Ladies and Gentlemen

I am humbled by the responsibility that this new Council of the Greater Tzaneen Municipality has bestowed upon me.

I am gratefully accepting this responsibility and promise to do my utmost best in the execution of my constitutional duties and functions as the Speaker.

I am fully aware of the enormity of the responsibilities of the Speaker of Council and the expectations thereof.

I am prepared and with the support of this Council and the administration, I do not doubt that this Council will effectively render its legislative and oversight functions.

Municipal Councils are very critical structures in our Democratic dispensation and as the highest decision-making structure in local government, their role cannot be overemphasized.

As the chairperson of Council I promise that this Council will run professionally, and whilst maintaining the decorum accorded to this sacred institution, I vow never to stifle debate.

This Council must be vibrant, and engagements must be robust yet respectful and done within the parameters of Ubuntu, dignity, and professionalism.

As a speaker of the Council, I have a constitutional mandate to foster meaningful public participation in municipal affairs.

We cannot make decisions about people without taking into account their views and contributions.

We will therefore intensify our public engagements efforts and strengthen our public participation process by incorporating digital communications into our traditional methods to ensure optimal participation.

Fellow Councillors

Our public consultation processes were adversely affected by the pandemic which restricted public gatherings and denied our communities the opportunity to effectively input into our budgets, IDP and PMS.

In the not-so-distant future, we will commence with the process of electing members of ward committees in all the 35 wards of the Greater Tzaneen Municipality.

We will collectively ensure that the process runs smoothly and transparently and that inclusivity is catered for.

For local government to work, all levels must be run by passionate, capable and knowledgeable people.

Communities must therefore recruit and elect the most dedicated and active members of their communities for the benefit of all of us.

My speech will not be complete without expressing a word of gratitude to the previous speaker, Cde Dikeledi Mmetle who has laid a very strong foundation for us to build upon.

The previous council established and maintained a very strong decorum that I wish that the new Council will take forward.

This Council must and will hold both the executive and the administrative component of the municipality accountable.

Fellow Councillors

We must take a zero stance on the non-implementation of Council resolutions. Failure to implement resolutions is failing our people who have unequivocally granted up a mandate to lead them in the next 5 years.

I would also like to congratulate each one of you for your election into this Council.

Finally let me express my gratitude to my political home, the African National Congress for affording me the opportunity to be the Speaker of this Council. The ANC has entrusted me with various responsibilities in the council of the Greater Tzaneen Municipality for 15 years and this term will be my fourth.

I promise to serve the people of the Greater Tzaneen Municipality with diligence, commitment, and honesty.

I thank you

10. ACCEPTANCE OF SPEECH BY THE MAYOR.

ACCEPTANCE SPEECH BY THE NEWLY ELECTED MAYOR OF GREATER TZANEEN MUNICIPALITY ON THE 22 NOVEMBER 2021

Honourable Speaker, the Chairperson of this august Council;

Executive Committee Members;

The Acting Municipal Manager; Directors and the entire administrative component;

Members of Council;

Media houses;

Members of community;

Traditional Leaders;

Representatives from other municipalities;

Leaders from various political parties present;

Ladies and gentlemen

Thobela; Goeie more; Avuxeni; Good morning

I, Gerson Phetole Molapisane, rise to accept the responsibility bestowed on me by this Council and the organization I hail from, African National Congress. This responsibility as Vladimir Lenin says, is not measured by the work that one does, rather, it is measured by what can better be executed by a collective.

I want to register a point that alone I will not deliver. My organization says together let us build South Africa. I say “together let us build Greater Tzaneen Municipality”.

We are rising today, 21 days after the recently held local government elections. Members of the public were allowed space to make their choices and they indeed responded. We are here today because of the election outcome. Political parties, political analysts, media houses and every concerned member of society have already reflected in their different capacities on the elections. They have even started prophesying about the next elections. Whether they are right or wrong, ours is to ensure service delivery to the people.

A question is, what is our next move? What do we have for these electorates? How ready are we to bring the much needed changes to our communities?

The democratic local government has gone through various stages since its advent in 1995. For example, Transitional Local Councils from 1995 – 2000; Project Consolidate in 2000 – 2006; Five-year strategic agenda in 2006 – 2011; Turn around Strategies and Back to Basics in 2011 – 2016; Back to Basics and District

Development Model in 2016 – 2021. Given all these, ours is continue from the pedestal laid by our predecessors. And that will be our next move.

On the same wave length, we wish to unreservedly extend a word of appreciation to our predecessors, all former Mayors, Alderman O.J Mushwana; Cllr Dikeledi Mmetle; and Cllr Maripe Mangena. We are standing on your shoulders and are able to see when tomorrow comes. Your efforts will not go unnoticed. I am reminded of t-shirts worn by Burkinabe (citizens in Burkina Faso), bearing the face of former and late African Revolutionary, Isidore Noel Thomas Sankara, written “I am still here”. To me you are still here.

Honourable Speaker and colleagues, there is no need to look back. The voters are still here. I am certain that we have men and women of valor, of energy, of passion to work, committed to make a difference, councillors who will not shelve anything for tomorrow because tomorrow may never come. The Germans say “Vaulenzen menschen zagen immer morgen morgen.” The work to be done is still here. Let us do it.

There are tools already prepared for us. The IDP/SDBIP/Budget were adopted by the previous council. These are tools we will use to deliver services. The quick fixes must be attended to. We cannot afford to delay the services.

We commit to walk and work with everyone in this journey. All stakeholders are as relevant today as they were yesterday. My office will be unleashing a program in no time to engage with these partners.

Of particular importance, we also wish to thank our Traditional Leadership,

Maapara-nkwe a rena, ba ka difokeng, bona baka mafateng a matelele, for their ever-presence and readiness to work with us. We commit to walk this journey with you.

The municipality has been working and producing favourable audit opinions. We will work with administration to ensure that we do not regress. We also appreciate the fact that SALGA will be embarking on a capacity building session to ensure that our councilors are equipped with all mental tools to be effective.

Honourable Speaker, from the election outcomes, I have read two things which voters have silently demonstrated. They are reacting either to our attitude or non-commitment to deliver. In case my reading cannot be doubted, it means therefore, that, we need to embark on individual revival. We need to continue protect our democratic gains. Otherwise we will contribute in pushing them to the doldrums.

In his literature titled "How democracies die", Steven Levitsky writes that democracies do not survive because of political complacency.

Democracy is quite delicate, you want it, you get it, and you either lose or keep it. William Gumede writes about the restless nation and he says democracy cannot be kept in such an environment. I wholly agree with him. The 2021 local government election results have some elements of restlessness. We have to do something to restore that which is lost or eroded. It can even mean doubling our efforts. It includes bridging down the perceived social distance between government and communities.

Honourable Speaker, we need to remind ourselves that Covid-19 is still with us.

We have to abide by the rules, regulations and protocols to protect ourselves including those around us. The Local Command Council meetings should still take as per the ratified itinerary.

We thank everyone in advance who is ready to walk and work with us. We will be unleashing our 100 days' program in no time. This program will be updated on regular basis and shared with all relevant stakeholders between now and end of 100 days.

Honourable Speaker, I wish to mention on behalf of the executive committee that, there are three things to be done:

- 1. To do our work*
- 2. To do our work; and*
- 3. To do our work, because our people are still here.*

Graag verseeker ons u" van ons'n diens. Agter os sal ook in die kraal kom, natuurlek. Baie dankie. Thank you very much. Ha khensa. Re ya leboga.

AMEN
