

- i) Compliance with bid conditions
 - w Bid submitted on time
 - w Bid forms signed and each page initialled
 - **ω** All essential information provided
 - **ω** Certified ID copies

- w Proof of work experience (attach CV)
- w Submission of an original Tax Clearance Certificate,
- w Submission of Company Registration Certificate
- w Submission of a Joint Venture Agreement, properly signed by all parties
- **w** Payment of Municipal Rates
- And all requirements as per advert
- ii) Meeting technical specifications and comply with bid conditions.
- iii) The number of points scored for achieving Government's Broad-Based Black
 Economic Empowerment objectives, points scored for price and / or points scored
 for functionality if applicable.

2.10 Evaluation of bids on functionality and price

- (i) Greater Tzaneen Municipality must in the bid documents indicate if, in respect of a particular bid invitation that bids will be evaluated on functionality and price.
- (ii) The total combined points allowed for functionality and price may, in respect of bids with an estimated Rand value above R1, 000,000.00, not exceed 90 points.
- (i) When evaluating bids contemplated in this item, the points for functionality must be calculated for each individual bidder
- (ii) The conditions of bid may stipulate that a bidder must score a specified minimum number of points for functionality to qualify for further adjudication.
- (iii) The points for price, in respect of a bid which has scored the specified minimum number of points contemplated in sub-regulation (v) above, must, subject to the application of the evaluation system for functionality and price contemplated in this regulation, be established separately and be calculated in accordance with the provisions of regulations c and d.
- (iv) The number of points scored for achieving Government's Broad-Based Black Economic
- (v) Empowerment Objectives must be calculated separately and must be added to the points
- (vi) Scored for functionality and price.
- (vii) Only bid with the highest number of points be selected.

2.11 Acceptance of bids

Successful bidders must be notified at least by registered post of the acceptance of their bids, but that acceptance, however, will only take effect after completion of the prescribed contract form. Unsuccessful bids should not be returned to bidders but should be placed on record for audit purposes. A register or records should be kept of all bids accepted

2.12 Publication of bid information

The particulars of the successful bidders should be published in the Municipality's Bid Bulletin as well as the website.

2.13 Cancellation and re-invitation of bids

- (i) In the event that in the application of the 80/20 preference point system as stipulated in the bid documents, all bids received exceed the estimated Rand Value of R50 million, the bid invitation must be cancelled.
- (ii) In the event that, in the application of the 90/10 preference point system as stipulated in the bid documents, all bids received are equal to or below R50 million, the bid must be cancelled. (iii) In the event that the Municipality has cancelled a bid invitation as contemplated in sub regulations (i) and (ii) must reinvite bids and, must, in the bid documents stipulate the correct preference point 30 system to be applied.
- (a) A bid may be cancelled before award if:
 - works or services offered, or
 - ϖ Funds are no longer available to cover the total envisaged expenditure, or ϖ No acceptable bids were received

TAX CLEARANCE REQUIREMENTS

It is a condition of tender that the taxes of the successful tenderer must be in order, or that satisfactory arrangements have been made with South African Revenue Service (SARS) to meet the bidder's tax obligations.

- 1. In order to meet this requirement bidders are required to complete in full the attached form TCC 001 "Application for a Tax Clearance Certificate" and submit it to any SARS branch office nationally. The Tax Clearance Certificate Requirements are also applicable to foreign tenderers / individuals who wish to submit bids.
- 2. SARS will then furnish the tenderer with a Tax Clearance Certificate that will be valid for a period of 1 (one) year from the date of approval.
- 3. The original Tax Clearance Certificate and SARS PIN must be submitted together with the tender. Failure to submit the original and valid Tax Clearance Certificate will result in the invalidation of the tender. Certified copies of the Tax Clearance Certificate will not be acceptable.
- 4. In tenders where Consortia / Joint Ventures / Sub-contractors are involved, each party must submit a separate Tax Clearance Certificate.
- 5. Copies of the TCC 001 "Application for a Tax Clearance Certificate" form are available from any SARS branch office nationally or on the website www.sars.gov.za.
- 6. Applications for the Tax Clearance Certificates may also be made via eFiling. In order to use this provision, taxpayers will need to register with SARS as eFilers through the website www.sars.gov.za.

CERTIFICATE OF NON-COLLUSIVE TENDER

1 IN THE CASE OF A SINGLE CONSTRUCTION CONCERN:

I/We certify that this is a bona fide tender.

I/We also certify that I/We have not done and I/We undertake not to do any of the following at any time before the hour and date specified for the closure of submission of tenders for this contract.

- a) Fix or adjust the amount of this tender by or under or in accordance with any agreement or arrangement with any other person;
- b) communicate to a person other than the person calling for these tenders the amount or approximate amount of the proposed tender, except when the confidential disclosure of the approximate amount of the tender is necessary to obtain the insurance-premium quotations required for preparation of the tender;
- c) cause or induce any other person to communicate to me/us the amount or approximate amount of any rival tender for this contract;
- d) enter into any agreement or arrangement with any other person to induce him to refrain from tendering for this contract, or to influence the amount of any tender or the conditions of any tender to be submitted, nor cause or induce any other person to enter into any such agreement or arrangement;
- e) offer or pay or give or agree to pay or to give any sum of money or valuable consideration directly or indirectly to any person for doing or having done or causing or having caused to be done in relation to any tender or proposed tender for this contract, any action similar to those described above.

In this certificate the term "person" includes any persons, body of persons or association, whether corporate or not, and the term "agreement or arrangement" includes any agreement or arrangement, whether formal or informal and whether legally binding or not.

CERTIFICATE OF NON-COLLUSIVE TENDER (Continued)

2 IN THE CASE OF A CONSORTIUM OF CONSTRUCTION CONCERNS:

We certify that this is a bona fide tender.

We also certify that we have not done and we undertake not to do any of the following at any time before the hour and date specified for the closure of submission of tenders for this contract:

- a) Fix or adjust the amount of this tender by or under or in accordance with any agreement or arrangement with any person outside this consortium;
- b) communicate to a person outside this consortium other than the person calling for these tenders, the amount or approximate amount of the proposed tender, except when the confidential disclosure of the approximate amount of the tender is necessary to obtain insurance premium quotations required for preparation of the tender;
- c) cause or induce any person outside this consortium to communicate to us the amount or approximate amount of any rival tender for this contract.
- d) enter into any agreement or arrangement with any person outside this consortium to induce him to refrain from tendering for this contract, or to influence the amount of any tender or the conditions of any tender to be submitted, nor cause or induce any person outside this consortium to enter into any such agreement or arrangement;
- e) offer or pay or give or agree to give any sum of money or valuable consideration directly or indirectly to any person outside this consortium for doing or having done or causing or having caused to be done in relation to any tender or proposed tender for this contract, any action similar to those described above.

In this certificate the term "person" includes any persons, body of persons or association, whether corporate or not, the term "agreement or arrangement" includes any agreement or arrangement, whether formal or informal and whether legally binding or not, and the term "person outside this consortium" means, when the consortium is a partnership, a person other than a partner or an employee of a partner or the partnership, or when the consortium is a company, a person other than a person or company holdings shares in the consortium, or any employee of such a person, company or the consortium.

MUNICIPAL CLEARANCE CERTIFICATE Bidders are to submit a valid Municipal Clearance Certificate from the Local Municipality where the Company and its Directors are based.

COMPANY PROFILE Bidders are to submit a company profile

PROOF OF COMPANY REGISTRATION Bidders are to attach proof of company registration

COMPLIANCE WITH OCCUPATIONAL HEALTH AND SAFETY ACT, 1993 AND CONSTRUCTION REGULATIONS, 2014

Bidders are to attach a valid Letter of Good Standing with the Workmen's Compensation Fund from the Department of Labour as per the Occupational Injuries and Diseases Act.

The tenderer shall also attach to this Form evidence that he is registered and in good standing with a compensation insurer who is approved by Department of Labour in terms of section 80 of the Compensation for Injury and Disease Act (COID) (Act 130 of 1993).

The tenderer is required to disclose, by also attaching documentary evidence to this form, all inspections, investigations and their outcomes conducted by the Department of Labour into the conduct of the tenderer at any time during the 36 months preceding the date of this tender.

Note to tenderer:

Discovery that the tenderer has failed to make proper disclosure may result in Greater Tzaneen Local Municipality terminating a contract that flows from this tender on the ground that it has been rendered invalid by the tenderer's misrepresentation.

COPIES OF COMPLETION CERTIFICATES

Bidders to attach copies of completion certificates of similar previous work done

Please ensure that the Completion Certificates are for the Projects Listed in the Table: "List of similar Projects successfully completed in the past five (5) years" in order to qualify for functionality points.

FORM IN TERMS OF THE FUNCTIONAL REQUIREMENTS

Bidders are required to complete the table below providing evidence that they have been involved in similar types of projects.

Copies of the Completion Certificates for similar previous work done must be attached in order to be scored for functionality.

Please ensure that the Completion Certificates attached are for the Projects listed in the Table: "List of similar projects successfully completed in the past five (5) years"

If the value of the projects completed is not provided, points can only be awarded for the category "Up to 4 similar projects of any value"

Where Joint Ventures are undertaken, Bidders are required to submit detailed documentation providing evidence that **each** company has been involved in similar types of projects

Where Joint Ventures are undertaken, Bidders are required to clearly define the roles and responsibilities of each member and are required to submit detailed documentation providing evidence that each member has sufficient experience in relation to their roles and responsibilities.

Failure of the Bidder to provide the relevant documentation would result in no points being allocated and could potentially result in the document being regarded as non-responsive

List of similar projects successfully completed in the past five (5) years:

C1.2.1.1 Variations to General Conditions of Contract Add the following Table:

3.2.4	Employer for Health and Safety
	'In terms of Clause 1.3.2, all parties to the Contract shall be subject to the relevant requirements of the Construction Regulations 2014 (as amended) of the Occupational Health and Safety Act, Act 85 of 1993 (as amended).'
	Add the following at the end of the above new replacement Clause 3.2.4:
	'Where the Employer is obliged to appoint an Employer for Health and Safety in terms of the Construction Regulations 2014 (as amended) of the Occupational Health and Safety Act (Act 85 of 1993 as amended), and where such Employer for Health and Safety has complied with the registration requirements of a Construction Health and Safety Agent as a specified category in terms of section 18 (1) (c) of the Project and Construction Management Professions Act (Act 48 of 2000), the applicable clauses of the latest edition of the "Standard Scope Of Services for Construction Health and
	Safety Agents Registered In Terms Of Section 18(1)(c) of the Project And Construction Management Professions Act (Act
	No. 48 Of 2000)", including Clauses 2.2.5 "STAGE 5 - CONSTRUCTION DOCUMENTATION AND MANAGEMENT", and 2.2.6 "STAGE 6 - PROJECT CLOSE – OUT", and
	2.2.7 "ADDITIONAL RELATED SERVICES", as published
	in "Registration Rules for Construction Health and Safety Agents in Terms of Section 18 (1) (c) of the Project and Construction Management Professions Act, 2000 (Act No. 48 of 2000)" by the South African Council for Construction and Project Management Professionals in terms of the Project and Construction Management Professions Act (Act 48 of 2000 as amended), shall also apply."
5.3.3	Time to instruct commencement of the Works
:	The Contractor shall commence with carrying out the Works upon written instruction from the Employer to commence with the Works.
610.4	Delivery, dissatisfaction with and payment of payment certificates
	Payment shall be made upon: The Contractor will provide a payment certificate with quantities to the Employer before or on the 20 th of every month.
	After the payment certificate has been approved by Employer, the Contractor must issue an Original Tax Invoice compliant with SARS requirements for Valid Tax Invoice. The date of the Original Tax Invoice must be date the Employer approved the Payment Certificate. The certificate will then be ready for handing in to the Employer.
	Payment will be made end of the following month.
	Payment shall be subject to the Contractor submitting an Original Tax Invoice compliant with SARS requirements for Valid Tax Invoice to the Employer for the amount due. Any dissatisfaction in respect of such payment certificate shall be dealt with in terms of Clause 10.2.
6.10.5	Payment of Retention Money
	In the third line, delete the word "when" and replace with "within 35 days after" In the sixth line, delete "14 days" and replace with "35 days"

"Payment shall be subject to the Contractor submitting an Original Tax Invoice compliant with SARS requirements for Valid Tax Invoice to the Employer for the amount due."

6.11 Delete Clause 6.11. General items will not be adjusted should there be a decrease or increase of scope.

7.8.2 Cost of making good of defects

Amend Clause 7.8.2.1 as follows:

In the first line, correct the spelling of 'therefore'.

8.3.1 Excepted risks

Amend Clause 8.3.1.11 as follows:

In the second line, delete the words 'Employer or any of their' and substitute with 'or any of its'.

8.4.1.1 Add to the end of Clause 8.4.1.1 the following text:

"hereby indemnifies the Employer against any liability in respect of damage or physical loss of property of any person or injury or death of any person due to non-compliance with the Occupational Health and Safety Act (Act 85 of 1993),"

C1.2.1.2 Additions to General Conditions of Contract Add the following Table:

1.1	Definitions
1.1.1.34	"Client", as used in the Occupational Health and Safety Act and its Construction Regulations,
	means Employer.
1.1.1.35	"Principal Contractor", as used in the Occupational Health and Safety Act - Construction
-	Regulations, means Contractor.
C1.2.1.2.1	Penalties
	In addition to GCC 2015 clause 5.13, during the Contract Period should the Contractor:
	a) Penalties irreversible
	The Contractor shall note that all penalties once imposed shall be non-recoverable or
	reversible, even if the default is remedied.
C1.1.1.2.2	Source of instructions
	The Contractor shall neither seek nor accept instructions from any authority external to the
	Employer or their authorized representatives in connection with the performance of his
	services under this Contract.
C1.2.1.2.3	Officials not to benefit
	The Contractor warrants that no official of the Employer has been or shall be admitted by the
	Contractor to any direct or indirect benefit arising from this Contract or the award thereof. The
	Contractor agrees that breach of this provision is a breach of the Contract.
C1.2.1.2.4	Prevention of corruption
	The Employer shall be entitled to cancel the Contract and to recover from the Contractor the
	amount of any loss resulting from such cancellation, if the Contractor has offered or given any
	person any gift or consideration of any kind as an inducement or reward for doing or intending
	to do any action in relation to the obtaining or the execution of the Contract or any other
	contract with the Employer or for showing or intending to show favor or disfavor to any person
	in relation to the Contract or any other contract with the Employer, if the like acts shall have
	been done by any persons employed by him or acting on his behalf whether with or without the

	knowledge of the Contractor in relation to this or any other Contract with the Employer.
C1.2.1.2.5	Confidential nature of documents All maps, drawings, photographs, mosaics, plans, reports, recommendations, estimates, documents and all other data compiled by or received by the Contractor under the Contract shall be the property of the Employer, shall be treated as confidential and shall be delivered only to the Employer or his duly authorized representative on completion of the Works; their contents shall not be made known by the
	Contractor to any person other than the personnel of the Contractor performing services under this Contractor without the prior written consent of the Employer.
C1.2.1.2.6	Returns of labour, plant, equipment and material
	The Contractor shall provide a return in detail in the form and at such intervals as the Employer or his duly authorized representative may prescribe showing the supervisory staff and the numbers of the several classes of labour from time to time employed by the Contractor on the Site and such information respecting constructional plant, equipment and material as the Employer or his duly authorized representative may require.
C1.2.1.2.7	Date falling on public holiday or weekend
	Where under the terms of the Contract any act is to be done or any period is to expire upon a certain day and that day or that period fall on a day of rest or recognized holiday or weekend, the Contract shall have effect as if the act were to be done or the period to expire upon the working day following such day.
C1.2.1.2.8	Ambiguities and inconsistencies
	The Employer or the Contractor shall notify the other as soon as either becomes aware of an ambiguity of inconsistency in or between the documents, which are part of this Contract. Governed by the spirit and intention of the Contract, the Employer shall give a binding instruction resolving the ambiguity of inconsistency.
C1.2.1.2.9	False claims by the Contractor
	1. Failure, by the Contractor, to demonstrate or present any feature declared during the procuremen stage shall constitute grounds for Contract termination or the market related equivalent price discount, in market related value is available, the Employer shall give a final ruling on the amount. This shall be a the discretion of the Employer based on the implication of such omission. Should the Contractor refuse to accept the Employer's price, the Contract shall be terminated.
	2. Any false claims by the Contractor or his staff (with or without his knowledge), based on Works to be performed or completed per site stage shall constitute grounds for Contract termination and result in blacklisting on the Employer's database.
	The Contractor shall note that any of the above shall constitute non-performance on the part of the Contractor, further resulting in him forfeiting his full Contract Guarantee.

C2 PRICING DATA

C2.1 PRICING INSTRUCTIONS

C2.1.1 GENERAL PREAMBLE TO THE BILL OF QUANTITIES

Measurement and payment shall be in accordance with the relevant provisions of the COLTO Standard Specification for Road and Bridge Works for State Authorities (1998 edition) as amended in the Scope of Works.

It will be assumed that prices included in the bills of quantities are based on Acts, Ordinances, Regulations, By-laws, International Standards and National Standards that were published 28 days before the closing date for tenders. (Refer to www.stanza.org.za or www.iso.org for information standards).

Where the Scope of Work requires detailed drawings and designs or other information to be provided, all costs associated therewith are deemed to have been provided for and included in the unit rates and sum amount tendered such items.

An item against which no price is entered will be considered to be covered by the other prices or rates in the Pricing Schedule. A single lump sum will apply should a number of items be grouped together for pricing purposes.

Unless otherwise stated, items are measured net in accordance with the drawings, and no allowance is made for waste.

The quantities set out in the Bill of Quantities are the estimated quantities of the Contract Works, but the Contractor shall be required to undertake whatever quantities may be directed by the Engineer from time to time. The Contract Price for the completed Works shall be computed from the actual quantities of work done, valued at the relevant unit rates and/or prices.

Reasonable compensation will be received where no pay item appears in the Pricing Schedule in respect of work required in terms of the Contract and which is not covered in any other pay item.

The rates and/or prices to be inserted in the Bill of Quantities are to be the full inclusive prices for the work described under the several items. Such rates and/or prices shall cover all costs and expenses that may be required in and for the execution of the work described, and shall cover the cost of all general risks, liabilities, and obligations set forth or implied in the documents, as well as overhead charges and profit. Reasonable charges shall be inserted as these shall be used as a basis for assessment of payment for additional work that may have to be carried out.

A price or rate is to be entered against each item in the Bill of Quantities, whether the quantities are stated or not. An item against which no price is entered will be considered to be covered by the other prices or rates in the Schedule.

The short descriptions of the items of payment given in the Pricing Schedule are only for the purposes of identifying the items. More details regarding the extent of the work entailed under each item appear in the Scope of Work

The units of measurement described in the Bill of Quantities are metric units. Alternatives used are as follows:

3. For the purpose of this Bill of Quantities, where applicable, the following words shall have the

m^2 pass =	=	square metre pass	sum	=	lump sum
ha	=	hectare	MN	=	meganewton
m^3	=	cubic metre	MN.m	=	meganewtom-metre
m^3km	=	cubic metre-kilometre	P Csum=		Prime Cost sum
1	=	litre	Prov sum	1 =	Provisional sum
kl	=	kilolitre	%	=	percent
MPa	=	megapascal	kW	=	kilowatt

4.

5. meanings hereby assigned to them:

Unit: The unit of measurement for each item of work as defined in the COLTO Standard Specification for Road and Bridge Works for State Authorities (1998 edition).

Quantity : The number of units of work for each item.

Rate : The agreed payment per unit of measurement.

Amount : The product of the quantity and the agreed rate for an item.

Lump sum : An agreed amount for an item, the extent of which is described in the Bills of but Quantities

the quantity of work of which is not measured in any units.

- 6. Arithmetical errors in the Bill of Quantities shall be corrected in accordance with Clause F3.9 of the Conditions of Tender. Should there be any discrepancy between rates and/or prices written in the Assessment Schedule and the Bill of Quantities, the latter shall govern.
- 7. The Bill of Quantities shall be completed by hand in **BLACK PEN INK**.
- 8. The item numbers appearing in the Pricing Schedule refer to the corresponding item numbers in the COLTO Standard Specification for Road and Bridge Works for State Authorities (1998 edition)

C2.1.2 Special payment conditions

This clause shall be read in conjunction with the 'Penalties' clause(s). Where the penalty clause shall always receive precedence over this clause, should it be found that duplicative financial corrective measures exists.

C2.1.2.1 Provided previously

The Contractor shall not re-execute works under this Contract where he has successfully executed works for the Employer under a previous contract(s) that comply with the requirements of this Contract. However, where applicable the Contractor shall:

clearly state this in his qualifications; and still provide the associated rates and prices in the schedule in the associated line item, but not calculate an associated amount.

The Employer shall at his sole discretion decide to re-execute such works.

C2.1.2.2 Materials and equipment

The Employer shall not provide any works material and equipment, as this shall be provided by the Contractor and deemed to have been included in his provided activity rates or prices.

C2.1.2.3 Confined space

The Contractor shall note that work activities shall be executed within confined spaces and it shall be deemed that allowance has been made in all activity pricing.

C2.1.2.4 Contract Price Adjustment

The effect of changes in prices or law on the amounts due shall be adjusted on the following basis:

No price adjustment over the first 12-month period of the Contract.

On the 12-month anniversary date of the signing of the agreement the rates shall be adjusted by twelve-month year on year CPI index (as published in the monthly bulletin PO141.1 of statistics South Africa) ruling on the 12-month anniversary date of the signing of the .

C2.1.2.5 Preliminary and General

Preliminary and General items shall be limited to a maximum of twenty five percent (20%) of the total Contract Value.

C2.1.2.6 Contractor Appointment

Contractors will only be appointed for value of work in their CIDB grading category only.

C2.1.2.7 Rates Negotiation

Rates will be negotiated with the short-listed Tenderers.

C2.2BILL OF QUANTITIES

STATUS

In the event of any discrepancy between the Scope of Works and a part or parts of the SANS 1200 Standard Specifications, the Bill of Quantities or the Drawings, the Project Specification shall take precedence and prevail in the Contract.

C3.1 DESCRIPTION OF THE WORKS

C3.1.1 Employer's Objectives

The Employer's objectives is the maintenance of stormwater drainage within the Greater Tzaneen Municipality for a period of 36 months and improve the existing stormwater drainage infrastructure.

The project must provide employment opportunities to the many unemployed people in the communities.

C3.1.2 Overview of the Works

The scope of work entails the maintenance of stormwater drainage within the Greater Tzaneen Municipality for a period of 36 months.

C3.1.3 Extent of the Works.

The scope of works for the project includes the following:

- Establishment of the Contractor's camp and plant on site and the removal of all site establishment on the completion of the Contract.
- Traffic accommodation for the duration of the works.
- Cleaning of hydraulic drainage structures.
- Construction of drainage structures.
- Rehabilitation and upgrading of drainage structures
- Construction of road layers
- Installation of Culverts
- Gabions
- Stone Patching
- Road signs; and
- Any other repair works as per GTM instruction.

C3.1.4 Temporary works

The following items shall generally form the majority of temporary works required under this Contract, however shall not be limited to such, and might be expanded or changed by the Employer should circumstances on site validate such decisions. These works will be as follows:

- Clearing site and surroundings to create accessible working areas as required;
- Provide Contractor's Camp site and Contractor's site office;
- Provide site and administrative personnel, including security staff etc as required;
- Setting out of the works by the contractor;
- Monitor and report levels as construction progresses;
- Manage all site staff, CLO and local labourers, plant, equipment and materials etc
- Manage all required quality control procedures as specified and as instructed by Employer;
- Provide all personnel, equipment, clothing, accessories etc. in order to adhere to the OHS Act;
- Attend official Site Meetings scheduled and chaired by the Employer, and managed sufficient additional meetings on site with all personnel and CLO to ensure compliance with the OHS Act and to ensure progress on site according to the accepted Construction programme
- The temporary works include the construction and maintenance of temporary access roads along the road upgrade sections
- The protection of excavations by means of shoring as per COLTO will be a requirement. All dewatering of trenches is considered temporary works for which the Contractor must make sufficient allowance in his site establishment and excavations rates.

The description of the Works is not necessarily complete and shall not limit the work to be carried out by the Contractor under this Contract. All works are envisaged to be constructed by labour-based techniques wherever practicable,

C3.1.5 Construction Program and Method

Programme of works

Upon allocation of works the Contractor shall submit the programme of works and approved by the Employer. The programme shall be in the form of a simplified bar chart with sufficient details to show clearly how the works will be performed within the time for completion as stated in the Contract Data. If it states in the information provided by the client that the contractor is to assist in surveying and locating existing structures and services for a certain duration of time from the Commencement Date, the contractor must provide a Programme which indicated the start of the construction period after the indicated time period.

Tenderers may submit tenders for an alternative Time for Completion <u>in addition</u> to a tender preliminary programme similar to the programme above for the execution of the works, and shall motivate his proposal clearly by stating all the

financial implications of the alternative completion time.

The Contractor shall be deemed to have allowed fully in his tendered rates and prices as well as in his programme for all possible delays due to normal adverse weather conditions and special non-working days as specified in the Special Conditions of Contract, in the Project Specifications and in the Contract Data.

The following constraints shall be taken into account in preparing the preliminary construction programme which must be submitted with the Tender. These same constraints shall apply to the final construction programme:

- 9. the Contractor must indicate in his tender the proposed contract period;
- 10. plant and personnel requirements to complete the project must be incorporated in the Tender and shown on the programme;
- 11. a high standard of traffic accommodation must be adhered to at all times;
- 12. the relocation of services:

Programme in terms of Clause 5.6 of the General Conditions of Contract

It is essential that the construction programme, which shall conform in all respects to Clause 5.6 of the General Conditions of Contract, be furnished within the time stated in the Contract Data. The preliminary programme to be submitted with the tender shall be used as basis for this programme.

The following must be stated on the programme:

- 13. The quantity of work applicable to each bar item as well as the rate at which the work will be completed.
- 14. A budget of the value of completed work, month by month, for the full contract period.
- 15. The critical path.
- 16. Works to be undertaken by Local Contractor (if applicable).
- 17. Works to be undertaken by Sub-Contractors.
- 18. Schedule of plant and resources to be utilised.

The Contractor's attention is also drawn to clause 5.7.1 of the General Conditions of Contract 2015.

C3.1.6 Location of the Works

All wards within the Greater Tzaneen Municipality Jurisdiction.

C3.1.7 Accommodation of Traffic

Temporary traffic control signs and devices employed daily in the accommodation of traffic along the route shall be erected on and removed from the site of the works on a daily basis as required and no such signs or devices shall be permitted to remain in place overnight, unless otherwise instructed by the Employer.

At least one lane per direction shall be open to traffic at all times. The contractor shall ensure that all aspects of traffic accommodation are shown in the Construction Programme and shall also submit Method Statements and Plans as to proposed long and short term traffic accommodation.

C3.2 ENGINEERING

C3.2.1 Design

- 19. The Employer is responsible for the design of the permanent works as reflected in the Contract Documents unless otherwise stated.
- 20. The Contractor is responsible for the design of the temporary Works and their compatibility with the permanent Works.
- 21. The Contractor shall supply all details necessary to assist the Employer in the compilation of the as-built drawings.

C3.2.2 Employer's Design

The design of the Works was done by the Employer.

C3.2.3 Contractor's Design

Not applicable

Where the Contractor is to supply the design of designated plans of the permanent or temporary Works he shall supply full working drawings supported by a professional Employer's design certificate.

C3.2.4 Drawings

The Contractor shall use only the dimensions stated in figures on the Drawings In setting out the Works, and dimensions shall not be scaled from the Drawings, unless required by the Employer. The Employer will, at the request of the Contractor in accordance with the provisions of the Conditions of Contract, provide such dimensions as may have been omitted from the Drawings.

The Contractor shall ensure that accurate as-built records are kept of all infrastructure installed or relocated during the Contract. The position of pipe bends, junction boxes, duct ends and all other underground infrastructure shall be given by either co-ordinates or stake value and offset. Where necessary, levels shall also be given. A marked-up set of drawings shall also be kept and updated by the Contractor. This information; shall be supplied to the Employer Representative on a regular basis.

All information in possession of the Contractor, required by the Employer and/or the Employer Representative to complete the as-built/record drawings, must be submitted to the Employer Representative before a Certificate of Completion will be issued.

The Drawings prepared by the Employer for the permanent Works will be issued to Contractor. The Employer reserves the right to issue amended and/or additional drawings during the Contract.

C3.2.5 Design Procedure

Not applicable.

C3.3 PROCUREMENT

C3.3.1 Preferential Procurement

C3.3.1.1 Requirements

Preferential procurement requirements apply as set out in the Preference Schedules of the Greater Tzaneen Local Municipality and in accordance with the resource standard pertaining to targeted procurement.

C3.3.1.2 Resource standard pertaining to targeted procurement

The edition of the document pertaining to the Municipality Supply Chain and Procurement Management, current at the time of close of tender shall apply.

C3.3.2 Subcontracting

C3.3.2.1Scope of mandatory subcontract works

Unless specified elsewhere, the total value of subcontract works shall not exceed 30% of the contract value

C3.3.2.2 Preferred subcontractor's/suppliers

Subject to approval by the Employer prior to the appointment of the subcontractor

C3.3.2.3 Sub-contracting procedures

Subject to approval by the Employer prior to the appointment of the subcontractor

C3.3.2.4 Attendance on subcontractors

Subject to approval by the Employer prior to the appointment of the Contractor

C3.3.2.4 Labour Workforce

On this Contract, it is the intention that work is provided for Targeted Labour, namely Local Labourers of the local communities during the excavation of the Works. Labourers and workers of the local communities required by the Contractor shall be targeted, recruited and appointed for work.

C3.3.2.4 Labour Workforce

Where practical and economically feasible, construction work should be undertaken using labour-intensive methods. The Contractor shall employ labourers, artisans and sub-contractors for the execution and completion of this work.

Some of the activities, which may be considered as being suitable to be undertaken by labour-intensive methods, include the following:

- excavations
- Stone Patching
- Concrete mixing

- Steel fixing
- Installation of Culverts
- Loading of material into trucks
- Loading and spreading of materials
- Road Signs
- Road Markings
- Brickwork
- Gabions

The Contractor and his subcontractors shall ensure that they enter into a Contract of Employment with each employee engaged on the labour-intensive aspects of this Contract. The Employer shall require copies of the contracts with the Employees or Subcontractor's Employees.

C3.4 CONSTRUCTION

C3.4.1 Work Specification

C3.4.1.1 Applicable Standardized Specification

The standard specifications on which this contract is based are COLTO.

SECTION 1200 : General SECTION 1300 : Contractor's Establishment on Site and General Obligations SECTION 1500 : Accommodation of Traffic SECTION 1600 : Overhaul SECTION 1700 : Clearing and Grubbing SECTION 1800 : Dayworks SECTION 2100 : Drains SECTION 2200 : Prefabricated Culverts SECTION 2300 : Concrete Kerbing, Concrete Channelling, Chutes and Downpipes SECTION 3300 : Mass Earthworks SECTION 3400 : Pavement Layers of Gravel Material SECTION 3500 : Crushed Stone Base SECTION 4100 : Prime Coat : Asphalt Base and Surfacing SECTION 4200 SECTION 5100 : Pitching, Stonework and Protection against Erosion SECTION 5200 : Gabions : Guardrails SECTION 5400 SECTION 5600 : Road Signs SECTION 5700 : Road Marking SECTION 5800 : Landscaping and Planting Plants : Finishing the Road and Road Reserve and Treating Old Roads SECTION 5900

Notes to tenderer:

SECTION 6200

SECTION 6300

SECTION 6400 SECTION 8100

22. The Standard Specifications for Road and Bridge Works for State Road Authorities 1998, prepared by the Committee of Land Transport Officials, (COLTO), as amended, shall apply to this contract. The amendments are those issued by COLTO and reproduced in Section A, together with additional amendments as set out in Section B.

: Falsework, Formwork and Concrete Finish

: Steel Reinforcement for Structures

; Testing Material and Workmanship

: Concrete for Structures

23. Where reference is made to the General Conditions of Contract and sub-clauses thereof in the abovementioned Standard Specifications, they refer to the appropriate edition of the 'General Conditions of Contract for Road and Bridge Works for State

Road Authorities," issued by COLTO (clause 1115 of the Standard Specifications refers).

The General Conditions of Contract applicable to this contract are the "General conditions of contract for construction works 3rd edition 2015" and the necessary amendments to the Standard Specifications have been made and included in the Project Specifications contained in this document.

24. The terms "Schedule of Quantities", (used throughout the Standard Specifications) and "Bill of Quantities", (used in all other documents forming part of this contract), and "Pricing Schedule" are synonymous.

As at 1 January 2015 no amendments have been issued.

(Note: "SABS" has been changed to "SANS") The following SANS specifications are also referred to in this document and the Contractor is advised to obtain from Standards South Africa (a division of SABS) in Pretoria:

SANS 1921 – 1 (2004) : Construction and Management Requirements for Works Contracts Part

General Engineering and Construction Works and where accommodation of

traffic is involved.

SANS 1921 – 2 (2004) : Construction and Management Requirements for Works Contracts Part

Accommodation of Traffic on Public Roads Occupied by the Contractor

SANS 1921 – 5 (2004): Construction and Management Requirements for work contracts – Part

5: Earthworks

Copies of the above listed SANS specifications are not bound into this document but may be purchased by Tenderers at their own cost from :-

SA Bureau of Standards Private Bag X191 PRETORIA 0001

For all Building Works, the latest edition (1999) of the "Model Preambles for Trades" as recommended and published by the Association of South African Quantity Surveyors shall apply. This Standardised Specification is not bound into this Document but may be purchased by Tenderers from the Master Builders Association, Natal Building Centre, 40 Essex Terrace, Westville (031 - 26670706).

In the event of any discrepancy between the "Model Preambles for Trades" and the COLTO Standardised Specifications or Project Specifications, the COLTO Standardised and Project Specifications shall take precedence.

The term "project specification" must be replaced by "scope of works" wherever it appears in these standardized specifications.

C3.4.1.2 National and International Standards

All national and international standards referred to in the above listed specifications apply, including those referred to in any amendments under subclause C3.4.1.4 below.

C3.4.1.3 Particular Specifications

Particular Specifications for the works not covered by the COLTO Standardized Specifications have been specified –

PC: Provision of Workers,

PD: Task Work

PE: Management of the Works.

C3.4.1.3 Variations and Additions to the Standardized Specifications

Variations and additions to the standardized Specifications listed in C3.4.1.1 and the Particular Specifications listed in C3.4.1.3 are given in section C3.4.6.

C3.4.2 Site Establishment

C3.4.2.1 Services and facilities provided by the Employer

25. Water sources

Reticulated potable water supply is available on Site from the responsible water supply authority in the area.

Should the Contractor, in complying with his obligations in terms of subclause C3.4.2.2(b): Water, wish to utilise such water supply, he shall himself be responsible for making his own arrangements with the responsible water supply authority for the supply of all water that he may require from such reticulation network for construction purposes as well as for domestic consumption.

If so required by the responsible water supply authority, the Contractor shall further be responsible, at his own cost, for making or otherwise providing metered connections to the available services at the positions specified by the water authority, as well as for the removal of such connections on completion of the Contract.

No warranty is offered or given by the Employer that the existing available reticulated water supply will necessarily be adequate for the Contractor's purposes nor that such supply is in any way guaranteed.

All charges as may be levied by the responsible water supply authority in respect of water consumed by the Contractor shall be for the Contractor's account and payment to the Contractor in respect thereof shall, in accordance with the provisions of subclause C3.4.2.2(b), be deemed to be included in the sums tendered by the Contractor for the various Preliminary and General items listed in the Schedule of Quantities, as well as in the rates tendered by the Contractor for the various other items listed in the Schedule of Quantities which require the consumption of water.

The Contractor shall, when reasonably required by the Employer, produce documentary proof that all amounts as may have become due and payable by the Contractor to the responsible water authority have been promptly paid in full.

26. Electricity supply

Reticulated electrical power supply is available on Site from the responsible electricity supply authority in the area.

Should the Contractor, in complying with his obligations in terms of subclause C3.4.2.2(c): Electricity, wish to avail himself of such supply, he shall, in accordance with the provisions of subclause C3.4.2.2(c), and at his own cost, be responsible for making his own arrangements with the responsible electricity supply authority for the supply of all electrical power he may require from such reticulation network for construction purposes as well as for domestic consumption.

If so required by the responsible electricity supply authority, the Contractor shall, at his own cost, be responsible for making metered connections to the available services at the positions specified by the electricity supply authority, as well as for the removal of such connections on completion of the Contract.

No warranty is offered or given by the Employer that the existing available reticulated electrical power supply will necessarily be adequate for the Contractor's purposes nor that its supply is in any way guaranteed.

All charges as may be levied by the responsible electricity supply authority in respect of electrical power consumed by the Contractor shall be for the

Contractor's account and payment to the Contractor in respect thereof shall, in accordance with the provisions of subclause C3.4.2.2(c), be deemed to be included in the sums tendered by the Contractor for the various Preliminary and General items listed in the Schedule of Quantities, as well as in the rates tendered by the Contractor for the various other items listed in the Schedule of Quantities which require the consumption of electricity.

The Contractor shall, when reasonably required by the Employer, produce documentary proof that all amounts as may have become due and payable by the Contractor to the responsible electricity supply authority have been promptly paid in full.

27. Area for contractor's site establishment

A specific area in close proximity to or on the Site of the Works will be made available by the Client to the Contractor for the Contractor's site establishment. The specific area for the Contractor's site establishment will be identified to the

Contractor by the Employer and the Contractor shall have sole use of such area, free of charge, for the duration of the Contract. The Contractor shall use this area only for the purposes of erecting his site offices, workshops, stores and other facilities required for the execution of the Contract.

The Contractor shall not use the area nor allow it to be used for any purposes not directly associated with the execution of the Contract.

The Contractor shall be responsible for arranging, at his own cost, for the provision of all services he may require in the area, as well as elsewhere on the Site.

Should the Contractor deem the area made available by the Employer to be inadequate or unsuitable for the Contractor's particular needs, then the Contractor shall be at liberty to make his own arrangements with the owners of other sites which he considers are better suited to his needs; provided always that the use by the Contractor of any area other than that made available to him by the Employer shall be subject to the prior written approval of the Employer, which approval shall not be unreasonably withheld; and provided further that the Contractor shall have no claim against the Employer in respect of any costs incurred by him, either directly or indirectly in consequence of utilising any area other than that made available to him by the Employer, and which costs exceed those costs allowed for by the Contractor in his Tender.

C3.4.2.2 Facilities provided by the Contractor

28. Facilities for the Employer

The Contractor shall provide on the Site, for the duration of the Contract and for the exclusive use of the Employer and/or his Representative (as applicable), the various facilities described hereunder. All such facilities shall be provided promptly on the commencement of the Contract and failure on the part of the Contractor to provide any facility required in terms of this specification shall constitute grounds for the Employer to withhold payment of the Contractor's tendered Preliminary and General items until the facility has been provided or restored as the case may be.

28.1 Office accommodation

The Employer and his Representative shall be allowed free use of all the Contractor's site facilities.

28.2 Site meeting venue

The Contractor shall provide within his own site establishment facilities, a suitably furnished office or other venue capable of comfortably accommodating a minimum of eight (8) persons at site meetings. The Employer shall be allowed free use of such venue for conducting any other meetings concerning the Contract at all reasonable times.

28.3 Contract name boards

The Contractor shall provide, erect and maintain one (1) contract name board at such positions and locations directed by the Employer, which name board, shall, unless otherwise specified elsewhere in the Contract, comply with the recommendations for the standard board of the Civil Employers South Africa (CESA) with regard to size, painting, decorating and detail, and the requirements described hereunder.

Refer to PS AB 5.1.

The Contractor shall keep the contract name board in good state of repair for the duration of the Contract and shall remove it on completion of the Contract.

28.4 Site instruction book and Site diary

The Contractor shall keep a triplicate book for site instructions by the Employer/Employer on the Site at all times and provide a Site diary for daily completion by the Contractor and the CLO.

29. Water

The Contractor shall, at his own expense, be responsible for obtaining and distributing all water as may be required for the purposes of executing the Contract, including water for both construction purposes and domestic use, as well as for making all arrangements in connection therewith. The Contractor shall further, at his own expense, be responsible for providing all necessities for procuring, storing, transporting and applying water required for the execution of the Contract, including but not limited to all piping, valves, tanks, pumps, meters and other plant and equipment, as well as for all work and superintendence associated therewith.

The sources of all water utilised for the purposes of the Contract shall be subject to the prior approval of the Employer, which approval shall not be unreasonably withheld.

The Contractor shall comply with all prevailing legislation in respect of drawing water from natural and other sources and shall, when required by the Employer, produce proof of such compliance. The distribution of water shall be carried out by the Contractor strictly in accordance with the applicable laws and regulations.

All water provided by the Contractor for construction purposes shall be clean, free from undesirable concentrations of deleterious salts and other materials and shall comply with any further relevant specifications of the Contract. The Contractor shall, whenever reasonably required by the Employer, produce test results demonstrating such compliance. Water provided by the Contractor for human consumption shall be healthy and potable to the satisfaction of the health authorities in the area of the Site.

No separate payment will be made to the Contractor for the obtainment, distribution and consumption of water, the costs of which will be deemed to be included in the Contractor's tendered rates.

30. Electricity

The Contractor shall, at his own expense, be responsible for obtaining and distributing all electricity as he may require for the purposes of executing the Contract, including electricity for both construction purposes and domestic use, as well as for making all arrangements in connection therewith.

The distribution of electricity shall be carried out by the Contractor strictly in accordance with the applicable laws and regulations.

No separate payment will be made to the Contractor for the obtainment, distribution and consumption of electricity, the costs of which will be deemed to be in the Contractor's tendered rates and prices.

31. Excrement disposal

The Contractor shall, at his own expense, be responsible for safely and hygienically dealing with and disposing of all human excrement and similar matter generated on the Site during the course of the Contract, to the satisfaction of the Employer and the responsible health authorities in the area of the Site.

The Contractor shall provide at his cost a sufficient number of chemical toilets for all his staff including the Employer and his staff. These shall be provided on the following basis:

- 32. One for the Contractor's supervisory staff
- 33. One per 20 labourers of the Contractor's staff

The Contractor shall further comply with any other requirements in this regard as may be stated in the Contract.

No separate payment will be made to the Contractor in respect of discharging his obligations in terms of this subclause and the costs thereof shall be deemed to be included within the Contractor's tendered Preliminary and General Items.

C3.4.2.3 Site usage

The Contractor's employees will not be allowed to stay on site except for the duration of a working day. The only person to be allowed on site for the duration of a calendar day will be the site guard(s).

Access to the site will be in a controlled manner. People visiting the site will have to sign in and out on a daily basis. Visitors shall undergo induction training in terms of the OHS requirements.

C3.4.2.4 Permits and Wayleaves

The Employer shall be responsible to obtain all the wayleave required for this Contract.

C3.4.2.4 Features Requiring Special Attention

34. Employment of Local Labour

It is a requirement that the contractor should make maximum use of local labour whenever non-specialised labour is needed. In this regard the Contractor must liaise with the Project Steering Committee. The employment of employees from outside this area shall be limited to key personnel only. Local labour shall be trained in the various skills required by this contract.

The Tenderer shall complete "Key Personnel" in this document, stating the number of Key Personnel to be employed on this contract. The numbers so stated shall be strictly controlled and any increases shall be motivated and shall be subject to the approval of the Employer.

35. Construction Programme

As soon as practicable after the Letter of Acceptance, prior to commencement of construction work but in any event within a period of fourteen (14) days after he has been given the order to commence the Works, the Contractor shall submit his programme, to the Employer for approval, as required in terms of Clause 5.6 of the General Conditions of Contract. The programme shall be in the form of a bar chart showing the critical path. In addition, the Contractor shall provide a schedule of the forecast value of completed work, month by month.

If the programme is to be revised by reason of the Contractor falling behind he shall produce a revised version showing the modifications to the original programme necessary to ensure completion of the Works or any part thereof within the time for completion as defined, or any extended time granted, as well as a revised schedule of the forecast value of completed work, month by month.

Failure on the part of the Contractor to submit or to work according to the programme or revised programmes shall be sufficient reason for the Employer to take steps as provided for in the Conditions of Contract.

The approval by the Employer of any programme shall have no Contractual significance other than that the Employer would be satisfied if the Work is carried out according to such programme and that the Contractor undertakes to carry out the Work in accordance with the programme. It shall not limit the right of the Employer to instruct the Contractor to vary the programme should circumstances make this necessary.

The construction site is situated adjacent to a public access road; the Contractor shall ensure the least possible disruption of movement of the public during construction.

Construction methods must be of such a nature that no property or life is endangered. The Employer accepts no responsibility for work that is done without consent by the Employer outside the site boundaries.

Sufficient photos of existing structures, walls, and areas that have to be crossed must be taken by the Contractor and handed over to the Employer before operations commence. No payment will be made in this regard and it shall be deemed to be covered in the Preliminary and General items.

Local labourers must do all excavation in soft material. Local labourers must also do the handling, laying, and backfilling of pipes. The contractor is responsible to liase with the Labour Desk for labourers.

No separate payment shall be made for any arrangements with relative local authorities for closing off the current water supply or for the distribution of notices to the public.

The compilation of the construction programme and any amendments thereto during the course of construction shall be at the cost of the Contractor and shall not be

measured elsewhere in this contract. The contract has to be completed within the period as stated in the Appendix to Tender.

36. Site Maintenance

During progress of the work and upon completion thereof, the Site of the work and upon completion thereof. The site of the works shall be kept and left in a clean and orderly condition. The Contractor shall store materials and equipment for which he is responsible in an orderly manner, and shall keep the Site free from debris and obstructions.

37. Testing and quality control

No testing laboratory is required for use by the Employer but all quality control testing shall be carried out by the Contractor at his own cost.

The Contractor shall arrange for process control testing to be undertaken by a laboratory to be approved by the Employer.

A provisional sum will be allowed for in the schedules to allow for the use of an independent laboratory to effect check tests as detailed by the Employer.

38. Contractor to engage services of an independent laboratory

Notwithstanding the requirements of the specifications pertaining to testing and quality control, the contractor shall engage the services of approved independent laboratory to undertake all the testing materials, The results of which are specified in, or may reasonably be inferred from, the Contract. These results will be taken into consideration by the Employer in deciding whether the quality of the materials utilised and workmanship achieved by the contractor comply with the requirements of the specifications. The aforegoing shall apply irrespective of whether the specifications indicate that the said testing is to be carried out by the Employer or by the Contractor.

The contractor shall be responsible of arranging with the independent testing laboratory for the timeous carrying out of all such testing specified in the contract, at not less than the frequencies and the manner specified. The Contractor shall promptly provide the Employer with the copies of the results of all such testing carried out by the independent laboratory

For the purpose of this clause, an "independent laboratory " shall mean an approved laboratory which is not under the management or control of the contractor and in which the contractor has no financial interest, nor which has any control or financial interest in the contractor.

38.1 Additional testing required by the Employer

In addition to the provisions of subclause C3.4.2.4(e)(i): Contractor to engage services of an independent laboratory, the Employer shall be entitled at times during the Contract to require that the Contractor arrange with the Independent laboratory to carry out any such tests, additional to those described in subclause C3.4.2.4(e)(i), at such times and at such locations in the works as the Employer shall prescribe, The Contractor shall promptly and without delay arrange with the independent laboratory for carrying out all such additional testing as required by the Employer, and copies of the test results shall be promptly submitted to the Employer.

38.2 Cost of testing

The cost of the testing carried out by the independent laboratory in accordance with the requirements of subclause C3.4.2.4, above shall be borne by the Contractor and shall be deemed to be included in the tendered rates and prices for the respective items of work as listed in the Bill Of Quantities and which require testing in the terms of the specifications. No separate payments will be made by the Employer to the Contractor in respect of any testing carried out in terms of subclause C3.4.2.4.

39. Additional test required by the Employer

The cost of any additional tests required by the Employer in the terms of subclause C3.4.2.4: Additional tests required by the Employer, shall be reimbursed to the Contractor against substitution of the Provisional Sum allowes therefore in the Bill of Quantity, provided always that the costs of any such additional tests ordered by the Employer, the results of which indicate that the quality of the materials utilised and/or the standard of workship achieved are/is not in accordance with the specifications shall not be reimbursable to the Contractor.

40. Subcontractor

All matters pertaining to subcontractor (including Nominated Subcontractors) and the work executed by them shall be dealt with directly between the Employer and the Contractor in the context of all subcontract work being an integral part of the works for which the contractor is responsible.

The Employer will not liaise directly with any subcontractors nor will he issue instructions concerning the subcontractors and the Employer will not become involved.

41. Access to properties

The Contractor shall organize the work to cause the least possible inconvenience to the public and the property owners adjacent to or affected by the work, and expect as hereunder provided, shall at all times provide and allow pedestrian and vehicular access to properties within or adjoining or affected by the area in which he is working.

42. Existing residential area

Water supply interruptions to existing residential area shall kept to a minimum. The Employer's approval shall be obtained prior to such interruptions and residents shall be notified in writing at least 24 hours but not more than 48 hours in advance

43. Construction in restricted area

Working space is sometimes restricted. The construction method used in these restricted areas largely depends on Contractor's plant. Notwithstanding, measurement and payment will be strictly according to the specified cross-sections and dimension irrespective of the method used, and the rates and prices tendered will be deemed to include full compensation for any difficulties encountered by the contractor while working in restricted area. No extra payment nor any claim for payment due to these difficulties will be considered.

44. Notice, signs, barricade and advertisements

All notice, signs, barricade and advertisements, may be used only if approved by the Employer. The Contractor shall be responsible for their supply, erection, maintenance and ultimate removal and shall make provision for his in his tendered rates.

The Employer shall have the right instruct the Contractor to move any sign, notice advertisement to another position, or remove if from the site of the work if in his option it is unsatisfactory, inconvenient or dangerous.

45. Workmanship and Quality Control

The onus to produce work that conforms in quality and accuracy of the details to the requirements of the Specifications of the Drawings rests with the Contractor, and the Contractor shall, at his own expenses, institute a quality control system and provide suitably qualified and experienced Employers, foremen, surveyors, materials technicians, other technicians and technical staff, together with the all transport, instruments and equipment to ensure adequate supervision and positive control of the work at all times.

The cost of supervision and process control, including testing carried out by the Contractor, will be deemed to be included in the rate tendered for the related items of work.

The Contractor's attention is drawn to the provisions of the various Standardized specifications regarding the minimum frequency of testing required. The Contractor shall, at his own discretion, increase this frequency where necessary to ensure adequate control.

On completion and submission of every part of the work to the Employer for examination and measurement and level to demonstrate the achievement of compliance with the Specifications.

46. Interpretation of Documents

Should it occur that any part of the Documents is not clear to the Contractor, or that the materials or articles to be used in the execution of the works is insufficiently described, the Contractor shall request the Employer in writing, to clarify the specific requirements, also in writing. Should the Contractor fail to make such a request, the Contractor shall be liable for any alterations or substitutions rendered necessary through his incorrect interpretations of such documents, at his own expense.

47. Details Required by Contractor

At the commencement of the Works, the Contractor shall advise the Employer in writing of any details he requires for the accurate interpretation of the drawings. If, during the course of the contract, the Contractor requires further details, the Contractor shall apply for these in writing, two weeks prior to the commencement of the relevant portion of the work Failing to do so, the Contractor will not be granted extension of time through lack of details

48. Survey Beacons

All known survey beacons will be shown to the Contractor on site at the handover meeting, and noted. Those beacons which relate solely to the construction work shall be established and referenced by the Contractor before commencing earthworks. If any reference beacons are lost as a result of construction work, they shall be replaced by a competent Employering surveyor. If any comer boundary beacons are destroyed as a result of the Contractor's operations, they shall be replaced by a registered land surveyor at the Contractor's expense.

49. Safety of Trenches

All trench excavations shall be protected with clear warning tape and white painted 100 liters drums or similar.

50. Alignment of Services

The Contractor shall allow 2 days for the Employer to correlate the alignment of the particular services, after he has received all the relevant data as stipulated in PSA5.3, before commencing with the works. This shall be taken into account in his construction programme.

51. Restriction on Working Hours

None of the works shall, save as hereinafter provided, be carried on during the night or on locally recognized days of rest without the approval of the Employer, except when work is unavoidable or absolutely necessary for the saving of life or property or for the safety of the works, in which case the Contractor shall immediately advise the Employer.

52. Occupation, Health and Safety Act

The Contractor will be required to comply with the provision of this Act insofar as they apply to construction work and no works shall commence until all the requirements of the Act has been met.

53. Temporary erosion protection

Temporary drainage controls are to be provided to prevent soil erosion before permanent controls are installed.

54. Preservation of Trees and Shrubs

Care must be exercised in preserving existing trees. One week's notice shall be given to the Employer if shrubs or trees have to be disturbed, in which case the Employer will instruct the Contractor what steps should be taken.

55. Dust Prevention

The creation of dust in the Contractor's working area shall be kept to a minimum.

The Contractor shall water, on a daily basis, the areas of the site which are creating dust or as ordered by the Employer. The Contractor shall take all measures necessary to prevent the creation of dust from any source under his control.

56. Setting Out

No setting out of the pipeline route was done. All proposed pipelines shall be as indicated on the relevant plans based on a co-ordinate list. No separate payment shall be made for this, as all costs related thereto shall be deemed to be included elsewhere in the tendered rates.

Where proper execution of the Works requires the removal of beacons or pegs the Contractor shall give notice to this effect to the Employer allowing sufficient time for the listing and relocation, removal or reference marking of such beacons.

57. Blasting Restrictions

No blasting shall be carried out for the execution of the Works without the prior consent of the Employer. This consent will not be given where in the opinion of the Employer blasting may give rise to unnecessary risk of damage to surrounding property and other means of excavation are available to the Contractor. Where consent to blasting is given such consent shall in no way relieve the Contractor of any of his liabilities under the Contract.

No blasting will be permitted within 10 m of any structure, pipeline or service unless the Contractor can satisfy the Employer that his proposed blasting methods and controls are such that no damage will be caused to the adjoining structure, pipeline or service. The Employer may then ask for vibro-readings to be taken at no additional cost to the Employer. No blasting is to be carried out in Eskom, Telkom or other servitudes or wayleaves unless the relevant authorities have been advised in writing three weeks prior to blasting. Where blasting is carried out the Contractor shall arrange for a representative of the relevant authority to be present prior to and during the blast.

The Contractor shall conform to all Government regulations in regard to blasting, handling and storage of explosives.

58. Permits

The Contractor shall be responsible for obtaining all necessary permits to transport materials to the area.

59. Facilities to Other Contractors

In addition to the requirements of the General Conditions of Contract, the Contractor must make allowance for the presence of other Contractors on Site, which may involve, *inter alia*, the adaptation of his programme to fit in with work to be done by the other Contractor, as well as assuring other Contractors access to the site. The Contractor will be advised at tender stage of any other Contractors who will be engaged on other Works during the course of the Contract.

60. Spoil Material

No indiscriminate spoiling of material or rubble will be allowed. All surplus or unsuitable material and rubble shall be spoiled, levelled and spread in designated areas as directed by the Employer.

61. Finishing and Tidying and Defects Liability Period

Progressive and systematic finishing and tidying will form an essential part of this Contract. On no account must spoil, rubble, materials, equipment or unfinished operations be allowed to accumulate in such a manner as to unnecessarily impede the activities of others, and in the event of this occurring, the Employer shall have the right to withhold payment for as long as may be necessary in respect of the relevant Works in the area (s) concerned without thereby prejudicing the rights of others to institute claims against the Contractor on the grounds of unnecessary obstruction.

Finishing and tidying must not be deferred to the end of the Contract.

All finishing and tidying shall be carried out to the best advantage of the project as a whole and in the closest co-operation with other contractors and residents.

62. Security of Contractor's Site

The provision and sustaining of security for the Contractor's Site Establishment shall be his own responsibility, and no claims for additional security measures taken during the duration of the Contract will be considered other than as provided for in the General Conditions of Contract.

63. Overhaul

No overhaul shall apply to material from commercial sources, designated borrow pits or to material disposed of to sites provided by the Contractor or by other means employed by the Contractor.

All earthworks operations within the site shall be regarded as free haul.

64. Source of Material

All materials shall be sourced from commercial sources. The Contractor will be required, by selection if necessary, to ensure that the materials are suitable, for their various uses, in terms of the specification.

65. Contractor's Site Agent

Within 7 days of the award of Contract, the Contractor shall advise the Employer in writing of the name of the responsible person in charge of this Contract.

66. In amplification of the General Conditions of Contract :-

It shall be noted that the Contractor shall be required to strictly observe his obligations regarding adequate full-time superintendence of the Works, with particular reference to accuracy of setting out, excavations, correct steel fixing, properly constructed formwork, positioning of foundation bolts, and / or bolt pockets, placing of concrete, etc. in order to achieve the high standard of workmanship required of him.

Adequate facilities for superintendence of his work shall be provided by the Contractor and the Employers staff must under no circumstances be expected to act in this capacity on his behalf.

67. Attendance at Site Meetings

The Contractor will be required to attend site meeting as and when these are required by the Employer. The objectives of such meetings will be to review progress and ensure compliance with the programme, discuss and where possible solve any problems that may arise, and generally to liaise with all parties concerned with the Works.

The cost of attending such meetings shall be deemed to be included in the rates. Instructions given by the Employer or agreement reached at such meetings and confirmed in the minutes shall be considered as a "written instruction by the Employer" as referred to in the General Conditions of Contract.

Site meetings will generally be held every monthly.

68. Liaison Officer

The Contractor shall employ a Liaison Officer for the full duration of the contract, the total cost of whom shall be deemed to be included in the rates tendered for fixed and time related P&G allowances.

69. Courtesy

In all dealing with the public the Contractor shall bear in mind their right to enjoy the use of the roads and services and access to their properties and that the Employer desires to interfere as little as possible with these rights.

At all points of contact with the public, the Contractor and his staff are requested to handle discussions and disputes with deliberate courtesy and understanding. To assist the Contractor in his dealings with the public, use should be made by him of the Liaison Officer and the Employer's Representative on site. On occasions where the Contractor liaises directly with the public, the Liaison Officer and the Employer's Representative should be informed of the outcome to be able to maintain a coherent picture of developments in the area.

70. Drawings and Specifications to be Provided

As provided for in the General Conditions of Contract, the Contractor shall be entitled to receive free of charge, the following:-

Three (3) paper copies of each drawing, and One (1) copies of the signed Contract Document

Any information in the possession of the Contractor which is necessary for the Employer's Representative to complete his "As Built" or "Record" drawings must be submitted to the Employer's Representative before a Certificate of Completion will be issued.

Only figured dimensions shall be used and drawings shall not be scaled unless so instructed by the Employer. The Employer will supply any figured dimensions which may have been omitted from the drawings.

71. Locally based sub contractor

Tenderers are encouraged to utilize the services of locally based sub-contractors.

11) Setting Out of Roads and Stormwater Pipelines

The position of the roads and stormwater pipe routes shown on the Tender drawings shall be considered as indicative only. Final positions will be determined on site by the Employer in consultation with the Contractors and where required, with the municipality and home owners. Where connections are shown to existing services, trial excavations will be needed to locate them.

72. Supplementary Specifications, Drawings, Schedules of Items, Prices and Annexure

The Tenderer shall submit with his tender supplementary specifications giving full details of the performance and materials of construction of all plant and equipment offered together with all technical literature and catalogues necessary to fully describe such plant and equipment.

The Contractor shall only commence manufacture of fabrication of items of equipment after final approval of drawings and specifications by the Employer. Approval by the Employer does however in no way relieve the Contractor of his responsibility to supply plant and equipment strictly in accordance with the Project Specifications.

73. Labour Intensive Activities

The Contractor shall for the duration of the Contract recruit from the local Community the maximum feasible amount of temporary labour and to engage them in the execution of the Works. The Project Steering Committee (PSC) can be contacted to assist the contractor with obtaining local labour.

74. Project Steering Committee (PSC)

A project steering committee representing the municipality and affected home owners of the project area will be established.

The committee will be required to attend the site meetings.

75. Employment of Local Labour

The appendix "L" for Employment of Local Labour, must be filled at the tender stage.

The Contractor shall be obliged to submit to the Employer and the Project Steering Committee within 14 days of being awarded the contract a list of persons that have been recruited from the local communities and satisfactory proof that local labour so referred to and employed as such is indeed residing in the local Community.

76. Wage Rate

The minimum wage rate payable to the local labour shall not be less than that promulgated in accordance with the Labour Act or latest amendments thereto.

The Contractor shall indicate in his tender the hourly wage rate proposed and confirm that it has been accepted by the PSC.

Working hours shall be in accordance with Government Gazetted hours per day.

77. Construction Modus Operandi

Labour-based or labour-intensive construction may be defined as the economically efficient employment of as much labour as is technically feasible to produce as high a standard of construction as demanded by the specification and allowed by the funding available. In other words, projects based on labour-intensive principles aim at devoting the highest feasible proportion of projects costs to unskilled, semi-skilled and skilled labour without jeopardising the technical quality of the product demanded by the specification.

The following regulations must be adhered to so as to ensure that the construction methods used are labour intensive.

- 78. The remuneration to local labour for hourly-rated employees and/or daily-based work shall be in accordance with the terms and conditions of Proclamation R1841 of Government Gazette 16833 dated 24 November 1995 or its latest amendment.
- 79. The name, identification number, task performed, and hours worked per day for each labourer shall be recorded by the Contractor. These records shall be submitted to the secretary of the Project Steering Committee on the second working day of each week following the recounted week.

80. Documentation

At the conclusion of the works, The Contractor shall provide three sets of documents comprising the following;

As-Built drawings

Occupational Health and Safety File

Operations Manual and data sheets for equipment installed by the contractor.

Manufactures' certificates

Any manufacturer's data which covers more than one type installed shall clearly be marked to show which data is applicable to the model installed.

Each set of documents shall be bound in clearly labelled ring binders. Drawings will be folded and placed in plastic wallets bound into the binder.

One copy shall be submitted to the Employer for approval prior to the issue of the final sets.

No additional payment will be made and the cost related thereto shall be deemed to be included in the tendered rates for the related items.

As the work progresses, the Contractor shall keep full records of all amendments to and deviations from the drawings as issued to the Contractor at the start of the contract. The true positions, invert levels and ground levels of all services shall be indicated on the drawings, for which purpose the Contractor shall receive a separate complete set of drawings from the Employer, at no cost.

The completion certificate shall only be issued after the Employer has received a properly completed set of "as-built" drawings from the Contractor. No separate payment shall be made for this service, as all costs related thereto shall be deemed to be included in the related items.

81. Setting Out of Works Within Private Properties

The Contractor, Municipal representation, Community Liaison Person and Employer's Representative shall liaise with the effective home owner concerning existing services, access to the property, disturbance and inconvenience to the homeowner.

82. Extension of time in respect of delays resulting from wet climatic conditions on the Site will only be considered in respect of abnormally wet climatic conditions and shall be determined for each calendar month or part thereof, in accordance with the formula given below:

$$V = (Nw - Nn) + (Rw - Rn)/X$$

in which formula the symbols shall have the following meanings:

83. = Potential extension of time in calendar days for the calendar month under consideration:

If V is negative and its absolute value exceeds Nn, then V shall be taken as equal to minus Nn.

When the value of V for any month exceeds the number of days in the particular month, V will be the number of days in the month.

- Nw = Actual number of days in the calendar month under consideration on which a rainfall of Y mm or more was recorded on the Site
- Nn = Average number of days, derived from existing records of rainfall in the region of the Site, on which a rainfall of Y mm or more was recorded for the calendar month
- Rw = Actual rainfall in mm recorded on the Site in an approved rain gauge for the calendar month under consideration
- Rn = Average rainfall in mm for the calendar month, derived from existing records of rainfall in the region of the Site

The factor (Nw - Nn) shall be deemed to be a fair allowance for variations from the average number of days during which the rainfall exceeds Y mm. The factor (Rw - Rn)/X shall be deemed to be a fair allowance for variations from the average number of days during which the rainfall did not exceed Y mm but wet conditions prevented or disrupted work.

- 84. The rainfall records shall be determined from the nearest rainfall station number to the site. The monthly averages (Rn and Nn) for this period shall, for the purposes of this Contract be taken as normal and as the values to be substituted for Rn and Nn in the formula above. The values of X and Y shall be 20 and 10 respectively.
- 85. The Contractor shall, at his own cost, provide and erect on the Site at a location approved by the Employer, an approved rain gauge, which shall be fenced off in a manner which will prevent any undue interference by workmen and others. The Contractor shall, at his own cost, arrange for the reading of the rain gauge on a daily basis for the duration of the Contract. The gauge readings, as well as the date and time at which the reading was taken shall be recorded in a separate record book provided by the Contractor for this purpose.

All entries in the rainfall record books shall be signed by the person taking the reading and the gauge shall be properly emptied immediately after each reading has been taken. If required by the Employer, the Employer's

Agent shall be entitled to witness the reading of the gauge.

- 86. The extent of any extension of time which may be granted to the Contractor in respect of wet climatic conditions (whether normal or abnormal) shall be determined as the algebraic sum of the "V" values for each month between the Commencement Date and the Due Completion Date of the Contract, calculated in accordance with subclause C3.4.2.6(a) above; provided always that
 - 86.1 rainfall occurring within the period of the Contractor's Christmas shut-down period shall not be taken into account in the calculation of the monthly "V" values;
 - 86.2rainfall occurring during any period during which the Contractor was delayed due to reasons other than wet climatic conditions on the Site, and for which delay an extension of time is granted by the Employer, shall not be taken into account in the calculation of the monthly "V" values;
 - 86.3 if the algebraic sum of the "V" values for each month is negative, the time for completion will not be reduced on account of subnormal rainfall, and
 - 86.4 where rainfall is recorded only for part of a month, the "V" value shall be calculated for that part of the month using pro rata values for Nn and Rn.
- 87. The Employer shall, simultaneous with granting any extension of time in terms of this clause, revise the Due Completion Date of the Contract to reflect an extension of time having been granted in respect of wet climatic conditions, to the extent of the algebraic sum of all the "V" values for all the preceding months of the Contract, less the aggregate of the "Nn" values for the remaining (unexpired) months of the Contract (viz less aggregate of the potential maximum negative "V" values for the remaining Contract Period). Thus, provided that where such period is negative, the Due Completion Date shall not be revised.
- 88. Any extension of time in respect of wet climatic conditions granted in terms of this clause shall not be deemed to take into account delays experienced by the Contractor in repairing or reinstating damage to or physical loss of the Works arising from the occurrence of abnormal climatic conditions. Extension of time in respect of any such repairs or reinstatement regarding damage shall be the subject of a separate application for extension of time in accordance with the provisions of Clause 5.12 of the Conditions of Contract.

C3.4.3 Plant and Materials

C3.4.3.1 Plant and Materials Supplied by the Employer

The employer shall not supply any plant or materials.

C3.4.3.2 Materials, Samples and Shop Drawings.

89. Samples

Materials or work which does not conform to the approved samples submitted in terms of the Conditions of Contract, will be rejected. The Employer reserves the right to submit samples for tests to ensure that the materials represented by the sample meets the specification requirements.

The costs of any such tests conducted by or on behalf of the Employer, the results which indicate that the samples provided by the Contractor do not conform to the requirements of the Contract, shall, in accordance with the provisions of the Conditions of Contract, be for the Contractor's account.

C3.4.4 Construction Equipment

C3.4.4.1 Requirements for equipment

Equipment must be such that the work can be executed in an efficient manner.

C3.4.4.2 Equipment provided by the employer

No equipment will be provided by the Employer.

C3.4.5 Existing Services

C3.4.5.1 Known services

All known services are indicated on the drawings. The onus rests on the Contractor to locate the known services before any construction commences.

C3.4.5.2 Treatment of existing services

Existing services shall be relocated or removed as indicated on the drawings only at the instruction of the Employer.

C3.4.5.3 Use of detection equipment for the location of underground services

The Contractor shall utilize whatever necessary equipment to locate underground services. No extra payment will be done for this.

C3.4.5.4 Damage to services

Damage that occurs to unknown services during construction will be paid by the Employer.

However, all services that have been located and exposed, and are subsequently damaged by the Contractor or his subcontractor, shall be reinstated to the same state as it was before the damage occurred at the time and cost of the Contractor.

C3.4.5.5 Reinstatement of services and structures damaged during construction

The Contractor shall inform the Employer immediately when a service or structure is damaged. The extent of the damage and a proposal how to reinstate the service or structure shall be submitted to the Employer on a sketch with dimensions and time frames.

The Contractor shall not be allowed to reinstate any service or structure unless indicated so by the Employer. The Contractor shall render all reasonable assistance to the owner of the service or structure with the reinstatement of the service or the structure if required.

The Contractor shall be liable to reinstate the service or structure to its original state.

C3.4.6 Variations and additions to COLTO Standardized Specifications and Particular Specifications

The following variations and additions to the COLTO Standardized Specifications referred to in subclause C3.4.1.1 and the Particular Specifications referred to in subclause C3.4.1.3, apply to this Contract. The prefix B indicates an amendment to COLTO or the Particular Specification. The letters and numbers following these prefixes respectively indicate the relevant Standardized Specification and clause numbers in COLTO to which the variation or addition thereto applies.

Section 1 comprises the variations and additions to COLTO.

C3.4.6 PARTICULAR SPECIFICATIONS

The following sections comprise particular specifications and shall form part of the contract:

PA : OHSA 1993 Health and Safety Specification

PB : Environmental Management Plan

PC: Provisions of Workers

PD: Task Work

PE : Management of the Works
PF : EPWP Tender Alignment Tool

PA: OHSA 1993 HEALTH AND SAFETY SPECIFICATION

PA.1 SCOPE

This specification covers the health and safety requirements to be met by the Contractor to ensure a continued safe and healthy environment for all workers, employees and subcontractors under his control and for all other persons entering the site of works.

This specification shall be read with the Occupational Health and Safety Act (Act No 85 and amendment Act No 181) 1993, and the corresponding Construction Regulations 2003, and all other safety codes and specifications referred to in the said Construction Regulations.

In terms of the OHSA Agreement in Section C1.2.4 of the Contract document, the status of the Contractor as mandatory to the Employer (client) is that of an employer in his own right, responsible to comply with all provisions of OHSA 1993 and the Construction Regulations 2014.

This safety specification and the Contractor's own Safety Plan as well as the Construction Regulations 2014, shall be displayed on site or made available for inspection by all workers, employees, inspectors and any other persons entering the site of works.

The following are possible risks associated with this project:

Work in close proximity to main roads and the need to adequately educate workers as to the dangers associated therewith and to take adequate steps to ensure their safety;

Work in close proximity to main roads and the need to warn drivers as to the associated dangers of workmen, construction vehicles etc and to take adequate steps to erect the necessary signage and monitor driver activity etc;

Steps are to be taken to warn local residents of the dangers of any open excavations especially in so far as children are concerned. The Employer will make the services of a facilitator available to the Contractor;

All workmen are to be given proper training in the safe use of their tools, the tools used by others on the Contract and the dangers associated therewith;

Dangers associated with the handling and lifting of heavy items; and

The Contractor's plant shall be left in a safe and managed environment when not in use.

Dangers associated with working close to water bodies and the need to have trained personnel and safety equipment around.

Additional risks may arise from specific methods of construction selected by the Contractor which are not necessary covered in the above.

PA.2 DEFINITIONS

For the purpose of this contract the following shall apply:

Employer" where used in the contract documents and in this specification, means the Employer as defined in the General Conditions of Contract and it shall have the exact same meaning as "client" as defined in the Construction Regulations 2014. "Employer" and "client" is therefore interchangeable and shall be read in the context of the relevant document.

90. "Contractor" wherever used in the contract documents and in this specification, shall have the same meaning as "Contractor" as defined in the General Conditions of Contract.

In this specification the terms "principal contractor" and "contractor" are replaced with "Contractor" and "subcontractor" respectively.

For the purpose of this contract the **Contractor** will, in terms of OHSA 1993, be the mandatory, without derogating from his status as an employer in his own right.

91. "Engineer" where used in this specification, means the Engineer as defined in the General Conditions of Contract. In terms of the Construction Regulations the Engineer may act as agent on behalf of the Employer (the client as defined in the Construction Regulations).

PA.3 TENDERS

The Contractor shall submit the following with his tender:

- 92. a documented Health and Safety Plan as stipulated in Regulation 7 of the Construction Regulations. The Safety Plan must be based on the Construction Regulations 2014 and will be subject to approval by the Employer;
- 93. a declaration to the effect that he has the competence and necessary resources to carry out the work safely in compliance with the Construction Regulations 2014;
- 94. a declaration to the effect that he made provision in this tender for the cost of the health and safety measures envisaged in the Construction Regulations; and
- 95. Failure to submit the foregoing with his tender, will lead to the conclusion that the Contractor will not be able to carry out the work under the contract safely in accordance with the Construction Regulations.

PA.4 NOTIFICATION OF COMMENCEMENT OF CONSTRUCTION WORK

After award of the contract, but before commencement of construction work, the Contractor shall, in terms of Regulation 4, notify the Provincial Director of the Department of Labour in writing if the following work is involved:

- 96. Include excavation work
- 97. Include working at a height where there is a risk of falling
- 98. Include the demolition of a structure or
- 99. Include the use of explosives to perform construction work

The notification must be done in the form of the pro forma as Annexure 2 of the Regulations.

A copy of the notification form must be kept on site, available for inspection by inspectors, Employer, Engineer, employees and persons on site.

PA.5 RISK ASSESSMENT

Before commencement of any construction work during the construction period, the Contractor shall have a risk assessment performed and recorded in writing by a competent person. (Refer Regulation 9 of the Construction Regulations 2014).

The risk assessment shall identify and evaluate the risks and hazards that may be expected during the execution of the work under the contract, and it shall include a documented plan of safe work procedures to mitigate, reduce or control the risks and hazards identified.

The risk assessment shall be available on site for inspection by inspectors, Employer, Engineer, subcontractors, employees, trade unions and health and safety committee members, and must be monitored and reviewed periodically by the Contractor.

PA.6 APPOINTMENT OF EMPLOYEES AND SUBCONTRACTORS

PA.6.1 Health and Safety plan

The Contractor shall appoint his employees and any subcontractors to be employed on the contract, in writing, and he shall provide them with a copy of his documented Health and Safety Plan, or relevant sections thereof. The Contractor shall ensure that all subcontractors and employees are committed to the implementation of his Safety Plan.

PA.6.2 Health and safety induction training

The Contractor shall ensure that all employees under his control, including subcontractors and their employees, undergo a health and safety induction training course by a competent person before commencement of construction work. No visitor or other person shall be allowed or permitted to enter the site of the works unless such person has undergone health and safety training pertaining to hazards prevalent on site.

The Contractor shall ensure that every employee on site shall at all times be in possession of proof of the health and safety induction training issued by a competent person prior to commencement of construction work.

PA.7 APPOINTMENT OF SAFETY PERSONNEL

PA.7.1 Construction Supervisor

The Contractor shall appoint a full-time Construction Supervisor with the duty of supervising the performance of the construction work.

He may also have to appoint one or more competent employees to assist the construction supervisor where justified by the scope and complexity of the works.

PA.7.2 Construction safety officer

Taking into consideration the size of the project and the hazards or dangers that can be expected, the Contractor shall appoint in writing a full-time or part-time **Construction Safety Officer** if so decided by the Inspector of the Department of Labour. The Safety Officer shall have the necessary competence and resources to perform his duties diligently.

Provision shall be made by the Contractor in his rates, to cover the cost of this dedicated construction safety officer appointed after award of the contract.

PA.7.3 Health and safety representatives

In terms of Section 17 and 18 of the Act (OHSA 1993) the Contractor, being the employer in terms of the Act for the execution of the contract, shall appoint a health and safety representative whenever he has more than 20 employees in his employment on the site of the works. The health and safety representative must be selected from employees who are employed in a full-time capacity at a specific workplace.

The number of health and safety representatives for a workplace shall be at least one for every 100 employees.

The function of health and safety representative(s) will be to review the effectiveness of health and safety measures, to identify potential hazards and major incidents, to examine causes of incidents (in collaboration with his employer, the Contractor), to investigate complaints by employees relating to health and safety at work, to make representations to the employer (Contractor) or inspector on general matters affecting the health and safety of employees, to inspect the workplace, plant, machinery etc. on a regular base, to participate in consultations with inspectors and to attend meetings of the health and safety committee.

PA.7.4Health and safety committee

In terms of Sections 17 and 18 of the Act (OHSA 1993) the Contractor (as employer), shall establish one or more health and safety committee(s) where there are two or more health and safety representatives at a workplace. The persons selected by the Contractor to serve on the committee shall be designated in writing.

The function of the health and safety committee shall be to hold meetings at regular intervals, but at least once every three months, to review the health and safety measures on the contract, to discuss incidents related to health and safety with the Contractor and the inspector, and to make recommendations regarding health and safety to the Contractor and to keep record of recommendations and reports made by the committee.

PA.7.5 Competent persons

In accordance with the Construction Regulations the Contractor has to appoint in writing **competent persons** responsible for supervising construction work on each of the following work situations that may be expected on the site of the works.

- 100. Risk assessment and induction training as described in Regulation 9 of the Construction Regulations;
- 101. Fall protection as described in Regulation 10;
- 102. Structures as described in Regulation 11;
- 103. Temporary structures as described in Regulation 12
- 104. Excavation work as described in Regulation 13;
- 105. Demolition work as described in Regulation 14;
- 106. Scaffolding work as described in Regulation 16;
- 107. Suspended platform operations as described in Regulation 17;
- 108. Material hoists as described in Regulation 19;
- 109. Batch plant operations as described in Regulation 20;
- 110. Explosive powered tools as described in Regulation 21;
- 111. Cranes as described in Regulation 22;
- 112. Construction vehicle and mobile plant inspections on a daily basis by a
- 113. competent person as described in Regulation 23;
- 114. Control of all temporary electrical installation on the construction site as described in Regulation 24
- 115. Water environments as described in Regulation 26;
- 116. Housekeeping and general safeguarding on construction sites as described in Regulation 27; and
- 117. Stacking and storage on construction sites as described in Regulation 28
- 118. Fire precautions as described in Regulation 29.
- 119. Construction employees' facilities as described in Regulation 30

A competent person may be appointed for more than one part of the construction work with the understanding that the person must be suitably qualified and able to supervise at the same time the construction work on all the work situations for which he has been appointed.

The appointment of competent persons to supervise parts of the construction work does not relieve the Contractor from any of his responsibilities to comply with **all** requirements of the Construction Regulations.

PA.8 RECORDS AND REGISTERS

In accordance with the Construction Regulations the Contractor is bound to keep records and registers related to health and safety on site for periodic inspection by inspectors, the Engineer, the Employer, trade union officials and subcontractors and employees. The following records and registers must be kept on site and shall be available for inspection at all times.

- 119.1 A copy of the OHSA 1993 Construction Regulations 2003;
- 119.2 A copy of this Health and Safety Specification;
- 119.3 A copy of the Contractor's Health and Safety Plan (Regulation 7);
- 119.4 A copy of the Notification of Construction Work (Regulation 4);
- 120. ... A health and safety file in terms of Regulation 7(1) (b) with inputs by the Construction Safety Officer
- 120.1 A copy of the risk assessment described in Regulation 9;
- 120.2 A full protection plan and the corresponding records of evaluation and training of employees working from elevated positions as described in Regulation 10;
- Drawings pertaining to the design of structures (Regulation 11 and formwork and support work structures (Regulation 12) must be kept on site;
- Pronouncement of the safety of excavations must be recorded in a register to be kept on site (Regulation 13);
- 120.5 A copy of the certificate of the system design for suspended platforms (Regulation 17(2));
- 120.6 A notice must be affixed around the base towers of material hoists to indicate the maximum mass load, which may be carried at any one time by material hoists (Regulation 19(5));
- 120.7 Maintenance records of material hoists and inspection results must be kept in a record book to be kept on site (Regulation 19(8));
- 120.8 A record of any repairs to or maintenance of a batch plant must be kept on site (Regulations 20(8));
- 120.9 A warning notice must be displayed in a conspicuous manner when and wherever an explosive powered tool is used (Regulation 21(2));
- 120.10 A register for recording of findings by the competent person appointed to inspect construction vehicles and mobile plant (Regulation 23(1)(k)).

PA.9 CONTRACTORS RESPONSIBILITIES

For this contract the Contractor will be the mandatory of the Employer (Client), as defined in the Act (OHSA 1993), which means that the Contractor has the status of employer in his own right in respect of the contract. The Contractor is therefore responsible for all the duties and obligations of an employer as set out in the Act (OHSA 1993) and the Construction Regulations 2014.

Before commencement of work under the contract, the Contractor shall enter into an agreement with the Employer (Client) to confirm his status as mandatory (employer) for the contract under consideration.

The Contractor's duties and responsibilities are clearly set out in the Construction Regulations 2014, and are not repeated in detail but some important aspects are highlighted hereafter, without relieving the Contractor of any of his duties and responsibilities in terms of the Construction Regulations.

121. Contractor's position in relation to the Employer (Client) (Regulation 7)

In accordance with Section 7 of the Regulations, the Contractor shall liaise closely with the Employer or the Engineer on behalf of the Employer, to ensure that all requirements of the Act and the Regulations are met and complied with.

The Principal Contractor and Contractor (Regulation 7)

The Contractor is in terms of the definition in Regulation 1 the equivalent of Principle Contractor as defined in the Construction Regulations, and he shall comply with all the provisions of Regulation 7.

Any subcontractors employed by the Contractor must be appointed in writing, setting out the terms of the appointment in respect of health and safety. An independent subcontractor shall however provide and demonstrate to the Contractor a suitable, acceptable and sufficiently documented health and safety plan before commencement of the subcontract. In the absence of such a health and safety plan the subcontractor shall undertake in writing that he will comply with the Contractor's safety plan, the health and safety specifications of the Employer and the Construction Regulations 2003.

122. ... Supervision of construction work (Regulation 8)

The Contractor shall appoint the safety and other personnel and employees as required in terms of Regulation 8. Appointment of those personnel and employees does not relieve the Contractor from any of the obligations under Regulation 7.

123. Risk assessment (Regulation 9)

The Contractor shall have the risk assessment before commencement of the work and it must be available on site for inspection at all times. The Contractor shall consult with the health and safety committee or health and safety representative(s) etc. on a regular basis to ensure that all employees, including subcontractors under his control, are informed and trained by a competent person regarding health hazards and related work procedures.

No subcontractor, employee or visitor shall be allowed to enter the site of works without prior health and safety induction training, all as specified in Regulation 7.

124. Fall protection (Regulation 10)

Fall protection, if applicable to this contract shall comply in all respects with Regulation 10 of the Construction Regulations.

125. Structures (Regulation 11)

The Contractor will be liable for all claims arising from collapse or failure of structures if he failed to comply with all the specifications, project specifications and drawings related to the structures, unless it can be proved

That such collapse or failure can be attributed to faulty design or insufficient design standards on which the specifications and the drawings are based.

In addition, the Contractor shall comply with all aspects of Regulation 9 of the Construction Regulations.

126. Temporary work (Regulation 12)

The Contractor will be responsible for the adequate design of all formwork and support structures by a competent person.

All drawings pertaining to formwork shall be kept on site and all equipment and materials used in formwork, shall be carefully examined and checked for suitability by a competent person.

The provisions of Regulation 12 of the Construction Regulations shall be followed in every detail.

127. Excavation work (Regulation 13)

It is essential that the Contractor shall follow the instructions and precautions in the Standard Specifications and Project Specifications as well as the provisions of the Construction Regulations to the letter as unsafe excavations can be a major hazard on any construction site. The Contractor shall therefore ensure that all excavation work is carried out under the supervision of a competent person, that inspections are carried out by a Professional Engineer or Technologist, and that all work is done in such a manner that no hazards are created by unsafe excavations and working conditions.

Supervision by a competent person will not relieve the Contractor from any of his duties and responsibilities under Regulation 13 of the Construction Regulations.

128. Demolition work (Regulation 14)

Whenever demolition work is included in a contract, the Contractor shall comply with all the requirements of Regulation 14 of the Construction Regulations. The fact that a competent person has to be appointed by the Contractor does not relieve the Contractor from any of his responsibilities in respect of safety of demolition work.

129. Tunneling (Regulation 15)

The Contractor shall comply with Regulation 15 wherever tunneling of any kind is involved.

130. Scaffolding (Regulation 16)

The Contractor shall ensure that all the provisions of Regulation 16 of the Construction Regulations are complied with. [Note: Reference in the Regulations to "Section 44 of the Act" should read "Section 43 of the Act"].

131. Suspended platforms (Regulation 17)

Wherever suspended platforms will be necessary on any contract, the Contractor shall ensure that copies of the system design issued by a Professional Engineer are submitted to the Engineer for inspection and approval. The Contractor shall appoint competent persons as supervisors and competent scaffold erectors, operators and inspectors and ensure that all work related to suspended platforms is done in accordance with Regulation 17 of the Construction Regulations.

132. Rope Access (Regulation 18)

Where rope access is required on the construction site, the Contractor shall comply with Regulation 18.

133. Material Hoists (Regulation 19)

Wherever applicable, the Contractor shall comply with the provisions of Regulation 19 to the letter.

134. Batch plants (Regulation 20)

Wherever applicable, the Contractor shall ensure that all lifting machines, lifting tackle, conveyors, etc. used in the operation of a batch plant shall comply with, and that all operators, supervisors and employees are strictly held to the provisions of Regulation 18. The Contractor shall ensure that the General Safety Regulations (Government Notice R1031 of 30 May 1986), the Driven Machinery Regulations (Government Notice R295 of 26/2/1988) and the Electrical Installation Regulations (Government Notice R2271 of 11/10/1995) are adhered to by all involved.

In terms of the Regulations, records of repairs and maintenance shall be kept on site.

135. Explosive powered tools (Regulation 21)

The Contractor shall ensure that, wherever explosive-powered tools are required to be used, all safety provisions of Regulation 21 are complied with.

It is especially important that warning notices are displayed and that the issue and return of cartridges and spent cartridges be recorded in a register to be kept on site.

136. Cranes (Regulation 22)

Wherever the use of tower cranes becomes necessary, the provisions of Regulation 20 shall be complied with.

137. Construction vehicles and mobile plant (Regulation 23)

The Contractor shall ensure that all construction vehicles and plant are in good working condition and safe for use, and that they are used in accordance with their design and intended use. The vehicles and plant shall only be operated by workers or operators who have received appropriate training, all in accordance with all the requirements of

Regulation 23.

All vehicles and plant must be inspected on a daily basis, prior to use, by a competent person and the findings must be recorded in a register to be kept on site.

138. Electrical installation and machinery on construction sites (Regulation 24)

The Contractor shall comply with the Electrical Installation Regulations (Government Notice R2920 of 23 October 1992) and the Electrical Machinery Regulations (Government Notice R1953 of 12 August 1993). Before commencement of construction, the Contractor shall take adequate steps to ascertain the presence of, and guard against dangers and hazards due to electrical cables and apparatus under, over or on the site.

All temporary electrical installations on the site shall be under the control of a competent person, without relieving the Contractor of his responsibility for the health and safety of all workers and persons on site in terms of Regulation 24.

139. <u>Use of temporary storage of flammable liquids on construction</u> (Regulation 25)

The Contractor shall comply with the provisions of the General Safety Regulations (Government Notice R1031 of 30 May 1986) and all the provisions of Regulation 25 of the Construction Regulations to ensure a safe and hazard-free environment to all workers and other persons on site.

140. Water environments (Regulation 26)

Where construction work is done over or in close proximity to water, the provisions of Regulation 26 shall apply.

141. Housekeeping on Construction sites (Regulation 27)

Housekeeping on all construction sites shall be in accordance with the provisions of the environment Regulations for workplaces (Government Notice R2281 of 16 October 1987) and all the provisions of Regulation 27 of the Construction Regulations.

142. Stacking and storage on construction sites (Regulation 28)

The provisions for the stacking of articles contained in the General Safety Regulations (Government Notice R1031 of 30 May 1986) as well as all the provisions Regulation 28 of the Construction Regulations shall apply.

143. <u>Fire precautions on construction sites</u> (Regulation 29)

The provisions of the Environmental Regulations for Workplaces (Government Notice R2281 of 16 October 1987) shall apply.

In addition the necessary precautions shall be taken to prevent the incidence of fires, to provide adequate and sufficient fire protection equipment, sirens, escape routes etc. all in accordance with Regulation 29 of the Construction Regulations.

144. Construction employees' facilities (Regulation 30)

The Contractor shall comply with the construction site provisions as in the Facilities Regulations (Government Notice R1593 of 12 August 1988) and the provisions of Regulation 30 of the Construction Regulations.

145. Non-compliance with the Construction Regulations 2014

The foregoing is a summary of parts of the Construction Regulations applicable to all construction projects.

The Contractor, as employer for the execution of the contract, shall ensure that all provisions of the Construction Regulations applicable to the contract under consideration are complied with to the letter.

Should the Contractor fail to comply with the provisions of the Regulations 3 to 30 as listed in Regulation 33, he will be guilty of an offence and will be liable, upon conviction, to the fines or imprisonment as set out in Regulation 33.

The Contractor is advised in his own interest to make a careful study of the Act and the Construction Regulations as ignorance of the Act and the Regulations will not be accepted in any proceedings related to non-conformance to the Act and the Regulations.

PA.10 MEASUREMENT AND PAYMENT

PA.10.1 Principles

It is a condition of this contract that Contractors, who submit tenders for this contract, shall make provision in their tenders for the cost of all health and safety measures during the construction process. All associated activities and expenditure are deemed to be included in the Contractor's tendered rates and prices.

146. Safety personnel

The Construction Supervisor, the Construction Safety Officer, Health and Safety Representatives, Health and Safety Committee and Competent Persons shall be members of the Contractor's personnel, and no additional payment will be made for the appointment of such safety personnel.

147. Records and Registers

The keeping of health and safety-related records and registers is regarded as a normal duty of the Contractor for which no additional payment will be considered, and which is deemed to be included in the Contractor's tendered rates and prices.

PB: ENVIRONMENTAL MANAGEMENT PLAN

PB.1 PLANS

Prior to establishment of the site camp(s), the Contractor shall produce a plan showing the positions of all buildings, laydown yards, vehicle wash areas, fuel storage areas, batching areas and other infrastructure for approval by the Engineer.

PB.2 USE OF LAND

The Contractor shall not use the land comprising the Works or any land connected to the Works, for any purpose whatsoever other than for the proper carrying out of the Works and shall place any camps that may be required for himself and his employees only on sites approved by the Engineer.

No trees or bushes shall be damaged or cut down by the Contractor or by any of his employees whether for use in the Works or otherwise without the written consent of the Engineer.

PB.3 VEGETATION CLEARANCE

PB.3.1 Woody vegetation

- PB.3.1.1 Prior to the start of construction, woody vegetative matter shall, where directed in writing by the Engineer, be stripped. This material shall either be spread randomly throughout the surrounding veld so as to provide biomass for other micro organisms and habitats for small mammals and birds, or it may be stockpiled for later redistribution over the reinstated top soiled surface.
- PB.3.1.2 No vegetative matter shall be burnt or removed for firewood.

PB.3.2 Herbaceous vegetation

During clearing of woody vegetation, no basal cover or grass and topsoil shall be removed and damage to this layer shall be minimized as far as possible.

PB.4 PROTECTION OF VEGETATION

The Contractor shall ensure that all works are undertaken in such a manner that vegetation outside the Works area is not damaged.

PB.4.1 Vegetation within or adjacent or outside the Works area

The following provisions shall apply with respect to the protection of areas of vegetation.

- PB.4.1.1 No tree or shrub shall be felled, lopped, cut or pruned without the prior written approval of the Engineer;
- PB.4.1.2 No tree or shrub shall be felled, lopped, cut or pruned until it has been clearly marked for this purpose by the Engineer;
- PB.4.1.3 No tree shall be burned for any reason;
- PB.4.1.4 For every tree protected by these specifications, which is removed or, in the opinion of the Engineer, is unduly damaged by the Contractor, the Contractor shall pay a penalty of R2 000,00 per tree to the Employer;
- PB.4.1.5 Trees which have been selected for preservation by the Engineer shall be fenced around

their drip line. The fence shall be clearly marked with danger tape. No open fires shall be allowed within this fenced area, nor shall vehicles be parked underneath these trees. The area shall also not be used for material storage or as allocation for temporary buildings; and

PB.4.1.6 Where such trees are located within the working width of the pipeline, the pipeline shall be aligned to avoid these trees wherever possible.

PB.4.2 Transplantation of rare and endangered plant species

Prior to vegetation clearing, any rare or endangered plant species which have been identified by the Engineer or his environmental representative must be removed and transplanted as instructed herein.

- PB.4.2.1 Transplanting of small trees (1 to 1,5m height) and small shrubs (0,5 to 1m height)
 - 148. Trees and shrubs shall only be transported between the months of April and September. Deciduous trees and shrubs shall be transplanted only when they are in a leafless condition.
 - 149. Holes for transplanting trees and shrubs shall be dug before these plants are dug out. Trees shall be planted in holes of 1m x 1m x 1m and shrubs shall be transplanted in holes of 600mm x 600mm x 600mm.
 - 150. Trees and shrubs shall be planted so that their stems or trunks are at the same depth as in their original location. The orientation of the transplanted plants must be the same as in their original location (i.e. the north-facing side of the plant must remain north-facing after it has been planted.)
 - 151. Transplanted plants shall be pruned to limit transpiration. Plants shall also be sprayed with an evapotranspiration retardant liquid if they are evergreen.
 - 152. Transplanted plants shall be watered once a week for 5 weeks and thereafter once every 2 weeks.
- PB.4.2.2 Transplanting aloes, succulents and bulbous plants
 - 153. Aloes, succulents and evergreen bulbous plants may be transplanted at any time of the year.
 - 154. Aloes and bulbous plants shall be planted in similar conditions and to the same depth as they were before they were removed.
 - 155. Transplanted aloes and bulbs shall be watered once directly after transplanting to settle the soil.

PB.4.3 Alien vegetation

The Engineer may instruct the Contractor to remove alien vegetation from the works area for the duration of the construction and maintenance period. Such vegetation will be identified by the Engineer or his environmental representative and the method of eradication will be specified by him/her.

The use of topsoil for rehabilitation contaminated with the seed of alien vegetation will not be permitted.

PB.5 PROTECTION OF FAUNA

The Contractor shall ensure that all Works are undertaken in such a manner which minimizes the impact on the local fauna and shall apply the following specifications with

	respect to fauna management and protection:
PB.5.1	Under no circumstances shall any animals be handled, removed, killed or interfered with by the Contractor, his subcontractors or his subcontractors' employees;
PB.5.2	The Contractor and his employees shall not bring any domestic animals onto the site;
PB.5.3	The contractor shall ensure that the work site is kept clean and tidy and free from rubbish which would attract animal pests;
PB.5.4	There shall be no feeding of animals;
PB.5.5	The Contractor shall ensure that domestic and native animals belonging to the local community shall be kept away and are safe from unprotected works; and
PB.5.6	The Contractor shall advise his workers of the penalty associated with the needless destruction of wildlife, as set out in the Animals Protection Act (Act 71 of 1962) sec. 2 (fine of R2 000 and/or 12 months imprisonment).
PB.6	ARCHAEOLOGICAL ARTIFACTS
PB.6.1	Known archaeological sites shall be indicated by the Engineer and shall be protected by a three-strand fence which will be at least 2m outside the extremities of the site. The fence shall be clearly marked with danger tape.
PB.6.2	Should the Contractor expose any archaeological artefacts during excavation, work on the area where the artefacts were found shall cease immediately and the Engineer shall be notified as soon possible.
PB.6.3	Upon receipt of such notification, the Engineer will arrange for the excavation to be examined by an Archaeologist as soon as practicable. Acting upon the advice from the Archaeologist, the Engineer will advise the Contractor of the necessary actions to be taken.
PB.6.4	Under no circumstances shall archaeological artefacts be removed, destroyed or interfered with by the Contractor, his employees, his subcontractors or his subcontractors' employees.
PB.6.5	The Contractor shall ensure that none of his employees gain access to any archaeological areas (whether fenced or unfenced), except when authorised to do so by the Engineer.
PB.6.6	The Contractor shall stay strictly within the 20m working width of the Works in order to prevent disturbance of possible grave sites and remnant settlements. Should any work be necessary outside of the working width, then this shall only be done in areas approved by the Engineer.
PB.7	SCENIC QUALITY
PB.7.1	The Contractor shall not establish or undertake any activities which, in the opinion of the Engineer, are likely to adversely affect the scenic quality of the area. The Engineer may direct the Contractor to refrain from such activities or to take ameliorative actions to reduce the adverse effect of such activities on the scenic quality of the environment.
PB.7.2	No painting or marking of natural features shall be done. Marking for surveying and other purposes shall only be done with pegs and beacons.
PB.7.3	All cut and fill forms shall be rounded at the edges to blend then with the surrounding landforms.

- PB.7.4 Where instructed by the Engineer, all packed and exposed rock cuttings shall be treated in order to blend their colour with the colours of the natural weathered rocks of the adjacent environment.
- PB.7.5 Where instructed by the Engineer, all concrete structures shall be treated so as to blend in with the colours of the surrounding landscape. This shall be done either through painting or through treatment with a staining or coloration compound. All other permanent structures shall have colours which are chosen to blend in with the dominant colours of the surrounding landscape. Painted surfaces shall be painted with non-reflective (matt) colours.

PB.8 WORKING AREA

PB.8.1 The area of construction as reasonably indicated on the general layout drawings, drawings.

PB.9 ACCESS ROADS AND VEHICLE TURNING AREAS

- PB.9.1 No new permanent access roads other than those agreed to by the Engineer shall be developed by the Contractor.
- PB.9.2 Existing roads shall be used as far as possible for inspection purposes.

PB.10 MATERIAL LAYDOWN AREAS

VIP units may only be offloaded in areas approved by the Engineer.

PB.11 FIRES

No open fires shall be permitted except in areas specifically prepared and controlled for this purpose.

PB.12 FENCING

- PB.12.1 Where instructed by the Engineer, fencing shall be erected around sensitive natural or cultural elements to protect them from damage. No pedestrian or vehicular access shall be allowed into such fenced areas.
- PB.12.2 In places where temporary fencing is required, the Contractor shall erect such fencing when and where required by the Engineer and re-erect and maintain temporary fencing as necessary. Temporary fencing shall remain in position either until it is replaced by permanent fencing or until completion of the whole of the Works, unless the Contractor requires, or the Engineer directs its earlier removal.
- PB.12.3 If any fencing is removed temporarily for the execution of any part of the Works it shall be reinstated as soon as practicable by the Contractor.
- PB.12.4 The clearing for permanent fencing shall be limited to the removal of trees and shrubs within 1m of the fence line. Where, possible, the fence line must be aligned to retain trees or groups of trees. There shall be no removal of the grass cover or topsoil within this width.
- PB.12.5 Any fences damaged by the Contractor shall be repaired as soon as practicable at his cost.

PB.13 TOPSOIL

PB.13.1 Source of topsoil

Topsoil shall be stripped from all areas that are to be utilized during the construction period and where permanent structures are required.

The topsoil is regarded as the top 150mm of the soil profile, irrespective of the fertility appearance, agricultural potential, structure and composition of the soil.

PB.13.2 Topsoil stripping

PB.13.2.1 Not applicable.

PB.13.3 Topsoil stockpiling

- PB.13.3.1 Stripped topsoil shall be stockpiled on sites adjacent to where it has been stripped.
- PB.13.3.2 No vehicles shall be allowed access onto the stockpiles after they have been placed. Topsoil stockpiles shall be clearly demarcated in order to prevent vehicle access and later for identification as being the resource for rehabilitation and vegetation establishment.
- PB.13.3.3 Stockpiles shall not be allowed to become contaminated with oil, diesel, petrol, garbage or any other material which may inhibit the later growth of vegetation in the soil.

PB.13.4 Topsoil placement

- PB.13.4.1 Topsoil shall be placed to the depth indicated in the project specification over all areas where it has been stripped after construction in those areas has ceased. Topsoil placement shall be done concurrently with construction or as soon as construction in an area has ceased.
- PB.13.4.2 Topsoil shall be placed in the same soil zone from which it has been stripped. However, if there is insufficient topsoil available from a particular soil zone to produce the minimum specified depth, topsoil of similar quality may be bought from other soil zones of similar quality at the approval of the Engineer.
- PB.13.4.3 Where insufficient topsoil has been stripped by the Contractor to provide the minimum specified depth, the Contractor shall obtain suitable substitute material from other sources at no cost to the employer. The suitability of the substitute material shall be determined by means of a soil analysis which is acceptable to the Engineer or Environmental Officer.
- PB.13.4.4 After topsoil placement is complete, cleared and stockpiled vegetation matter shall be spread randomly by hand over the topsoiled area as instructed by the Engineer.

PB.14 BORROW PITS AND QUARRIES

- PB.14.1 If a borrow pit is to be developed or an existing one is to be excavated, all topsoil from the area that is to be quarried must be stripped and stored for later rehabilitation for the pit.
- PB.14.2 Stripping and excavation actions shall be progressive in such manner that those parts of the borrow pit or quarry where work is complete can be rehabilitated while other areas are still being quarried.
- PB.14.3 Cut slopes of borrow pits and quarries shall have a vertical: horizontal gradient of not steeper than 1:3 (about 18 degrees), and preferably 1:5.
- PB.14.4 During excavation, work will be carried out in such a way that slopes of open works are not made dangerously steep.
- PB.14.5 Borrow pits shall be used as dump sites for excess rock spoil. On completion of spoiling the pits shall be reshaped and covered with layer of topsoil. On no account may spoil or rock by placed in drainage ways without the prior consent of the Engineer. On sites where

old excavations are to be found, rock, waste and mud from new excavations will be used to fill in the old excavations.

- PB.14.6 Stormwater cut off drains shall be provided at the top of the cut slope, where identified as necessary by the Engineer, to prevent erosion of the rehabilitated surface of the borrow pit or quarry.
- PB.14.7 No borrow pit shall be used as a dump site for refuse material or for toxic material e.g. cement, oil, diesel, rubber and similar materials.
- PB.14.8 There will be no workshops, chemical or fuel stores on the borrow pit site.
- PB.14.9 Sufficient soil conservation works for preventing soil erosion will be established at the rehabilitated areas.

PB.15 BATCHING

Concrete shall be mixed only in areas which have been specially demarcated for this purpose. All concrete that is spilled outside these areas, shall be promptly removed by the Contractor and taken to an approved dump site. After all concrete mixing is complete, all waste concrete shall be removed from the batching area and disposed of at an approved dump site. Storm water shall not be allowed to flow through the batching area. Water laden with cement shall be collected in a retention area for evaporation.

PB.16 EROSION PREVENTION

- PB.16.1 The Engineer will instruct the Contractor on the measures to be taken to ensure that there is no undue storm water damage and soil erosion resulting from the construction activities. The Contractor shall nevertheless take interim measures to ensure that no undue erosion damage occurs and shall advise the Engineer of all potential problem areas.
- PB.16.2 Surface storm water shall, where possible, not be allowed to be concentrated and to flow down cut or fill slopes or along the pipeline route without erosion protection measures being place.
- PB.16.3 Storm water deflection berms or stone pitched channels shall be constructed at regular intervals (plus minus every 15-30m) diagonally across the pipeline servitude on slopes as directed by the Engineer.

PB.17 EARTHWORKS

- PB.17.1 All cut and fill forms shall be rounded on the edges to allow them to blend with the surrounding landforms.
- PB.17.2 Where the backfill over the pipe trench will impede the natural flow of water, the backfill shall be shaped to allow an even flow across the line.

PB.19 SPOIL AND WASTE MATERIAL

- PB.19.1 The Contractor shall load and haul excess spoil to fill in the borrow pits or to dump sites approved by the Engineer. The dumped material must be finally rounded to have slopes not steeper than 1:3.
- PB.19.2 The Contractor shall remove all foundations and similar waste and transport all such waste material off site to dump areas which have been approved by the Engineer.

PB.20 REFUSE DISPOSAL

The Contractor shall dispose of all refuse generated by him or his subcontractor on a weekly basis at an approved refuse disposal site.

PB.21 ABLUTION FACILITIES

Portable toilets shall be placed within easy access of the Contractor's employees. These toilets shall be moved to follow the progression of the Works. Waste generated by these toilets shall be disposed of in an acceptable manner following consultation with the Engineer.

PB.22 CLEARANCE OF SITE ON COMPLETION

- PB.22.1 On completion of the Works, the Contractor shall clear away and remove from the works area all constructional plant, signboards, surplus rock and other material, foundations, plumbing and other fixtures, rubbish and temporary works of every kind. Areas thus cleared shall be graded and scarified to restore the ground to its original profile as near as practicable before topsoil placement and re-vegetation.
- PB.22.2 The Contractor shall load and haul excess spoil to fill the borrow pits or to dump sites approved by the Engineer. The dumped material must be finally rounded off to have slopes not steeper than 1:3.

PB.23 ENVIRONMENTAL AWARENESS OF EMPLOYEES

The Contractor shall arrange that all his employees and those of his subcontractors receive environmental awareness and/or training before commencement of construction to the satisfaction of the Engineer, in order that they:

- (a)acquire a basic understanding of the key environmental features of the work site and environs:
- (b) are thoroughly familiar with the requirements of these Environmental Protection and Control Specifications as they apply to the Works;
- (c)if required by the Engineer, receive basic training in the identification of archaeological artifacts, and rare and endangered flora and fauna that may be encountered along the route; and
- (d)are made aware of any other environmental matters which are deemed to be necessary by the Engineer.

PB.24 COMPLIANCE WITH ENVIRONMENTAL PROTECTION SPECIFICATION

- PB.24.1 All persons employed by the Contractor or his subcontractors shall abide by the requirements of these specification as they apply to the Works.
- PB.24.2 Any employees of the Contractor or his subcontractors found to be in breach of any of the Environmental Protection Specifications may be ordered by the Engineer to leave site forthwith. No extension of time will be granted for any delay or impediment to the Contractor bought about by a person ordered to leave the site.
- PB.24.3 Supervisory staff of the Contractor and his subcontractor shall not direct any person to undertake any activities which would place such a person in contravention of the Environmental Protection and Control Specification.

PB.25 COMPLIANCE AND MONITORING

The Engineer shall be responsible for implementing a consistent monitoring programme to ensure that construction specifications are upheld and that negative environmental impacts are regularly assessed and mitigated against.

The Contractor shall obtain written approval from the Engineer that the site is rehabilitated to their satisfaction at the end of the contract (practical closure) as well as after a 12-month liability period (final closure). If, in the opinion of the Engineer, the Environmental Protection and Control Specifications have not been complied with, further rehabilitation measures can be specified, the costs of which will be borne by the Contractor.

SPECIFICATION PC: PROVISION OF WORKERS

CONTENTS

CI	SCOPE
C2	INTERPRETATIONS
C3	ALLOWABLE SOURCES FOR WORKERS
C4	EMPLOYMENT GENERATION
C5	TRAINING OF THE WORKFORCE
C6	RECRUITMENT AND SELECTION PROCEDURES
C7	TERMS AND CONDITIONS PERTAINING TO THE OF EMPLOYMENT OF THE
	TEMPORARY WORKFORCE
C8	LABOUR RELATIONS AND WORKER GRIEVANCE PROCEDURES
C9	MEASUREMENT AND PAYMENT

C1 SCOPE

This Specification sets out the provisions and requirements in addition to Special Public Works Programme (SPWP) terms and conditions relating to the provision of the workers. The said terms and conditions of the SPWP are contained in Contract Data: Labour Laws, of the Special Conditions of Contract of this document.

INTERPRETATION

C2 S

C2.1 SUPPORTING DOCUMENTS

Where this Specification is required, the following documents shall *inter alia* be read in conjunction with this Specification:

- (a) The Instructions to Tenderers
- (b) The Conditions of Contract including Labour Laws in Contract Data
- (c) The Project Specifications
- (d) The Drawings (where applicable)
- (e) The statutory minimum requirements relating to the employment and remuneration of labour. Refer to the Basic Conditions of Employment Act, 1997 (Act No 75 of 1997) as amended by the requirements of the Expanded Public Works Programme (EPWP).

DEFINITIONS AND

C2.2 ABBREVIATIONS

For the purposes of this Specification, the definitions given in the Conditions of Contract, the Standardized Specifications and the Project Specifications, together with the following additional definitions shall, unless the context dictates otherwise, apply:

- (a) "**Key personnel**" means all Contract Managers, Site Agents, materials and survey technicians, trainers, supervisors, foremen, skilled plant operators and the like, and all other personnel in the permanent employ of the Contractor or subcontractor who possess special skills and/or who play key roles in the Contractor's or subcontractor's operation.
- (b) "Targeted worker" shall have the meaning given in SANS 1914-5.
- (c) "Worker" means any worker, not being a local worker.

- (d) "Project Coordinating Committee" means a committee consisting of the Employer's Agent, the Contractor (or their nominated representatives), as well as representatives of the local community and other interested parties, which is convened from time to time at the discretion of the Employer, for the purposes of acting as an avenue for effective communication and liaison between all the parties referred to, in all matters pertaining to the Contract.
- (e) "Subcontractor" means any person or group of persons in association, or firm, or body corporate (whether formally constituted or otherwise) not being the Contractor, to whom specific portions or aspects of the Works are sublet or subcontracted by the Contractor in accordance with the provisions of the Contract.
- (f) "The Contractor" and "Contractor", without further qualification, means the Contractor as defined in the Conditions of Contract.
- (g) "Worker" for the purposes of this Specification means any person, not being one of the Contractor's key personnel, nor any key personnel of any subcontractor, who is engaged by the Contractor, a subcontractor or the Programme Management Unit, to participate in the execution of any part of the Works and shall include unskilled labour, semi-skilled and skilled labour, artisans, clerical workers and the like.
- (h) "Workforce" means the aggregate body comprising of all workers and shall, unless the context dictates otherwise, include the workforces of the Contractor and all subcontractors.

C2.3 STATUS

Where any provisions or requirements of this Specification are in conflict with anything specified in terms of the EPWP and SANS 1914-5 (Part 5: Participation of targeted labour), the latter two shall prevail.

C3 ALLOWABLE SOURCES FOR WORKERS

- C3.1 The Contractor shall make maximum use of the human resources existing within the targeted group/community, and accordingly the workers who are to be utilised in the execution of the Works shall comprise only targeted workers (as defined in SANS 1914:2002 attached as Appendix C).
- C3.2 Notwithstanding the provisions of sub-clause C3.1, the Employer may at his discretion, upon receipt of a written and fully motivated application from the Contractor and where he deems the circumstances so warrant, authorise in writing that non-targeted workers, not being his key personnel, be included in the workforce. Without limiting the generality of application of this sub-clause, circumstances which may be considered by the Employer to warrant such authorisation of the inclusion in the temporary workforce of non-targeted workers, may include:
 - (a) the unavailability of sufficient numbers of local workers to execute the Works, provided always that the Contractor has proven that he has exercised his best endeavours and taken all reasonable actions to recruit sufficient local workers and has exhausted all reasonable recruitment options;
 - (b) the unavailability within the local community, of sufficient of the required skills necessary for the execution of the Works or specific portions thereof, in cases where the completion period allowed in the Contract is insufficient to facilitate the creation of the necessary skills through the provision of training as contemplated in this Contract;
 - any other circumstances which the Employer may deem as constituting a warrant.

EMPLOYMENT GENERATION

C4.1 CRITERA

The Contractor shall give no preference to any particular gender, and the requirement of this specification is to ensure that at least 50% women and 50% youth be employed on this Contract.

C4.2 UNITS OF MEASURE

Through the execution by labour-intensive construction methods included in the contract, temporary employment opportunities are to be created by the Contractor in the course of the Contract.

The numbers of employment opportunities will be measured in terms of "man-days" and the minimum task rate payable to workers employed in terms of the EPWP shall be as specified in clause 1.1.2 of A5.2.3 (h).

C4.3 EMPLOYMENT RECORDS TO BE PROVIDED

C4.3.1 The Contractor shall maintain accurate and comprehensive records, as required in terms of Clause 13 of clause 4.6 of Contract Data: Labour Laws, of all workers engaged on the Contract and shall provide the to the Employer at two-weekly intervals from the commencement of the Contract, interim records substantiating the actual numbers of employment opportunities which have been generated to date and the amounts actually paid in respect thereof. Such interim records shall be in a format approved by the Employer.

C4.3.2 The Contractor shall, on completion of the Contract, and as a prerequisite event to the release of any retention money or retention money guarantees in terms of the Conditions of Contract, provide the Employer's Agent with independently audited documentary evidence of the total number of employment opportunities actually generated during the

VARIATIONS IN WORKER PRODUCTION

C4.4 RATES

Notwithstanding anything to the contrary as may be stated in or inferred from any other provision of this Contract, the Contractor shall not be entitled to any additional payment or compensation whatsoever, in respect of any differences as may result between the production rates actually achieved by workers in the course of the execution of the Works and those production rates on which he based his tendered labour requirements.

TERMS AND CONDITIONS OF

C4.5 EMPLOYMENT

The employment of all labour shall be done in terms of Labour Laws (refer clause 4.6 of Contract Data) and requirements of the EPWP.

WRITTEN EMPLOYMENT

C4.6 AGREEMENT

The Contractor shall enter into a written agreement with each and every worker engaged by him on the Contract, which agreement shall be compliant with the requirements of clause 12 of Labour Laws (refer clause 4.6 of Contract Data). Copies of all such agreements shall be forwarded without delay to the Employer.

CONTRACTOR TO

C4.7 EXPLAIN

The Contractor shall, before entering into any such Labour Agreement with any worker, explain the meaning and impact of the entire contents of the agreement and shall ensure that the worker fully understands his liabilities, obligations and rights under the employment agreement.

C4.8 PAYMENT OF WORKERS

All amounts due to the employer shall be made in terms of clause 14 of Labour Laws (refer clause 4.6 of Contract Data).

TRAINING OF THE

C5 WORKFORCE

The Contractor shall be responsible for the provision, at his own cost, of all training of the workers, as may be necessary for the achievement of the execution and completion of the Works over and above the training specified in the terms and conditions of the Contract. The cost thereof will be deemed included in the unit rates tendered.

RECRUITMENT AND SELECTION

C6 PROCEDURES

The Contractor shall be responsible for the recruitment and selection of workers to constitute the temporary workforce but in doing so, shall adhere to the procedures and principles set out below.

- C6.1 The Contractor shall advise the Employer in writing, of the numbers of each category of worker, which he requires, together with the personal attributes which he considers desirable that each category of worker shall possess (taking due cognisance of the provisions of the Contract pertaining to training).
- C6.2 The Contractor shall, at his own cost, take all necessary actions to advertise within the local community comprising the allowable personnel resources, the fact that employment opportunities exist in respect of the EPWP and the time and place where recruiting will occur.
- C6.3 The Contractor shall record in writing, the details of all persons applying for employment, including *inter alia*:
 - (a) Name, address, age and sex
 - (b) Marital status and number of dependants
 - (c) Qualifications and previous work experience (whether substantiated or not)
 - (d) Period since last economically active
 - (e) Preference for type of work or task.
- C6.4 The Contractor shall make his selection of workers from amongst the applicants, in accordance with the described below, taking due cognisance of his requirements for the workforce and the provisions of the Contract in regard to the provision of training to the workforce:
 - (a) No potential worker shall be precluded from being employed by the Contractor on the execution of the Works, by virtue of his lack of skill in any suitable operation forming part of the Works, unless:
 - (i) all available vacancies have been or can be filled by workers who already possess suitable skills; or
 - (ii) the completion period allowed in the Contract, or the remaining portion of the Contract Period (as the case may be) is insufficient to facilitate the creation of the necessary skills.
 - (b) Preference shall be given to the long-term unemployed and single heads of households irrespective of gender.

- (c) The Contractor shall, in so far as is reasonably practicable, give priority to accommodating the applicants' expressed preferences regarding the types of work for which they are selected.
- (d) The selection process shall not be prejudicial to youth over the age of eighteen years and women.
- C6.5 After making his selection the Contractor shall advise the Employer thereof in writing
- C6.6 The provisions of this clause C6 shall apply *mutatis mutandis* in respect of the selection of additional or replacement members of the workforce as may be necessary from time to time during the Contract.

C7 TERMS AND CONDITIONS PERTAINING TO THE EMPLOYMENT OF THE TEMPORARY WORKFORCE

All workers shall be engaged in accordance with the provisions of Labour Laws (clause 4.6 of Contract Data) and the EPWP.

C8 LABOUR RELATIONS AND WORKER GRIEVANCE PROCEDURES

- C8.1 The Contractor shall at his own cost be fully responsible for the establishment and maintenance of satisfactory labour relations on Site and the resolution of all grievances of temporary workers as may occur.
- C8.2 The Contractor shall at all times adhere to the accepted norms and standards of labour relations prevailing generally in the Civil Employering Construction Industry and shall conduct himself in a fair and reasonable manner, within the constraints as may be imposed upon him by the terms of the Contract.
- C8.3 In the event of any worker engaged by the Contractor in terms of the Contract, being aggrieved on any issue, he shall have the right, at his discretion, to be supported in any inquiry or disciplinary hearing or investigation instituted by the Contractor in terms of subclause C8.2 above, by one member of the workforce and one community representative who is a member of the Project Coordinating Committee, which persons shall be nominated by the worker.
- C8.4 In the event of any grievance not being satisfactorily resolved through the application of normal dispute resolution procedures in accordance with sub-clauses C8.2 and C8.3, then either the Contractor or the worker concerned may require that the matter be referred to the Project Coordinating Committee for further consideration, with a view to facilitating resolution thereof.

C9 MEASUREMENT AND PAYMENT

The Contractor will not be separately reimbursed or compensated in respect of the provision of the workforce and the creation of employment opportunities and all the Contractor's costs associated with compliance with the provisions of this Particular Specification shall, as relevant, be deemed to be included in the rates tendered for the various items of work listed in the Schedule of Quantities.

SPECIFICATION PE: MANAGEMENT OF THE WORKS

C 3.5.1 MANAGEMENT OF THE WORKS

C 3.5.1.1 Applicable SANS and COLTO Standards

The provisions of these Specifications take precedence over the provisions of any part of SANS 2001 that is applicable to the contract. The variations and additions to these specifications are described in the section "COLTO Standard Specifications for Road and Bridge Works for State Road Authorities".

The COLTO Standard Specifications for Road and Bridge Works for State Road Authorities listed in C3.4.1.1 are applicable.

C 3.5.1.2 Particular/Generic Specifications

The Particular Specifications listed in C3.4.6 apply to this Contract.

C 3.5.1.3 Methods and Procedures

Maintenance of access and streets

The operation of construction vehicles on existing roads or streets, or streets that have been completed to the level of subbase, base or surfaced treatment, shall be limited to the traffic with an axle load not exceeding that allowed by the Road Traffic Ordinance of the authority concerned, or any amendment thereof. Hauling is strictly forbidden on sections of road or streets that have been completed as described above. The Contractor shall make use of a temporary haul road, or where not practically possible, program his work in such a manner that the haulage materials shall be restricted to that required for the particular section of street. No additional payment shall be made for the use of temporary haul roads and all relevant costs shall be deemed covered by the appropriate rates.

No additional payment will be made for the construction of temporary access roads to the construction site, borrow areas or the spoil sites, except for payment made under payment item A8.3.2.2 of SANS 1200 A.

Should the Contractor make use of existing roads or streets for haulage, he shall be held responsible to clear the road or street of any spillage caused by his activities within one (1) day after such spillage occurred. No additional payment will be made for the cleaning of the spillage.

(a) Blasting operation

All blasting shall be carried out by a competent, registered blaster. The blaster shall furnish to the Employer copies of all the permits required to purchase, transport, use and dispose of unused blasting material. The Contractor shall inform the commander of the local SAPS at least 1 day prior to the date and time blasting is about to take place.

No blasting operations shall take place on weekends or holidays or week days after 17h00.

The Contractor shall ensure that sufficient suitable material, to the satisfaction of the blaster, is available and in place before the blast is initiated. The Contractor shall be responsible to note in writing (photographs) the structural status of structures before blasting for comparison after blasting.

156.

157. Normal working hours

Normal working hours shall be from 07h00 until 17h00 on weekdays from Monday to Friday. It shall be from 07h00 until 13h00 on Saturdays.

Work on other days will only be allowed after written approval has been granted by the Employer.

158. Interference with municipal staff and operations

The Contractor shall ensure that none of his staff interfere in any way with any municipal staff member or their functions or with the operations of the water treatment works in any way.

Any person ignoring this shall be removed permanently from site, all at the expense of the Contractor.

159. Access for other contractors

The Contractor shall provide reasonable access to other Contractors carrying out work on the site from time to time, as and when such access is required. The Contractor is entitled to request reasonable notification of at least 24 hours before access by others is required.

The contractual responsibilities of the Contractor shall remain in full force in spite of the other Contractors having access to the site.

160. Giving notice of work to be covered up

The Contractor shall give the Employer at least 24 hours notice prior to a request for examination of materials or work to be covered up. This request must be made in the request book on site.

Should such a request be made and upon inspection the Employer found that the works or materials are not yet ready for inspection, the Contractor shall reimburse the Employer within 30 days of invoice for all expenses incurred as a result.

161. Sequence of the works

The Contractor shall arrange with the mechanical and electrical Contractor and the Employer the sequence of the works to ensure the existing plant remains in operation.

C 3.5.1.4 Quality plans and control (Testing)

Refer to Section C3.4.2.5 (b).

C 3.5.1.5 Environmental Management Plan (EMP)

162. Demarcation of the site

For the purpose of the EMP, the site shall be demarcated into two distinct areas, viz.;

163. The construction camp comprising all buildings, hostels, offices, lay down yards, vehicle wash areas, fuel and material storage area, batching areas and other infrastructure that is required for the running of the job.

164. The working area in which construction activities are permitted to take place. No infrastructure, permanent lay down or storage areas shall be established in this working are unless specified in the project specification or prior approval is obtained from the Employer.

165. Construction camp

The Contractor shall provide the Employer with a plan showing the positions of all buildings, yards, vehicle wash areas, batching areas and other infrastructure for approval by the Employer at least ten (10) days prior to the commencement date.

166. Fencing of site

If a temporary fence is required, the Contractor shall erect and maintain such a fence (demarcating the boundary of the working area, construction camp and access roads) to the satisfaction of the Employer.

This fence shall be erected before the commencement of any other work on site. The fence shall be removed after completion of the project and the site reinstated to its original state.

167. Workshops

All workshops shall be located inside the demarcated construction camp area as approved by the Employer prior to establishment. The workshop shall have a smooth impermeable concrete floor sloped to one side where oil is trapped in an oil trap or sump to contain any spillages of substances such as oil.

Waste material shall be disposed of in accordance with the national, regional and local by-laws regulations and by-laws. The waste shall be regularly removed and disposed of at an approved site.

168. Eating areas

The Contractor's employees shall eat in a designated eating area indicated on the drawing approved by the Employer. The Contractor shall provide adequate shade and provide scavenger proof and waterproof refuse bins. Cooking will only take place in this area on well maintained gas cookers with fire extinguishers present. Open fires other than the gas cookers shall not be allowed.

169. Watchmen

The Contractor shall have a watchman present on site during non-working hours and on holidays to ensure the safety of plant and materials on site.

170. Ablution facilities

The exact location of toilets shall be approved by the Employer. The Contractor shall provide the toilets and maintain and service it on a daily basis. The toilets shall be kept clean. Regular inspections shall be conducted by the Employer. Burial of waste on site is strictly forbidden. Leaking or broken toilets shall be removed and replaced immediately by the Contractor.

171. Solid waste

"Solid waste" refers to construction debris, chemical waste, tins, cans, paper, wrappers, excess concrete, waste timber, etc.

The Contractor shall establish a waste control and removal system. He shall submit a method statement to the Employer for approval prior to commencement.

Appropriate solid waste containers shall be provided for the storage of waste. The containers shall be water proof. The waste shall be removed on a regular basis to prevent the accumulation of waste on site and disposed of at an approved waste site.

172. Wastewater

Water shall be used sparingly on site. Where possible, wastewater shall be recycled. A wastewater management plan shall be submitted to the Employer for approval 10 days prior to the commencement date.

The management plan shall detail the expected extent of the contamination of each wastewater stream and how the Contractor plans to deal with it.

Wastewater shall be prevented from flowing into the Olifants River.

173. Fuel storage area

Fuel shall be stored on site in a depot at a location as agreed with the Employer. The Contractor shall ensure that liquid fuels are stored in tanks with lids. The tanks shall be placed on a sloped smooth concrete surface with an oil trap on the lower end to collect any spillage.

Fuel shall be kept under lock at all times.

174. Concrete batching area

Cement and concrete is hazardous to the environment due to the high pH of the material and the chemicals it contains.

The Contractor shall furnish to the Employer for approval a method statement for the mixing of concrete. Concrete shall not be mixed directly on the ground. Care must be taken to ensure that wastewater and contaminated material is collected and disposed of correctly.

175. Equipment maintenance and storage

All equipment and vehicles shall be kept in good working order and serviced regularly. Leaking equipment shall be repaired immediately or removed from site. Where possible, maintenance and service shall take place only in the workshop. Permission must be obtained from the Employer if the aforementioned cannot be adhered to.

The Contractor shall demarcate an area in which the equipment and vehicles may be stored. The location shall be approved by the Employer.

Materials handling, use and storage

The Contractor is responsible to ensure that all material suppliers are aware of the EMP's restrictions and conditions. The Contractor shall be held responsible should deliveries not comply with the EMP requirements.

The Contractor shall comply with all relevant national, regional and local legislation with regard to the transport, use and disposal of hazardous material.

The Contractor shall furnish to the Employer a list of all hazardous materials to be used on site, together with the handling, storage and disposal procedures of the materials. This information shall be available to all personnel on site.

The location of the hazardous material store shall be within the demarcated construction camp area. The location shall be approved by the Employer.

Where possible, the Contractor shall ensure that the refuelling of vehicles takes place only at the fuel storage area in the construction camp. If this is not possible, the Contractor shall obtain permission from the Employer to refuel at any other place. Contaminated material and wastewater at the refuelling area shall be contained and disposed of correctly.

176. Emergency procedures

The Contractor shall ensure that emergency procedures for the following situations are submitted for approval to the Employer;

Fire – the Contractor shall inform the relevant authority immediately as soon as a fire starts. The Contractor shall ensure that his staff and subcontractors are fully aware of the procedures to be followed in the event of a fire.

Spillages – the Contractor shall ensure that his staff and subcontractors are fully aware of the procedures to be followed in the event of a spillage. The Employer must be informed immediately about a spill. The Contractor shall ensure that the necessary materials and equipment is on site to deal with spills and leaks. The cleanup of spills and leaks shall be for the account of the Contractor.

177. Care of surrounding areas

The Contractor shall ensure that no contamination of or damage to the surrounding areas or watercourses shall occur as a result of any of his activities during construction.

C 3.5.1.6 Planning and programming

Early completion of the extensions to the water treatment works is important.

The existing water treatment works must remain fully operational.

Immediately after handing over the site, the Employer and the Contractor will discuss the order of procedure and methods in which the Contractor shall carry out the works. The order of the work shall be such that the mechanical and electrical Contractor is not unnecessarily delayed by the Contractor.

Before handing over a structure to the mechanical and electrical Contractor for the installation of mechanical and or electrical equipment, the Contractor shall ensure the absence of scaffolding, formwork, building materials, rubble or open trenches.

The programme to be furnished by the Contractor to the Employer for approval shall be in the form of a Gantt chart. The critical path shall be indicated in red.

C 3.5.1.7 Other Contractors on site

A mechanical and electrical Contractor will be on site during the latter part of the contract period to install mechanical and electrical equipment. Close cooperation is required between the Contractor and this mechanical and electrical Contractor to ensure neither delays the other.

C 3.5.1.8 Recording of weather

The Contractor shall record the weather conditions on a daily basis in the site diary. Rainfall figures and strong wind which could delay the Works shall be noted, recorded and confirmed by the signature of the Employer's Representative on site.

C 3.5.1.9 Format of communications

All communication regarding the Contract shall be channelled through the Employer or his representative. Formal contractual communication shall be in writing.

Instructions will only be given by the Employer or his representative. The Contractor shall <u>not</u> take any instructions from the Employer, the local municipality or the superintendent or operators.

C 3.5.1.10 Progress meetings, planning and programming

A project progress meeting shall be held monthly on site for the duration of the project on dates to be agreed upon. The Contractor shall be responsible for the venue for the meeting. He will also ensure that the CLO attend all such meetings.

The Contractor shall furnish to the Employer a Gantt chart programme with the critical path indicated in red. This shall be done on MS Project and shall be furnished in hard copy and electronically to the Employer.

C 3.5.1.11 Site Diary

Daily records of plant, personnel, materials, etc., shall be recorded daily by the Contractor and noted in the <u>site diary</u> which will be supplied by the Contractor before the commencement date of the project.

All visitors shall be required by the CLO to complete the site diary.

C 3.5.1.12 Site Instructions

Only the Employer or his representative has the mandate to issue site instructions to the Contractor. This will be done in writing in the site instruction book or per facsimile, or per letter or per minutes of the site meeting.

The Contractor shall furnish an A4 site instruction book in triplicate before the commencement date of the Contract.

C 3.6 HEALTH AND SAFETY

C 3.6.1 HEALTH AND SAFETY REQUIREMENTS AND PROCEDURES

Before commencement of work, the Contractor shall present to the Employer his Health and Safety Plan for approval. He shall also appoint a qualified health and Safety Officer in writing and give a copy of the letter of appointment to the Employer's Agent.

The Health and Safety Specification is attached as section C3.4.6 and must be referred to when compiling the Health and Safety Plan.

(a) Construction Regulations, 2014

The Contractor shall be required to comply with the Occupational Health and Safety Act, 1993: Construction Regulations, 2014 (the regulations) as promulgated in Government Gazette No 25207 and Regulation Gazette No 37305 of 7 February 2014 Non-compliance with these regulations, in any way whatsoever, will be adequate reason for suspending the Works.

The proposed type of work, materials to be used and potential hazards likely to be encountered on this Contract are detailed in the Project Specifications, Schedule of Quantity and Drawings, as well as in the Employers' Health and Safety Specifications (regulation 5(1)) of the Construction Regulations 2014.

The Contractor shall in terms of regulation 7(1) provide a comprehensive health and safety plan detailing his proposed compliance with the regulations, for approval by the Employer.

The Contractor shall at all times be responsible for full compliance with the approved plan as well as the Construction Regulations and no extension of time will be considered for delays due to non-compliance with the abovementioned plan or regulations.

Payment items are included in the Schedule of Quantities to cover the Contractor's cost for compliance with the OHS Act and the abovementioned regulations.

C 3.6.2 PROTECTION OF THE PUBLIC

The site is not accessible to the general public. However, the existing water treatment works must remain in operation for the duration of the Contract. The Contractor shall ensure that all personnel entering the construction site is fully informed about the dangers, dos and don'ts on the site. The Contractor shall ensure that non-construction personnel are protected within the guidelines of the OHS Regulations.

C 3.6.3 BARRICADES AND LIGHTING

All excavations and openings in walls and slabs into which or through which a person may fall, shall be securely barricaded in accordance with the requirements of the applicable OHS Regulations.

C 3.6.4 VEHICULAR AND PEOPLE TRAFFIC CONTROL

The Safety Officer shall take full responsibility for the vehicular and people traffic control in and around the site. The personnel of the existing water treatment works shall be fully informed and trained by the Safety Officer if required.

C 3.6.5 MEASURES AGAINST DISEASE AND EPIDEMICS

No particular measures have to be taken against disease and epidemics on site.

C 3.6.6 AIDS AWARENESS

All construction personnel shall be given an Aids awareness briefing by the Safety Officer.

PART 4: SITE INFORMATION

TABLE OF CONTENTS

	PAGE (S)
C4 SITE INFORMATION	151
C4.1GENERAL	151
C4.2SITE LOCATION	151
C4.3ACCESS TO SITE AND RESTRICTIONS	151
C4.4SECURITY	151

C4 SITE INFORMATION

C4.1 GENERAL

This section describes the site at the time of tender to enable the tenderer to familiarise and to decide upon his method of working and programming and risks.

C4.2 SITE LOCATION

All wards within the Greater Tzaneen Municipality Jurisdiction.

C4.3 ACCESS TO SITE AND RESTRICTIONS

Permission as may become necessary shall be the responsibility of the Contractor to obtain.

Having been granted access to works areas by the Employer, other service authorities and private owners, the Contractor shall adhere to any agreed conditions of access and ensure the works area is left in a condition similar to when it was first accessed.

C4.4 SECURITY

The Contractor shall be responsible for the security of his personnel, materials, equipment and construction plant on and around the site of the Works and for the security of his camp (if applicable). The Employer in this regard will consider no claims.

EVALUATION OF BIDS

N.B: The evaluation of bid will be conducted in two stages. First stage it be the assessment of functionality, there after only bidders that obtain 70 points will be evaluated in terms of 80/20 Preference point scoring system, where 80 points will be allocated for price only and 20 specific goals points scored.

The specific goals allocated points in terms of this tender	Number of points allocated (80/20 system) (To be completed by the organ of state)	alaimed (80/20	Means of verificati

TAX CLEARANCE CERTFICATE REQUIREMENTS

It is a condition of bid that the taxes of the successful bidder must be in order, or that satisfactory arrangements have been made with South African Revenue Service (SARS) to meet

THE BIDDER'S TAX OBLIGATIONS

- In order to meet the requirements, bidders are required to complete in full the attached form TCC 00. "Application for a Tax Clearance Certificate" and submit it to any SARS branch office nationally. The Tax Clearance Certificate Requirements are also applicable to foreign bidders / individuals who wish to submit bids.
- 2 SARS will then furnish the bidder with a Tax Clearance Certificate that will be valid for a period of 1 (one) year from the date of approval.
- 3 The original Tax Clearance Certificate must be submitted together with the bid. Failure to submit the original and valid Tax Clearance Certificate will result in the invalidation of the bid. Certified copies of the Tax Clearance Certificate will not be acceptable.
- 4 In bids where Consortia / Joint Ventures / Sub-contractors are involved; each party must submit a separate Tax Clearance Certificate.
- 5 Copies of the TCC 001 "Application for a Tax Clearance Certificate" form is available from any SARS branch office nationally or on the website www.sars.gov.za.
- 6 Applications for the Tax Clearance Certificates may also be made via e-filing. In order to use this provision, taxpayers will need to register with SARS as e-filers through the website www.sars.gov.za.

MBD 6.1

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

178. GENERAL CONDITIONS

- 178.1 The following preference point systems are applicable to invitations to tender:
 - the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
 - the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 To be completed by the organ of state

- a) The applicable preference point system for this tender is the 80/20 preference point system.
- 1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:
 - (a) Price; and
 - (b) Specific Goals.

1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

4. **DEFINITIONS**

- (a) "tender" means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) "price" means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) "rand value" means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) "tender for income-generating contracts" means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) "the Act" means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

Where

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

Ps = 80/20 or 90/10 $Ps = 80\left(1 - \frac{Pt - P \min}{P \min}\right)$ or $Ps = 90\left(1 - \frac{Pt - P \min}{P \min}\right)$

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration
Pmin = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

Ps =
$$80/20$$
 or $90/10$

$$Ps = 80\left(1 + \frac{Pt - P \max}{P \max}\right)$$
 or
$$Ps = 90\left(1 + \frac{Pt - P \max}{P \max}\right)$$

Where

Ps = Points scored for price of tender under consideration

Pt = Price of tender under consideration

Pmax = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
 - (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,

then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below. (Note to organs of state: Where either the 90/10 or 80/20 preference point system is applicable, corresponding points must also be indicated as such.

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

The specific goals allocated points in terms of this tender	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (80/20 system) (To be completed by the tenderer)	Means of verification (MOV) for specification

DECLARATION WITH REGARD TO COMPANY/FIRM

4.3.	Name company/firm		of
4.4.	Company	registration	number:
4.5.	TYPE OF COMPANY/ FI	nture / Consortium /sole propriety ompany	

- 4.6. I, the undersigned, who is duly authorised to do so on behalf of the company/firm, certify that the points claimed, based on the specific goals as advised in the tender, qualifies the company/ firm for the preference(s) shown and I acknowledge that:
 - i) The information furnished is true and correct;
 - ii) The preference points claimed are in accordance with the General Conditions as indicated in paragraph 1 of this form;
 - iii) In the event of a contract being awarded as a result of points claimed

as shown in paragraphs 1.4 and 4.2, the contractor may be required to furnish documentary proof to the satisfaction of the organ of state that the claims are correct;

- iv) If the specific goals have been claimed or obtained on a fraudulent basis or any of the conditions of contract have not been fulfilled, the organ of state may, in addition to any other remedy it may have
 - (a) disqualify the person from the tendering process;
 - (b) recover costs, losses or damages it has incurred or suffered as a result of that person's conduct;
 - (c) cancel the contract and claim any damages which it has suffered as a result of having to make less favourable arrangements due to such cancellation;
 - (d) recommend that the tenderer or contractor, its shareholders and directors, or only the shareholders and directors who acted on a fraudulent basis, be restricted from obtaining business from any organ of state for a period not exceeding 10 years, after the *audi alteram partem* (hear the other side) rule has been applied; and
 - (e) forward the matter for criminal prosecution, if deemed necessary.

DECLARATION OF BIDDER'S PAST SUPPLY CHAIN MANAGEMENT PRACTICES

- 1 This Municipal Bidding Document must form part of all bids invited.
- It serves as a declaration to be used by municipalities and municipal entities in ensuring that when goods and services are being procured, all reasonable steps are taken to combat the abuse of the supply chain management system.
- The bid of any bidder may be rejected if that bidder, or any of its directors have:
 - a. abused the municipality's / municipal entity's supply chain management system or committed any improper conduct in relation to such system.
 - b. been convicted for fraud or corruption during the past five years.
 - c. willfully neglected, reneged on or failed to comply with any government, municipal or other public sector contract during the past five years; or
 - d. Been listed in the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004).
- In order to give effect to the above, the following questionnaire must be completed and submitted with the bid.

Item	Question	Yes	No
4.1	Is the bidder or any of its directors listed on the National Treasury's Database of Restricted Suppliers as companies or persons prohibited from doing business with the public sector?	Yes	No
	(Companies or persons who are listed on this Database were informed in writing of this restriction by the Accounting Officer/Authority of the institution that imposed the restriction after the <i>audi alteram partem</i> rule was applied).		
	The Database of Restricted Suppliers now resides on the National Treasury's website (www.treasury.gov.za) and can be accessed by clicking on its link at the bottom of the home page.		
4.1.1	If so, furnish particulars:		

Item	Question	Yes	No
4.2	Is the bidder or any of its directors listed on the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004)?	Yes	No
	The Register for Tender Defaulters can be accessed on the National Treasury's website (www.treasury.gov.za) by clicking on its link at the bottom of the home page.		
4.2.1	If so, furnish particulars:		
4.3	Was the bidder or any of its directors convicted by a court of law (including a court of law outside the Republic of South Africa) for fraud or corruption during the past five years?	Yes	No
4.3.1	If so, furnish particulars:		
4.4	Does the bidder or any of its directors owe any municipal rates and taxes or municipal charges to the municipality / municipal entity, or to any other municipality / municipal entity, that is in arrears for more than three months?	Yes	No
4.4.1	If so, furnish particulars:		
4.5	Was any contract between the bidder and the municipality / municipal entity or any other organ of state terminated during the past five years on account of failure to perform on or comply with the contract?	Yes	No
4.7.1	If so, furnish particulars:

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging). Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
- a. take all reasonable steps to prevent such abuse;
- b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
- c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:
- ¹ Includes price quotations, advertised competitive bids, limited bids and proposals.
- ² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid number:	
••••••	
Bid Description:	
•••••••••••••••••••••••••••••••••••••••	•••••
In response to the invitation for the bid made by Greater Tzaneen Mur	nicipality
Do hereby make the following statements that I certify to be true and co	mplete in
every respect:	
I certify, on behalf of:	
that	t:

(Name of Bidder)

- 1. I have read and I understand the contents of this Certificate.
- 2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect.
- 3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder.
- 4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder.
- 5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
- (a) Has been requested to submit a bid in response to this bid invitation.
- (b) Could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities, or experience; and
- (c) Provides the same goods and services as the bidder and/or is in the same line of business as the bidder
- 6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However, communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.

- 7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) Prices.
 - (b) Geographical area where product or service will be rendered (market allocation)
- (c) Methods, factors or formulas used to calculate prices.
- (d) The intention or decision to submit or not to submit, a bid.
- (e) The submission of a bid which does not meet the specifications and conditions of the bid; or
- (f) Bidding with the intention not to win the bid.
- 8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
- 9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.
- ³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.
- 10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
