FOREWORD BY THE MAYOR

CIIr Gerson P. Molapisane

The Mayor

EXECUTIVE SUMMARY

Mr. Donald Mhangwana Municipal Manager

SECTION A: PLANNING FRAMEWORK

PHASE 0: PREPARATORY PHASE

1. LEGISLATIVE FRAMEWORK

1.1 Introduction

The Integrated Development Plan (IDP) process is a process through which the municipalities prepare strategic development plans for a five-year period. An IDP is one of the key instruments for local government to cope with its new developmental role and seeks to arrive at decisions on issues such as municipal budgets, land management, promotion of local economic development and institutional transformation in a consultative, systematic, and strategic manner. To ensure certain minimum quality standards of the IDP Review process and proper coordination between and within spheres of government, municipalities need to prepare IDP review process plan and formulate budget to implement the IDP.

1.2 Legislative Background

The preparation of the IDP and Budget processes are regulated by the Municipal Systems Act, No 32 of 2000 and the Municipal Finance Management Act, No 56 of 2003. This is to ensure certain minimum quality standards of the integrated development planning and budget process and proper coordination between and within the spheres of government.

As the IDP is a legislative requirement it has a legal status, and it supersedes all other plans that guide development at local level. The Municipal Systems Act, No. 32 of 2000 (as amended) and the Municipal

Finance Management Act, No. 56 of 2003 confer the responsibility on the Executive Mayor to provide political guidance over the budget process and the priorities that must guide the preparation of the annual budgets.

In terms of section 53 of the Municipal Finance Management Act the Mayor must also coordinate the annual revision of the integrated development plan in terms of section 34 of the Municipal Systems Act and the preparation of the annual budget and determine how the integrated development plan is to be considered or revised for the purpose of the budget.

The Municipal Systems Act further requires the following regarding the IDP process:

Chapter 5 of the Municipal Systems Act (2000) Section 25 (1) states that: Each municipal Council must, within a prescribed period after the start of its elected term, adopt a single, all-inclusive, and strategic plan for the development of the municipality which:

- a) Links integrates and coordinates plans and considers proposals for the development of the municipality.
- b) Aligns the resources and capacity of the municipality with the implementation of the plan.
- c) Complies with the provisions of this Chapter; and

d) Is compatible with national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

In terms of the core components of the integrated development plan, Chapter 5 of the Municipal Systems Act (2000) Section 26 states that:

An integrated development plan must reflect:

- a) The municipal council's vision for the long-term development of the municipality with special emphasis on the municipality's most critical development and internal transformation needs.
- b) An assessment of the existing level of development in the municipality, which must include an identification of communities which do not have access to basic municipal services.
- c) The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs.
- d) The council's development strategies which must be aligned with any national and provincial sectoral plans and planning requirements binding on the municipality in terms of legislation.
- e) A spatial development framework which must include the provision of basic guidelines for land use management system for the municipality.
- f) The council's operational strategies.
- g) Applicable disaster management plans.
- h) A financial plan, which must include a budget projection for at least the next three years; and
- i) The key performance indicators and performance targets determined in terms of Section 41.

Section 27 stipulates that:

- a) Each district municipality, within a prescribed period after the start of its elected terms and after following a consultative process with the local municipalities within its area, must adopt a framework for integrated development planning in the area.
- b) A framework referred to in subsection (1) binds both the district municipality and the local municipalities around the district municipalities.
- c) The framework must ensure proper consultation, co-ordination, and alignment of the IDP Process of the district municipality and the various local municipalities.

The Municipal Systems act amended in 2024 May made the following provisions

OBJECTS OF AMENDMENTS

- Recognition of the Whip of Councillor as an Office Bearer
- Incorporation of E-communication in Public Participation
- Economic Growth as Core Component of Local Government.
- Inclusion of Climate Change in the IDP
- National and Provincial Government involvement in the IDP.

•	Consultation with Women and Youth.
•	Alignment of Planning Document.
•	Roles and Responsibility on the Municipal Website.
•	Extension of Acting Periods for the Municipal Managers.
•	Record Maintenance and Electronic Communication.
•	Legal Document Handling.
•	Financial Misconduct and UIFW Prevention.
•	Discussion on Special Programs.
•	E-Participation in the IDP Process.

1.3 Alignment between IDP, Budget and PMS

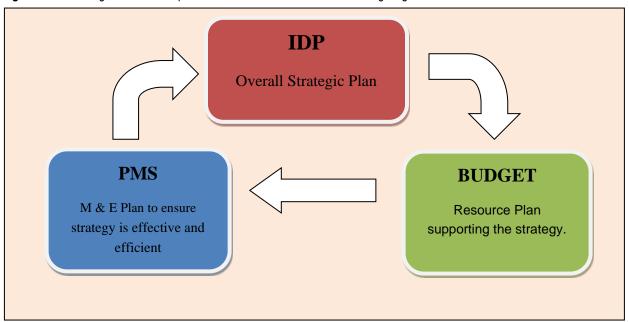

In terms of the Municipal Systems Act, municipalities are required to prepare organisational performance management system that must be linked to the IDP. Tremendous progress has been made with the process of aligning the IDP, Budget and Performance Management System (PMS). Every endeavour is made in the 2025-26 financial year to link and integrated these three processes to an even greater through the Process Plan. It should, however, be noted that the PMS on its own requires an in-depth process comparable to that of the IDP.

Such PMS is tightly linked and guided by the IDP and Budget processes. The PMS process will address the following matters:

- Alignment of the PMS, Budget and IDP processes.
- Implementation of individual performance management system at managerial level.

The IDP, performance management system (PMS) and budget are components of the overall development planning and management system. The IDP sets out what the municipality aims to accomplish, how it will do this. The performance management system enables the municipality to check to what extent it is achieving its aims. The budget provides the resources that the municipality will use to achieve its aims. As indicated earlier, every attempt has been made in this process plan to align the IDP and PMS formulation and the budget preparation process.

Diagram 1: The linkages of the three processes are summarized in the following diagram:

1.4. Powers and Functions

The Greater Tzaneen Municipality has the following powers and functions assigned to it in terms of section 84 (2) of the Local Government Municipal Structures Act, 1998 (Act No 117 of 1998):

Table 1: Powers and functions.

Powers and functions				
No	Powers	Functions		
1.	The provision and maintenance of childcare facilities	Cleansing		
2.	Development of local tourism	Administer pounds		
3.	Municipal planning	Development and maintenance of public places		
4.	Municipal public transport (District)	Refuse removal, refuse dumps disposal		
5.	Municipal public works relating to the municipality's functions	Administer street trading		
6.	Administer trading regulations	The imposition and collection of taxes and surcharges on fees as related to the municipality's functions		
7.	Administer billboards and display of advertisements in public areas	Imposition and collection of other taxes, levies and duties as related to municipality's functions.		
8.	Administer cemeteries, funeral parlours, and crematoria	Provision and Maintenance of Municipal roads/streets		

Powers and functions				
No	Powers	Functions		
9.	Control of public nuisances	Management of municipal airfields		
10.	Control of undertaking that sell liquor to the public	Provision of environmental health services		
11.	Ensure the provision of facilities for the accommodation, care, and burial of animals			
12.	Fencing and fences	Develop and administer markets		
13.	Licensing of dogs	Development and maintenance of municipal parks and recreation		
14.	Licensing and control of undertakings that sell food to the public	Regulate noise pollution		
15.	Administer and maintenance of local amenities	Receipt and allocation of grants made to the municipality		
16.	Development and maintenance of local sport facilities	Provision of electricity		
17.	Municipal public transport (District)	Other powers as enshrined in section 83, schedule 4(b) of the Municipal		

1.5. Basis for the IDP Review Process

1.5.1. National Planning Context

Following the 2024 May National elections, the Government of National Unity was formed. The Medium-Term Development Plan as unpacked by President during the 2025 State of the Nation Adress, highlighted the following three strategic priorities:

- to drive inclusive growth and job creation;
- to reduce poverty and tackle the high cost of living;
- to build a capable, ethical and developmental state.

As the local we need to align our IDP and budget to these national priorities.

1.5.2. Provincial Planning Context

After the May 2024 General Elections, Limpopo Provincial Government embarked on a process to align the Limpopo Development Plan with the MTDP of the GNU. In the words of the Limpopo Premier,

"The Limpopo Development Plan was developed to guide the provincial planning for the next five years.

The LDP 2025-2030 is a strategic blueprint designed to propel our province towards **sustainable growth**, **economic resilience** and **social upliftment**. It serves as an implementation instrument of the National Development Plan, a guiding framework for provincial departments and municipalities, including the private sector, fostering collaboration across sectors to tackle critical challenges such as unemployment, poverty and inequality".

1.5.3. Local Planning Context

At local level, several fundamental issues impact on the planning processes of the Greater Tzaneen Municipality. The municipality planning is informed by National Priorities, Provincial and District programmes such as MTDP, New Growth Path, NSDP, LEGDP and District Growth and Limpopo Development Plan are key plans to be considered by our municipality in the process of planning. The GTM strategic planning process that took place in December took this alignment into cognisance.

IDP structures, roles, and responsibilities:

Table 2

Structure	Composition	Responsibilities
1. Council	Members of Council	 Final decision-making structure on the IDP, Budget and PMS Consider and approve the IDP, Budget and PMS Process Plan Approval of the Reviewed IDP, Budget and SDBIP Monitors the conclusion of management performance agreements
2. Executive Committee	Executive Committee members	 Manage the drafting of the IDP, Budget and PMS Process Plan Co-ordinate the annual revision of the IDP, Budget and PMS in terms of section 34 of the Municipal Systems Act Monitoring of the IDP, Budget and PMS process. Assign responsibilities in this regard to the Municipal Manager Make recommendations to Council for the adoption and approval of the Draft and Final IDP and Budget.
3. Municipal Manager	Municipal Manager	 Accounting Officer on the management of the IDP, Budget and PMS process. Identify and appoint officials in charge of different roles. Ensure that the contents of the IDP, Budget and PMS satisfy the legal requirements and the requirements as stipulated by various legal statutes. Ensure that all relevant stakeholders are appropriately involved in the drafting of the IDP, Budget and PMS. Submission of draft SDBIP to the Mayor within 14 days after approval

Structure	Composition	Responsibilities
		 The submission of the annual financial statements to the AG within two months after the end of the Financial Year. Submission of the Draft and Final IDP to COGHSTA and Treasury within 10 days after approval
4. IDP Steering Committee	- Municipal Manager (Chairperson) - Directors - Managers - Senior IDP Officer, & IDP Officer - PMS Officers - EPWP Officer - Compliance Officer - Disaster Management Officer - Sector Departments	 Serve as a working committee of the IDP, Budget and PMS. Ensure integration between the IDP, PMS and Budget by adhering to process plan. Ensure alignment with National and Provincial Departments and District Municipality plans.
5. IDP Representative Forum	- Members of Council - Senior Municipal Officials - Traditional Authorities - Ward Committee Representatives - NGO's and CBO's - State Owned Enterprises - National and Provincial Departments - Youth, Women, Elderly, Children and Disability organisations.	 Provide an organizational mechanism for discussion, negotiation and decision-making between the stakeholders inclusive of all spheres of government. Ensure communication between all the stakeholder representatives inclusive of all spheres of governance. Monitor the performance of the planning and implementation process.

2. OVERVIEW OF THE PROCESS

1.1 IDP PHASES

Phase 0- Preparatory phase

During the preparatory phase, the identification of stakeholder's structures and sources of information will take place where after the Representative forum will be reconstituted to ensure representation. The process plan will be submitted to the Representative Forum for approval.

Phase 1- Analysis phase

During the Analysis phase, the review and updating of baseline information, to align statistical data with current economic realities within communities, as well as the compilation of service delivery backlogs will take place. Recommendations will be made with regard to possible interventions. The Representatives Forum will be granted the opportunity to scrutinize the IDP Analysis in order to make inputs and submit proposals. **Public Participation** will be done wherein Ward Councillors will be consulting communities about their needs and priorities for the next financial year.

Phase 2- Strategies phase

The development of appropriate strategies (taking cognizance of the technical analysis and community priority issues) will take place at the IDP Steering and Executive Committees level. The identified strategies will be confirmed at an IDP Representative Forum meeting to be convened at conclusion of the Strategy Development Phase.

Phase 3- Projects phase

The development of potential local level projects (in line with the strategies identified) will take place at local level and be communicated to communities through the representatives at the Representative Forum. The draft projects proposal will be discussed at the IDP Steering and Executive Committees and finally confirmed at a meeting of the IDP Representative Forum at the completion of the project –planning phase.

Phase 4- Integration phase

The integration of the various projects and programmes at local municipality level will take place through the IDP Steering Committee. Integration at a district level will take place at meetings to be convened by the District Council between the various local municipalities and the District Municipality.

Phase 5- Approval phase

During the approval phase, copies of the draft IDP will be made available at all the major public centres. Notices inviting the public to comment on the draft document will be published in the press as well as through notices at public places. Copies will be also provided to Council for adoption prior to submission to the relevant MEC for assessment.

Phase 6 - Monitoring and Evaluation

Following the adoption of the IDP, the Service Delivery and Budget Implementation Plan (SDBIP) will be developed and submitted to the mayor for approval. The SDBIP will serve as the tool for monitoring project implementation and institutional performance. Quarterly project progress reports will also be made available to the Representative Forum.

2.2 District Framework

Table 4: Mopani District Municipality IDP Framework for July 2024 – June 2025

IDP PHASES	TIME FRAMES
Preparatory phase	By the 31 August 2024
Analysis Phase	By the 30 September 2024
Strategies Phase	By the 31 October 2024
Project Phase	By the 30 November 2024
Integration Phase	By the 31 January 2025
Approval Phase (Draft IDP/BUDGET)	By the 31 March 2025
Approval Phase (Final IDP/ BUDGET)	By the 31May 2025

2.3 IDP, Budget and PMS Calendar

The detailed timeframe for conducting the various activities of the IDP, Budget and PMS process is summarized as follows:

2.3.1 IDP and Budget Process Plan/ Calendar for July 2024 – June 2025

TARGET DATES	ACTIVITIES	CONVENER	STAKEHOLDERS			
	Phase 0 – Planning Phase					
July – August 2024	Development of the IDP, Budget and PMS Process Plan	Chief Operations Officer	Strategic Support and Budget & Performance Reporting Offices.

23 August 2024	Rep Forum meeting (Process Plan)	Mayor and EXCO	Mayor, EXCO, Speaker, Whip, All Councillors, MM, Directors, External stakeholders, Sector Departments, Ward Committee Reps.			
27 August 2024	Table the Process Plan to Council	Speaker	Members of Council			
10-13 September 2024	Engagements with internal Departments (Analysis Phase – Status Quo)	MM/ COO/SIDPO	Directors, Managers & Designated Officers.			
	PHASE 1 – A	nalysis Phase				

TARGET DATES	ACTIVITIES	CONVENER	STAKEHOLDERS
17 September 2024	IDP Steering Committee (Analysis Phase)	MM	MM, Directors and Managers, PMS Officer, Individual Performance Management Officer, Senior IDP Officer, Senior IDP Officer, IDP Officer EPWP Officer.
September- December 2024	Capture the IDP in the mSCOA classification on system	Chief Operations Officer	Strategic Support.
4 October 2024	Rep Forum meeting (Analysis Phase presentation)	Mayor and EXCO	Mayor, EXCO, Speaker, Whip, All Councillors MM, Directors, External stakeholders, Sector Departments, Ward Committee Reps.
October 2024	Preparations and submission of 3 - 5 Years proposed Projects	All Directors	Directors, Managers and all officials
Oct-Dec 2024	Download the latest mSCOA chart for implementation for use in budget compilation.	CFO (Manager Financial Services)	CFO
	Phase 2 – Str	rategies Phase	
22 November 2024	IDP Steering Committee (Preparation for the Strategic Session)	MM	MM, Directors and Managers, PMS Officer, Individual Performance Management Officer, Senior IDP Officer, Senior IDP Officer, IDP Officer EPWP Officer.
10 - 13 December 2024	Municipal Strategic Planning Session	Mayor and MM	Mayor, Speaker, EXCO, All Cllrs, MM, Directors, Managers and external stakeholders
November 2024	Portfolio Committee meetings – Needs prioritization	Portfolio Chairpersons and Heads	Portfolio chairpersons and Heads, Ward Cllrs and ward committee members, Directors.
21 Jan 2025	IDP Steering Committee (Strategies Phase presentation)	MM	MM, Directors and Managers, PMS Officer, Individual Performance Management Officer, Senior IDP Officer, Senior IDP Officer, IDP Officer EPWP Officer.
17 Jan 2025	Review Financial position	CFO	MM & Directors

TARGET DATES	ACTIVITIES	CONVENER	STAKEHOLDERS
17 Jan 2025	Draft initial allocations to functions: Budget	CFO	MM & Director
17 Jan 2025	Start preparing draft budget and plans for the next 3 years	All Directors	MM, Directors and Managers
17 Jan 2025	Submit 6 months actual figures to Directors	CFO	MM & Directors
23 Jan 2025	Adjustment Budget meetings with Directors and Managers	CFO	Directors & Managers
23 Jan 2025	Draft Budget meetings with Directors and Managers	CFO	Directors & Managers
30 Jan 2025	Budget request submitted to Chief Financial Officer and MM	Directors	CFO
January 2025- March 2025	Mid-year budget and performance assessment visits	Provincial Treasury	National Treasury, Provincial Treasury, COGHSTA, Directors, IDP and PMS officer
Jan-March 2025	Compilation of detail budgets-mSCOA classification across segments (MTREF)	CFO (Manager Financial Services)	CFO
February 2025	Draft Adjustment Budget	CFO	Mayor, EXCO, MM and Directors
07 Feb 2025	Rep Forum meeting (Strategies Phase)	Mayor and EXCO	Mayor, EXCO, Speaker, Whip, All Councillors MM, Directors, External stakeholders, Sector Departments.
03 Feb 2025	Submit Adjustment Budget Requests to CFO and MM for consideration	CFO (Manager Financial Services)	CFO & MM
03 Feb 2025	Finalise Adjustments, Discussed on Directors meeting	CFO	MM, CFO & Directors
07 February 2025	Present adjustments to be included in Adjustment	CFO	Mayor, Speaker, Finance Chairperson, MM & CFO

TARGET DATES	ACTIVITIES	CONVENER	STAKEHOLDERS
	Budget (Budget Steering Committee)		
07 Feb 2025	Budget Steering Committee meeting to Discuss 2025/26 Draft Budget and 2024/25 Adjustment Budget.	Chairperson of Budget Steering Committee	Budget Steering Committee
14 Feb 2025	Approval of adjustments by Budget Steering Committee	Budget Steering Committee	Budget Steering Committee
	Phase 3 – Project Phase and	d Phase 4 – Integ	ration Phase
17 Feb 2025	Finalize detailed IDP projects, PMS and Sector plans for next 3 years.	MM	MM, Directors & Managers
21 Feb 2025	*Finalise adjustment Budget Report and present to Budget steering committee *Submit Budget Requests to	CFO (Manager Financial services & Rep	CFO
	Budget Steering Committee. Finalise projects to be included in the Draft Budget		
25 Feb 2025	Council to adopt Adjustment Budget	Mayor & EXCO	EXCO and All Councillors
26 Feb 2025	EXCO to Discuss Adjustment Budget	Cluster Chairperson	Finance Cluster Committee
11 March 2025	IDP Steering Committee (External Projects, Integration Phase, Draft IDP and Budget)	MM	MM, Directors and Managers, PMS Officer, Individual Performance Management Officer, Senior IDP Officer, Senior IDP Officer, EPWP Officer.
15 March 2025	Present Draft Budget to Budget Steering Committee	CFO	Budget Steering Committee
18 Mar 2025	EXCO meeting (Draft IDP and Budget)	Cluster Chairperson and CORP	Finance Portfolio Committee and Council Support
20 March 2025	Rep Forum meeting (External Projects, Integration Phase, Draft IDP and Budget)	Mayor	Mayor, EXCO, Speaker, Whip, All Councillors MM, Directors, External stakeholders, Sector

TARGET DATES	ACTIVITIES	CONVENER	STAKEHOLDERS
			Departments, Ward Committee Reps
27 March 2025	Finalise Draft Budget Report and Schedules	CFO, Manager Financial Services	CFO
	Phase 5 – Ap	pproval Phase	
27 March 2025	Council Adopts the Draft IDP & Budget	Mayor and EXCO	EXCO and All Councillors
31 March 2025	Schedule format and upload	CFO (Manager Financial Services)	CFO
April 2025	Public Participation On Draft IDP and Budget	PPP, Strategic Support & Budget	Community and Stakeholders, All Councillors.
03 April 2025	Publish Preliminary Budget and Draft IDP in newspapers and make it available on Councils website	CFO	Communication
04 April 2025	Submit Draft IDP and Budget to National Treasury, Provincial Treasury, COGHSTA and Mopani District Municipality	CFO and MM	National Treasury, Provincial Treasury, COGHSTA and Mopani District Municipality
April 2025- May 2025	Budget and benchmark assessment	Provincial Treasury	National Treasury, Provincial Treasury, COGHSTA, Directors, IDP and PMS officer
13 May 2025	IDP Steering Committee (Final IDP and Budget)	MM	MM, Directors and Managers, PMS Officer, Individual Performance Management Officer, Senior IDP Officer, Senior IDP Officer, IDP Officer EPWP Officer.
20 May 2025	EXCO (Submit Final IDP/Budget changes to finance Study Group for consideration	Cluster Chairperson and CORP and Council Support	Finance Portfolio Committee
19 May 2025	Present final Budget to Budget Steering Committee	CFO	Budget Steering Committee

TARGET DATES	ACTIVITIES	CONVENER	STAKEHOLDERS
16 May 2025	Representative Forum Meeting (Final IDP and Budget)	Mayor and EXCO	Mayor, EXCO, Speaker,Whip, All Councillors MM, Directors, External stakeholders, Sector Departments, Ward Committee Reps

2.3.3 Implementation of the IDP, Budget and PMS Process Plan for 2024/25

The Process Plan unfolded as initially adopted by Council in August 2024. The dates on the process plan were adhered to. The public participation Will be done in all the 35 wards in April 2024

Table 7: The summary of implementation key timeframes:

IDP Phases	Planned Date	Implemented Date
Preparatory phase	By the 30st of August 2024	23 August 2024
Analysis Phase	By the 30 ^{th of} September 2024	04 October 2024
Strategies Phase	By the 30 th October 2024	11 th -13 th of December 2024
Project Phase	By the 28thFebruary 2025	19th March 2025
Integration Phase	By the 30 ^{th of} March 2025	19th March 2025
Approval Phase (Draft IDP/BUDGET)	By the 31st Mach 2025	27 th March 2025
Approval Phase (Final IDP/ BUDGET)	By the 31 ^{st of} May 2025	May 2025

2.3.4 Public participation outcome

The Public Participation for the 2024/2025 IDP / Budget will be done in all the **35** wards. The following table consists of inputs and comments received from stakeholders:

Update on key issues raised during 2023 public participation.

- Water
- Roads maintenance and upgrading to tar/paving
- Electricity
- Sanitation
- Education

2.3.5 External Institutional Arrangements for the IDP Process

2.3.5.1 <u>District IDP Representative Forum and Planning Forum</u>

Greater Tzaneen Municipality participated in the District IDP Representative Forum and IDP Steering committee meetings as well as IDP Managers Forum to ensure the alignment of its processes, Spatial Development Framework and Strategies with that of Mopani District Municipality.

2.3.5.2 Provincial Development Planning Forum

Greater Tzaneen Municipality participates in the Provincial Development Planning Forum meetings and the District Development Forum to ensure the alignment of its processes, Spatial Development Framework, Limpopo Development Plan and Strategies with that of the province.

2.3.6 MEC comments

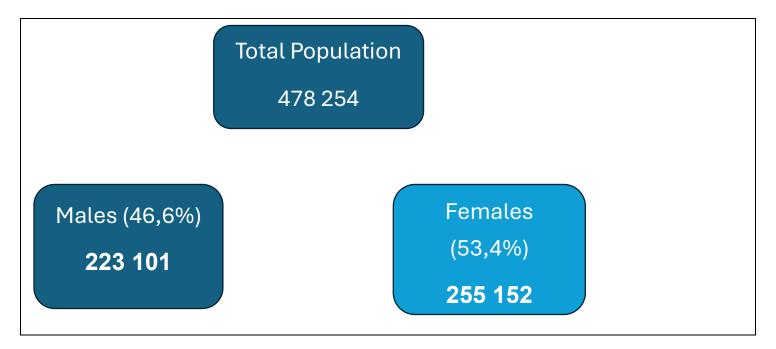

The Integrated Development Plans for all Municipalities in Limpopo were assessed by the MEC of Cooperative Governance Human Settlements and Traditional Affairs. The Greater Tzaneen 2024/25 IDP Final Assessment results are as follows:

IDP Content	IDP SDBIP Alignment	Sector Plans (Outdated)	Improvement Measures
Satisfactory	Aligned-Sustained	SDF, IWMP, Energy Master Plan, Environmental	GTM should liase with ESKOM and LEDET to
		Management Plan	review the plans.

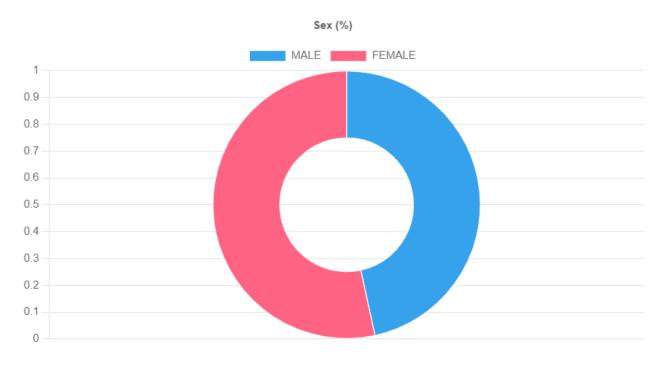

3. MUNICIPAL PROFILE

3.1 Population of Greater Tzaneen Municipality

According to the Statistics South African's Census 2022, the population of Greater Tzaneen Municipality has increased from 390 095 to 478 254 (an increase of 88 159 as compared to 14 504 in 2011) comprising of 223 101 males (Census 2011, 181 558) and 255 152 females (Census 2011, 208 536). Females still outnumber males (46.6%) as they comprise 53,4% of the population (53,5% during Census 2011). Youth aged 15-34 constitute 31,7% (151 866) of the total municipality population.

Population graph

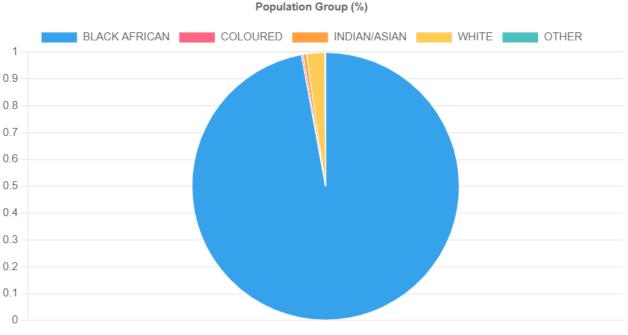

Population by gender

Gender disparity prevails in the municipality; this is evident from the sex ratio. For every 100 females in the Greater Tzaneen Municipality, there were 87 males.

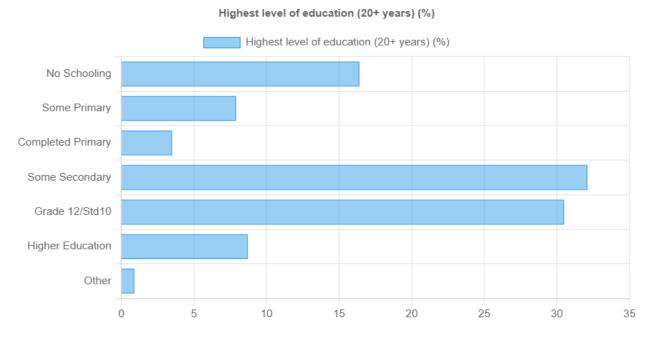

Population pyramid by age group and gender

The Greater Tzaneen Municipality population is highly youthful with males less likely to reach the age of 85 as compared to females. Life expectancy at birth for females is clearly higher than that of males. UN says that the **demographic window of opportunity** is **open** when "the proportion of youth under 15 falls below 30 per cent and the population of people 65 years and older is still below 15 per cent". In case of Greater Tzaneen Municipality, the demographic window of opportunity is currently closed however slightly moving towards opening as the aged population is below 15% and the child population is 1,4 percentage point slightly higher than the 30% threshold.

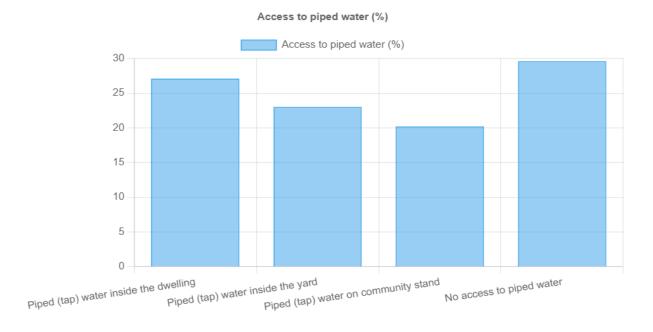

Population by race

Black African population dominates the municipality followed by White population.

Below 10% of the population aged 20 and above went through higher education in 2022, while 16 in every hundred population aged 20 and above had no schooling. Slightly above 30 % of population aged 20 and above had matric.

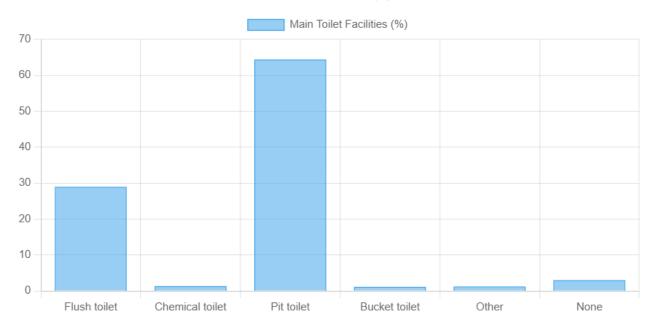

Census 2022

Access to piped water

Seven out of ten households (70,4 %) had access to piped water either inside the dwelling, inside the yard or on community stand, while approximately three out of ten households (29,6%) did not have access to piped water.

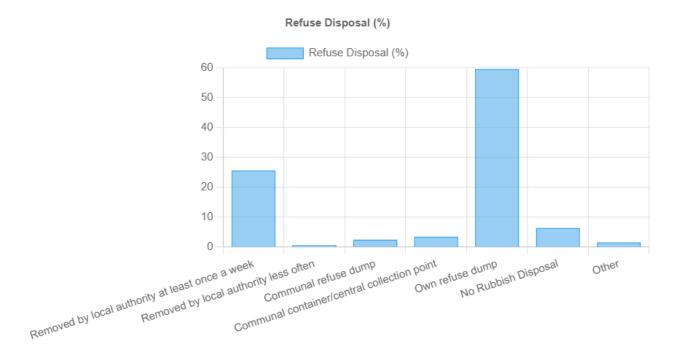

Main Toilet Facilities (%)

Census 2022

Sanitation

For every three households in the Greater Tzaneen municipality, one had access to a flush toilet system while over 60% of the households had access to Pit toilet. Households with no access to sanitation decreased significantly in 2022 as compared to 2011.

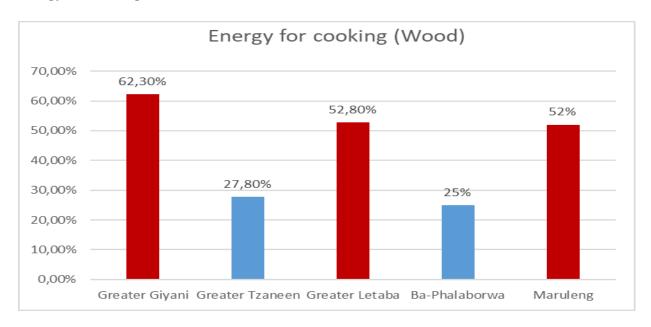

Census 2022

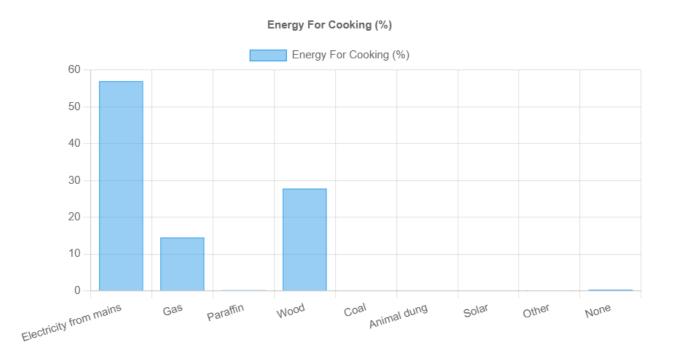

Refuse removal

Approximately 60% (one out of six) of the Greater Tzaneen Municipality households used own refuse dump as compared to a quarter (25%) whose refuse is removed by local authority once a week. The Municipality recorded the least households with no rubbish disposal as compared to other Local municipalities within Mopani district.

Energy for Cooking

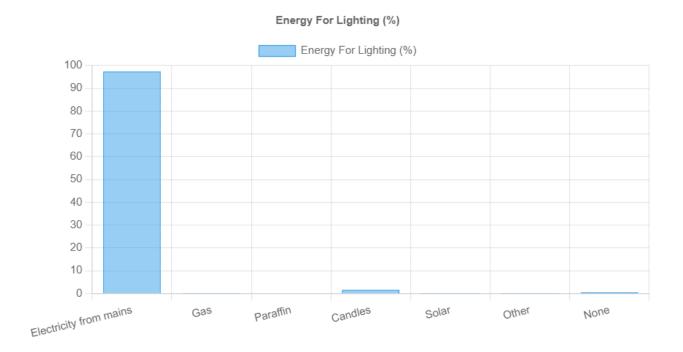

Census 2022

Census 2022

Fifty-seven percent of the Greater Tzaneen municipality households used energy from mains for cooking as compared to 28% of households which used wood for cooking. This was second lower than all local municipalities within Mopani district following Ba-Phalaborwa municipality with only a quarter (25%) of their overall households used wood for cooking.

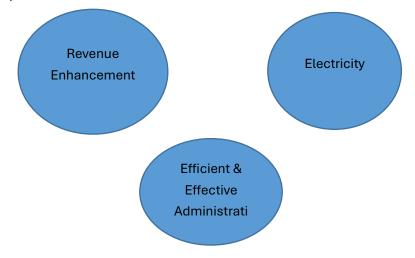

Energy for lighting

Electricity was the main source of lighting for the Greater Tzaneen Municipality at 97,4% compared to 86,2 % in 2011.

3.2 Municipal priorities

Diagram 2: Three apex areas

SECTION B: SITUATIONAL ANALYSIS

4. PHASE 1: ANALYSIS PHASE

KPA 1: SPATIAL RATIONALE

1. Spatial Analysis.

1.1. Legislative framework

- Constitution of the Republic of South Africa, Act 108 of 1996.
- Municipal Systems Act No 32 of 2000
- Spatial Planning and Land Use Management Act ,2013(Act 16 of 2013) SPLUMA
- GTM SPLUMA By-law of 2017

The objective of SPLUMA is:

"To provide a framework for spatial planning and land use management in the Republic, to specify the relationship between spatial planning and land use management system and other kind of planning; to provide for the inclusive, development, equitable, and efficient spatial planning at different spheres of government; to provide a framework for monitoring, coordination and review of spatial planning and land use management system; to provide a framework of policies, principles, norms and standards for spatial development planning and land use management; to address past spatial and regulatory imbalances; to promote greater consistency and uniformity in the application procedures and decision making by authorities responsible for land use decisions and development application; to provide for the establishment, functions and operations of Municipal planning Tribunals; to provide for facilitation and enforcement of land use and development measures; and to provide matters connected therewith".

To date the municipality has made significant stride in streamlining the process leading towards full implementation of via "SPLUMA".

- a) The SPLUMA by law has been Gazetted on the 25th of August 2017.
- b) Resolution to establish a Municipal Planning Tribunal has also been passed by council, council resolution B9.
- c) The Municipality have appointed a Municipal Appeal Tribunal which is functional.
- d) The Spatial Development Framework was Gazetted on 25 October 2024.
- e) The Municipality has an approved Land Use Scheme funded by Rural Development and Land Reform which include all rural areas.
- f) The Land Use Scheme was Gazetted on the 02nd of February 2024.

1.2. Purpose of spatial analysis

The purpose of the spatial analysis is to ensure that the municipality's spatial strategies and land use management decisions are based on general awareness of:

- a) Spatial Constraints, problems, opportunities, trends, and patterns.
- b) The necessity for spatial restructuring.

- c) The need for land reform
- d) The Spatial dimension of development issues.
- e) To review the targets and access progress made pertaining to backlogs.
- f) Align the policy prescripts to those of Province and National Governments

1.3. Achievements/Progress

GTM reviewed Spatial Development Framework (SDF) for 2024 -2029 period agreed on the following spatial objectives and strategies.

1.4. Spatial Objectives

Table 13: Objectives and the descriptions

NO	OBJECTIVES	DESCRIPTION
1.	Objective 1	Environmental integrity and sustainability through achieving a balance between safeguarding natural resources,
2.	Objective 2	Integration, synergy and linkages between urban and rural areas supported by appropriate infrastructure.
3.	Objective 3	Community based spatial planning and enforceable land use management
4.	Objective 4	Correction of the historically distorted spatial patterns of settlement with optimum use of existing infrastructure
5.	Objective 5	Achieving integrated development at community
6.	Objective 6	Monitoring and evaluation of achievement in service delivery
7.	Objective 7	Optimum use of existing resources including agriculture, forestry, renewable energy
8.	Objective 8	Reduced settlement sprawl and more compact formalised settlement through densification, infill development and diverse, mixed land uses
9.	Objective 9	Rapid economic growth that is sustained and inclusive.

1.5. SPATIAL STRATEGIES

The achievement of the Spatial Objectives of the GTM is anchored on:

- a) Support of natural /inherent potential
- b) Anticipation of growth and timeous action and
- c) Manipulation and intervention

Table 14: The strategies to achieve the objectives are presented below:

NO	STRATEGIES	DESCRIPTION
1.	Strategy A	Shifting from road to rail in Greater Tzaneen
2.	Strategy B	The continuous upgrading of the R40 route as high mobility regional route
3.	Strategy C	Increasing accessibility to the proposed regional cargo airport facility at Tzaneen
4.	Strategy D	Diversifying and strengthening the Greater Tzaneen Economy Agriculture
5.	Strategy E	Determine surplus infrastructural capacity areas and plan to optimize utilization.
6.	Strategy F	Place development at and in proximity to existing arterial routes.
7.	Strategy G	Support economic growth opportunities by creating the spatial and infrastructural framework for economic and commercial purposes.
8.	Strategy H	Anticipate growth and plan ahead, both spatially and physically.
9.	Strategy I	Concentrate municipal development in the identified development potential areas.

1.5.1. Spatial challenges regarding Land Use Management Tools

- Slow development is rural / Traditional area.
- Limited of funding for township establishments/extensions in rural areas

1.5.2. Challenges for Settlement and Development

Challenges		Possible Solutions
a) The settleme	ent patterns are highly rural.	
b) Unequal dis	ribution of services	
c) Poor levels	of infrastructure in rural areas	
-	nvironmental degradation due to soil sed by overgrazing and deforestation	
e) Unemploym	ent	

	Challenges	Possible Solutions
f)	High Crime rate	
g)	Emigration	
h)	Underdevelopment	
i)	Lack of Poverty alleviation Project	
j)	Land Invasions	
k)	Occupation of grazing land	
I)	Inadequate provision of distribution centres and storage facilities	

1.5.3. Informal Settlement and Land Invasions

The following areas are identified as informal settlement in the jurisdiction of the jurisdiction of Greater Tzaneen Municipality.

- a) Burgersdorp Extension
- b) Gabaza Extension
- c) Mohlaba Cross
- d) Kuwait

1.5.4. Challenges for informal settlements

Challenges for informal settlements	Possible Solutions	
a) No space to build public.		
b) There are no Internal streets.		
c) Lack of Access roads		

1.6. Land invasion on state land under traditional council

There is an increased number of Land invasion. People invade land which is not occupied. most of the land fall within the jurisdiction of the state under the trust of traditional leaders. Some of these areas are wet land, some are earmarked for business development.

- 1.6.1. Other illegal occupations identified by Greater Tzaneen Municipality took place in the following areas.
 - a) Morokolotsi, near the atchar processing firm.
 - b) Dan Extension 2
 - c) Runnymede
 - d) Lenyenye, adjacent to Lydenburg road
 - e) Tzaneen Extension 105 (Talana)
 - f) Mafarana Lydenburg road
 - g) Burgersdorp
 - h) Lefara Extension

- i) Burgersdorp
- j) Khopo Extension
- k) Nwamitwa`s Location

1.6.2.

Challenges	Possible Solutions
a. People building in wetlands and floods lines.	
b. Lacks basic services and infrastructure.	
c. Criminal activities.	
d. High Cost of formalization.	

1.6.3. Opportunities (Land availability)

The following are spatial opportunities existing within the municipality.

1.7. Capital investment framework.

- 1.7.1. The compilation of capital investment framework for the implementation of the Spatial Development framework is comprised of the following components.
 - a) Purchase of land
 - b) Geotechnical and land survey
 - c) Environment Impact Assessment
 - d) Township establishment
 - e) Legal work
 - f) Rehabilitation, revitalisation, and improvement of infrastructure
 - g) Development of libraries
 - h) Upgrading of electricity stations

The cost to this component is extremely variable as proximity and capacity of bulk services and the level of services impact on the end cost per unit. Refer to GTM SDF 2024-2029.

1.7.2. Land Vacancy

- a) The Municipality has a lot of vacant land on the state land under Traditional council custodianship which could be used for development.
- b) The Municipality must work together with traditional leaders to utilize the land.
- c) High vacancy rate of land attracts illegal occupation and breeds opportunity for crime.

1.7.3. Migration

The municipality has been experiencing migration pattern which is a good sign in terms of labour availability.

1.7.4. Private Sector Investment

The private sector has been responding well by investing in our area through development of shopping malls in towns and rural areas.

1.7.5. Provision of planned Integrated Human Settlement

Greater Tzaneen municipality lead / spearhead the provision of planned integrated human settlement.

Table 15: Integrated human settlement

Township	Status
Tzaneen Extension 78	Proclaimed
Tzaneen Extension 70	Proclaimed
Tzaneen Extension 88	Proclaimed
Tzaneen Extension 100	Not yet Proclaimed
Tzaneen Extension 98	Not yet Proclaimed
Tzaneen Extension 105	Proclaimed
Dan Extension3	Not yet Proclaimed
Letsitele Extension 8	Not yet Proclaimed
Politsi Extension 1	Proclaimed

1.8. LAND USE MANAGEMENT TOOLS

Regulations and policies are primary tools for Land Use and development management.

- a) Spatial Development Framework (SDF)
- b) IDP (Integrated Development Plan)
- c) Greater Tzaneen Land Use Scheme, 2024
- d) Spatial Planning and Land Use Management by -Law of Grater Tzaneen Municipality
- e) Spatial Planning and Land Use Management Act, 2013

1.8.1. Land claims.

Table 16: The following communities lodged various land claims.

No	Claimant	Status	Comment
1.	Kgatle Community	Restitution Process finalised	Strategic Partner appointed.
2.	Berlin Community	Restitution Process finalised	Land awarded to berlin CPA
3.	Bathlabine Ba Mogoboya Land Claim phase 1	Land restored	Operational
4.	Bathlabine Ba Mogoboya Land Claim phase 2	Land restored	Operational
5.	Bathlabine Ba Mogoboya Land Claim Phase 3	Land restored	Operational
6.	Bathlabine Ba Mogoboya Land Claim Phase 4	Land restored	Operational

No	Claimant	Status	Comment
7.	Maitjene Community Phase 1	Still in process of finalising restitution	Portion of Mashutu, Cheerios and Fairview farms
8.	Maitjene Community Phase 2	Still in process of finalising restitution	Pending
9.	Bakgaga Ba Maake Phase 1	Land restored	Operational
10.	Mapaana Community	Land restored	Operational
11.	Letsoalo Community	Land restored	Operational
12.	Letsoalo Mathunyeng	Land restored	Operational
13.	Makgoba Mamphoku Community Phase 4	Still in process of finalising restitution	Sapekoe farm
14.	Mokgolobotho CPA	Still in process of finalising restitution	Portion of Ledzee Farm

1.8.2. Degradation of the Natural Resources

The Greater Tzaneen Municipality has a variety of natural resources in an in a form of fauna and flora. Water remains the source of life and is obtained from various catchment. There are plenty of fish which are both found in both the dams and rivers. Haenertsburg boast many species which attract tourists. The mopani trees are also found in some areas within our jurisdiction. if these natural resources are not cared for the following challenges will be prevalent

1.8.3.

CHALLENGES	POSSIBLE SOLUTIONS
a) Fish in danger in case of drought.	
b) Water is being depleted.	
c) Water is being depleted.	
d) Environment impact of underground water.	
e) Lack of precious metals	
f) Endangered species around Haenertsburg	

1.9. GROWTH POINTS

According to Mopani Spatial Development perspective 920070 a growth point is a town/village where some form of economic and social and institutional activities and substantial number of people is found. These growth points seem to have a natural potential, but do not develop their full potential to the fact that capital investment is made on an ad hoc basis without any long-term strategy for the area. The GTM Spatial Development Framework (2024-2029) identified the following growth points.

Traditional Authorities Land - Southern Area

- Mohlaba Cross Sasekani
- Mafarana -Tsako-Bonn
- Burgersdorp /Ramalema /Sunnyside / Myakayaka
- Mogoboya /Longvaley / craighead villages
- Dan Extension/Nkowankowa
- Letsitele /Mariveni

Traditional Authorities Land - Nothern Area

- Jokong Village
- Semarela /Kheopeng
- Runnymede /Xihoko
- Lwandlamuni/Fofoza /Nwamitwa /Mandhlakazi Villages

The following Nodal Growth points have Economic potential.

- Tzaneen (National)
- Nkowankowa (National)
- Dan Village
- Lenyenye
- Letsitele

1.10. Hierarchy of settlement

The proposed settlement hierarchy is as follows:

First order settlement which are further divided into three categories, viz:

- a) Provincial Growth Point (PGP)
- b) District Growth Point (DGP)
- c) Municipal Growth Point (MGP)
- d) Second Order Settlement (Population Concentration Points)
- e) Third Order Settlement (Local Service Points)
- f) Fourth Order Settlement (Village Service Area)
- g) Fifth Order Settlement (Remaining Service Area)

Table 17: Development areas

No	Development Area	Designation	Affected Town &	Function	Development Focus
	Area		Villages		
1.	1st Order Growth Points: High Potential for development. Have sizable economic sector providing jobs. Has regional function and large number of social and institutional facilities. High Population	Tzaneen (National growth Point)	Tzaneen	Residential, Business, Industries, institutional	To sustain the area as primary development area through receiving priority for provision and encouragement of residential, infrastructural, social and economic development. Acquisition of land and township establishment timeously provide for serviced sites. Priority for Tourism development (Tzaneen Dam, Tourism Information centre revitalization. Construction of Provincial by –pass road to receive priority.
2.		Nkowankowa (national Growth Point) Lenyenye (District Growth Point)	Nkowankowa Dan, Mokgoloboto, Mohlabaheadkraa I Petanenge Lenyenye ,Sasekani , Mohlaba , Moime	Residential, Business, Industries, institution	To become the primary development area which attract people from the region or beyond, through the creation of a conducive environment for business industrial and institutional development. Unlocking the development potential of the towns to attract investors and retain spending. Acquisition of land and Township establishment to timeously provide for serviced sites. Prevention of illegal settlement. priority to provide and encourage residential, formal business, industrial, infrastructural, social, and economic development. Revival of Binzulani centre and Nkowankowa industrial

No	Development Area	Designation	Affected Town & Villages	Function	Development Focus
					Formalization of informal settlement and prevention of urban sprawl. Community and village tourism development.
					Upgrading of R36 of High priority.
3.		Burgersdorp (Municipal Growth Point)	Burgersdorp, Maake, Gabaza , Rita , Myakayaka , Makhwibidung , Matselapata , Shiluvana	Residential, Business, Industries, Institutional	Second Priority for residential, infrastructural, social, and economic development. Development of a community Hall Priority provision of a regional cemetery Community and village cemetery development
4.		Moleketla /Mandhlakazi (Municipal Growth Points)	Moleketla,Mopye ,Motupa, Jokong ,Thako ,Moruji , Sethong , Relela ,Bokhuta , Fobeni/Khubyana/ Marironi /Khubyana /Mbhekwan/Nwa mitwa /Lwandlamuni Rwand	Residential, Business, Industries, Institutional	Second priority for residential, infrastructural social and economic development Development of a community Hall Development of a filling station with taxi rank and Hawker facility Priority for the development of Nwamitwa shopping centre Community and village tourism
5.		Letsitele (Municipal Growth Points)	Letsitele , Mariveni ,Makotlo, Khwitini	Residential, Business, Industries, Institutional	Third Priority for residential, infrastructural, social, and economic development. Priority Tourism development.

1.11. Strategically Located Land.

- a) All the vacant land on the periphery of Tzaneen, Nkowankowa nodes of which most of them have already been ceded to the municipality.
- b) Opportunities exist in Nkowankowa and Tzaneen Factory sites.
- c) The Valoyi Tribal Authority vacant land for shopping mall.

1.12 RECOGNAITION AS AN INTERMEDIATE CITY.

The Department of COGHSTA Limpopo has recognised the Greater Tzaneen Municipality as an immediate city. This means that the GTM is able to transit fast into becoming a city.

2. SOCIAL ANALYSIS

2.1 HUMAN SETTLEMENTS/ HOUSING

Legislative Framework

The following acts/legislations regulate all matters relating to Housing in our country:

Legislation	Summary/Scope of Legislation
Constitution of the Republic of South Africa, Act 106 of 1996, Chapter 2, section 26 (1)	Everyone has the right to have access to adequate housing.
Housing White Paper, 1994	To provide a framework for future provision of sustainable housing in the country
Housing Act no 107 of 1997	 To provide for the facilitation of a sustainable housing development process; For this purpose, to lay down general principles applicable to housing development in all spheres of government, To define the function of national, provincial, and local governments in respect of housing development.

1.1.1 The Functions of National Government

The Minister must:

- a) determine national policy, including national norms and standards, in respect of housing development.
- b) set broad national housing delivery goals and facilitate the setting of provincial and, where appropriate, local government housing delivery goals in support thereof.
- c) Monitor the performance of the national government and, in co-operation with every MEC, the performance of provincial and local governments against housing delivery goals and budgetary goals.

2.1.2 The Functions of Provincial Government

Every Provincial Government must through its MEC-

- a) determine provincial policy in respect of housing development.
- b) promote the adoption of provincial legislation to ensure effective housing delivery.
- c) take all reasonable and necessary steps to support and strengthen the capacity of municipalities to effectively exercise their powers and perform their duties in respect of housing development.
- d) co-ordinate housing development in the province.
- e) take all reasonable and necessary steps to support municipalities in the exercise of their powers and the performance of their duties in respect of housing development.

f) when a municipality cannot or does not perform a duty imposed by this Act, intervene by taking any appropriate steps in accordance with section 139 of the Constitution to ensure the performance of such duty; and

2.1.3 The Functions of Municipalities

Every municipality must, as part of the municipality's process of integrated development planning, take all reasonable and necessary steps within the framework of National and Provincial housing legislation and policy to-

a) Ensure that-

- (i) The inhabitants of its area of jurisdiction have access to adequate housing on a progressive basis.
- (ii) Conditions not conducive to the health and safety of the inhabitants of its area of jurisdiction are prevented or removed.
- (iii) Services in respect of water, sanitation, electricity, roads, storm water drainage and transport are provided in a manner which is economically efficient.
 - b) set housing delivery goals in respect of its area of jurisdiction.
 - c) identify and designate land for housing development.
 - d) create and maintain a public environment conducive to housing development which is financially and socially viable.
- e) promote the resolution of conflicts arising in the housing development process.
 - f) initiate plan, co-ordinate, facilitate, promote, and enable appropriate housing development in its area of jurisdiction.
 - g) provide bulk engineering services, and revenue generating services in so far as such services are not provided by specialist utility suppliers; and
 - h) Plan and manage land use and development.
 - The role of the municipality is mainly to coordinate the identification of sites, beneficiaries and monitoring the construction process.

2.1.4 State of housing in the municipality

- Municipality provide mostly rural housing subsidies. Since 1995 to date units built is 12 510.
- There was an allocation of 255 units 2022/23 financial year and 445 units for 2023/24 financial year respectively.
- <u>Talana CRU</u>: Feasibility study, designs, and packaging was completed in 2022/23 financial year. Coghsta has advertised for the appointment of the consulted to lead the implementation of the project.
- <u>Accreditation level 1</u>: The Municipality has been accredited for Level 1, and the implementation protocols have been signed

2.1.5 Current National Housing Programmes

- Integrated Residential Development Programme.
- Upgrading of Informal Settlements
- Provision of Social and Economic Facilities
- Housing Assistance in Emergency Circumstances
- Social Housing Programme
- Institutional Subsidies
- Community Residential Units Programme
- Individual Subsidy Programme
- Rural Subsidy: Communal Land Rights
- Consolidation Subsidy Programme
- Enhanced Extended Discount Benefit Scheme
- Rectification of Certain Residential Properties Created Under the Pre-1994 Housing Dispensation

2.1.6 Housing Consumer Educations

Beneficiaries were trained on consumer housing education.

2.1.7

HOUSING CHALLENGES	POSSIBLE SOLUTIONS
Allocation of houses from the department versus the demand of the Municipality does not meet the Municipality demands.	
Pioneers Old Age home, there are Seventy-nine (79) people on the waiting lists and GTM has only 37 units which are all occupied, the Municipality must consider increasing the units to align with the demand.	
Insufficient land for development	
Land grab on tribal land/unauthorised demarcation of land.	
Selling and Renting of RDP houses by beneficiaries especially on greenfield development.	
Slow action by COGHSTA on reported cases	

2.1.8 Backlog in the provision of housing in the municipality

- Municipality housing backlog is standing at Eleven thousand, seven hundred and forty-five (11 745) pending the review
 of beneficiaries on the national housing needs register.
- Middle Income backlog is standing at one thousand five hundred and sixty-three (1 630)
- The untouched blocked project standing at 78 units.
- Touched blocked project are standing at 135 units.

2.1.9 Gender mainstreaming in the Housing sector

- Housing is important in that it provides a place to live and a shelter for human beings. Traditionally, it is a place of work for women and more recently a place for homeworking for women and men in the labour market.
- Factors such as men and women employment patterns can and do affect access to housing for women. Low incomes,
 part time employment and lower pensions mean that many women may have limited access to housing. Evidence also
 shows that homelessness is experienced in a different way by men and women with different causes and outcomes.
- The cost of housing, whether owner occupied or rented, relative to people's income, is a significant issue for women. A number of factors may mean that they experience greater difficulties in accessing finance.
- A range of issues around home ownership, provision of social infrastructure such as transport, shopping and leisure
 facilities need to be viewed through a gender lens in order to mobilise policies around the strategy to mainstream gender
 equality in the housing sector.
- The issue of discriminatory inheritance practices also puts women and children in the streets.
- There is a need to prioritise women headed families for housing/human settlement.

2.1.10 Disability mainstreaming on the Housing sector.

- Disabled people are twice as likely to be social housing tenants, less likely to own their own homes and more likely to
 live in 'non-decent' homes.
- There is a need to ensure that the housing requirements, aspirations and experiences of disabled people are reflected in during the housing provisioning processes.

- Lobby for the need to introduce the supply and efficient use of accessible housing in our municipality.
- A need to prioritize disabled persons in the provision of housing in our municipality.

2. PROPERTY

3.1 Legislative Framework

The following acts/legislations regulate all matters relating to Property in our country:

Legislation	Summary/Scope of Legislation	
Constitution of the Republic of South Africa, Act 106 of 1996, Chapter 2, section 25		
Municipal property rates act 6 of 2004 and Act 12 of 2007	 To regulate the power of a municipality to impose rates on property. 	

3.2 Powers and Function

- The role of the municipality is the management of Council property through lease and sale.
- Power to levy rates i.t.o chapter 2 of the MPRA 6 of 2004

3. LAND

4.1 Legislative Framework

The following acts/legislations regulate all matters relating to Land in our country:

Legislation	Summary/Scope of Legislation
Restitution of Land Rights Act no 20 of 1994.	 To provide for the restitution of rights in land in respect of which persons or communities were dispossessed under or for the purpose of furthering the objects of any racially based discriminatory law. To establish a Commission on Restitution of Land Rights and a Land Claims Court

4.5 Transfer and acquisition of Land

Department of Public works transferred land to GTM	Portion 7,8,9 and 11 of Moime to GTM
Possible land to be transferred to Greater Tzaneen Municipality by Department of agriculture, land reform & rural development.	 Proposed Portion 24 Muhlaba's Farm location. 567LT. still outstanding.
Possible land to be transferred to Greater Tzaneen Municipality by Dept of Rural development and land reforms	 Haenertsburg town and town lands.
Possible Land to be transferred to Greater Tzaneen Municipality	 Haenertsburg Town and Town land Portion 149 of the Farm Tzaneen Portion 23 Farm Gelukauf 497LT
Coghsta through HDA has appointed a service provider for township establishment. The township establishment complete and registered with the deeds office. Namely Tzaneen extension 105	The Township establishment is proclaimed as Tzaneen extension 105. And

	registered with deeds office.
Acquired Land by Greater Tzaneen Municipality	Coghsta appointed service provider for township establishment, the new township is Letsitele extension 8. The process is at an advance stage.

4.6 Land Analysis

Greater Tzaneen Municipality comprises of land area of approximately 3240 km² and extends from Maribethema in the West to Rubbervale in the East, and from South of Modjadjiskloof in the North to Trichardsdal /Julesburg in the South. The municipality is predominantly rural in nature, with vast areas of land is the state land on the Trust of Traditional Authorities thus: Modjadji Traditional Authority, Baloyi Traditional Authority, Nyavana Traditional Authority, Bakgaga Traditional Authority, Mokgoboya Traditional Authority, Bankuna Traditional Authority, and part of Mmamabolo Traditional Authority.

The space- economy land of the Greater Tzaneen Municipality is dominated by the five proclaimed towns which include Tzaneen Town, Nkowankowa, Letsitele, Lenyenye and Haenertsburg. In addition to the aforementioned towns, approximately 125 settlements of varying size are scattered system. These are mainly concentrated within the North-Eastern and South- Eastern extends of the Municipality.

a) Lenyenye

- Lenyenye is land locked.
- Department of agriculture, land reform & rural development is in the process of transferring extension 3, 4, 5 and 6 to Greater Tzaneen Municipality. The process is at the advance stage. Transfer documents has been signed by all parties.
- The Municipality only owns Parks, Municipal Offices, Taxi rank, streets and Stadium.
- Land grab at the periphery of the town for purposes of accessing services. this has negative impact to those who pay services.

b) Nkowankowa

- The Town is landlocked which prevent future development however the remainder portion of 567LT Muhlaba's location on the Northern part can be used for extension of the boundary of the township.
- The Municipality owns few pieces of land with the majority being zoned parks and schools, which some of them can be rezoned for development of residential and commercial/business.
- Land grab at the periphery of the town for purposes of accessing services, this has negative impact to those who pay services.

c) Letsitele

- Letsitele is also landlocked by privately owned land and Berlin Farm has been transferred to Berlin communal property association (CPA).
- The Municipality is owning portion 2 of Novengilla, the process of township establishment is at an advance stage.

d) Haenertsburg

- The town is not yet transferred to Council is still a property of the National and provincial Department of Public Works.
- There is consensus to transfer portion of the land to GTM Council however there is a delay. We have sought intervention of HDA.
- We have requested a date for a meeting regarding the progress with the Department of Public Works and LEDET, they will give us a date of a meeting.
- Consensus has been reached between GTM and Public Works, however we have also requested assist from MEC of COGHSTA.

e) Tzaneen town

- Tzaneen Town is a Provincial Growth Point.
- Industrial and Business Development is concentrated in Tzaneen Town. According to SDF, residential, formed business, industrial, infrastructural, social and economic development should be encouraged in Tzaneen Town.
- Bulk infrastructure, insufficient water, sewer and electricity supply presents a serious threat to the new development.

f) Politsi

Portion 14 and 34 of the farm Dwarsfontein 541LT was purchased by Council for the purpose of farm worker housing.
 HDA to assist with the planning process. Town planner to do township establishment has been appointed.

KPA 2: BASIC SERVICES AND INFRASTRUCTURE

CIVIL ENGINEERING SERVICES

Key Achievements For The Past Five Years

Purchase of 2 Waste Removal Compactor Trucks and 2 Graders

Backup Generators at Civic Centre, George's Valley Water Purification Plant, Tzaneen Dam Water Purification Plant, Aqua Park Booster Pump Station and Letsitele Water Works.

Installation of passenger lift at Civic Centre and certification with DOL

Internal design and planning of streets in town and townships for rehabilitation projects.

Annual allocation of budget for upgrading and rehabilitation of streets.

1. PROGRAMME 1: WATER & SEWER

1.1. Legislative Framework

The following acts/legislations regulate all matters relating to water and sanitation in our country:

Legislation governing water and sanitation.

No	Legislation	Summary/Scope of Legislation
1.	Constitution of the Republic of South Africa, Act 106 of 1996	Chapter 2, section 27 (1) (b): Everyone has the right to sufficient food and water; Schedule 4 (B): Water and Sanitation services
2.	Water Services Act 108 of 1997	To provide for the rights of access to basic water supply and basic sanitation. To provide for the setting of national standards and of norms and standards for tariffs. To provide for water services development plans. To provide a regulatory framework for water services institutions and water services intermediaries.

No	Legislation	Summary/Scope of Legislation
		To provide for the establishment and disestablishment of water boards and water services committees and their powers and duties.
		To provide for the monitoring of water services and intervention by the Minister or by the relevant Province.
		To provide for financial assistance to water services institutions.
		To provide for the gathering of information in a national information system and the distribution of that information.
		To provide for the accountability of water services providers; and
		To provide for the promotion of effective water resource management and conservation.
3.	National Water Act 36 of 1998	To provide for fundamental reform of the law relating to water resources; to repeal certain laws
4.	SANS 241:2015	Provides for monitoring of drinking Water and setting of minimum and maximum levels of determinants.
5.	Water and Wastewater by-laws (Mopani District Municipality)	Provides for regulation of water and wastewater use as well as its relevant management requirements.
6.	ISO 17025:2005	Specifies the general requirements for the competence to carry out tests and/or calibrations, including sampling by water laboratory.
7.	National Environmental Management 107 of 1998 Act No.	To provide for co-operative, environmental governance by establishing principles for decision-making on matters affecting the environment, institutions that will promote co-operative governance and procedures for co-ordinating environmental functions exercised by organs of state; and to provide for matters connected therewith.

1.2. Powers and functions on provision of water and sanitation services

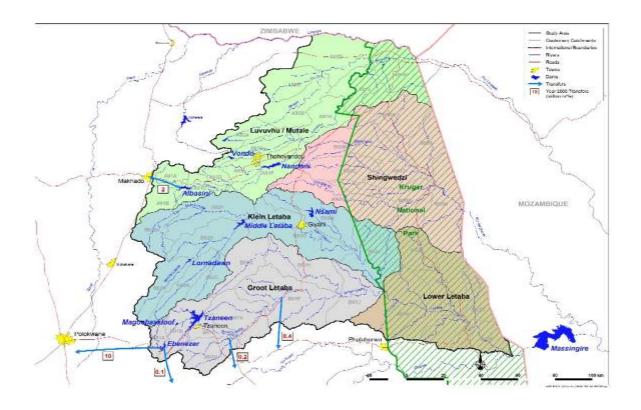

Greater Tzaneen Municipality is the Water Services Provider (WSP) as per Service Level Agreement signed with Mopani District Municipality (MDM) who are the Water Services Authority (WSA) in terms of the Water Services Act 108 of 1997. The agreement has been signed for a period of three years from 01 July 2022 and has been extended until 30 June 2025. The municipality is responsible for operation and maintenance of the Tzaneen Dam Water Treatment Plant, George's Valley Water Treatment Plant, Letsitele Water Treatment Plant, Tzaneen wastewater treatment plant and the water and wastewater distribution network. The service area for the municipality in the agreement incorporates Tzaneen, Letsitele, Haenertzburg,

Nkowankowa and Lenyenye. The municipality is responsible for the effluent quality management of wastewater treatment on at Tzaneen town. The municipality also supplies water through water tankers in various villages as a remedial measure.

1.3. Water catchment areas and water sources in the municipality

The Groot Letaba catchment falls within the Luvubu-Letaba Water Management Area (WMA), one of the 19 WMAs into which South Africa is divided. Human settlement, agricultural production and tourism between the Drakensberg escarpment and the Kruger National Park have placed demands on the water resources of the Groot Letaba River which can no longer be met within reasonable risks of shortages from the existing infrastructure. (Source: DWS)

Due to this situation the Department of Water and Sanitation (DWS) is reassessing how best to manage the supply of water from the <u>Groot Letaba River system</u>. The system includes Dap Naude Dam, Ebenezer Dam, Tzaneen Dam, and other smaller dams. Practical implementation of water releases for the Reserve in the Groot Letaba River system is being investigated. Investigations include an assessment of the yield characteristics of all available resources in the river system serving the wide variety of user sectors and abstraction points. Mopani district is a Water Services Authority (WSA), and all its Local Municipalities have Water Service Provision (WSP) Agreements in place. The surface water in urban areas and rural areas served through boreholes. MDM lies within and is benefitting from the following water catchment areas: Groot Letaba for GLM & GTM, Olifant for MLM & BPM and Klein Letaba for Giyani. Greater Tzaneen municipal area falls within the Letaba/Levubu catchment area.

Source: DWS Web

Great Letaba River Catchment Area

Letaba Catchment = 13 670 km²

Mean annual precipitation (MAP) = 612 mm

Mean annual evaporation = 1 669 mm

Mean annual runoff (MAR) = 574 million cubic metres (range from 100 to 2 700 million cubic metres)

Mean annual runoff (MAR) in the Letaba Catchment varies from more than 10% of the mean annual precipitation (MAP) in the wet mountainous zone to less than 2% in the drier parts of the catchment. More than 60% of the MAR in this catchment derives from only 6% of the area.

More than 20 major dams have been constructed in the Groot Letaba River Catchment. The Tzaneen Dam on the Great Letaba River is one of the largest dams in the Limpopo Province. Other large dams in the catchment include the Ebenezer and Magoebaskloof.

As mountain and foothill streams, the Great Letaba, Letsitele, Thabina, Debengeni and Magoebaskloof rivers have very diverse in-stream habitats. The river channels contain steep bedrock and fixed boulder rapids with cascades and occasional waterfalls. Cobble riffles occur in lower gradient sections. Deep pools are present in all river sections.

1.4. Water sources and quality

Table 19: Greater Tzaneen Municipality is supplied through these streams:

No	Area Served	Plant/Water Source	Capacity	Proposed capacity	Managed by	
1.	Letsitele	Letsitele WTW	1.8 MI/d	5 MI/d	GTM	
2.	Lenyenye	Thabina WTW	12 MI/d	18 MI/d	MDM	
3.	Tzaneen	George's Valley WTW	9.0 Ml/d	15 MI/d	GTM	
		Tzaneen Dam WTW	6.0 MI/d	12 MI/d	GTM	
4.	Nkowankowa	Ritavi WTW	24 MI/d	36 MI/d	MDM	
5.	Haenertsburg and Maribe-Thema	Ebenezer WTW	52 MI/d	74 MI/d	Lepelle N Water	
6.	Bolobedu South	Thapane WTW	4.5 MI/d	12 MI/d	MDM	
7.	N'wamitwa Nkambako WTW		12 MI/d	N/A	MDM	
8.	Politsi Politsi WTW		5.5 MI/d	10.5 MI/d	Lepelle Northen Water	
9.	Tours	ours Tours WTW		8 MI/d	MDM	
10.	Rural Segments Boreholes		Various	-	MDM	

1.5. Tzaneen Municipality Water Storage Capacity

The combined total storage capacity in Greater Tzaneen is made up of 105 storage facilities totalling 109 Ml/day. However, 27 of the facilities with a total capacity of 11Ml/day are currently non-operational. This means that the currently available storage capacity is 98 Ml/day (from only 66 facilities). The Current Demand is 28 Ml/day and if losses are factored in, the demand increases to 36 Ml/day. This means that there is currently a storage surplus of 70Ml/day in the municipality. However, if we factor in the losses, the surplus decreases to 62 Ml/day.

1.6 PRODUCTION OF WATER AND WASTEWATER TREATMENT WORKS FOR WSP

1.1.6 Water Treatment Plants

Item	Tzaneen Dam WTW	George's Valley WTW	Letsitele WTW
Owned by:	GTM	GTM	GTM
Present capacity MI/d	6	8.6	1.8
Proposed capacity	12	15	5
Water Allocation per Annum	1230000	2370000	418269
Raw water abstracted	7.951	7.622	1.229
Monthly purified water MI/d	7.407	7.380	1.131
Water loss (%)	3.1	3.2	8.0

1.1. Wastewater Treatment Works.

Item	Present capacity	Proposed capacity
Tzaneen WWTW	8ML	13ML

1.7 WATER QUALITY

Water is used for domestic, industrial, agricultural, and recreational purposes. To ensure that it is acceptable for human consumption, the water quality should comply with South African Standard (SANS) 241:2015 Standard.

There are three main aims when treating water for portable use, are:

- Safe for Human consumption-The first and most important requirements is that the water must be safe for human consumption, i.e. it will not have a negative effect on health, either in the short term (acute effect) or over a long period of time (chronic effect)
- Aesthetically acceptable that the water must be acceptable to the user from an aesthetical point of view, i.e. it must appear attractive and should not contain any tastes, odours, colour or turbidity.
- Stability- Purified water is conveyed to the user in a pipe system, which is normally laid underground to minimize
 damage to and breakage to the pipes. To prevent deterioration of this expensive asset, the water that it
 conveyed should neither corrosive nor scale forming (i.e. forming calcium carbonate precipitates or deposits)

1.8 WATER QUALITY LABORATORY

Tzaneen Central Laboratory is responsible for the sampling and analysis of drinking water for Tzaneen, Letsitele, Lenyenye, Tours, Thabina, Nkambako, Thapane, Semarela, Haenertsburg, Bonne village, Khetone village and analysis of Wastewater effluent for Tzaneen sewer, Nkowankowa sewer and Lenyenye ponds.

Drinking water quality is guided by SANS 241:2015 for Physical, Chemical and Microbiological determinants. Sewage water is guided by License or general waste guidelines.

Tzaneen town's drinking water is supplied by Two Water Treatment works which is Tzaneen Dam Plant and Georges Valley Plant. Letsitele town's drinking water is supplied by Letsitele Water Works.

1.9 PURPOSE OF CONDUCTING WATER TESTS

The laboratory analyze drinking water to check if it complies with the SANS 241:2015 that specifies the quality of acceptable drinking water, defined in terms of microbiological, physical, and chemical determinants. Sewage effluent is also analyzed to check the effectiveness of the treatment process and that the final effluent discharged into the river meets the License requirements and is not harmful to the environment.

Testing the water allows a knowledgeable approach to address the specific problems of a water treatment and supply. This helps ensure that the water source is being properly protected from potential contamination, and that an appropriate treatment process is selected and is operating effectively.

It is important to test the suitability of your water quality for its intended purpose, whether it is livestock watering, irrigation, spraying, or drinking water. This will assist in making informed decisions about your water and how you use it and how to be treated.

1.8 GREEN DROP STATUS

Water Service Institution	Mopani District Municipality				
Water Service	Mopani District Municipality			Mopani District Municipality	
Providers	Tzaneen Local Municipality				
Municipal Green Drop Sco	ore	Vroom Impression (Towards restoring functionality): 1. ASP not in service			
2021 Green Drop Score	32%□	Grit equipment not repaired under contract Only one of the three biofilters is in use			
2013 Green Drop Score	37%	Disinfection infrastructure in poor condition Clarifier weirs and baffles in poor condition			
2011 Green Drop Score	52%	Sludge units not accessible for inspection VROOM Estimate:			
2009 Green Drop Score	0%	- R11,904,000

Green Drop Score (2021)		61%	26%
Key Performance Area	Weight	Tzaneen	Nkowankowa
2013 Green Drop Score		94%	25%
2011 Green Drop Score		84%	78%

Green Drop findings: Tzaneen received a high score as results of flow monitoring and effluent quality compliance on 1 of 3 parameters. Source: Green Drop report, Limpopo, 2022.

Green Drop findings:

- Mopani are partially compliant on operational and supervisory staff at the WWTWs, with access to maintenance teams, whilst no qualified engineering, technical and scientific staff could be verified
- Financial information and asset registers were absent or incomplete for all systems. Budgets or maintenance plans are not informed by asset age or condition
- Most of the systems have both process audits and W2RAPs but could not provide proof of the implementation of the findings
- The DM has bylaws and provide proof of the implementation / enforcement thereof
- Tzaneen received a high score as results of flow monitoring and effluent quality compliance on 1 of 3 parameters

1.9 PROVISION OF FREE BASIC WATER (FBW) AND FREE BASIC SANITATION (FBS) IN THE MUNICIPALITY

The high level of unemployment of youth and high percentage of children and the aged, a considerable number of households are headed by pensioners who in turn support scholars. This situation is expressed clearly from dependency ratios tabled below.

1.10 Households Dependency

Municipality Number of households dependent on one for living			
Greater Municipality	Tzaneen	Households Dependency ratio	60,9

Source: Census 2022, STATSSA

1.12 OVERALL WATER AND SANITATION CHALLENGES

Challenges	POSSIBLE SOLUTIONS
a) GTM is not a Water Service Authority.	
b) Aged and dilapidated infrastructure.	Expand Infrastructure Rollout.
c)Outsourcing of Basic Services.	Reduce Outsourcing of services.
d) Inadequate Preventative Maintenance.	Review the WSA/WSP Agreement with favourable terms
	to the municipality.
e) Non-compliance with the WSA/WSP Agreement resulting in financial loss.	Implementation of the WSA/WSP Agreement.
f) WTW are producing below the current demand.	Engage MDM to develop the Water Conservation and Demand Management Plan.
g) Unutilized/underutilized water resources.	Effective utilization and maintenance of existing WWTW.
	Rehabilitate Existing services in line with WSA/WSP agreement
	Perform random testing of water samples and submit to MDM.
	Request MDM to modify the design of the WWTW or
	introduce alternative technologies.

2. ROADS AND STORMWATER

2.1. Legislative Framework

The following acts/legislations regulate all matters relating to roads and storm water.

Legislation	Summary/Scope of Legislation
National Roads Act no 7 of 1998	 To make provision for a national roads agency for the Republic to manage and control the Republic's national roads system and take charge, amongst others, of the development, maintenance, and rehabilitation of national roads within the framework of government policy; for that purpose, to provide for the establishment of The South African National Roads Agency Limited, a public company wholly owned by the State. To provide for the governance and management of that company ("the Agency") by a board of directors and a chief executive officer, respectively, and to define the Agency's powers and functions and financial and operational accountability and regulate its functioning. To prescribe measures and requirements about the Government's policy concerning national roads, the declaration of national roads by the Minister of Transport and the use and protection of national roads;
Constitution of South Africa act no	- Make provision for maintenance of local roads
108 of 1996, Schedule 5B	,
General Conditions of Contracts of 2015	-

2.2. Powers and Functions on Roads and Stormwater

- Greater Tzaneen Municipality is responsible for providing and maintaining local roads as stated in Schedule 5B of the Constitution of the Republic of South Africa, 1996. These roads in the main entail streets within the built-up areas which are mostly rural villages.
- All the Provincial and District "D" roads are within the function of the Department of Public Works, Roads, and Infrastructure as per Notice for Declaration of Provincial Roads in General Notice 217 of 2014 in the Limpopo Provincial Gazette Extraordinary of 13 June 2014. The department utilizes the services of the Roads Agency Limpopo (RAL) to rehabilitated and upgrade the provincial and district roads.

DRAFT IDP 2025/ 2026 Page **59** of **406**

- The Department of Transport own the National roads and has appointed the South African National Roads Agency Limited SOC Ltd (SANRAL) which is responsible for the management, maintenance, rehabilitation, and development of South Africa's proclaimed National Road network which includes the Regional "R" routes segments within the municipality.

2.3. BACKLOGS

BACKLOGS (ROADS)					
ТҮРЕ	TOTAL LENGTH	TOTAL SURFACED	PERCENTAGE SURFACED	BACKOLG	PERCENTAGE BACKLOG
National Roads	173km	173km	100%	0	0%
Provincial Roads	821km	429km	52%	392km	48%
Municipal Roads	3091km	301.6km	9.8%	2788.4km	91.2%
Total = 4086 km					

2.4. Availability of Roads and Stormwater Plan

The Roads and Stormwater Master Plan forms part of a larger macro planning exercise funded by MISA which is primarily aimed at strengthening the capacity of the municipality to perform municipal functions and provide technical support in respect to planning and development. The Road Master Plan as approved by Council in August 2018,(to be reviewed) provides the municipality with the technical information about the status quo of road infrastructure, capacity, capabilities, needs and thereby to guide the implementation of Integrated Development Planning (IDP) projects. The Road Master Plan was aligned to the IDP in terms of prioritization and implementation of the identified programmes and projects.

The purpose of the status quo report, is to give an overview of the existing road network in GTM, including:

- a) Key towns, main routes, key economic activities.
- b) Road Network split in relation to Municipal, District, Provincial and National Roads.
- c) Road classification.
- d) Municipal roads infrastructure condition assessment.

DRAFT IDP 2025/ 2026 Page **60** of **406**

- e) Hazardous materials routes; and
- f) Abnormal load routes

2.5. Types/Class of roads and length

- Greater Tzaneen Municipality consists of 4 085.67 km of a total road network. This network comprises of 3091.36 km municipal access roads, 821.31 km provincial (RAL) roads and 173 km national (SANRAL) roads in terms of the current road's classification.
- The road network which Greater Tzaneen Municipality is responsible for is 3 091.36 km in length. About 301.6 km are surfaced roads and 2788.4 km is comprised of gravel / dirt roads in the townships and rural segment of Greater Tzaneen Municipality. The maintenance of gravel roads has since placed an enormous burden on the Greater Tzaneen Municipality maintenance budget, as almost 91% of the road infrastructure consists of gravel / dirt road. Most of the streets in the urban areas of Tzaneen, Nkowankowa, Lenyenye, Letsitele and Haenertzburg are aged and require the overall rehabilitation of layers and surfacing. Officials are constantly pressurized by circumstances and residents to provide full standard roads, but with the current funding level this dream can only become reality over the next 100 years.
- The municipality is responsible for the planning, design, maintenance, construction, and usage of municipal access roads. The municipality does on annual basis allocate budget for further upgrading of roads from gravel to tar / paving (surfacing) utilising the services of Consulting Engineers and contractors for design and construction respectively. The municipality is also required to prevent the deterioration of surfaced roads by conducting preventative maintenance, control of storm wate0r and provision of drainage structures and to surface priority roads.

2.6. Municipal roads and stormwater projects

2.6.1. Table 38: MIG projects for 2024/2025

No	Project Name	Project Status
1.	Upgrading of Topanama Access Road from Gravel to Paving	Construction
2.	Upgrading of Thapane Street from Gravel to Paving	Construction
3.	Upgrading of Lenyenye Streets from Gravel to Paving	Construction
4.	Upgrading of Marirone to Motupa Access Road	Construction
5.	Paving of Zangoma to Mariveni Road	Construction
6.	Construction of Bulamahlo Community Hall	Completed

DRAFT IDP 2025/ 2026 Page **61** of **406**

No	Project Name	Project Status
7.	Leretjeng Sport Complex	Construction
8.	Supply and installation of 10 High Mast Lights in Greater Tzaneen Municipality	Completed
9.	Rehabilitation of Dan Access Road from R36 to D5011	Construction
10	Procurement of 2(two) Waste Vehicle	Completed

2.2.1. The municipality implemented the following roads and stormwater projects through own funding and MDRG.

- a) Nkowankowa internal streets (Tambo to Mashakeni street)
- b) Tlhabine pedestrian bridge
- c) Petanenge pedestrian bridge
- d) Maribethama Pedestrian crossing bridge
- e) Sebone school road (Mokgolobotho Village)
- f) Re-gravelling of Thako to Sefolwe Road
- g) Re-gravelling of Mabushe High School Road in Tickyline
- h) Pulaneng Primary School
- i) Mopye culvert bridge.

2.6.2. Other institution(s) with powers and functions on roads

- a) **Mopani District Municipality** is responsible for grading the gravel "D" roads.
- b) The Department of Public Works, Roads and Infrastructure is responsible for maintenance of tarred and gravelled provincial roads.
- c) RAL is responsible for rehabilitation and the upgrading of provincial roads.
- d) **SANRAL** is responsible for management, maintenance, and development of national roads.

3. BUILDING MAINTENANCE, AND MECHANICAL WORKSHOP

3.1. Legislative Framework

The following acts/legislations regulate all matters relating to Building control.

NO	Legislation	Scope of legislation
1.	National Building Regulations	To provide for the promotion of uniformity in the law relating
	Act no 103 of 1977	to the erection of buildings in the areas of jurisdiction of
		local authorities; for the prescribing of building standards
2.	SANS 10400 on Building	To provide standardization on built environment
	standards	
3.	Occupational Health and Safety	To provide a good working environment that is free and
	Act and facilities regulation	safe for all the employees.
4.	Facilities Regulation Act	To provide standardization and regulations relating to
		facilities
5.	GTM Fleet Management Policy	To provide control measures relating to fleet management
	National Troffic Act of 4000	To applied a source of the state of the stat
6.	National Traffic Act of 1998	To provide municipal fleet that is road worthy and comply
		with the requirement of the act.
7.	Municipal Systems Act of 2000	To provide sustainable and cost-effective fleet
		management

3.2. Municipal Building Maintenance

The unit is as responsible for maintenance of all municipal buildings. Municipal buildings are maintained according to the allocated annual budget, which has not been sufficient to meet all the

DRAFT IDP 2025/ 2026 Page **64** of **406**

needs. Some of the building require major revamping. Crucial adjustments are needed in project designs and planning processes to ensure equal gender benefits. To take a very basic example, the provisioning of toilet facilities for women is inadequate.

The responsibility of the unit includes maintaining all municipal buildings which consists of the following:

3.7. Fleet Management (Mechanical Workshop)

The primary responsibility of the mechanical workshop sub-section is to make vehicles available to the entire users and to put in place control mechanism for various divisions and directorate to implement.

3.8. Fleet Management System

a) The municipality have appointed a service provider to deal with the fleet management system.

3.9 Fleet Management

Challenges	Possible Solutions
a) Old fleet	Re-look into the value chain involving drivers, mechanic, artisans, SCM, process, stores and
	external service providers.
b) Insufficient key stuff including Manager Position	Replacement of old fleet
c) Slow turnaround time in repairing vehicles.	Appointment of key positions

DRAFT IDP 2025/ 2026 Page **67** of **406**

4. ENERGY AND ELECTRICITY

4.1. Legislative Framework

The following acts/legislations regulate all matters relating to energy and electricity.

No	Legislation	Summary/Scope of Legislation
1.	Occupational Health and Safety Act 85 of 1993	 To provide for the Health and Safety of persons at work and for the health and safety of persons in connection with the use of plant and machinery; the protection of persons other than persons at work against hazards to health and safety arising out of or in connection with the activities of persons at work. to establish an advisory Council for Occupational health and Safety; and to provide for matters connected therewith.
2.	National Energy Regulator Act no 40 of 2004	 To establish a single regulator to regulate the electricity, piped gas and petroleum, industries; and to provide for matters connected therewith.
3.	National Energy Act no 34 of 2008	 To ensure that diverse energy resources are available, in sustainable quantities and at affordable prices to the South African economy in support of economic growth and poverty alleviation, considering environmental management requirements and interactions amongst economic sectors. To provide for energy planning, increased generation and consumption of renewable energies, contingency energy supply, holding of strategic energy feed stocks and carriers, adequate investment in, appropriate upkeep and access to energy infrastructure. To provide measures for the furnishing of certain data and information regarding energy demand, supply, and generation; to establish an institution to be responsible for promotion of efficient generation and consumption of energy and energy research.

DRAFT IDP 2025/ 2026 Page **68** of **406**

No	Legislation	Summary/Scope of Legislation
4.	White paper on Renewable Energy 2003	 To bring about integration of renewable energies into the mainstream energy economy. To ensure that the renewable energy resources are used optimally. To ensure renewable energy for rural communities, far from the national electricity grid, remote schools and clinics, energy for rural water supply and desalination, and solar passive designed housing and solar water heating for households in urban and rural settings and commercial applications
5.	Electricity Regulation Act no 4 of 2006	 To establish a national regulatory framework for the electricity supply industry. To make the National Energy Regulator the custodian and enforcer of the national electricity regulatory framework. To provide for licences and registration as the way generation, transmission, distribution, trading and the import and export of electricity are regulated.
6.	South Africa Distribution Codes (All Parts)	 The Distribution Code is intended to establish the reciprocal obligations of industry participants around the use of the Distribution systems and operation of the interconnected power system (IPS). The Distribution Code shall ensure the following: That accountabilities of all parties are defined for the provision of open access to the Distribution systems. That minimum technical requirements are defined for customers connecting to the Distribution system. That minimum technical requirements are defined for service providers. That obligations of participants are defined for the safe and efficient operation of the Distribution System That the relevant information is made available to and by the industry participants

DRAFT IDP 2025/ 2026 Page **69** of **406**

No	Legislation	Summary/Scope of Legislation
		 That the major technical cost drivers and pricing principles of the service providers are transparent The responsibility of the service providers under this Distribution Code shall be: To show no interest in whose product is being transported. To ensure that investments are made within the requirements of the Distribution Code To provide open access, on agreed standard terms, to all parties wishing to connect to or use. The Distribution Codes defines what is understood by non-discrimination through the definition of consistent and transparent principles, criteria, and procedures
7.	National Environmental Management Act 107 of 1998	The objective of the National Environmental Management Act, No. 107 (Act 107 of 1998) (the Act) is: to provide for co-operative environmental governance by establishing principles for decision-making on matters affecting the environment, institutions that will promote co-operative governance, and procedures for co-ordinating environmental functions exercised by organs of state; and to provide for matters connected therewith.

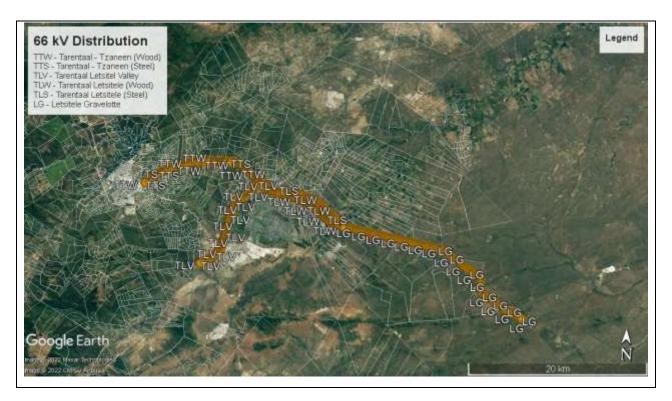

4.2. Distribution area

The municipality is a licensed distributor (NER/D/NP333) with a notified maximum demand of 90MVA and distributes power to approximately 3500 km². The municipality supply electricity to approximately 10742 consumers found in Tzaneen town and the surrounding areas of Haenertsburg, Georgesvalley, Makgobaskloof, Politsi, Campsies Glen, Agatha, Letsitele Valley, Yamorna/Ledzee, Broederstroomdrift, Deerpark, Letsitele, Gravelotte, Waterbok, Letaba Ranch. The municipality electrical network extends to areas that are outside the municipality jurisdiction area, to neighbouring municipalities of Ba-Phalaborwa, Greater Giyani, Greater Letaba and Lepelle Nkumpi at Iron Crown (Haenertsburg). The larger part of the distribution network supplies farming areas through overhead power lines. Through wheeling agreements, the Municipality also supplies Eskom customers in Nkowankowa and Lenyenye, however the wheeling agreement will cease to exist once Eskom

DRAFT IDP 2025/ 2026 Page **70** of **406**

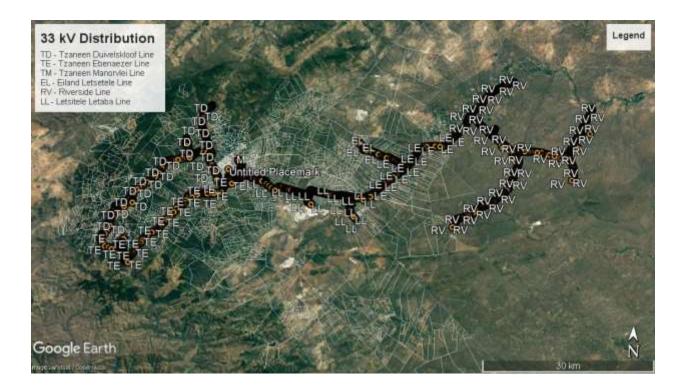

completes their new substation. There are also bulk supply points at Selwane where Eskom purchase electricity from the Municipality.

- (iv) Skirving Peace SS (Urgent refurbishment required)
- (v) Church SS
- (vi) Old SAR SS
- (vii) Adam Circle SS
- (viii) Prison SS
- (ix) Lifestyle SS

4.6. The Load Forecast

The yearly maximum demand at Tarentaalrand main substation ranges from 74MVA and 129MVA against the installed capacity of 180-MVA. The maximum demand of 129MVA (includes Eskom wheeling load). Eskom is busy with the construction of a new 132/66-kV substation at Letaba. The commissioning of the substation will reduce the load by 57-MVA from Tarentaalrand main substation. The municipality's average maximum demand in the past 12 months has averaged at 80MVA. This is due to the steady farming activities which are happening throughout the year. The master plan done in 2016 expected that by 2021 the maximum demand of the municipality would have been 80MVA (2022 maximum demand 83MVA), and 174.9MVA in 2044. The current notified maximum demand is 90-MVA, and it is estimated that it will be reached by 2028. However, the Greater Tzaneen Municipality (GTM) electrical master plan is currently under review, with the historic trend in the GTM load growth used to estimate the maximum demand over the next 20 years.

Graph 8 above shows the Max and Mini Demands used at Tarentaalrand 132 kV Substation over the last 12 Years.

DRAFT IDP 2025/ 2026 Page **75** of **406**

Graph 9 above shows the maximum demand used over the past 12 years.

4.7. Electrical Infrastructure Capital Program

To mitigate some of the challenges of dilapidated infrastructure, the municipality budgeted R34,600,000.00 million from own funding for 2024/25 financial year. The funds will be used to implement capital projects with the objective of improving the GTM electrical network.

Table 40: Own funding Projects for 2024/2025 Financial Year.

No	Project	Progress to date
1.	11 kV and 33 kV Auto reclosers per annum X4	Location identified to install Auto Reclosers at Ebenezer, Eureka, Riverside T-off and Bindzulani.
2.	Monitoring system on GTM electrical network	Awaiting delivery of long lead items software and hardware
3.	Rebuild 66 kV wooden line from Tarentaalrand Main to Tzaneen (20km) in Phases	Busy identifying scope to be executed in the current financial year within available budget
4.	Renewal Repairs and maintenance of Bulk meters and replace current transformers & meter panel Tarentaalrand,	Current transformers for transformer no 2 at Tarentaalrand to be replaced.
5.	Installing of Quality of Supply recorders (Tarentaal Rand, Tzaneen Main, Letsitele Main, Henley, Waterbok, Middlekop, Politsi, Blacknoll, Letsitele Valley	The Specification has been completed. Busy with procurement of service provider

DRAFT IDP 2025/ 2026 Page **76** of **406**

No	Project	Progress to date
6.	Replacement of Box Breakers at Letsitele Main Substation in Phases	Breakers will be installed in the 2024/25 financial year. Awaiting appointment of a service provider.
7.	Replacement of Box Breakers in Main Substations at Tzaneen Main in phases	Breakers will be installed in the 2024/25 financial year. Awaiting appointment of a service provider.
8.	Installation of 11kV Switchgear at Western sub	Breakers will be installed in the 2024/25 financial year. Busy with technical specifications.
9.	Electrical Infrastructure Fencing (22 x Mini sub) Tzaneen, Letsitele & Haenerstburg	48 mini substations were fenced in the 2023/24 financial year, and 20 were approved for execution in the 2024/25 financial year.
10.	Capital Tools	Busy with procurement of critical capital tools
11.	Procurement of Network planning software	The specification has been finalized, awaiting a review and procurement process.
12.	Rebuilding of Letsitele Valley/Bindzulani 11 kv line (5km)	Designs and specification completed, Busy with procurement of a service provider.
13.	Rebuilding of Tarentaalrand/Deerpark 11 kv line (5km)	Designs and specification completed, Busy with procurement of a service provider.
14.	Rebuilding of Duiweskloof 33 kv line (5km)	Designs and specification completed, Busy with procurement of a service provider.
15.	Rebuilding of Taganashoek _ Quality 11 kv line (5km)	Designs and specification completed, Busy with procurement of a service provider.
16.	Replacement of old metering boxes and meters	Busy with specification for metering boxes.
17.	Maintenance Management tools & system	Busy finalising the specifications and acquiring presentation for review.
18.	Electrical Masterplan	Busy reviewing the final draft report

DRAFT IDP 2025/ 2026 Page **77** of **406**

No	Project	Progress to date
19.	Development of Single line Diagram	Completed the 33 kV feeders, busy with 11kV single line diagrams
20.	Supply and installation of 5 solar high mast at ward Morapalala (1), Babanana (11), Khujwana (16), Mokgolobotho (17) & Mafarana (22)	Handing over for 5x High mast lights has been done. Contractors are busy with sourcing of materials.
21.	Supply and Installation of 10 high mast - at Burgersdorp (28), Petanenge (24), Wally (03), Moleketla (09), Sunnyside 4way (35), Shiluvane (27), Hweetji (26), Mawa Block 12 (02), Wisani (32), Mohlakong (07)	All 10x High mast lights have been installed. Mohlakong,Moleketla, Gawalley, Mawa block 12 and Petaneng High mast energized. Awaiting Eskom to confirm closing span for the other 4 High mast lights.

4.8. **Electrical Capital projects** completed in the past three years of through own funding and the DBSA funding to the value of R 66 million. The funds were used for the renewal and maintenance of the dilapidated network. Although the amount acquired was not the ideal amount required, the funds have served as a starting point to stabilize the electrical network.

Table 41: Summary of project scope implemented in the past three years.

No	Overhead lines	Km of line Rebuilt
1.	Ebenezer 33kV line	11.89km
2.	Duiwelskloof 33kV line	7.3km
3.	New Orleans 11kV line	4.66km
4.	Henley 11kV line	2.5km
5.	Haenerstburg_Iron Crown 11kV line	3.3km
6.	Deeside 11kV line	1.75km
7.	California 11kV line	2.5
8.	Monorvlei 11 kV line	2km
9.	Pusela 11 kV line	2.1km
TOTAL		38km

4.9. Other projects

Table 42: Other electrical projects

No	Other Projects	Description of Work done
1.	Auto Recloser 33 &11kV	12
2.	Designs for 66 kV wooden line from Tarentaalrand Main to Tzaneen.	Designs and specification completed. Project to be executed in phases
3.	Renewal Repairs and maintenance of Bulk meters and replace current transformers & meter panel Tarentaalrand.	Current Transformers and metering panel installed on Transformer 3 and 1
4.	Install Bulk current transformers & meter panel Letsitele – Gravelotte line	Metering panel installed at Letsitele Main
5.	Installation stats meter at Rubbervale	Stats measuring unit installed
6.	Tzaneen Main Substation	Install 2x20MVA Transformer
7.	Replacement of box breakers at Letsitele main	2x 33kV Vacuum breaker installed on Transformer 3 and Eiland feeder
8.	Infrastructure Fencing – Minisubs	48 Mini substations have been fenced with hire security fencing
9.	Replacement of Substation Tripping batteries	Letsitele,Tzaneen Main, SS3, Skirving & Peace, SS2 & Tarentaal T-off
10.	Pre-Paid Split Meters	Talana, Tarentaal rand & Politsi

4.12. Energy Efficiency Demand Site Management (EEDSM)

Greater Tzaneen Municipality received a R5 million grant from the Department of Minerals, Resources and Energy (DMRE) for implementing energy efficiency initiatives that encourage using less energy-consuming appliances/ equipment. Reducing Energy (Kw/h) consumption will measure the project's success. In the 2024/25 financial year, the municipality will use the funds to replace Streetlights (Letsitele, Haenetsburg, Lenyenye Aborpark, and Florapark). Furthermore, the program will seek to create temporal employment by hiring qualified graduates to join by providing support in managing the projects.

DRAFT IDP 2025/ 2026 Page **79** of **406**

No	Project	Progress to date
1.		Busy with finalisation of tender
	EEDSM 2024/25	specification and appointment of
	EEDSW 2024/25	graduates to assist with
		implementation of EEDSM project for
		2024/25 financial year.

4.13. Electrification Programme

- As part of the Integrated Electrification Program, Greater Tzaneen Municipality received R
 23,930 million from DMRE for the electrification of households, Pre-Engineering designs, and Bulk infrastructure within the municipal area.
- 6. Table 43: The funds have been utilized on the projects below.

No.	Project Name	Number of Connections	Progress to Date
1	Electrification of Burgersdorp (Colbitz)	123	Busy with mapping
2	Electrification of Rwanda phase 1	82	Busy with procurement of a contractor
3	Electrification of Akanani phase 2	227	Busy with procurement of a contractor
4	Electrification of Mandlakazi phase 3	123	Busy with procurement of a contractor
TOT	AL	555

1	Mawa Block 12 Pre- Engineering		Busy with mapping
2	Khujwana Pre- Engineering		Busy with mapping
3	Xihoko Pre-Engineering		Busy with mapping
4.	Mavele phase 6 Pre- Engineering		Busy with mapping
5	Dan phase 2 Pre- Engineering		Busy with mapping
6	Senopelwa Pre- Engineering		Busy with mapping
BULK INFRASTRUCTURE			

DRAFT IDP 2025/ 2026 Page **80** of **406**

No.	Project Name	Number of Connections	Progress to Date
1	22km Waterbok to Selwane village 11kV line	N/A	Busy with procurement of a contractor
2	5.6km Makhutswe to Burgersdorp 22kV New Bulk Infrastructure		Busy with mapping

6.13 Electrification program

Ch	allenges	Possible solutions
•	Chasing of a moving target caused by	
	the mushrooming of households	
	emanating from new extensions being	
	built, but with limited budget.	
•	Inability to connect new extensions due	
	to shortage of electricity from the	
	electrical grid, especially from Eskom-	
	supplied areas.	
•	Lack of support from Eskom delaying	
	the completion of projects.	
•	There is currently no defined process for	
	registering of backlog and prioritization,	
	leading to conflicts during project	
	selection.	

7. REVENUE ENHANCEMENT

A revenue enhancement strategy was developed with a road map of activities that could be implemented for revenue generating and reduction of electricity losses.

5.1. Table 44: Activities currently being undertaken or in the future.

Project No.	Description	Progress
ELEC-001	Developed stands with no or low consumption (Electricity)	Meters not moving, low consumption, estimated have been identified for all Tariff and are being

DRAFT IDP 2025/ 2026 Page **81** of **406**

Project No.	Description	Progress
		visited for verification. Replace faulty, address EMS to indicate Disconnected meter
ELEC-003	Electricity Prepaid Meter - All Residential Customers	Implementation was approved by council however funding model is required. Currently replaced on customer request.
ELEC-004	Vegetation Control	During the 2023_24 financial year 4 contractors were appointed and a total of 143km of vegetation was cleared.
ELEC-005	GTLM (Greater Tzaneen Local Municipality) Metering at Nkowankowa & Lenyenye	Engagements with Eskom on going. The municipality is busy reviewing the Wheeling agreement.
ELEC-006	Replace Metering at Tarentaalrand Main Substation and Gravelotte (Bulk Intake Points)	Project budget for in 2024_25 financial year (Integrated Development Planning) Phase 3 of 3
ELEC-007	Geographical Location of all LPU meters	Location of 350 meters has been identified, against the 376 as per revenue billing data. On Average, 327 meters are read monthly
ELEC-008	HAMSA Report	Meter audits and replacement of Tariff B customer meters to be done. Shortage of meter stockpiles.
ELEC-009	NMD (Notified Maximum Demand) Increase	This will be reviewed once Eskom's load has been removed from the GTM network and the Electrical Master Plan is completed in the 2024/25 financial year. Eskom plans to move from the GTM electrical network by the 2026/27 financial year.
ELEC-010	Wheeling Agreement	The municipality is busy reviewing the Wheeling agreement, as per the cost of supply study
ELEC-011	AMR (smart metering) for LPUs (large power users)	297 meters are currently being read remotely. High-gain antennas are to be procured for meters failing to communicate.

DRAFT IDP 2025/ 2026 Page **82** of **406**

Project No.	Description	Progress
ELEC-012	Refurbish and commission existing capacitor banks or purchase new ones.	Feasibility report submitted. Projects registered in the IDP. But with no budget for the 2024/25 financial year.
ELEC-014	Introduce preventative maintenance strategies and move away from reactive maintenance	Maintenance management software has been budgeted for 2024/25 financial year.
ELEC-015	Losses Contributing Factors	Electricity losses were calculated at 11.57%. 2023/2024 financial year
ELEC-017	Resume EEDSM (Energy Efficiency and Demand Side Management) projects	Funding received for R 5 million. Energy- efficient projects are being implemented. Replacement of HPS streetlights. A proposal was submitted for 2025/26 up to was submitted. An Energy performance certificate will be conducted for the old fire station building.
BILL-003	Tariff code clean-up	Data cleansing to be done to verify customers in the billing system.
BILL-004	Prepaid - Billing link between Vending system and EMS	Engaging the revenue division to address the issue with the Inzalo representatives
BILL-008	Update of Billing system master data	Revenue updates the billing system master data and provides it to the service provider when doing electricity meter readings.

5.2. Customer Care

The Municipality does not have a customer care centre. The customer care function primarily lies with the credit control function. The combination of the function results in the best approach for the municipality as service delivery issues will form part of non-payment. An energy forum has been established with various stakeholders including customers. WhatsApp is currently being used as a communication tool to report network faults. Although a 24-hour service is available for fault reporting, the manual system used poses a challenge both for reporting in terms of the license requirements and efficiency in dealing with customer complaints and queries. A fully fledged call centre management system is being investigated and will be implemented soon after the finalisation of the plan and it will form part of corporate services.

DRAFT IDP 2025/ 2026 Page **83** of **406**

5.3. Network Control Centre

The municipality does not have a control centre where all electrical network operations are controlled to ensure personnel safety and the power system. The approved organizational structure approved the appointment of network controllers, who will be appointed to oversee all electrical network operations, to safeguard personnel's safety. The municipality is also implementing the SCADA (Supervisory Control and Data Acquisition) system to enable remote control and monitoring of the electrical network. In the 2024/25 financial year, R 5.1 million has been made available to continue implementing the SCADA monitoring system.

5.4. Quality of Supply

The municipality currently does not measure the quality of service or supply, as per NERSA (National Energy Regulator of South Africa) requirement and NRS 047 and NRS 048.

- (i) Monitor quality of supply at Main substations
- (ii) Monitor voltage flickers, Harmonics and Voltage dips.
- (iii) Provide sufficient data, during investigation of customer complains.

5.5Rolling Out of Electrical Pre-Paid Meters

The municipality has approved the rolling out of pre-paid meters to all eligible households in the Greater Tzaneen Municipality jurisdiction. Households in all areas of the distribution network may be eligible for pre-paid meters. Remote households will be treated on an individual basis and all efforts will be made to ensure that pre-paid meters are installed. Exceptions will only be allowed in cases where it is considered not feasible by both parties. The conversion of pre-paid meters should also include households with three phase connections. Currently all domestic customers requiring conversion to pre-paid can do so, by paying a conversion charge. However, the municipality is considering the option of allowing customer to choose between post-payment or pre-paid meters during the replacement of faulty conversional meters.

5.5 Table 45: Electricity backlog

NO	Backlog Category	Description
1.	Network Planning	The electrical Master plan is currently under reviewed and is expected to be completed by November 2024. The review will look at the overall electrical network status, load forecast, the plan should also include LV urban networks in Tzaneen Town, Haenertstburg and Letsitele town

DRAFT IDP 2025/ 2026 Page **84** of **406**

NO	Backlog Category	Description
		An Electrical Emergency Preparedness Plan must be developed to assist with operational alternatives in case the network faces challenges such as breakdowns or inclement weather. The plan should also consider network optimization options.
		Single-line diagrams are currently being developed. The 33kV has been completed. The diagram will identify critical key points of the network for operation and network configuration purposes and also include customer transformer installation points.
2.	Replacement of old 11kV switchboards	The Tzaneen Main switchgear is the old type, the increase of the capacity has made this a necessity as the fault has increase and all switchgear must now be rated at least 25kA. Skirving and Peace is only switchboard remaining of the oil type
		extinguishing method. SS3 switchboards are regularly failing to operate during faults
3.	ARC detection	Indoor switchgears are prone to ARC in their chambers, which leads to explosion of the vents. ARC detection sensors are required in the indoor switchgears of Tzaneen Main, SS3, Skirving and Peace, and Western
4.	Customer Centre	Customer Walk in Centre- Provide a customer centric for reporting and querying of issues.
5.	GIS	GIS for Cadastral- Properly allocation of stands and electrical infrastructure for maintenance purpose, management of electrical assets and electrical meter to improve revenue protection.
6.	Task Management	Task order management- Ensure that customer call logs are monitored and attended to on time, and provide details of work done on site and resources used to perform activities linked to the order.
7.	Maintenance planner	Maintenance planner & manager- Monitor the maintenance of assets and provide regular reminders of maintenance to be done through scheduling of maintenance and keep records of the maintenance completed.

DRAFT IDP 2025/ 2026 Page **85** of **406**

NO	Backlog Category	Description
8.	Replacement of old Outdoor breakers	All old oil type 132 & 66kV outdoor breakers need to be gradually replaced to improve reliability, and the obsolete spares.
9.	66kV Current Transformers	The 66kV current Transformer at Tarentaal Rand, Letsitele Main, and Rubbervale are old and no longer accurate with their measurement. These current transformers are critical as they provide consumption data to check the main account received from Eskom
10.	Replacement of old knife type Isolators	The old type 66kV knife type Isolators at Letsitele Main have
11.	Metering	Implementation of HAMSA report finding, replacement of old meters and kiosks and Data cleansing of metering data and billing system, categorizing of top customers is required, locating of customers to the electrical network
12.	Protection Control & Automation	The protection, control & Automation at Tarentaal rand main, Tzaneen Main, Letsitele Main, Rubbervale, Tarentaal T-off, Skirving & Peace, SS3 substation are old and obsolete, some are no longer operating correctly (66kV Feeders at Tarentaal rand) new intelligent electronic devices are required
13.	33/11kV Substation	Installation of Adequate protection on all 33/11kV substations is required to ensure that transformers are safeguarded and comply with minimum protection required for lines
14.	Refurbishment of Overhead lines	Several of the electrical network overheads are dilapidated and requires refurbishment or upgrading. Although the some of the overhead lines were done through own funding over the past 3 years and during the DBSA R 90 million loan, there are still overhead lines that require refurbishment with new technological accessories
15.	Replacement of underground MV cables	Replacement of old MV underground cables in Tzaneen Town, Haernerstburg, and Letsitele Main that are prone to failures

DRAFT IDP 2025/ 2026 Page **86** of **406**

NO	Backlog Category	Description
16.	Replacement of underground LV cables	LV networks also need to be upgraded as some areas are experiencing Low voltages. The upgrading of LV networks should also include replacing Meter boxes, looping boxes with antitheft boxes, and metering boxes, which must be moved for easy access to meter readers, maintenance, and auditing teams.
17.	Replacement of Miniature substations	All old Miniature substations should be replaced, and where possible, the number of T3 switches within the underground network should be increased.
18.	Power Factor Correction & Voltage Regulators	The municipality's electrical power factor is below 0.9. Lagging, power factor increases electrical losses due to the high KVA demand. Power factor analysis studies were conducted and indicated possible locations to install capacitor banks, it will provide strategic solutions to improve the power factor.
19.	Build a new 11kV feeder from Western to New industrial area	The building of a new 11kV feeder from Western to the New industrial area to increase the capacity and reliability of supply to the industrial area instead of using the Agatha overhead line
20.	Electrification	Through the INEP (Integrated National Electrification Programme) program in collaboration with DMRE and Eskom, the municipality has electrified all villages in the GTM (Greater Tzaneen Municipality) area of authority. However, due to the continuous natural growth of villages, electrification of extensions is ongoing and currently the backlog is at 6380 (See attach backlog)
21.	Quality of Supply	Quality of supply recorders are required to online monitor the quality of supply at critical points of the network and to monitor network parameters such as voltage flickers, Harmonics, and Voltage dips. Provide sufficient data, during the investigation of customer complaints
22.	Energy Efficiency demand side management	The Municipality received R 5 million for the 2024/25 financial year to replace streetlights, high masts, and pump station motors. A proposal for 2024/25 cup 2028 was submitted. An Energy performance certificate will be conducted for the old fire station building.

DRAFT IDP 2025/ 2026 Page **87** of **406**

NO	Backlog Category	Description
23.	Public Lighting	A program for installing public lighting through the municipal infrastructure grant (MIG) and own funding is being implemented. However, available budgets are usually insufficient to do more high masts or streetlights. Considering that all wards in the municipality require public lighting. The priority lists of high mast must be finalized and approved by the council. Budget provisions must continuously be reviewed for operations and maintenance of the newly installed high masts and streetlights.
24.	Vegetation and Control	The municipality's distribution area is characterized by natural vegetation, which contributes to the natural beauty of our area. However, conserving this natural vegetation sometimes conflicts with the overhead power lines' requirements. It is, therefore, essential to balance the need to preserve our area's natural beauty and the minimum clearance requirements of the overhead power lines. Vegetation control needs to be improved to ensure a better quality of supply. The municipality utilizes internal staff and sometimes outsources the service to eliminate backlogs. A pool of contractors was appointed to mitigate the challenges of backlogs. However, quite a few kilometers of overhead lines and substations remain to be cleared.
25.	Assets Management	Several distribution transformers have failed due to poor earthing, the failure to adopt modern technology, and poor workmanship on transformer installation. The municipality has applied through DBSA to develop an asset care program.
26.	Replacing Meter boxes	Meter boxes in town are old and need to be changed to 4- or 6-way boxes, and this will enable more efficient meter reading, maintenance, and credit control
27.	Renewable Energy	Installation of Rooftop solar system for the municipality's main building to reduce own consumption.

DRAFT IDP 2025/ 2026 Page **88** of **406**

5.5. Table 46: provision of electricity

Challenges	Possible Solutions
Dilapidated/aged electricity network.	Renewal of the electrical infrastructure.
Insufficient/inadequate budget.	
Lack of adoption of technology support the municipality.	Adoption of newly available technologies to support the department.
Impact of Embedded Generators.	Development of Embedded Generation Strategy.
Load shedding.	Monitor & and control the implementation of maintenance plans.
Chasing of a moving target caused the mushrooming of househo emanating from new extensions be built, but with a limited budget.	lds
 Inability to connect new extensions of to electricity shortage from the electricity grid, especially from Eskom-supplicates. 	cal
Poor support from Eskom to ensure to completion of projects.	the • Develop a Working Partnership with Eskom.
Old or outdated of resources [Hardway & Tools of trades]	Procurement of equipment/tools and review of organizational structure.
Poor monitoring systems.	Monitor & and control the implementation of maintenance plans.

5.5. Alternative Sources of Energy

The Minister DMRE has approved alternative sources of energy (Solar, Wind, and Biomass plants) with a capacity of less than 100MW, which are now exempted from licensing. However, they will still be expected to register with the regulator. The increase in capacity allows the municipality to

DRAFT IDP 2025/ 2026 Page **89** of **406**

consider a new generation plant to connect to the municipality to sell the electrical energy to the municipality as an alternative source at a c/Kwh lower than what Eskom is currently selling to the municipality. The municipality network could also wheel electricity at a set wheeling price. The municipality has entered into a memorandum of agreement with Sustainable Energy Africa to provide technical and legal support to its ability to procure its energy independently and implement a just energy transition, together with guidelines for embarking on a renewable energy procurement plan. As part of the electrical master plan review, an embedded generation procedure has been developed to promote the use of clean and sustainable energy sources within Tzaneen while quiding the GTM on route to achieve renewable energy objectives. The procedure refers to the processes and regulations governing the installation and operation of small-scale electricity generation facilities within the municipality's jurisdiction. These procedures are essential for individuals or businesses seeking to generate their electricity, often through renewable energy sources like solar photovoltaic (PV) panels or wind turbines, and feed excess electricity back into the grid. Through the cost of supply study, embedded generation importing tariffs have been developed; the tariffs seek to encourage municipal customers to apply for the installation of PV solar systems in their households and get rebates from exporting electricity to the municipal grid.

PROVISION OF FREE BASIC ELECTRICITY (FBE) IN THE MUNICIPALITY

Below indicates the number of consumers benefiting from the free basic electricity program offered by the municipality of 50KW for indigent residing in Greater Tzaneen Municipality.

6. LIBRARIES

6.1 Legislative prescript

No	Legislation	Summary/Scope of Legislation
1.	The Constitution of the	To allow provincial governments to assign to a municipality, by
	Republic of South Africa,	agreement and subject to any conditions, the administration of a
	Section 156 with section	matter listed in Schedule 4 or Schedule 5 which necessarily relates
	152	to local government
2.	The National Library of	To provide for the National Library of South Africa; for collecting,
	South Africa Act no 92 of	preserving, making available and promoting awareness of the
	1998	national documentary heritage
3.	South African Community	To provide for the promotion and development of community
	Library and Information	libraries and the provision of library and information services.
	Services Bill, 2010, currently	To promote co-operative governance and co-ordination of
	being updated	responsibilities and mandates for the provision of library and
		information services.
		To provide measures aimed at correcting uneven and unequal
		provision of resources for library and information services.
		To provide for essential minimum uniform norms and standards
		required for the rendering of library and information services.
		To empower the Minister to make policy and regulations for
		community libraries and library and information services.
4.	Memorandum of Agreement	Memorandum of Agreement between the Department of Sport,
		Arts and Culture and the Greater Tzaneen Municipality, signed on
		the 19 November 2024, and valid for three years from date of
		signature.

6.2 Powers and Functions of Library services

- a) Library Services is the joint responsibility of Municipal authorities and the Dept. of Sport, Arts and Culture.
- b) South African libraries are not mentioned in the Municipal Structures Act. Nevertheless, municipalities countrywide have entered into Memorandum of Agreements with their respective Provincial Library Services.
- c) The Greater Tzaneen Municipality has signed a MOA with the Limpopo Provincial Library Services, Dept. Sports, Arts and Culture. In terms of the MOA the municipality is responsible for all operational costs re library services, including minor maintenance. The Provincial Library Services is responsible for building new libraries and supplying furniture, equipment, ICT for public use and reading material.

DRAFT IDP 2025/ 2026 Page **94** of **406**

- d) The Greater Tzaneen Municipality has signed a MOA with the Limpopo Provincial Library Services, Dept. Sports, Arts and Culture as well as a donor, the Rand Water Board, to establish a library in Motupa.
- e) A manual from the Limpopo Provincial Library Services is used as a policy guideline for all Community libraries in the Limpopo Province. The manual guides matter such as cataloguing, shelving, the lending function and mending of books. A copy of the manual is available in the Tzaneen Library.
- f) In addition, the GTM Library By-Laws detail rules and regulations specific to the GTM libraries.

6.3 Current progress

The main objectives are to improve the accessibility of libraries, to promote reading, life-long learning and to enable the GTM community to access 4th industrial revolution technology.

The Greater Tzaneen Municipality runs library services in the following areas:

Tzaneen (Main library)

Haenertsburg (Branch library)

Letsitele (Branch library)

Shiluvane Library (Branch library)

Mulati (Branch library)

Runnymede (Branch library)

The Rand Water Foundation has donated a library building in the Moleketla Village, Motupa, which is at 98 % complete. A library in the Motupa circuit area will be in line with Council's planning regarding libraries as it is the Relela cluster area. As with new libraries built through the Conditional Grant, the GTM takes ownership and responsibility for administration, maintenance, and operation only when the building is complete and has been furnished with electricity; books, equipment, furniture and a stable internet connection by the DSAC, when suitable library and cleaning staff have been appointed by the GTM and additional library staff and security officers provided by the DSAC. Thereafter it will officially open to the community. Construction on the library has started.

For each of the two new libraries in Runnymede and in Motupa to function well and for proper control, four staff members, including a librarian; two library assistants and a cleaner will be needed. During the planning and building stages Town Planning, Civil Engineering and Electrical Engineering are kept abreast and involved to ensure the best possible quality building. Regarding the Motupa Library's building stage, the GTM Manager, Building and Maintenance is championing the project.

Communities from all over the Greater Tzaneen Municipality area and beyond use the Greater Tzaneen Municipal libraries.

The Greater Tzaneen Municipality libraries all offer full library services, including the following:

- a) Access to balanced book collections
- b) Lending services
- c) Information services, with the emphasis on school project help
- d) User education
- e) Holiday programmes and book-related arts and craft events
- f) Room to study.
- g) Free public access to the Internet and free Wi-Fi
- h) Assistance to schools
- i) Assistance with applications to tertiary institutions and for bursaries.

6.4 Critical success factors for Library Services:

- a) providing support from technical departments.
- b) timely appointment of staff for new libraries.
- c) acquiring library transport and improved assistance from DSAC.

6.5 Library challenges	Possible Solutions
a) Inadequate libraries in the GTM	Continue with request for funding to build enough
area.	Libraries for GTM.
b) Inadequate awareness of library	Develop and implement
services	Library services awareness programmes.
c) Insufficient collection of African series	■ Conduct a need
writers i.e Xitsonga and Sepedi	analysis for African
	Writers i.e Xitsonga
	and Sepedi.
d) Travelling for outreach and awareness	■ Improve the outreach
programmes.	marketing strategy.
e) Liasa institutional membership.	Request budget unit to
	avail funds for institutional Liasa membership
f) Library not opening on Saturday	■ Operate all GTM
against memorandum of agreemen	libraries from Monday
with the department of sports, arts and	to Saturday.
culture.	
g) Furniture and stationery.	Submit request for the purchase of furniture to the
	department of sport, arts and culture
h) Carports and building materials.	Carports and building
	maintenance to be

DRAFT IDP 2025/ 2026 Page **96** of **406**

included in the budget
of the municipality i.e
Tzaneen, Letsitele
and Haenertsburg.

6.6 Library backlogs

- a) Library services are needed within reach of all towns, villages, and communities, as reflected by the Community Needs Analysis. Once the library in Motupa is operational, all GTM municipal clusters will have at least one library. Council has informed the DSAC that the next library, after the libraries in Runnymede and Motupa, should be built in Nkowankowa or Lenyenye. Thereafter the additional libraries requested by communities should be prioritized.
- b) The estimated cost of building and furnishing a proper library with sufficient books and study space is 20 million Rand. To function optimally, and to open for extended library hours, including Saturdays, each library would need a staff complement of 5, including 2 librarians, 2 library assistants and at least one cleaner. Operational costs would be an estimated two million Rand per new library per year.

6.7 Priority list

In case we get funds there is a need for the development of the library in Nkowankowa and Lenyenye.

6.8 Mainstreaming of special programmes - Disability mainstreaming of libraries

- a) Libraries play an important role in the lives of people with disabilities as books, the internet and information empower all people equally.
- b) The Tzaneen, Letsitele and Haenertsburg libraries are wheelchair accessible in terms of accessing library materials and information services. The new libraries at Shiluvane and Mulati are accessible to wheelchairs and include toilets which are wheelchair accessible. The Motupa and Runnymede libraries are designed to be fully disability friendly.
- c) The Shiluvane and Tzaneen Public Libraries have established a mini-Library for the Blind, with the assistance of the National Library for the Blind.
- d) Braille publications should be made available and accessible in all municipal libraries for visually impaired people. The DSAC committed to prioritising reading material for the visually impaired in Limpopo libraries.

DRAFT IDP 2025/ 2026 Page **97** of **406**

7. PARKS, CEMETERIES, SPORTS, ARTS AND CULTURE

7.1. Legislative Framework

The following acts/legislations regulate all matters relating to Sport, Arts and Culture in our country:

No	Legislation	Summary/Scope of Legislation	
1.	Constitution of the Republic of South Africa, 1996	The municipality has got the powers (schedule 5, Part B) to establish, develop and maintains cemeteries within its area of jurisdiction.

8. PARKS, OPEN SPACES & CEMETRIES

8.1. Powers and Function on Parks, Open Spaces and Cemeteries

- a) The municipality has powers (Constitution of the Republic of South Africa Act no 106 of 1996), schedule 5, Part B) to establish, develop and maintains parks within its area of jurisdiction.
- b) In terms of the National Sport and Recreation Act no 110 of 1998, section 3 (a), a municipality may carry out sporting or recreational activities or activities relating to physical education, sport, and recreation, including training programmes and development of leadership qualities.

8.2. Developed Parks Status

a) Nkowankowa Parks

- Nkowankowa has three community parks i.e., 944, Indigenous Games Park, Park 2065
- River Park is vandalised.

b) Tzaneen

- Park at Maritz Street
- Flora Park (extension 13) needs revamp,
- Waterfall Park needs to be revamp.
- Minitzani park : hall where they keep disaster management goods, roof needs to be renovated. Tuckshop to be leased. Road safety activities, stopped

- c) Lenyenye

- Lenyenye has one children's play park that is going upgrade through Department of Sport Arts and Culture Minister donation. More equipment is needed.
- Site No 2061 is potential site for community park development, needs funding.

d) Letsitele

- Letsitele has one children's play park that needs upgrading too.

DRAFT IDP 2025/ 2026 Page **101** of **406**

e) Haenertsburg

-Haenertsburg has a small park that was upgraded through assistance from Haenertsburg Rotary – it needs extra play apparatus and benches.

- f) Rural Areas

- There is absolute lack of community parks at all 135 villages.
- One (1) park in each of the four Clusters is planned but needs funding.
- De-bushing of sidewalks to the schools to be included in CWP scope of work.

1.3 Table 48: List of Parks and developed gardens.

1.	Jetty 3 and Maritz Street park	12	Four ways stop, Danie Joubert
2.	Pioneer Flats	13	Sapekoe Drive
3.	Minitzani	14	Central Cemetery
4.	Waterfall Park and First Ave	15	Agatha Street Entrance of town
5.	King Edward Drive and Adams circle	16	Information Centre
6.	Nkowankowa Hall and Town managers	17	Ext 13 Park

7.	Letsitele Gardens	18	Park 2065
8.	Cnr. Sapekoe and Plantation Street.	19	Lenyenye children park & hall yard
9.	Library and Civic Centre areas		Park 944
10.	Kudu Street plant boxes		
11.	Haenertsburg Library		

8.3 Progress

- a) Propagation of plants at own nursery
- b) Maintenance of Municipal parks and side walks
- c) Trees are received from donors and plant in municipality land
- d) Donating trees to schools and residential areas to keep GTM 'GREEN'.

8.4 Challenges facing parks & gardens.	Possible Solutions
a) Water shortage problems which lead to	Provision of water
poor garden maintenance.	
b) Insufficient budget for the purchase of	
plant material for hard landscape to revive	
the gardens	
d) Vandalism of Parks and Poor parks	Refurbishment of Parks.
conditions	Installation of lights to prevent vandalism.

DRAFT IDP 2025/ 2026 Page **102** of **406**

8.4 Challenges facing parks & gardens.	Possible Solutions
e) Insufficient personnel to propagate and maintain the plant	
f) Lack of proper nursery structure to propagate plants and for seed sawing.	Upgrade of a Nursery structure for propagation of plants

9. CEMETERIES

9.1. Cemetery status

GTM has 137 public cemeteries where 7 are in a proclaimed towns and 130 are in the villages

9.2 Cemetries Challenges	Possible solutions (Cemeteries)
a) Lack of budgetary issues to address cemetery	Budgeting for regional cemetery land extension,
extensions, fencing, and construction of	renovation and upgrading
ablution facilities and development of new	
cemeteries.	
(Tzaneen Agatha cemetery needs extra	
cement verges for burials, pave road extension.	
Agatha cemetery needs proper concrete	
palisade fence to prevent vandalism.	
Central cemetery needs urgent upgrading	
of the existing fence to prevent it being	
used at toilet and dumping site.	
Letaba cemetery needs replacement of	
wire fence with concrete palisade and	
gate that can be locked to prevent	
vandalism)	
b) Lack of electronic systems to	Create awareness on burial options.
register graves for safety record	
keeping	
c) Nkowankowa and Lenyenye	Procurement of burial records system
cemeteries needs Environmental	
Impact Assessment	

DRAFT IDP 2025/ 2026 Page **103** of **406**

9.3 HIV/AIDS and sport and culture

- a) Within sport there exists a risk of injury and subsequent bleeding. Accordingly, there is a possibility, albeit small of risk of HIV infection during participation in certain physical activities. This is particularly true in the case of high-risk combat sports, such as boxing, wrestling, and the martial arts, where open bleeding wounds tend to occur quite often, especially during competition.
- b) Accordingly, all participating sportspersons, coaches, and administrators should be appropriately informed about the inherent risk that sport presents.
- c) Sport role models have a big influence on their fans. Sport and Recreation Council should use this influence for good by letting these role models speak about HIV/AIDS at major events.

9.4 Gender mainstreaming and Sport and Recreation

- a) Women's participation in sport has a long history. It is a history marked by division and discrimination but also one filled with major accomplishments by female athletes and important advances for gender equality and the empowerment of women and girls.
- b) Women were often perceived as being too weak for sport, particularly endurance sports, such as marathons, weightlifting and cycling, and it was often argued in the past that sport was harmful to women's health, particularly their reproductive health.
- c) The participation of women and girls in sport challenges gender stereotypes and discrimination and can therefore be a vehicle to promote gender equality and the empowerment of women and girls. Women in sport leadership can shape attitudes towards women's capabilities as leaders and decision-makers, especially in traditional male domains. Women's involvement in sport can make a significant contribution to public life and community development.
- d) Currently GTM has ladies' soccer Team which was in ABSA Woman's League and recently promoted to SASOL Woman's League from Ward 6.

9.5 Disability mainstreaming and Sport and Recreation

- a) People with disabilities experience the same need for sport, including competitive sport and recreation as their non-disabled peers Sport is generally regarded as one of the vital components in the integration of people with disabilities into society. It is also often a vital component in the successful rehabilitation of people with disabilities.
- b) Sports can also be used as a tool for development of personalities while at the same time integrating and encouraging social contact between people diverse abilities. Sport, leisure, and other recreational activities are as important for people with disabilities as they are the able-bodied persons.

DRAFT IDP 2025/ 2026 Page **104** of **406**

- c) Again, the benefits of sport to people with disabilities are immense. It can be used as means of treatment, leisure, hobby, therapy, and rehabilitation.
- d) Therefore, there is need for policy objective to develop and extend sporting activities for people with disabilities in both mainstream and special facilities so that they can participate in sport for both recreational and competitive purposes.
- e) GTM available sport facilities and facilities to be constructed need to be made disability friendly.

10. SOLID WASTE

10.1 **LEGISLATIVE FRAMEWORK**

10) The following acts/legislations are only a few most important ones to regulate matters relating to Waste Management in our country: -

Legislation		Su	mmary/Scope of Legislation		
•	National	Environmental	Waste	1.	To reform the law regulating waste management to
	Manageme	nt Act (Act 59 of 2	008)		protect health and the environment by providing
					reasonable measures for the prevention of pollution and
					ecological degradation and for securing ecologically
					sustainable development.
				2.	To provide for institutional arrangements and planning
					matters.
				3.	To provide for national norms and standards for
					regulating the management of waste by all spheres of
					government; to provide for specific waste management
					measures.
				4.	To provide for the licensing and control of waste
					management activities.
				5.	To provide for the remediation of contaminated land; to
					provide for the national waste information system.
				6.	To provide for compliance and enforcement;
•	National E	nvironmental Man	agement	1.	To provide for co-operative, environmental governance
	Act (Act 10	7 of 1998)			by establishing principles for decision-making on
					matters affecting the environment, institutions that will
					promote co-operative governance and procedures for
					coordinating environmental functions exercised by
					organs of state;

DRAFT IDP 2025/ 2026 Page **105** of **406**

Legislation	Summary/Scope of Legislation	
Environmental Conservation Act 73 of 1989	Providing for the effective protection and controlled utilization of the environment and matters incidental thereto.	
Greater Tzaneen Municipality Solid Waste By-Law, Notice no 12 of 1990	To regulate management of storage and collection of solid waste	

10.2 POWERS AND FUNCTION ON WASTE MANAGEMENT

Powers and functions regarding waste management

The establishment notice for Greater Tzaneen Municipality LP333 is in line with the powers and functions for a category B municipality as outlined in the Constitution. The powers to render a waste management service are conferred by both the said notice and the Constitution. Various pieces of legislation also assign waste management responsibilities to the municipality:

- a) The Bill of Human Rights (Section 24) of the National Constitution provides as follows:
 - i) "Everyone has the right to an environment that is not harmful to their health or well-being".
- b) The Environmental Management Act (Act 107 of 1998)
- c) The Environmental Waste Management Act (Act 59 of 2008)
- d) Environmental Conservation Act (Act 73 of 1989)
- e) The Solid Waste By-Laws (Notice 12 of 1990)
- f) The Waste Management Policy

Our mandate as GTM is to provide all households with a basic removal service to protect the environment for the benefits of future and present generations. We are guided by the National Norms and Standards on Waste as framed under the NEMA: Waste Management Act, 2008 and other strategic environmental legislations to prevent pollution and ecological degradation and promote conservation to secure sustainable development to achieve the International & National goals.

10.3 Rural and urban backlog level of waste management in the municipality

We have a total of 129579 households, and we are currently providing a kerb side refuse removal service to 9440 (7,32%) urban households. These household form part of the five formal towns: Haenertzburg, Letsitele, Lenyenye, Nkowankowa and Tzaneen. We now have characterised this type of service and categorised it as a Level 1-service. The table below shows a steady increase in the number of households receiving kerbside refuse collections:

DRAFT IDP 2025/ 2026 Page **106** of **406**

Table 4.1 Number of households receiving kerbside refuse removal services.

Financial year	2020/21	2021/22	2022/23	2023/24
Number of	8896	9052	9298	9440
households				

The increase is due to the establishment and development of new townships resulting in the construction and occupation of houses in the suburbs which constitute Tzaneen town.

10.4 Availability of waste collection in rural areas.

To strengthen Greater Tzaneen Municipality's quest to expand the refuse removal service, a comprehensive rural waste minimization programme has been developed. The rural areas have been divided into sixty (60) Waste Service Areas. We are currently able to service 46 Waste Service Areas.

We partnered with schools in the rural areas which have been identified as Drop Off centres. There are litter bins which been placed around the schools. Communities collect their waste and drop them in the nearby schools into the litter bins. These bins are collected regularly, and the waste transported to the central place where they are sorted. The programme is currently co-funded through Expanded Public Works Programme.

We have developed a Rural Waste minimization programme. In this programme we run weekend refuse collection in all our clusters. In the Southern region which comprises of Lesedi and Bulamahlo clusters, we are making use of a service provider to render the weekend refuse removal service, collection points being the main arterial roads in the villages. In the Northern region comprising of Runnymede and Relela clusters, the weekend refuse collection is done using our own trucks. We have placed skip bins in densely populated areas. These are removed on a weekly basis.

10.5 Current waste generation and estimated future waste generation.

Current domestic waste generation rates	1805.98
Future domestic waste generation rates (in 10 years)	18059.8

Table 1.2 Domestic waste generation

In the rural areas we have an estimated 57 363(44.4%) H/h's which receive a basic removal service or level 2- service. Our backlog is estimated at 62 503 (48.2%) H/h's which are not receiving a service. There are new settlements being developed; these contribute to the ever-increasing backlog.

10.6 Licensed land fill site analysis

We have a licensed land fill site, which in terms of the permit, can only dispose general waste. The land fill site accepts garden waste which is channelled to the composting plant. Our composting plant can generate organic compost which is in line with the Eurogap standards. In the past year we have disposed general wasted which is detailed below:

Entity Jul Sept Oct Feb Aug Nov Dec Jan Mar Apr May June GTM dispo 75 1004 84 8554 8591 7209 8444 7925 8749 8985 8530 9444 9895 sals GLM dispo 13

Fig.1 Waste disposal statistics

Table.1 Tzaneen landfill site 2022/23 statistics.

10.7 Recycling initiatives

One of the strategies that we employ in waste management is recycling. We have aligned the Desired End State in accordance with the National Waste Management Strategy. The official hierarchy adopted in the Government waste management hierarchy, in order of preference, is as follows:

- Waste avoidance
- Waste minimisation
- Waste re-use
- Waste recycling
- Waste treatment
- Waste disposal

For the period under review, a total of 16570m³ of waste was recycled at the Tzaneen landfill site.

10.8 Challenges.	Possible solutions.
 We have old and dilapidated trucks which barely run for a week without breaking down The down time on breakdowns results in poservice provision and loss of income. The low value chain on recycling of bottles resulted in heaps of bottles in various areas the villages. This can be seen mainly near bottle stores and taverns. The lack of recycling initiatives by househol in the five formal towns where kerbside collections are done. There is an increase in small scale recyclers who do not have facilit to store their recyclables. They end up using any open space, and this contravenes the Environmental management regulations. Inaccessibility of areas where we have place bulk waste containers during the rainy seas This results in an unsightly accumulation of refuse, the breeding of flies and harbouring vermin. 	when there is an increased human capacity and adequate fleet which is in good working condition. An increase in the number of recycling initiatives. Piloting of two bag system to promote recycling at source. Establishment of a section to deal with Environmental Awareness with a specific focus on waste management.

11. ENVIRONMENTAL MANAGEMENT

11.1 Progress

Recycling initiatives
Participate in greenery projects (such as GMC)

11.2 Challenges	Possible solutions
Slow progress in implementing sustainable development goals.	Implementation of a green economy strategy.
Slow progress on the development of IWMP	Implementation of the Integrated Waste Management Plan.
Enforcement unit regarding the cleaning of vacant land	Establishment of Environmental Management Inspectors unit/

DRAFT IDP 2025/ 2026 Page **109** of **406**

12. CLIMATE CHANGE

Greater Tzaneen Municipality has both an urban and rural setting within its area of jurisdiction. Its main economic driver is agriculture followed by tourism then rest is made up of various sectors including the informal sector. Intense weather events such as flash floods in the urban area with associated infrastructural damage may lead to the spread of water borne diseases. Crop failure for both commercial and subsistence farmers will impact on food security. Malaria was endemic in the area; increased temperature and erratic wet weather create an environment conducive for the breeding of malarial mosquitoes. During the 2017 malaria transmission period, we have seen an increase in the number of Malaria cases and deaths. Both environmental control and residual spraying should be stepped up and potential breeding site and habitats be identified and mapped. We are a signatory to the Durban Adaptation charter on Climate change.

5.4 Programmes/projects and alignment to the SDG's

Our activities as human beings, be it social, or economic have to a certain degree impacted negatively on the environment. Sustainable Development Goals (SDGs) were identified by the United Nations as part of an effort to collectively address social and environmental challenges facing our world. These goals are related to social, economic and environmental challenges and provide a framework for shared action. We have initiated the following projects/programmes that are aligned to the local government mandate as our contribution towards the realization of the Sustainable Development Goals:

Fig. 2

SDG	Programme
Affordable and clean energy	Energy master plan
Decent work and economic growth	Green economy strategy and action plan
Sustainable cities and	Spatial development
communities	
Responsible consumption and	Environmental education and awareness strategy
protection	and action plan
Climate action	Climate change and adaptation strategy
Life on land	Solid Waste Management programme

12.3. HIV/AIDS mainstreaming

The operational requirements in the provisioning of refuse removal services exposes workers to numerous communicable diseases. HIV/AIDS has to some extent been linked to socio-economic factors such as poverty. Education and awareness about HIV/AIDS are conducted by the HIV/AIDS coordinator. Condomtainers have been fitted in all the public toilets under our management.

12.4 Gender mainstreaming

The Solid waste division is predominantly male. The refuse removal teams are all male, given the nature of the work, which is manual and involves lifting of heavy refuse bags. The litter picking teams are predominantly female. A lot of effort must be put to correct the imbalance.

13. LICENSING, TESTING AND LAW ENFORCEMENT ANALYSIS

Legislative framework

1)The following acts/legislations are only a few most important ones to regulate matters relating to Licensing, Testing and Law Enforcement in Greater Tzaneen Municipality: -

Legislation in Licensing and Testing

- The National Road Traffic Act 93/1996
- K53 manuals and procedures.
- Service delivery standards of Department of Transport
- Criminal Procedure Act 1977 (Act 52 of 1977)
- Municipal bylaws

14. Powers and functions

- We are also assisting with renewal of driver's license and application/issue of professional driving permits
- At the main building we are assisting with Vehicle renewal and registration.
- Currently traffic is assisting with traffic control at busy intersections during peak times.
- Assisting at scholar patrol
- Attending accidents
- Speed law enforcement.
- Roadblock checks
- Monitoring driving behaviour
- Attending to bylaw complaints
- Administration of traffic fines
- We are also assisting applicants from outside the GTM (Limpopo Province declared the Registering Authority)
- GTM forms part of the Mopani Licensing Forum

15. Current Progress

- There are 2 GTM Testing Stations
- -Tzaneen Testing Station (Grade A)
- Nkowankowa Testing Station (Grade B)
- At the 2 stations we are testing applicants for learner and driver's licenses
- Both DLTC are installed with electronic learner's license system.
- Anti-Fraud and corruption policy was recently approved, and a hotline was placed on GTM website and Anti-Fraud workshop was conducted to all staff.

DRAFT IDP 2025/ 2026 Page **111** of **406**

- Greater Tzaneen Local Transportation forum is active with quarterly meetings.
- New SLA with Dept of Transport was renewed from 1 April 2024 to 30 March 2027
- Piloting of Smart Enrolment Unit (SEU) at Tzaneen DLTC

16. Challenges	Possible Solutions	
a) Insufficient law enforcement monitoring equipment	 Identify and procure the compatible equipment to be used. 	
b) Shortage of manpower		
c) Mushrooming of illegal hawkers and illegal squatters	Continuous enforcement of bylaws	
d) Filling space for documents	Additional archive space	
e) Facility maintenance	Facilities maintenance plan	
f) Geographical name changes (geographical name changing committee)		
g) Animal pound for strayed animals.	Identify an area for animal pound.	
h) Some changes in current Job description		

12. PUBLIC TRANSPORT

The following acts/legislations regulate all matters relating to Transport and Public Transport in our country:

No	Legislation	Summary/Scope of Legislation
1.	National land Transport	To provide for the transformation and restructuring of the national land
	Transitional Act no 22 of 2000	transport system of the Republic
2.	National Land Transport Act no	To provide further the process of transformation and restructuring the
	5 of 2009	national land transport system initiated by the National Land Transport
		Transition Act, 2000 (Act No. 22 of 2000)

12.1 Powers and Function on Public Transport

The district municipality has powers (Constitution of the Republic of South Africa Act no 106 of 1996), schedule 5, Part B) to manage Public Transport within its area of jurisdiction.

12.2 Integrated Transport Plan

The Integrated Transport was reviewed by Aurecon who was appointed by the Department of Transport.

The Integrated Transport Plan was completed during the year 2016/17. The following are issues as raised

in the Integrated Transport Plan. Review of ITP.

12.3 Mode of public transport

Buses

Taxi's

Maxi - Taxi's

12.4 Public Transport Scheduled Services

a) Bus operations

All bus operations run on schedules be it for private hire purposes, or for ferrying passengers on

subsidized coupons like workers, or ordinary coupons so used, not excluding taxis who also

schedule their operation on either fixed route they operate, or on private trips. Unscheduled

services will include taxi services running between two destinations to retain their position after

returning from a trip, and they both are operated in our Municipality. Other operations to and from

other neighbouring municipalities are: -

Bus and taxi operations to and from Tzaneen/Greater Letaba Municipality.

Taxi operations from/to GTM Grater Giyani Municipality.

Taxi operations to/from Maruleng Local Municipality (Acornhoek)

Taxi operations to/from Capricorn District Municipality and

Taxi operations to/from Ba-Phalaborwa.

Cross boarder operations to/from Mozambique/ Zimbabwe and Botswana

Public Transport Scheduled Services

a) Facilities and Infrastructure in place will include: -

Tzaneen Mall taxi facility which houses taxis to Giyani, Bolobedu, Ga-Kgapane, JHB/PTA,

Polokwane, Acornhoek, Phalaborwa, Mamitwa.

The Tzaneen Crossing facility that caters for taxis to The Oaks, Metz, Mogoboya, Masoma,

Lephepane, Nkowankowa, Burgersdorp, Julesburg

The Letsitele ranking facility that caters for Tzaneen, Mafarana, Rita, Sedan etc.

12.3Minibus taxi facilities

In the Greater Tzaneen area, there are 24 taxi facilities, of which only two that are in Tzaneen Town

are formal and the rest are informal.

Table 50: Taxis facilities

No	Taxi Facility	Description
1.	Burgersdorp Minibus taxi rank	Tzaneen Lydenburg Road. - Informal with no facilities
2.	Gabaza Minibus taxi rank	 Situated in Gavaza opposite Burgersdorp on road reserve along the R36 Tzaneen Lydenburg Road. Informal with no facilities
3.	Lenyenye Minibus taxi rank	Situated in Lenyenye entrance.Informal with no facilities
4.	Leolo Minibus taxi rank	Situated in Leolo SettlementInformal with no facilities
5.	Lephephane Minibus taxi rank	 Lephepane near the marketplace on the road reserve Informal with no facilities
6.	Letsitele Minibus taxi rank	 Situated in Letsitele CBD area. It is a formal minibus taxi rank occupying an area of about 475m². There are 7 platforms without shelters for loading purposes. There is an office and toilets that are provided and maintained by the Tzaneen Local Municipality
7.	Letaba Cross Minibus taxi rank	 Situated near the intersection between the roads D673 and R36 on the Lydenburg/Tzaneen Road. Informal with no facilities
8.	Letaba Hospital (E) Minibus taxi rank	 Situated opposite Letaba Special School on road reserve D673. Informal with no facilities
9.	Letaba Hospital (W) Minibus taxi rank	 Situated on the entrance of Letaba Hospital utilizing the public parking area meant for visitors to the hospital. The area is paved and has 30 demarcated parking bays. Informal with no facilities
10.	Mafarana Minibus taxi rank	 Situated on the entrance of Mafarana on road reserve at an intersection of roads D8. Informal with no facilities
11.	N'wamitwa Minibus taxi rank	 Situated in N'wamitwa near the N'wamitwa Head Kraal It is a formal minibus taxi rank
12.	Khopo taxi rank	 Situated on the turn off to Letsitele via Lefaro/Zangoma from the R36 road. Informal with no facilities
13.	Thapane Minibus taxi rank	Situated at Thapane Informal with no facilities
14.	Tzaneen Sanlam Centre Minibus taxi rank	area of about 3934 m². There are 11 loading platforms with shelters
15.	Tzaneen Pick 'n Pay Minibus taxi rank	 Situated next to Pick 'n Pay shopping mall occupying an area of about 4763 m^{2.} There are two separate loading areas in the minibus taxi rank Upgrading of Taxi rank by Mall owner

12.4 Busses

All bus operations are centralized at the Tzaneen Mall bus ranks, destination-wise spreading to places including Bonn, Julesburg, Lenyenye, Mamitwa, Bolobedu, Lephapane, Masoma, Dan/Nkowankowa.

- Infrastructure-wise, we have the Tzaneen-Lydenburg Road, Letsitele, Modjadjiskloof, Mamitwa, Giyani, Phalaborwa, Lephepane

DRAFT IDP 2025/ 2026 Page **114** of **406**

12.5Public Transport challenges	Possible solutions	
Public Transport disputes.		
Increase in the number of accidents and	Develop the road safety awareness plan.	
offenses.		
Shortage of ranking facilities and parking	Identifying the site which can be used for	
areas.	parking by taxis and bus ranks.	

12.6 Public transport backlogs

- Shelter at Taxi ranks (Lenyenye, Mogoboya, Burgersdorp, Bolobedu South &Risava)
- Ablution facilities at all Taxi Ranks within GTM area.

HIV/AIDS and public transport

Transport has a crucial role to play as we come in to contact with millions of people every day and some of the people working in our sector are in the highest risk groups for exposure to infection by HIV/AIDS.

- a) With almost half of the country's population using public transport, commuters have become a large mobile audience for interactive HIV/AIDS prevention campaigns.
- b) Every truck driver, taxi driver, bus operator, commuter and passenger should be an active role player in spreading the HIV/AIDS prevention messages.

12.7 Truck drivers

- a) It is generally accepted and well-documented that long distance truck drivers have been and remain one of the key forces in the spread of HIV/AIDS pandemic across the African continent. The role of truck drivers in the transmission of HIV/AIDS and other sexually transmitted diseases is rooted in the lifestyle that comes with the profession, as well as the broader social and economic societal factors.
- b) Truck drivers are highly mobile and spend long hours on the road away from their families. Their need for entertainment and female companionship, coupled with relative solvency compared to the rest of the population, makes them very likely to use the services of commercial sex workers in stop-over towns near major transportation routes.
- c) Overnight stop for truck

12.8 Gender mainstreaming and Public Transport

DRAFT IDP 2025/ 2026 Page **115** of **406**

- a) Transport plays such a vital role in most women's daily routines. Major differences in the basic mobility needs of women and men are grounded in the gender-based division of labour within the family and community.
- b) Men's stereotypical role in almost all societies is the one of the income-earning breadwinners, who leaves the house for work in the morning and comes back in the evening.
- c) Women, however, usually perform triple roles as income earners, homemakers, and community-managers.
- d) Women's complex household and caretaking responsibilities usually force women to make multiple stops. Women also frequently carry shopping bulky loads and are accompanied by children or elderly relatives.
- e) Gender analysis needs to be incorporated into all transport planning, so that gender impacts are studied and considered before project implementation.

12.9 Disability mainstreaming and Public Transport

- a) There is lack of accessible public transport for the physically challenged, the visually impaired and hearing-impaired people, which makes it extremely difficult for them to travel to places of employment and health facilities.
- b) Our Public Transport planning should take cognizance of the needs of disabled persons.

13. SECURITY SERVICES

13.1 Legislative Framework

No	Legislation	Summary/Scope of Legislation
1.	The Constitution of the Republic of South Africa, 1996.	- To provide a safe and healthy environment as contained in the local
2.	White Paper of Safety and Security (2016)	government objects. - A community where all people live in
3.	White Paper on Local Government (1998)	a safe environment. - To provide for the safeguarding of
4.	Control of Access to Public Premises and Vehicles Act, 1995, (Act 53 of 1985)	certain public premises and vehicles and the protection of people.
5.	Criminal Procedure Act, 1977 (Act 51 of 1977)	 To make procedures and related matters in criminal proceedings
6.	Private Security Industry Regulation Act, 2001 (Act 56 of 2001)	(investigations and evidence emanating from reports against
7.	Security Officers Act, 1987, (Act 92 of 1987)	unethical behaviours by employees).

DRAFT IDP 2025/ 2026 Page **116** of **406**

No	Legislation	Summary/Scope of Legislation
8.	Firearms Control Act, (Act 60 of 2000)	- To regulate private security service providers and compliance thereof.
9.	Minimum Information Standards (MISS)	- To control and monitor use of firearms in the workplace.
10.	Greater Tzaneen Municipality Safety and Security Policy	 To put security measures on document, physical security To regulate the internal access control and general security of employees, Councillors, and visitors

13.2 Safety and security facilities

South African Police Services Stations

- a) Tzaneen SAPS
- b) Haenertsburg SAPS
- c) Ritavi SAPS Including Lephephane Satellite Police Station
- d) Letsitele SAPS including Musiphana (Nwamitwa) Satellite Office
- e) Maake SAPS
- f) Bolobedu SAPS
- g) Mokwakwaila SAPS

13.3Shortage/ Backlogs of Security services.

- a) Establishment of Street Committees and Training of new members, the areas are too big and require enough Training Budget.
- b) Conducting Crime Prevention Programmes with the SAPS and role players in the JCPS Cluster.

13.4Security challenges internally and external.	13.5 Possible Solution
c) Increased crime at residential and business areas.	13.4.1 Installation and monitoring of the CCTV Cameras in strategic areas.
d) Theft of Council assets.	13.4.2 Draft a plan for monitoring and patrolling council infrastructure.

DRAFT IDP 2025/ 2026 Page **117** of **406**

e)	Backlog in establishment of street		
	committees.	13.4.3	Conducting crime awareness
			campaigns and continue with
			formation of street
			committees/patrollers.
f)	Insufficient budget allocation.	13.4.4	Resuscitate the biometric
			access in the building.

13.5Disability mainstreaming on Security Services.

- a) Disabled people are at greater risk of experiencing violence or hostility than the wider population. This includes violence or hostility which might be perceived as a 'hate crime'.
- b) Violence, in particular rape can be a daily experience in the street, at work, at home in hospitals and places of care for disabled women.
- c) The municipality has a responsibility together with relevant stakeholders, to initiate programmes that would respond to such challenges as mentioned.
- d) Safety and security policies and legislations should be in place to advocate for the safety of disabled people in communities.
- e) Primary caregivers for disabled people should always ensure the safety of disabled people by always securing their homes, and facilities caring for disabled people should also strengthen their security systems.

DRAFT IDP 2025/ 2026 Page **118** of **406**

KPA 3: LOCAL ECONOMIC DEVELOPMENT

1. Environmental, Social and Economic Analysis

1.1 Introduction

This Section will provide a summary of the components of the Situational Analysis Report (Step 1.1. The components include:

- a) Legislative and policy review
- b) Socio-economic analysis
- c) Economic analysis

1.2 Legislative and Policy Review

The Table below highlights the important legislation and policies that need to be taken into conservation when reviewing the Greater Tzaneen LM LED Strategy.

Legislation and Policies

No		Legislation
1.	Legislation	 South African Constitution (1996) White Paper on Local Government (1998) Municipal Systems Act (2000) Municipal Finance Management Act.
2.	National Policies and Plans	 National Framework for LED in South Africa (2006 –2011) GEAR National Development Plan New Growth Path Industrial Policy Action Plan National Space Development Perspective Comprehensive Rural Development Programme Medium Term Strategic Framework (2019-2024) Presidential Infrastructure Coordinating Commission
3.	Provincial and District Policies and Plans	Limpopo Development Plan (2024-2029)Mopani District IDP (2025-26)

DRAFT IDP 2025/ 2026 Page **119** of **406**

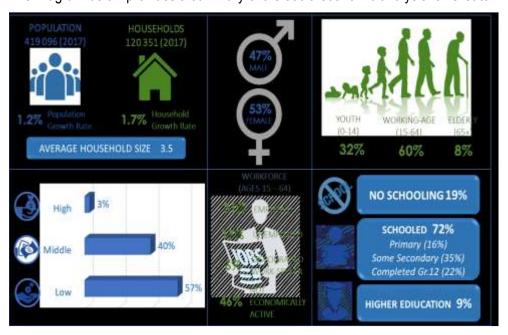

No				Legislation
4.	Local Plans	Policies	and	 Greater Tzaneen LM IDP (2025-2026) Greater Tzaneen SDF (2024-2029) Greater Tzaneen LED Strategy (2025) GTM Investment incentive Policy

Based on the review of national, provincial, and local policies and strategies, the LED strategy of the Greater Tzaneen should focus on working towards to vision of the Municipality by:

- a) Creating an enabling environment to attract new businesses and investment, which will ultimately result in job creation and economic growth.
- b) Focus on service delivery improvement.
- c) Value chain development in key sectors:
 - (i) Agriculture
 - (ii) Manufacturing
 - (iii) Tourism
 - (iv) Promoting skills development

1.3 Socio-economic Analysis Summary

The Diagram below provides a summary of the socio-economic analysis for Greater Tzaneen Municipality.

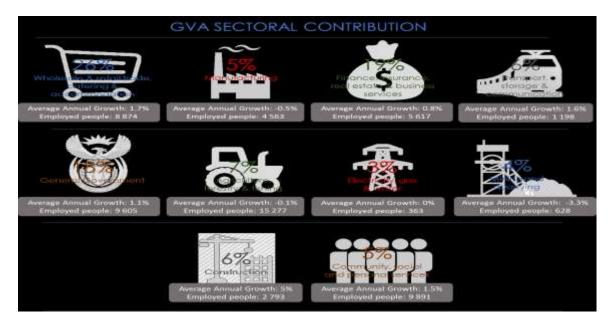

DRAFT IDP 2025/ 2026 Page **120** of **406**

Source: Adapted from Quantec Easydata, 2016 and StatsSA Census, 2011

1.4 Economic Analysis

The Diagram below provides a summary of the employment and GVA statistics for Greater Tzaneen Municipality

From the economic analysis, it is evident that intervention is needed in the agriculture and manufacturing sectors. The manufacturing sectors in Greater Tzaneen is very dependent on the agriculture sector, as Agro processing is one of the main manufacturing subsectors. The tertiary sectors in Greater Tzaneen LM also perform a very important function, and an enabling environment should be created to retain existing businesses and attract new investment in these sectors.

From the Table below, the agriculture-, manufacturing and the trade sector are very important sectors within the local economy, however, interventions are needed within these sectors to ensure employment creation and sustainable economic growth.

Table 51: Carvalho Classification Sector LQ Carvalho

No	Sector	LQ	Carvalho	Carvalho Classification Definition
1.	Agriculture	1.69	Promising	Promising high local specialization in a sector which grew provincially at a slower rate than overall growth; local growth exceeded provincial growth in this sector
2.	Mining	0.14	Marginal	- Industry is under-represented in the local economy

DRAFT IDP 2025/ 2026 Page **121** of **406**

No	Sector	LQ	Carvalho	Carvalho Classification Definition
3.	Manufacturing	1.20	Vulnerable	 Industry has an average concentration of employment. This can also indicate that an important source of employment is declining
4.	Utilities	0.88	Transitional	 Average specialization in this sector which grew provincially at a slower rate than overall growth; local growth exceeded provincial growth in this sector
5.	Construction	0.93	Accelerating	 Area is neither highly specialized nor under- specialized in this sector. The sector is growing provincially and growing locally at a higher rate.
6.	Trade & Accommodation	1.10	Vulnerable	 Industry has an average concentration of employment. This can also indicate that an important source of employment is declining
7.	Transport & communication	0.96	Transitional	 Average specialization in this sector which grew provincially at a slower rate than overall growth; local growth exceeded provincial growth in this sector
8.	Finance & business services	0.91	Vulnerable	 Industry has an average concentration of employment. This can also indicate that an important source of employment is declining
9.	Community Services	0.70	Yielding	 Average specialization in this sector which grew provincially, however local growth was slower than provincial growth in this sector

1.5 Community Work Programme (CWP)

The CWP is an innovative offering from the government to provide a job safety net for unemployed people of working age. It provides a bridging opportunity for unemployed youth and others who are actively looking for employment opportunities.

The programme provides them with extra cash to support them in their search for full-time or part-time employment. Programme participants do community work thereby contributing to improvements that benefit all community members.

1.5.1 Purpose of the CWP

• To provide an employment safety net. The CWP recognises that sustainable employment solutions will take time, particularly in reaching marginal economic areas.

DRAFT IDP 2025/ 2026 Page **122** of **406**

- To contribute to the development of public assets and services in poor communities.
- To strengthen community development approaches.
- To strengthen the economic 'agency' of people in poor areas, providing work experience, enhancing dignity, and promoting social and economic inclusion.

1.5.2 Ward Participation

The undermentioned wards are currently implementing the CWP and the future focus is to upscale to all wards: -

10 Wards (12,16,18,22,29,30,32,33,34 & 35)

COGTA National is the custodian of the programme responsible for budgeting, approving and upscaling and COGHSTA Limpopo responsible for monitoring. The Local Municipality implements this by ensuring that poor of the poorest benefit.

1.6 Local skills base and Job market

- **a)** Skills training within GTM should be concentrated on the three priority sectors, namely agriculture, tourism, and processing.
- b) The intention of this intervention is to improve the employability of the economically active persons within the GTM area so that these persons will qualify for the new jobs that are expected to be created through the project proposals that are contained. SETAs that are particularly relevant to GTM are Tourism and Hospitality (THETA), Primary Agriculture (PAETA), Local Government and Water (LGWSETA) and the Wholesale and Retail Education and Training Authority (WRSETA).
- c) A Skills Development Project Team was established comprising the relevant municipal officials with representatives from the Tzaneen Labour Centre and the Limpopo Office of the Department of Labour. This team will obtain project application forms from the SETAs that are mentioned above as a starting point to facilitate the flow of levies back to employers. Applications for taxi-driver training will also be included under the auspices of the Transport Education and Training Authority. The Skills Development Forum needs to be formalized and regular meetings need to be ensured.

1.7 Comparative and competitive advantage of the Municipality:

- a) In terms of Agriculture, Greater Tzaneen Municipality generate most of the district's GDP which accounts for 43% followed by Letaba Municipality which contributes 23%. This is evident by the high employment sector in Greater Tzaneen as Agriculture by 40% followed by Letaba with 25%. Thus, the Municipality has a competitive advantage in Agriculture within the district followed by Manufacturing which contributes 38%, 3% of the local Municipality to the district.
- b) The highest GDP contribution per sector in the Greater Tzaneen Municipality is Community services by 31, 7 % followed by Finance and Trade by 23, 8% and 10, and 2% respectively. Agriculture contributes only 7, 6% in the local Municipality with the least in Construction and

DRAFT IDP 2025/ 2026 Page **123** of **406**

Manufacturing by 1.7% and 3, 7 respectively. Community Services has therefore a competitive advantage in the local Municipality as compared to agriculture. The figures show that manufacturing and Construction have a comparative advantage as sectors for economic growth within the Municipality.

1.8 Sectors with local economic potential

The following are sectors which have an economic potential within our municipality:

- a) Agriculture
- b) Tourism,
- c) Manufacturing

1.9 Social and Environmental Challenges

Table 53: Social and Environmental Challenges

Social	Environmental
Poverty	Climate change
HIV and AIDS	Pollution
Cultural Diversity	Illegal occupation of land
Political Climate	Veld fires
Xenophobia	Exploitation of Natural Resources
	Land Redistribution/Restitution

- a) As outlined in the Provincial Economic Strategy analysis, tourism has been identified as a sector having competitive advantage. This sector reflects strengths, unique characteristics and a potential for growth and development.
- b) Whilst the municipal area has tremendous natural and heritage potential for development, the performance of the trade sector (wholesale, retail, catering, and accommodation) has tended to show slow growth rates. There appears to be consensus that tourism demand is well below what would be expected from an area with such outstanding natural potential.

2 Tourism

The tourism sector in Greater Tzaneen LM cannot be viewed in isolation. The tourism product offerings of the area need to be considered as well, as tourists will also travel through the municipality to reach their destination. The Kruger National Park is one of the main attractions, and tourists travelling from Polokwane will need to travel through the LM to reach the Park.

DRAFT IDP 2025/ 2026 Page **124** of **406**

14 Agri-Tourism

Agri-tourism is the act of visiting a working farm for the purpose of enjoyment, education, or active involvement in the activities of the farm(Myer & De Crom, 2013). There are many facets to Agri-tourism:

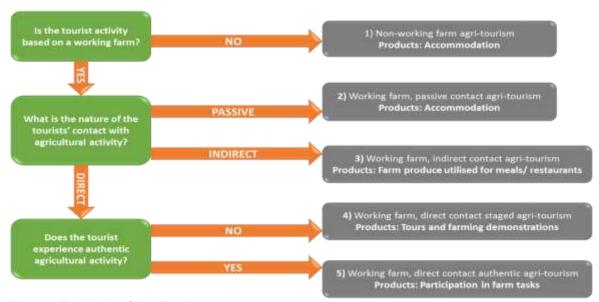

Diagram: Typologies of Agri-Tourism

(Phillip, et al., 2010)

Agri-tourism can provide a potential for diversification for farmers as well as creating new revenue streams. Motivations for Agri-tourism product development can include (Polovitch Nickerson, et al., 2001):

- a) Fluctuations in agricultural income
- b) Additional employment creation for family members
- c) Better use of farm resources
- d) Education to the consumer

14.3Table 54: Existing Agri-tourism which exists in the region include:

No	Name	Location	Distance from Tzaneen	Product Offering
1.	Kuhestan Organic Farm (avocadoes and berries)	Magoebaskloof	26.2 Km	Farm stays, farm products
2.	Wegraakbosch Organic Dairy Farm	Magoebaskloof	28.9 Km	Dairy products, cheese dairy tours
3.	Thomac Essential Oils	Magoebaskloof	36.4 Km	Helichrysum Splendidum essential oil, tours
4.	Agatha Crocodile Ranch	Near Agatha Forest Reserve	12.6 Km	Tours, art gallery, crocodile feeding, curio shop

15 LED STRATEGY 2017

DRAFT IDP 2025/ 2026 Page **126** of **406**

Recommended Strategies

- Creating an enabling environment (roads, water, and electricity).
- Nodal and cluster development by focusing investment on key sectors.
- Place development at and in proximity to existing arterial routes.

6. EXPANDED PUBLIC WORKS PROGRAMME (EPWP)

6. EXPANDED PUBLIC WORKS PROGRAMME (EPWP)

6.1 Background

The expanded public works programme (EPWP) is South African Government initiated programme aimed at creating 5 million work opportunities by 2029. The programme is implemented by all spheres of Government, across four (4) defined sectors, namely the infrastructure, social, Non-state, and Environmental and culture sector.

The National EPWP framework provides that local government develop an EPWP policy that is embedded within the integrated development plan, the policy is expected to promote EPWP principles and the restructuring of local government activities to facilitate and create greater employment opportunities per unit of expenditure .it further provides that EPWP projects and programmes must be identified within each department ,which can be implemented using labour – intensive or community based services delivery method.

2. Objectives of the Expanded Public Works Programme

The expanded public works programme is about the reorientation of the line function budgets so that expenditure by government results in increased employment opportunities and training particularly for unemployed and unskilled labour. The following main objectives of the programme, inter alia, to create an enable environment to:

- a. Create employment opportunities for unemployed within local communities through the implementation plan which collectively cuts across the different sectors.
- b. Develop SMME's to execute EPWP work by facilitating the transfer of technical managerial and financial skills through relevant SETA & DOL courses, in properly structured learnerships programmes.
- c. Out of total annual budget spent, maximise the percentage retained within local communities in form of wages, promote the procurement of goods and services from local manufacturers, suppliers, and service providers.
- d. Develop skills within communities through EPWP training by accredited training providers aimed at the developing sustainable skills and capacity within communities. Using clearly defined key performance indicators –monitor, evaluate and report all EPWP initiatives, including those implemented using provincial and National government budgets.

DRAFT IDP 2025/ 2026 Page **127** of **406**

3. EPWP Phase IV Targets for Greater Tzaneen Municipality

Table1: EPWP Phase 5 targets for Infrastructure Sector

Financial	Work opportunities	Full Time Equivalents
Year		(FTE's)
2024/2025	400	127
2025/2026	417	132
2026/2027	433	137
2027/2028	450	142
2028/2029	467	148
Total	2167	686

EPWP Phase 5 targets for Environmental and Culture sector

Financial	Work opportunities	Full Time Equivalents
Year		(FTE's)
2024/2025	1168	592
2025/2026	1168	592
2026/2027	1168	592
2027/2028	1168	592
2028/2029	1168	592
Total	5840	2960

DRAFT IDP 2025/ 2026 Page **128** of **406**

EPWP Phase 5 targets for Social Sector

Financial	Work opportunities	Full Time Equivalents
Year		(FTE's)
2024/2025	163	82
2025/2026	163	82
2026/2027	163	82
2027/2028	163	82
2028/2029	163	82
Total	815	410

As per the Municipal Protocol agreement entered between the National Minister of Public works, the Mayor and the annual contract signed by the Municipal Manger. The set targets for 2025/2026 financial year are 1748 work opportunities (WO) and 801 full time equivalents (FTE's).

6.4 Source of funding

The Department of Public works integrated EPWP conditional grant, and the 2025/2026 financial year allocation is R 4 811 000.00

- Municipal infrastructure grants (MIG)
- Operational and capital budget
- Equitable share

KPA 4: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

1. PUBLIC PARTICIPATION

1.1 Legislation

The following acts/legislations regulate all matters relating to Traditional Authorities in our country:

No	Legislation	Summary/Scope of Legislation
1.	National House of Traditional Leaders Act No 22 of 2009	 To provide for the establishment of the National House of Traditional Leaders. To determine the powers, duties, and responsibilities of the House. To provide for support to the House by government. To provide for the relationship between the House and the provincial houses. To provide for the accountability of the House
2.	Traditional Leadership and Governance Framework Amendment Act No. 41 of 2003	 To provide for the recognition of traditional communities. To provide for the establishment and recognition of traditional councils. To provide a statutory framework for leadership positions within the institution for traditional leadership, the recognition of traditional leaders and the removal from office of traditional leaders. To provide for houses of traditional leaders. To provide for the functions and roles of traditional leaders. To provide for dispute resolution and the establishment of the Commission on Traditional Leadership Disputes and Claims. To provide for a code of conduct. To provide for amendments to the Remuneration of Public Office Bearers Act, 1998;

1.2 Relationship with Traditional Authorities

The Municipality has a sound relationship with the Traditional Authorities. They participate in all programmes of the Municipality starting from council to the ward committee. In ward committee Traditional Authorities participate by delegating one to represent the house of Traditional Authorities.

DRAFT IDP 2025/ 2026 Page **130** of **406**

The following are Traditional Authorities within our area of jurisdiction:

- 1. Modjadji Traditional Authority
- 2. Batlhabine Traditional Authority
- 3. Bakgakga Traditional Authority
- 4. Valoyi Traditional Authority
- 5. Nkuna Traditional Authority
- 6. Nyavana Traditional Authority
- 7. Mmamabolo Traditional Authority
- 8. Sebela Traditional Authority

1.3 Community Development Workers (CDW)

Community Development Workers are employees of the Department of Cooperative Governance Human Settlement and Traditional Affairs. The work together with ward committees with various wards of the municipality. Since the inception of the CDW programme Greater Tzaneen Municipality had 32 CDW and the wards number has increased to 35. Currently we are having a total of 20 and vacant position is 15 this resulted through death and resignation. The 15 ward that does have CDW are ward 01,04,05,06,08,10,11,14,15,16,21,25,26,32 & 33.

1.4 Ward Committees

- a) Ward committees were established and whenever there is a vacant position the office of the Speaker through Public Participation Divisions, in collaboration with Ward councillors and stakeholders affected facilitate the replacement processes.
- b) There are 35 Wards, each composed of 10 community members excluding the Ward Councillor who chairs the committee. The 35 wards have been organised into four clusters and these clusters are chaired by four full-time councillors.

1.4.1. Challenges for Ward Committees	Possible Solutions
	* Replacement of CDWs in the remaining
Lack of Tools of trade	15 wards.
	* Provision of tools trade for Ward
	Committee members (secretariat)
	* Implementation of sanctions for non-
	attendance of scheduled meetings

DRAFT IDP 2025/ 2026 Page **131** of **406**

1.4.1. Challenges for Ward Committees	Possible Solutions
Poor attendance in public participation meeting.	-Constant community feedback meetings.
	-Implementation of planned projects.
	-Promote electronic public participation system.

1.5 Functionality of report back meetings

The legislation requires ward committee to hold the ward committee management meeting on monthly basis and Community feedback on quarterly basis. All ward committees are holding the monthly and however few wards can hold quarterly feedback meetings as required by the legislation.

1.6 IDP Public Participation Inputs for 2024/25

The Public Participation for the 2024/2025 IDP / Budget will be done during the month of April 2025.

1.7 Non-governmental and Community based Organisations,

The municipality involves Community Based Organizations (CBO's), Non-Governmental Organizations and Business sector within our IDP and Budget processes. We have a database of all these stakeholders which is updated every financial year. They are invited and participate in our IDP Representative Forums.

2. MUNICIPAL PUBLIC ACCOUNTS COMMITTEE

The Municipal Public Accounts Committee has been established as a Local Government Municipal Structures Act, section 79A committee to play an oversight on behalf of Council. The committee comprises of nine (9) Councillors including the Chairperson. Its meetings are held in line with the approved Annual Work Plan and the activities of the committee are guided by the approved Terms of Reference.

2.2 MPAC	Challenges	2.3 Possible solutions
•	There is a slow implementation of Council	
	resolutions on MPAC reports.	 Continuous tracking of Council resolutions through Management structure.
•	The committee needs to be fully capacitated to execute its responsibilities as expected.	 Prioritisation of committee members training annually.

DRAFT IDP 2025/ 2026 Page **132** of **406**

2.4 Council Committees

Council has elected the following committees.

- a) Executive Committee in line with section 45 of the Municipal Structures Act, with ten (10) members including the Mayor as the chairperson of the committee.
- b) Twelve (12) portfolio committees were further established in line with section 79 of the Municipal Structures Act chaired by none EXCO members, to play an oversight role to EXCO on behalf of Council.

The meetings of all committees of Council are held in line with the approved schedule of meetings and the assigned responsibilities to each committee are executed in line with the Council's delegation of powers.

Challenges	Possible solution	
- Poor attendance of portfolio committees of Council.	 Implementation of sanctions for non- attendance of committee meetings in line with the Rules of Order of Council. 	

3. COMMUNICATION

LEGISLATIVE FRAMEWORKS

- a) Constitution of the Republic of South Africa Act, 1996 (Act 108 of 1996) and in particular Chapter 2 which outlines the bill of rights, and Chapter 7 which points the tone of communication for local government.
- b) White paper on Local Government Transformation, 1998
- c) Local Government Municipal Structures Act of 1998 (Act 117 of 1998)
- d) Local Government Municipal Systems Act of 2000 (Act 32 of 2000)
- e) Promotion of Access to Information Act of 2000(PAIA) (Act 2 of 2000)
- f) Local Government Municipal Finance Management (MFMA) (Act 56 of 2003)
- g) Intergovernmental Relations Framework Act (Act 13 of 2005)
- h) Protection of Personal Information Act 4 of 2013

3.1 FUNCTIONS OF COMMUNICATIONS AND MARKETING DIVISION

- a) Internal and external communications
- b) Events Management
- c) Customer care
- d) Marketing and promotions
- e) Batho Pele Coordination
- f) Media Relations

3.2 COMMUNICATIONS CHALLENGES	Possible solutions
WITHIN THE MUNICIPALITY	
a. Ineffective customer care management.	 Introduction of the centralized electronic customer care system.
b. Poor relations with some media houses.	- Awareness workshop to front-line officers on Batho-pele principles.
c. Negative publicity	- Effective communication on service delivery achievement and challenges.

4. INTERNAL AUDIT

4.1 Legislative Framework for Audit

The following acts/legislations regulate all matters relating to Audit:

Legislation	Summary/Scope of Legislation
Public Audit Act no 25 of 2004	To give effect to the provisions of the Constitution establishing and
Public Audit Amendment Act no 5 of	assigning functions to an Auditor-General.
2018	To provide for the auditing of institutions in the public sector
	To provide for accountability arrangements of the Auditor-General;
Local Government: Municipal	Section 165 provides for the establishment of an Internal Audit unit
Finance Management Act no 56 of	and its functions.
2003	Section 166 provides constitution and functions of the Audit
	Committee
Local Government: Municipal	Section 45 provides functions of the Internal Audit and Auditor
Systems Act no 32 of 2000	General to audit the results of the performance measurements

4.2 Main functions of Internal Audit

- The main responsibility of the division is to give assurance to management in relation to the effectiveness of internal controls as well as compliance to legislative requirements.
- Annually we source information from the risk register to develop our annual plan and quarterly we submit our reports to the Audit Committee which must report to Council as required in terms of section 166 of the Municipal Finance Management Act.
- The division reports functionally to the Audit Committee and administratively to the Accounting Officer

DRAFT IDP 2025/ 2026 Page **134** of **406**

4.3 Challenges	4.4 Possible Solutions
Lack of Auditing system	Development of action plans to track and ensure implementation of both Internal Audit and the Auditor General's audit findings.
Audit findings not addressed.	Development of action plans to track and ensure implementation of both Internal Audit and the Auditor General's audit findings

4.5 Audit Committee

In terms of section 166 of the MFMA, Council has appointed a fully functional independent Audit Committee. The committee held 4 ordinary and 6 special meetings.

4.6 The following Internal Audit strategic documents were approved by the Audit Committee:

- Three year strategic and Annual plans
- Internal Audit Methodology
- Internal Audit and Audit Committee Charters

4.7 Audit outcome:

2019/2020	2020/2021	2021/2022	2022/2023	2023/2024
Unqualified	Unqualified	Unqualified	Unqualified	Unqualified

This is the audit outcome for the past five years. GTM has sustained the Unqualified Audit Opinion.

Findings affecting the audit report	Implementation progress	Status
Fruitless and wasteful expenditure	Service level agreements/instruction letters with	In
	external legal service providers amended to the	progress
	effect that the municipality shall only be liable to	
	pay the legal fees upon successful registration	
	of transfer and presentation of title deeds.	
Irregular expenditure	SCM compliance checklist developed and	In
	implemented	progress

4.8 Progress on implementation of Audit Findings

Action Plans:

- Internal Audit Action Plan An Internal Audit Action Plan was developed to track implementation of the Internal Audit Findings Implementation at 20%.
- AGSA Action Plan An AGSA Action Plan was developed and approved by Council to track implementation of findings raised by the AGSA Implementation at 73%.
- Audit Committee Resolutions Register An Audit Committee Resolutions Register was developed to track implementation of the resolutions of the Audit Committee – Implementation at 90%.

DRAFT IDP 2025/ 2026 Page **135** of **406**

RISK AND COMPLIANCE MANAGEMENT

3. ANTI CORRUPTION STRATEGY

3.1. Introduction

The Municipality is committed to protect public funds and ensure that all Council activities are carried out in accordance with the principles of openness, honesty, and integrity. The Council has a <u>zero tolerance</u> to fraud and corruption activities by offenders. In carrying out its functions and responsibilities the Council is fully committed to deterring theft, fraud, corruption, and bribery whether it is attempted on or from within the Council.

3.2. Anti-Corruption Strategy

The anti-corruption strategy is intended to set down the stance for the municipality to fraud and corruption and to reinforce existing systems of controls, policies and procedures aimed at deterring, preventing, detecting, and reducing the impact of fraud and corruption.

3.3. Investigations

Investigations are initiated as and when cases are reported on the anti-corruption hotline, walk-ins, or management resolution. Anonymous reports may warrant a preliminary investigation before any decision to implement an independent investigation is taken.

4. FRAUD PREVENTION PLAN

a) Whistle Blowing Policy

The municipality has the anti-corruption hotline, 0800 44 66 44 where the officials of the municipality and the public can raise their concerns in terms of Protected Disclosure (PDA) Act No 26 of 2000 GTM and the approved Whistle Blowing Policy.

5. RISK MANAGEMENT

a) Risk Management Strategies

In terms of Section 62 of MFMA, Accounting Officer must maintain an effective, efficient, and transparent systems of financial and risk management and internal control. The municipality is continuously conducting risk assessments in terms of risk management framework ensuring that all objectives as set out in the IDP are achieved. The risk management committee has been established to advise the Accounting Officer on risk matters and to monitor the implementation of risk mitigation strategies employed by municipal departments on a quarterly basis.

2. GTM 2025/26 Strategic risks identified.

- 1. Aging infrastructure (Roads, Buildings, Solid Waste, Electrical)
- Non-compliance with Water Service Authority (Mopani District Municipality) and Water Service Provider (Greater Tzaneen Municipality) agreement.

DRAFT IDP 2025/ 2026 Page **136** of **406**

- 3. Fraud and corruption occurring at the municipality
- 4. Non-adherence to the reporting time frames.
- 5. Increasing theft of infrastructure
- 6. Non-compliance with SCM policy and regulations.
- 7. Non-adherence to the reporting time frames.
- 8. Cyber attacks
- 9. Excessive legal fees
- 10. Inadequate implementation of infrastructure projects

5. DISASTER MANAGEMENT

6.1 Legislation

Legislation	Provision		
The Constitution, Act No. 108 of 1996	 Section 41(1)(b). All speres of government are required to secure the well-being of the Republic. Section 152(1)(d). To promote a safe and healthy environment 		
The Disaster Management Act	 Section 43 (3). A local municipality must establish capacity for the development and coordination of the disaster management plan and implementation of a disaster management function for the municipality. Section(1)(a). Each municipality must conduct a disaster risk assessment for its area 		
National Disaster Management Framework	 Establishes bases for all aspects of disaster risk management such as risk reduction, preparedness, response, and recovery. Provides guidelines on establishment of municipal disaster management centers and municipal advisory forums 		
Municipal Systems Act No 32 of 2000	Section 26(g). An integrated development plan must reflect applicable disaster management plans		

The Disaster Management Act (Act No. 57 of 2002) defines Disaster Management as a continuous and integrated multi-sectoral, multi-disciplinary process of planning and implementation of measures aimed at-

- a) Preventing or reducing the risk of disasters
- b) Mitigating the severity or consequences of disasters
- c) Emergency preparedness
- d) A rapid and effective response to disasters; and
- e) Post-disaster recovery and rehabilitation

6.2 Types of hazards/risks

The indicative risk profile of Greater Tzaneen Municipality.

The municipality is compelled by section 53 of the Disaster Management Act as amended to conduct a risk assessment for its area. With the assistance of the district municipality, Greater Tzaneen Municipality held a meeting on 22 August 2023 to examine hazards prevalent in the Greater Tzaneen area. Although a comprehensive risk assessment was not done, the municipality's indicative risk profile anticipates the following hazards within the area:

	HAZARD CATEGORY	RISKS	
1	Hydro meteorological	Drought, floods, severe weather, Wetlands, veld and	
	hazards	forest fires, Windstorms, Hailstorm	
2	Geological hazards	Mudflows and Landslide	
3	Biological hazards	Foot and Mouth disease, Anthrax, Brucellosis, Black	
	(human and animal	spot, Fruit fly, Covid 19, Communicable diseases and	
	diseases)	Rabies	
4	Technological hazards	Structural Fires, Motor vehicle accidents, Transport of	
		people at the back of goods vehicles, Truck accidents,	
		Hazmat by road, Bridge collapse, Dam failure,	
		hazardous installations, aircraft accident	
5	Environmental hazards	Soil erosion, Sand Mining, Deforestation, illegal	
		dumping of waste, overgrazing, land degradation	
6	Other	Illegal electricity connection, illegal water connection,	
		xenophobia, stray animals, crime	

6.3 Current status/Progress made.

- The Disaster Management Plan for the municipality has been adopted by council.
- The Disaster Management Advisory Forum has been established.
- The Fire and Rescue department is the competency of the District only coordination done from locals
- One workshop was conducted and 4 Awareness campaigns held

And further for the period July 2024 to June 2025, the Disaster Management unit responded to the following disaster related incidents:

Structural fires 11Storm incidents 0Veld fires 5

• Bilharzia 162 school children (Malwandla primary school)

6.4 Disaster Relief: 01 July 2024 to 30 June 2025

Communities affected by wind, severe storms and structural fires were assisted as follows:

- 17 Blankets
- 17 Mattresses
- 05 Tents
- Food Parcels from Social Development/SASSA as their competency

6.5 Awareness campaigns (Fire, floods, and communicable diseases) for July 2024 to June 2025

DRAFT IDP 2025/ 2026 Page **138** of **406**

The Disaster Management unit conducted awareness programmes in communities as follows:

Floods 0Fires 06Communicable Diseases 0

6.6 Ch	6.6 Challenges for Disaster Management		Possible Solutions
a)	Late reporting of incidents by Councillors (after 72 hours)		
b)	Fire and Rescue services (Mopani District Municipality) are too far from communities, meaning that if a house is reported burning as far as Mokgwathi village, by the time the fire and rescue reach the destination the house would be completely burned.		
c)	People living in flood lines and mud houses.	Enforcem	ent of by-laws on settlements.

7. LEGAL SERVICES

Legislation applicable in legal services

- 1.1 The main legislation which are applicable include all Acts of Parliament, Provincial Acts, By Laws, Regulations and Guidelines and mainly:
 - a. The Constitution of the Republic of South Africa Act 108 of 1996
 - **b.** The Local Government: Municipal Systems Act 32 of 2000 and its Regulations.
 - c. The Local Government: Municipal Finance Management Act 56 of 2003 and its Regulations
 - d. Local Government: Municipal Structures Act 117 of 1998 and its Regulations
 - e. Property Rates Act 06 of 2004.
 - f. Basic Conditions of Employment Act 75 of 1995.
 - g. Labour Relations Act 66 of 1995.
 - h. SALGA Collective Agreements
 - i. Municipal Demarcations Act 27 of 2008.
 - i. Municipal Electoral Act 27 of 2000.

1.2 Major achievements for the past year

- Scaling down of legal fees through creation of tariffs.
- Scaling down of inflow of litigation through good governance.
- Eradication of Warrant of Executions against the Municipality.

DRAFT IDP 2025/ 2026 Page **139** of **406**

- Achievements of Settlement Agreements in favour of the Municipality.
- Cost orders in favour of the municipality.

7.3 Backlogs (planned vs achieved)

There are no internal backlogs.

7.4 Main challenges / issues for legal services	7.5 Plans or possible solutions for the challenges.
General high costs or expenditure of legal fees.	7.5.1 Regulations of Legal Fees by the Municipality by adjusting allocated hours for services and different tariff amounts on the approved legal tariffs.
(i) Lack of institutional memory to defend cases successfully.	
(ii) Lack of initiatives to assist the Legal Division to defend cases.	7.5.3 Regulation of Labour relation initiative to assist Legal Division to defend cases.
(iii) High inflow of litigation due to gross negligence and serious misconduct.	7.5.4 Strict measures to ensure discipline to avoid gross negligence, gross dereliction of duty, gross insubordination and gross misconduct which cause high inflow of litigation and maladministration.
(iv) Twenty (20) cases remaining on the litigation register of Council.	
(v) Increase in active High Court cases from 11 to 20	7.5.2 Improvement of filling system of the Municipality through digital filling rather than the manual system which is outdated.
(vi) Backlog in allocation of Trial dates by the High Court and the Labour	
(vii) Low finalization rate of Cases.

2. YOUTH AND CHILDREN ANALYSIS

8.1 Main legislations are applicable.

- (i) Social Service Professions Act: Appointment: Professional Board for Social Work; Child and Youth Care 14 June G201640068 BN 82
- (ii) National Youth Development Agency Act: National Youth Development Agency Board: Appointment's 24 May 2017 G40856 GeN 411
- (iii) Broad Based women Black Economic Empowerment Act: Codes of Good Practice: Youth Employment Service 28 August 2018 G41866 GeN 502
- (iv) South Africa's National Strategic Plan on HIV, TB and STIs 2017-2022 29 March 2017
- (v) Broad Framework for HIV and AIDs and STI Strategic Plan for South Africa 2007-2011 1December 2006
- (vi) Women Empowerment and Gender Equality Bill B. SOD 2013 27 April 2014
- (vii) Older Persons Amendment Bill B1.1-2022 3 May 2022
- (viii) National disability Rights Policy: Draft G38471 GeN 129 16 February 2015
 - (ix) The Constitution of the Republic of SA Act 106 of 1996 Chapter 7

Youth and children (aged 0-35 years) constitute the highest population in the municipality 74% (Statics SA 2001). In terms of GTM SDF population projection, in 2008 youth comprised of 397 227 of the total population of 536 793. According to Stats SA 2011, youth (14-35 years) comprise of 40% (or 156 900) of the total population of 390 095. It also represents the most vulnerable sector of society. There is also a worrying trend of orphan headed families (280: SSA 2011). These people are at their early stage of development and have lot of needs.

a) Status on Disability

- (i) This sector of the society is even more vulnerable. The challenge is that this problem is genetic which means a disabled person may bear offspring who are also disabled. This limits the chances of the families in terms of socio-economic growth. Given the disability prevalence of 5% of the total population of 478 000 in GTM, the intervention in terms of mainstreaming becomes more than important.
- (ii) Currently there is Yingisani and Letaba special schools situated next to Letaba hospital and Shilubane hospital user group who caters for the disability.
- (iii) The municipality has launched the Local Disability Council to advocate & lobby issues of disability. This population has been neglected in the planning processes in the past. The Council assist in raising issues in all forums within the municipality.

DRAFT IDP 2025/ 2026 Page **141** of **406**

(iv) The Greater Tzaneen Municipality building is now fully accessible to the disability group as it has constructed and opened a lift for use.

In terms of the Stats SA Community Survey, 2007, (Table 10, Disability Prevalence) there are 349 085 people in Greater Tzaneen Municipality. Out of this population 14 879 people are living with disabilities. This means there is 4.26% of people living with disabilities.

There are various types of disabilities, and the summary below gives indication per type.

a) The needs and challenges of disabled persons

No	Needs	Challenges
1.	Automated wheelchairs.	Accessibility public infrastructure & transport
2.	Manual wheelchairs.	Access to social grants.
3.	Disability friendly RDP houses (e.g.,	Accessibility & Availability of Assistive devices.
	with toilets inside)	
4.	Disability sports & sports facilities.	Abuse & Neglect
5.	Water.	Inequity
6.	Learnership for blind people.	
7.	Disability Awareness Campaigns	Stigmatization
		Shortage of special schools for particular special needs
8.	Braille & sign language interpretation	
	in public events.

13.	Orphanage grants.	

DRAFT IDP 2025/ 2026 Page **143** of **406**

c) Women and the aged analysis

Women constitute 53% according to SSA 2011 (54% SSA 2001) of the total population in GTM. There are 52 052 female headed families. The sizable number of elder people is women as their lifespan is longer than that of males. Women are directly affected by patriarchy. They suffer because of their gender, their skin colour as well as their social standing.

The introduction of the Women Ministry and policies criminalizing abuse of older persons is assisting a great deal in South Africa.

The municipality has established and launched the Men's Forum and the Gender Forum. The older person's forum is also supported in their programmes. There are apparently 634 families headed by older persons above 90 years (SSA 2011) NGO's & CBOs in the database which focuses on gender and older person's sector stands at 26.

d) Needs and challenges of women and the aged.

Needs	Challenges
Community poverty alleviation projects	Neglect & Abuse
Jobs	Vulnerability to Chronic disease
Women sports development	Inequality & patriarchy
Family support programmes	Sexism
Old age facilities	Lack of capacity building initiatives
Sports activities for older persons	Lack of sporting facilities
Women empowerment programme	Safety & Protection
	Illiteracy

e) Gender equity

Greater Tzaneen Municipality has an established Gender unit whose responsibility is to coordinate and advice Council on gender related matters. Generally, we are doing well in redressing the issues of gender equity in the municipality. However, the municipality is still to develop a Gender Equity Plan that will ensure that we are able to monitor and measure our work towards redressing the gender imbalances in the workplace. There is a draft gender policy which is in place and awaiting council adoption.

Gender equality promoted for access to economic opportunities.

The Greater Tzaneen Municipality as part of global community and in response to SDG5, the Municipality is participating in various economic opportunities, which seek to emancipate women and girls. They emphasise that it is proven that empowering women and girls helps economic growth and development. The Municipality promotes Gender equity through various economic opportunities for women by putting resources into poor women's hands while promoting gender equality in the

DRAFT IDP 2025/ 2026 Page **144** of **406**

households. This also attained through partnership with civil societies and sector department. Gender Policy presented to Legal Department for inputs and advise.

g) HIV/ AIDS MAINSTREAMING

According to Limpopo Provincial Implementation Plan on HIV, TB &STIs 2017-2022, Goal 2:

- (i) Stipulates the reducing Morbidity and Mortality by providing treatment, care, and adherence support for all. Therefore, HIV/AIDS Coordinator of Greater Tzaneen Municipality has aligned its plan according to National, Provincial and District Plan
- (ii) The plan has adopted the UNAIDS **90-90 targets** and the Locals Municipality will strive to achieve these targets as outlined below:
- (iii) 90% of all people living with HIV should know their HIV status.
- (iv) 90% of all people with an HIV diagnosis should receive sustained antiretroviral therapy and
- (v) 90% of all people receiving antiretroviral therapy are Virally suppressed.
- (vi) The core interventions will include amongst others, HIV testing services, demand creation and Community mobilization for the Health Screening Campaign and strengthening the procurement and logistics system for testing commodities.
- (vii) To assist in achieving these objectives requires much effort from society, government, and private sector. Public health education targeting the vulnerable groups should be continued.
- (viii) Encourage the community to avoid Stigma and Discrimination to the people living with HIV.

3. GENDER AND OLDER PERSON ANALYSIS

Women constitution is 53% according to STATSA (54% STATSA) of the total population in GTM.

There are 52 052 females headed families. The sizable number of older people is women as their lifespan s longer than that of males. Women are directly affected by patriarchy. They suffer because of their gender, their skin colour as well as their social standing. The introduction of the women Ministry and policies criminalizing abuse of older persons is assisting a great deal in South Africa. The municipality has established and launched the men's forum and the gender forum. The older person's forum is also supported in their programmes. There are apparently 634 families headed by older persons above 90 years (SSA 2011) NGO's and CBOs in the database which focuses on gender and older person's sector stands at 26.

b) Needs and challenges of the women and aged.

No	Needs	Challenges		
1.	Community poverty alleviation projects	Neglect & abuse		
2.	Jobs	Vulnerability to chronic disease

7.		Safety & protection
8.	Women empowerment programme	Illiteracy

a. Gender Equity

Greater Tzaneen Municipality has an established Gender unit whose responsibility is to coordinate and advice Council on gender related matters. Generally, we are doing well in redressing the issues of gender equity in the municipality. However, the municipality is still to develop a Gender Equity Plan that will ensure that we are able to monitor and measure our work towards redressing the gender imbalances in the workplace. There is a draft gender policy which is in place and awaiting council adoption.

b. Gender equality promoted for access to economic opportunities.

- The Greater Tzaneen Municipality as part of global community and in response to SDG5, the Municipality is participating in various economic opportunities, which seek to emancipate women and girls.
- 2. They emphasise that it is proven that empowering women and girls helps economic growth and development.
- 3. The Municipality promotes Gender equity through various economic opportunities for women by putting resources into poor women's hands while promoting gender equality in the households. This also attained through partnership with civil societies and sector department.
- 4. Gender Policy presented to Legal Department for inputs and advise.

The concern thereto lies withing the LGBTIQ+ community. The municipality is having a dedicated office to deal with their challenges, but they are not seen to be visible. The institution relies solely on the established NGOs which are mostly in town, but the real people are outside town. The municipality calls upon the LGBTIQ+ community to how themselves so that the services can be properly channelled to the correct place.

DRAFT IDP 2025/ 2026 Page **146** of **406**

d) Major achievements for the past year

Close out reports for gender, HIV/AIDS, Disability Committees

- (i) Establishment of Local disability Councils in particular Wards of GTM
- (ii) Distribution of wheelchairs and other devices to the affected people
- (iii) Support roles to sports undertaken by Disabled groups and the Elderly e.g., Para volley, Golden games.
- (iv) Regular meetings of HIV/AIDS Technical and Local AIDS Council meetings
- (v) Formation of Cluster AIDS Councils
- (vi) Candlelight memorial and World AIDS Commemoration events

f) Backlogs (planned vs achieved)

- (i) Appointment of Disability Coordinator not done
- (ii) Formation of Local Ward AIDS Councils could not work out as was envisaged.
- (iii) The different functional areas under Disability were moribund except for Employment and skills development.

KPA 5: MUNICIPAL FINANCIAL VIABILITY

1.1. Legislative Framework

The following acts/legislations regulate all matters relating to Finances in our country:

No	Legislation	Summary/Scope of Legislation			
1.	Local Government: Municipal Finance Management Act no 56 of 2003	 To secure sound and sustainable management of the financial affairs of municipalities and other institutions in the local sphere of government; to establish treasury norms and standards for the local sphere of government; 			
2.	Local Government: Municipal Property Rates Act no 6 of 2004	 To regulate the power of a municipality to impose rates on property. To exclude certain properties from rating in the national interest. To make provision for municipalities to implement a transparent and fair system of exemptions, reductions, and rebates through their rating policies. To make provision for fair and equitable valuation methods of properties. To make provision for an objection and appeals process. To amend the Local Government: Municipal Systems Act, 2000, to make further provision for the serving of documents by municipalities 			
3.	Division of Revenue Act	To provide for the equitable division of revenue raised nationally among the national, provincial and local spheres of government for each financial year and the responsibilities of all three spheres pursuant to such division			
4.	Treasury Regulations	- To regulate the management of finances and other related matters			

DRAFT IDP 2025/ 2026 Page **149** of **406**

7. OVERVIEW OF BUDGET FUNDING

Fiscal Overview

The Greater Tzaneen Municipality is unfortunately not excepted to the economic risks facing the nation and the world and its necessary to table a budget that is balanced and realistic.

According to Stats S.A., people in South Africa have lost their jobs resulted in revenue collection been under pressure. This has a direct impact on the ability of the Municipality to pay for Bulk Services and to spent on service delivery.

New and creative ways will have to be found to ensure financial sustainability.

As part of our financial sustainability strategy an Aggressive Revenue Management Framework has been implemented to increase our Cash flow, not only from current billings but also from debtors that are in arrears. The intention of the strategy is to streamline the revenue value chain by ensuring accurate billing, customer service,

credit control and debt collection.

With regard to creditors management Council is in the process of ensuring that creditors are settled within the legislated 30 days from invoice. All invoices are paid within 30 days with the exception of a few where services have not been provided at an acceptable standard. With regard to expenditure special attention will also be given to the cost containment measures approved by Cabinet on 23 October 2013 and updated on an annual basis by National Treasury to ensure value for money and cost savings.

The free basic service of Council is a social package which assists residents that have difficulty paying for services and are registered as indigent households in terms of Councils Indigent Policy. Only registered indigents qualify for the free basic service.

Cash flow problems are experienced from time to time due to the seasonal electricity tariff of ESKOM.

The implementation of the MFMA required a reform in financial planning within Municipality's. All senior managers are responsible for managing the respective votes or departments of the Municipality, to whom powers and duties for this purpose have been delegated. Top Management must also assist the Accounting Officer in managing and coordinating the financial administration of the Municipality.

DRAFT IDP 2025/ 2026 Page **150** of **406**

OPERATING BUDGET 2025/2026

Operating Revenue

The revenue of Greater Tzaneen Municipality is pre-dominantly raised through rates and tariffs. Grants and subsidies from National and Provincial Government constitute a portion of the total revenue but the budget is based on a strong base of own sources.

Metered services and property rates will contribute the following revenue to Greater Tzaneen Municipality during the 2025/2026 financial year:

Electricity 49.57%

Refuse Removal 2.15%

Property Rates 9.30%

The Greater Tzaneen Municipal operating income will be allocated as follows during 2025/2026 Financial year:

Row Labels	Sum of 2025 2026 Budget
Revenue/Exchange Revenue/Agency services	-16 664 291
Revenue/Exchange Revenue/Interest earned from Current and Non-Current Assets	-31 906 502
Revenue/Exchange Revenue/Interest earned from Receivables	-51 054 235
Revenue/Exchange Revenue/Licence and permits	-505 845
Revenue/Exchange Revenue/Operational Revenue	-22 847 485
Revenue/Exchange Revenue/Rental from Fixed Assets	-1 859 000
Revenue/Exchange Revenue/Service charges - Electricity	-1 080 673 716
Revenue/Exchange Revenue/Service charges - Waste Management	-46 980 000
Revenue/Non-Exchange Revenue/Fines, penalties and forfeits	-1 490 000
Revenue/Non-Exchange Revenue/Interest	-35 890 000
Revenue/Non-Exchange Revenue/Property rates	-202 824 080
Revenue/Non-Exchange Revenue/Transfer and subsidies – Operational	-579 413 400
Revenue/Non-Exchange Revenue/Transfers and subsidies - capital (monetary allocations)	-116 192 600
Grand Total	-2 188 301 154

Operating Expenditure

The budgeted expenditure per item is as follows for the 2025/2026 financial year:

Row Labels	Sum of 2025 2026 Budget		
Expenditure/Bulk purchases - electricity	763 382 880		
Expenditure/Contracted services	117 692 540		
Expenditure/Depreciation and amortisation	125 251 665		
Expenditure/Employee related costs	493 531 490		
Expenditure/Interest	12 354 069		
Expenditure/Inventory consumed	107 852 169		
Expenditure/Operational costs	204 999 990		
Expenditure/Remuneration of councillors	31 414 297		
Expenditure/Transfers and subsidies	38 494 048		
Gains and Losses/Debt Impairment	95 277 001		
Grand Total	1 990 250 148		

CAPITAL BUDGET

An amount of R256 million was approved for capital projects for the 2025/2026 financial year. This was funded as follows:

- Own Sources R140 250 000 - MIG R116 192 600 TOTAL R256 442 600

(b) FUNDING MEASURES

The funding of the budget is based on realistic anticipated revenue to be collected which was calculated on collection levels to date and actual revenue collected in previous financial years.

Financial Challenges

The challenges facing Greater Tzaneen Municipality are, inter alia, the following:

- Electricity remains a constraint with power interruptions expected to continue into 2025.
- Job losses which have a negative effect on payment for services rendered.
- Debt collection and Credit control where services infrastructure is lacking.
- Expenditure Management

Sources of Funding

It is evident from the summary below that the revenue of Council is predominantly raised through rates, service charges and grants. This high level of relative stable revenue source is a key factor in sound financial position, the Municipality will however have to increase its tax base to ensure that the much-needed development can be funded.

The 2025/2026 expenditure will be funded as follows:

Funding source	Amount
Grants & Subsidies	R 695 606 000
Rates & Service Charges	R1 330 477 796
Sundry Income	R 162 217 358
Budgeted Revenue	R2 188 301 154

(c) PROPERTY VALUATION RATES TARIFFS AND OTHER CHARGES

To maintain an effective, efficient and sustainable town, tariff increases are inevitable. Tariff setting plays a major role in ensuring desired levels of revenue by assisting in the compilation of a credible and balanced budget to accommodate the basic service provision. The determination of tariffs for the financial year has been guided by our Tariff Policy and guidelines set by National Treasury in the Municipal Budget Circular's 129 for the 2025/2026 MTREF.

Property Rates

The proposed property rates are to be levied in accordance with existing Council's Policy, and both the Local Government Municipal Property Rates Act 2004 (MPRA) and the Local Government Municipal Finance Management Act 2003.

The Property Rates Policy of Council is attached hereto as prescribed by National Treasury.

DRAFT IDP 2025/ 2026 Page **153** of **406**

Property rates are based on values indicated in the General Valuation Roll. The Roll is updated for properties affected by land sub-division, alterations to buildings, demolitions and new buildings (improvements) through Supplemental Valuation Rolls. New valuation roll will be implemented from 1 July 2025 and the Property Rates Tariff contained in the 2025/2026 Budget is calculated on the Valuation Roll for the period 2024 - 2029.

The proceeds from property rates must cover the shortfall in the provision of general service. It is also seen as the most important source of general revenue for Municipalities, especially in developed areas. The revenue generated from property rates is used to fund services like maintaining streets, roads, sidewalks, storm water drainage, parks and cemeteries.

It is proposed that the cent in the Rand rates will be kept constant on Property Rates (0% tariff increase) due to the implementation of the new General Valuation Roll from 1 July 2025, which will constitute an increase in Property Values. Seeing that this is a tax and not a metered service of which the user has the choice to the extent he/she wants to make use of it.

Water and Sewer Services

Council must take note that Greater Tzaneen Municipality is only the water service provider and not the water service authority.

The water and sewer budgets are drafted by Greater Tzaneen Municipality but submitted to Mopani District Municipality for approval.

The proposed Sanitation Tariffs for 2025/2026 are consistent with National Policy on the extension of free basic services, the National Strategic Framework for Sanitation and with Council's Indigent Relief Measures, Rates and Tariff Policies and Equitable Service Framework.

The progressive nature of the existing domestic stepped tariff structure both for water and sanitation is pro-poor and allows for the needs of the indigent. It is also designed to discourage high water consumption levels, which have an impact on the size of both the water and sanitation portions of a consumer's bill. It enables all consumers to adjust their consumption levels to ensure affordability.

DRAFT IDP 2025/ 2026 Page **154** of **406**

It is proposed that the step tariff structure from the 2024/2025 financial year be retained, with a proposed 4.4% increase in volumetric water tariffs generally, and a proposed 4.4% increase in sanitation tariffs generally.

Indigent Accounts

It is also recommended that the indigent accounts remain at R200.

Electricity Service

The proposed revisions to the tariffs have been formulated in accordance with Section 74 of the Municipal Systems Act as well as the recommendations of the National Energy Regulator of South Africa (NERSA).

The increase in electricity tariffs has not yet been communicated by NERSA through the consultation paper- Municipal Tariff Guideline, Benchmarks and proposed timeline for financial year 2025/2026. The budget steering committee resolved that an increase of 12.7% on the previous year tariffs be approved as communicated by National Treasury

Refuse Removal Service

According to the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996) a municipality must ensure a safe and healthy environment for its residents. Greater Tzaneen Municipality is therefore responsible to adequately maintain its refuse removal service, as well as refuse sites and solid waste disposal efforts.

The solid waste tariffs are levied to recover costs of services provided directly to customers and include collection fees, disposal fees and other ad hoc services.

It is proposed that the tariff be increased by 4.4% on the 2024/2025 tariffs with effect from 1 July 2025.

Tariffs and Charges Book

Council is permitted to levy rates, fees and charges in accordance with the Local Government Municipal Property Rates Act, the Local Government: Municipal Systems Act, Act 32 of 2000, Section 75A and the Municipal Finance Management Act, no. 56 of 2003, 17 (a)(ii).

(a) DEBTORS

The table below illustrates the debtor revenue in millions for the 6 months, July 2024 to December 2024:

	Jul-24	Aug-24	Sep-24	Oct-24	Nov-24	Dec-24
	R000	R000	R000	R000	R000	R000
	120 607	133 346	141 228	111 612	115 158	111 047
Revenue billed	285	198	629	861	269	521
Revenue	91 616	96 607	113 995	117 133	93 856	86 465
collected	221	992	792	969	799	058
% Revenue						
collected	75,96%	72,45%	80,72%	104,95%	81,50%	77,86%

The MFMA requires that the budget be based on realistic forecasts for revenue and the average collection rate for Greater Tzaneen Municipality amounts to 82%.

(b) SAVINGS AND EFFICIENCIES

To ensure value for money and efficient utilization of resources, performance indicators have been set for all Section 57 Directors.

In-year reports (monthly and quarterly) as well as annual reporting are done on functional service delivery against information contained in the approved SDBIP.

Performance plans and productivity measures exist for each Director and it is expected of top management (all Directors) to manage their respective votes / departments.

DRAFT IDP 2025/ 2026 Page **156** of **406**

(c) INVESTMENTS

Adequate provision has been made by way of external investments to ensure that cash is available on the maturity date of external sinking fund loans. Short-term Investment income on the other hand is utilized to fund the operational budget.

Details of the long-term investment of Greater Tzaneen Municipality are disclosed as follows.

Valuation of unlisted Investment

Standard Bank R26 766 012

ABSA R21 326 023

STANDARD BANK

An investment of R11 350 000 has been made with Standard Bank to repay a loan of R30 million on maturity date. The loan bears interest on variable rate and the value of the investment amounts to R26 766 012.

ABSA

An investment of R16 million has been made with ABSA as a security of a R90 million loan taken from DBSA and the value of the investment amounts to R21 326 023.

(d) GRANT ALLOCATION

National Treasury advised Municipalities, through their Budget Circular 129 use the indicative numbers as set out in the Division of Revenue Act to compile their 2025/2026 MTREF.

DRAFT IDP 2025/ 2026 Page **157** of **406**

Greater Tzaneen Municipality however included the Grant allocations as contained in the DORA as published in Government Gazette no. 48017 of 12 February 2024, in the 2025/2026 Draft Budget.

The grant allocations published in the 2025/2026 Division of Revenue Bill are summarized as follows:

MUNICIPAL GRANTS FOR 2025/2026- 2027/2028					
Grant Description	2025/2026 (R)	2026/2027 (R)	2027/2028 (R)		
EQUITABLE SHARE	555 351 000	556 034 000	581 276 000		
MIG	122 308 000	127 697 000	133 722 000

9. <u>ALLOCATIONS OF GRANTS MADE BY THE MUNICIPALITY</u>

The allocations made by Council for the 2025/2026 financial year can be summarized as follows:

	2025/2026	
Museum	R	45 000
Eskom EBSST	R4	000 000
Mayor Special Account	R	500 000
SPCA	R	250 000
Mayors Bursary Account	R	450 000
Sport Council	R	190 000
Arts & Cultural	R	150 000
Speaker Special Account	R	250 000

MSCOA IMPLEMENTATION

For the 25-26 financial year MSCOA is implemented with budget on the Version 6.9. All modules are implemented except for the asset module which is in process of being implemented and the seamless integration of the salary module to the financial system. The full roadmap for the 25-26 financial year is included in the budget to close all the gaps identified in the MSCOA implementation.

7.1 Challenges:

The challenges facing Greater Tzaneen Municipality are, inter alia, the following:

Financial Viability Challenges	Measures
a)Inadequate revenue generation due to limited revenue streams and poor revenue collection	Implementation of revenue enhancement strategy for diversified revenue streams, explore on avenues for economic growth, public private partnership, capitalise on competitive advantage
	Enforce implementation of credit control and debt collection policy, strengthen revenue collection mechanism and joint operation with service departments
c) Economic and demographic changes, which increase demand for services and operational costs	Development of long-term financial plan and implementation of revenue enhancement strategy that anticipate demographic changes and economic shifts

DRAFT IDP 2025/ 2026 Page **160** of **406**

	Collaborate with PED to conduct a study that predicts service needs and revenue potential, and make necessary adjustment for financial planning.
	Maintain adequate reserves for unexpected expenditure and revenue shortfalls/economic shock.
d) Non reimbursement for water services costs by MDM	Continuous engagement with MDM to reimburse CTM
	Escalate lack of commitment by MDM to service their debt to Provincial and National Treasury for intervention

DRAFT IDP 2025/ 2026 Page **161** of **406**

KPA 6: MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

1.HUMAN RESOURCES MANAGEMENT

Introduction

The aim of the institutional analysis is to ensure that municipal development strategies take existing institutional capacities into consideration and that institutional weaknesses are addressed.

2. Legislative and Policy Framework

- a) The MEC for Local Government in the Limpopo Province has by notice in the Provincial Gazette established the Greater Tzaneen Municipality. (Provincial Gazette No 28 of 1 October 2000). This area consists of the former Tzaneen Transitional Local Council, Letsitele / Gravelotte and Haenertsburg Rural Local Councils and a vast area under control of the former Northern District Council. Staff, equipment, assets, and liabilities of the latter administrative units were transferred to the newly established Municipality. A new institutional framework was created, and arrangements made accordingly based on the obligation of co-operative governance in terms of the Local Government Municipal Systems Act, 2000.
- b) Cognizance is continuously taken of the array of statutes that have an impact on human resources, administration, financial and related issues as well as various collective agreements, policies, and practices.

5. Type of Municipality

The Greater Tzaneen Municipality is a Category B Municipality which operates on the Executive Committee System contemplated in section 2 (a) of the Limpopo Province: Determination of Types of Municipality Act, 2000 (Act no 4 of 2000).

A municipality as provided for in section 11 of the Local Government Municipal Systems Act, 2000, exercises its legislative or executive authority by:

- a) Developing and adopting policies, plans strategies and programmes, including setting targets for delivery.
- b) Promoting and undertaking development.
- c) Establishing and maintaining an administration.
- d) Administering and regulating its internal affairs and the Local Government affairs of the community.
- e) Implementing applicable national and provincial legislation and its by-laws.
- f) Providing municipal services to the community or appointing appropriate service providers in accordance with the criteria and processes set out in section 78 of the Systems Act.
- g) Monitoring and, where appropriate, regulating municipal services where those services are provided by service providers other than the municipality.
- h) Preparing, approving, and implementing its budgets.
- i) Imposing and recovering rates, taxes, levies, duties, services fees and surcharges on fees, including setting and implementing tariffs, rates and taxes and debt collection policies.

DRAFT IDP 2025/ 2026 Page **162** of **406**

- j) Monitoring the impact and effectiveness of any services, policies, programmes or plans.
- k) Establishing and implementing performance management systems.
- I) Promoting a safe and healthy environment.
- m) Passing by-laws and taking decisions on any of the above-mentioned matters.
- n) Doing anything else within its legislative and executive competence.

6. Human Capital (HR)

- a) Powers and functions of the municipality indicated.
- b) An indication of an approved organisational structure of the municipality
- c) Indication of whether the organogram is aligned to the powers and functions of the municipality.
- **d)** Availability of key skills (Artisans, engineers, auditors, and others)
- e) Employment equity stats and challenges
- f) Table/Graph about the vacancy rate
- g) Individual Performance Management System

13.3Approved organisational structure.

The organisational structure for 2023/2024 financial year was approved by Council on the 29th of June 2023, Council Resolution A101 (E/C 2023 06 29; C 2023 06 29).

The overall total of the approved organisational structure consists of **1 180** positions of which **676** positions are filled and a total of **72** positions are budgeted for the 2024/25 financial year.

The organizational structure will be reviewed once in every five years as per the Municipal Staff Regulations, 2021 (No. 45181). However, if material factors are realized due to IDP programme, municipality will review Organisational Structure to accommodate the effect.

GTM ORGANISATIONAL STRUCTURE

The Organogram Structure of the municipality is aligned to the powers and functions of the municipality.

The approved organisation structure of council is aligned to the powers and function of the municipality in terms of Municipal Structure Act, as amended. The municipality has eight (8) departments, and each departmental functions covers the scope of work as per 12 sectors stipulated in section 1.4, approved IDP. The function of cleaning, development and maintenance of public places, refusal, reuse dumps and disposal, administer street trading, imposition and collection of taxes and surcharges on fees as related to municipality functions, provision of municipal roads / streets, management of airfields, provision of disaster management, develop and administer markets are all included in the organisational structure, except for pounding of animals as it is a district function.

DRAFT IDP 2025/ 2026 Page 163 of 406

Table 59: The vacancy rate.

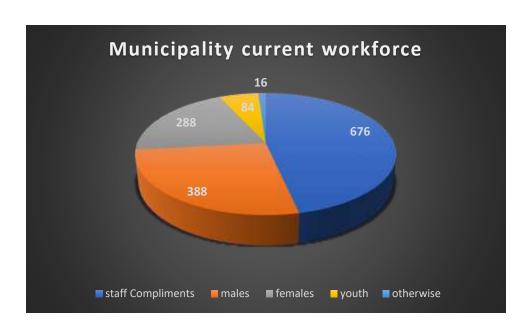

No.	Department	Positions Approved	Positions Filled	Positions Vacant	Position budgeted for 2024/2025	Vacancy Rate
1.	Office of the Mayor	4	3	1	0	25%
2.	Office of the MM	51	23	28	3	54,9%
3.	Planning and Economic Development	43	28	15	2	34.8%
4.	Community Services	410	247	163	18	39.75%
5.	Civil Engineering Services	293	144	149	13	50.85%
6.	Electrical Engineering Services	144	92	52	11	36.11%
7.	Office of the Chief Financial Officer	90	59	31	7	34.44%
8.	Corporate Services	145	80	65	11	44.82%
	Total	1 180	676	504	65	42.71%

13.1 Employment Equity

The Employment Equity Plan was approved by Employment Equity Consultative Forum in the month of November 2022 for the period of 1 July 2022 to 30 June 2027. The function of Personnel Provisioning and the Employment Equity Plan is receiving the necessary attention and progress is being made in terms of demographic representation as well as gender and disability representation. However, there is still a room for improvements about appointment for female in all levels. There is continuous monitoring of the EE Plan though Employment Equity Consultative Forum quarterly. The Employment Equity Policy was approved by Council during the 2024/25 financial year.

DRAFT IDP 2025/ 2026 Page **164** of **406**

13.2 The Municipality currently has a workforce as follows:

- a) Six hundred and seventy-six (676).
- b) Males being (388). 57.% against 54 % of the plan.
- c) Females being (288). 43% against 44% of the plan.
- d) The Municipality still must improve with representation of female employees on all occupational categories and levels.
- e) The municipality currently has total of sixteen (16) disabled employees, who constitute 2.5 % of the overall workforce.
- f) Youth being (84) 12%.

As on 1 August 2024 to date, the Employment Equity representation is as follows:

Demographics	Male		Female		Totals	
	Race	Total	Race	Total	Total	%
	African	375	African	271	646	95.5
	Coloured	1	Coloured	1	2	0.31
	Indian	1	Indian	2	3	0.47
	White	11	White	14	25	3.9
Gender	;	368	272	•	640	100
Disability	16(2.5%)		•			

DRAFT IDP 2025/ 2026 Page **165** of **406**

Table: Employment Equity representation

13.4 Employment Equity Strategy.

- a) Attraction and appointment of designated groups must be prioritized during the recruitment stage for equal representation in all occupational levels or categories.
- b) Employment Equity targets (2.2%) for disability as set by Cabinet was achieved by the council. The current status is 2.5% which constitute of 16 disabled employees.
- c) The Council is working on achieving the set target by Department of Labour (DOL) of 44% for women.
- d) The Council current workforce comprises of 84 youthful officials which constitute 12% of the overall workforce.

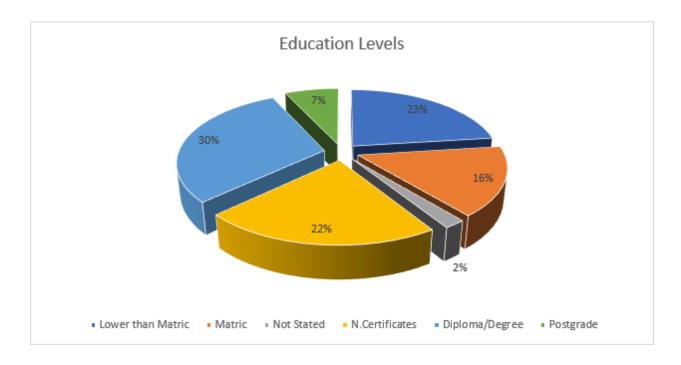

13.5 Employment equity challenges	Possible Solutions
a) Non-achievement of National target	Targeted appointments.
indicator on females	

13.6 SKILLS AUDIT WITHIN MUNICIPALITY

Skills Audit was conducted between January and February 2025, in compliance with Municipal Staff Regulation which requires the Municipality to conduct Skills Audit once in every Five years, this is done to determine skills which the organisation require and those that it possess.

The Skills audit covered all the employees of the municipality except for the Municipal Councillors. A total of number of 435 questionnaires were distributed and received back from the employees. This analysis was sourced from the information provided by 435. who responded to the relevant questions. The majority of them (30%) had obtained a diploma/degree as their highest qualification. Among the 23% of respondents with qualifications below Grade 12 many were Elementary Workers and Machine Operators.

13.7 Overall employee qualifications as of 2019/2020

- The demographics show that 43% are female. Also, typically, men occupied more senior positions in strategic functional units while females occupied mostly Professional, Clerical and Elementary positions.
- The majority of the employees (44%) were 31-40 years older. (20%), were aged between 41 and 50 years while (11%) were in the 21 to 30 years age bracket. The older category of 51+ is at 20%. When analyzed by functional unit, it was found that the Corporate and Community Services functional units accounted for the majority of older staff while the Technical Services and Finances units accounted for most of the younger staff.
- The information gathered on educational qualifications was insufficient to provide a much more informed analysis and recommendations. There were employees who were overqualified for their current position, notably Clerical and Administrative Workers with degrees and a General Worker with a senior certificate.
- Overall, the level of experience within the municipality seems fairly evenly spread, in having served in their current positions for 1 to 3 years. However, the fact that some of the staff interviewed, including Managers, Professionals and other personnel with critical skills have only been in their current position for less than 5 years could pose a risk for the municipality.
- Most of the functional competences and a large number of both managerial and generic competences were scored above the required level. Professional as well as Technicians and Trade Workers scored all of their generic competences above the required level.

DRAFT IDP 2025/ 2026 Page **167** of **406**

b)	Non-compliance of the Skills Development Act in	-	Staggering of budget allocation
	terms 1% budget allocation.		within a two-year period.

14 INDIVIDUAL PERFORMANCE MANAGEMENT SYSTEMS

14.1 LEGISLATIVE FRAMEWORK

Municipal Systems Act, 2000 (Act 32 of 2000) - Chapter 6 section 38

(a) requires a municipality to establish a performance management system (PMS) that is:

Commensurate with its resources; Best suited to its circumstances; and In line with the priorities, indicators and targets contained in its integrated development plan (IDP)

- (b) The municipality is also required by the Act to:
 - (i) Promote a culture of performance management among its political structures, political office bearers and councillors and in its administration; and
 - (ii) Administer its affairs in an economical, effective, efficient, and accountable manner.

Municipal Systems Act (Section 67 (1) (d) which indicates - A municipality should in accordance with applicable law and subject to any applicable collective agreement, develop and adopt appropriate systems and procedures, consistent with any uniform standards prescribed in terms of section 72 (1) (c), that should ensure fair, efficient, effective and transparent personnel administration, including the monitoring, measuring and evaluation of staff performance. Municipal Systems Act Schedule 2 - Code of Conduct for Municipal Staff (Section 3 (e) which dictates that a staff member in a municipality must participate in the overall performance management system of the municipality, as well as the staff member's individual performance appraisal and reward system.

Local Government System: Staff Regulations chapter 4 stipulates that performance management and development system applies to all staff members of a municipality excluding a staff member Applications

- a) Appointment on a fixed term contract with a duration of less 12 months
- b) Serving notice
- c) Or termination of his or her contract of employment: or
- d) To retire on reaching the statutory retirement age.

DRAFT IDP 2025/ 2026 Page **168** of **406**

- e) Appointed on an internship programme or participating in the national public works programme or any similar scheme; and
- f) Appointed in terms of section 54A and 56of the Act.

5.3 Background/Progress

The Council approved the Performance Management Systems Policy (inclusive of Individual Performance Management) for 2024/2025 financial year on the 16th of May 2024 Council Resolution no.: [A67 (E/C 2024 05 14; C 2024 05 16)].

Management cascaded performance management from level 3 and level four.

The status of the work done until August 2024 on performance management is as follows:

- a) Performance plans for all 28 managers developed and will be signed before the end of the 2nd quarter.
- b) Below is the status that reflects the progress on the developed Performance plans for the 2024/2025 financial year for Level 3 and 4 employees.

Page **170** of **406** DRAFT IDP 2025/2026

SECTION C: INSTITUTIONAL STRATEGIES

PHASE 2: STRATEGIES PHASE

1. Development of the Strategic Blueprint

The process embarked upon in the development of the Strategic Blueprint comprised the following four steps:

- a) Definition and alignment of the local to district municipalities vision, mission, and values.
- b) Definition of the key strategic thrusts
- c) Development and alignment of strategies into Five (5) Year IDP and the vision
- d) Common Ground on strategic priorities

2. Vision, Mission, and Values

An interactive process was adopted into ensuring alignment of the Greater Tzaneen Municipality Vision, Mission and Values of the Mopani District Municipality as included below:

The vision, mission and values for Greater Tzaneen Municipality were developed during the IDP Strategic Planning Session was held on the 11th to 13th of December 2024. The alignment is done to reflect the triple challenges of Inequality, Unemployment and Poverty in terms of the National Development Plan and priorities as identified in the Limpopo Development Plan.

VISION

"A Green, Healthy, Prosperous and United Municipality that Provides Quality Services to All".

MISSION STATEMENT

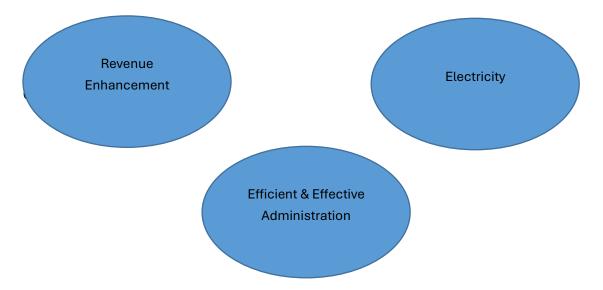

"Promoting social and economic development; Providing and maintaining affordable, quality and sustainable services; Ensuring efficient and effective utilization of all available resources; Ensuring Promotion of Safe, Healthy communities & Environmental sustainability; Promoting effective stakeholder and community participation, provide affordable quality services, alleviate poverty, facilitate social and economic development."

DRAFT IDP 2025/ 2026 Page **171** of **406**

Core Values

- a) Commitment
- b) Integrity
- c) Accountability
- d) Innovation
- e) Professionalism
- f) Transparency
- g) Consultation
- h) Ethical Conduct
- i) Fairness

3. THREE APEX AREAS OF GTM

The Municipality will focus on the above three apex areas in the administration up to 2025. These areas are nucleus around which the municipal business process must revolve.

The IDP and Prioritization Committee through Council provide the development paradigm that promotes economic development, environmental sustainability, and poverty eradication. It is also the foundation for Capital expenditure allocation in the Municipality.

DRAFT IDP 2025/ 2026 Page **172** of **406**

The Greater Tzaneen Municipality has the following priorities to make service delivery to the communities:

- a) LED Support
- b) Land Acquisition
- c) Township Establishment
- d) Roads & Storm water
- e) Electricity Capacity
- f) Low Level bridges
- g) IT Equipment
- h) Furniture and Equipment
- i) Renewal Repairs and Maintenance
- j) Sport and Recreation Facilities
- k) Apollo and Streetlights
- I) Buildings, Ablution Facilities

DRAFT IDP 2025/2026 Page **174** of **406**

4. Alignment of objectives of national, provincial, and local government

4.1. Alignment of National, Provincial & Local Strategic Objectives and Back to Basics

Alignment of our national programmes and plans with our IDP becomes very important. Closer interaction and cooperation between the three spheres of government is critical during the planning process.

5.4 The Strategy Map and the Balance Scorecard

The balanced scorecard is a <u>strategic planning and management system</u> that is used extensively in government worldwide to align business activities to the Vision and Strategy of the organization, improve internal and external communications, and monitor organizational performance against strategic goals. It was originated by Drs. Robert Kaplan (Harvard Business School) and David Norton as a performance measurement framework that added strategic non-financial performance measures to traditional financial metrics to give managers and executives a more 'balanced' view of organizational performance. The balanced scorecard has evolved from its early use as a simple performance measurement framework to a full strategic planning and management system. The "new" balanced scorecard transforms an organization's strategic plan from an attractive but passive document into the "marching orders" for the organization daily. It provides a framework that not only provides performance measurements, but helps planners identify what should be done and measured.

5.5 Balance Scorecard Perspective

The balanced scorecard suggests that we view the organization from four perspectives, and to develop metrics, collect data and analyse it relative to each of these perspectives:

- a) Learning and growth
- b) Institutional processes
- c) Financial perspective
- d) Community satisfaction

Perspectives	Strategic Objectives
Community Satisfaction	- Improved stakeholder satisfaction
	- Improve access to affordable and sustainable basic services.
	- Increased investment in the GTM economy
Financial Perspective	- Increase financial viability.

DRAFT IDP 2025/ 2026 Page **175** of **406**

	- Optimize and sustain infrastructure investment and services.					
	- Create a stable and an enabling environment by attracting					
	suitable investors					
Institutional Processes	- Enhance Integrated Developmental Planning					
	- Enhance sustainable environmental management and social					
	services.					
	- Effective and efficient administration					
Learning and Growth	- Develop and build skilled and knowledgeable workforce.					
	- Develop a high-performance culture for a changed, diverse,					
	efficient and effective local government.					
	- Attract and retain best human capital to become employer of					
	choice					

5.6 Alignment of perspectives and Strategic Objectives. Using the Balance Scorecard methodology, the following strategic objectives were developed to respond to the perspectives as outlined above:

Table 61: Perspectives and strategic objectives

NO	NDP Strategic Objectives	COGHSTA OUTCOME 9	Limpopo Development Plan	Back to Basics	GTM Strategic Objectives
1.	Strategic Priority 1: Creating Jobs and livelihoods	Output 3 Implementation of Community Works Programme	Ensure more inclusive economic growth, decent work and sustainable livelihoods		Increased investment in the GTM economy
2.	Strategic Priority 2: Expanding Infrastructure	Output 1 Implement a differentiated approach to municipal financing planning and support. Output 2 Improve access to Basic services. 6 Results, Indicators and Projects

The strategic objectives represent the strategy of the municipality, but it is critical for Council to be able to measure whether any progress is made towards the attainment thereof. This measurement of the strategic objectives can be seen in the Strategic Scorecard depicted below, but the strategy can be measured against the results that will indicate whether Council has achieved the intent of the specified objectives. On the strategic level specific Strategic Key Performance Indicators will further provide Council with the ability to measure how effectively it has implemented the strategy of Greater Tzaneen Municipality. The targets developed for the next five years resulted in the identification of Strategic projects that will enable Greater Tzaneen Municipality to focus on the attainment of these targets. The details of these results, indicators and targets can be seen in the table below the Strategic Scorecard.

OPERATIONAL STRATEGIES

KPA 1: SPATIAL RATIONALE

1. PED DEPARTMENTAL GOALS

- a) To develop an inclusive local economy with opportunities to generate sustainable economic growth and employment.
- b) To develop GTM as an integrated sustainable spatially equitable municipal area, maximising the potential benefits of its environmental assets in a sustainable and prosperous manner for all its people

2. SPATIAL RATIONALE OBJECTIVES

- a) The sustainable utilisation of land within the municipal area to its fullest potential and benefit.
- b) The concentration of development to derive social and economic benefits for the community.
- c) The utilisation of existing development and infrastructure capacity
- d) The promotion of orderly development through timeous preparation and planning
- e) The manipulation of development to achieve a hierarchal settlement development pattern.
- f) The promotion of land restitution and reform to achieve equitable access to land and security of tenure.

Table: 63: Spatial Rational Objectives

Challenges	Root Cause	Possible Solutions
Housing backlog	Lack of infrastructure Low allocation	Put the necessary infrastructure in the council-purchased land. Accreditation.
Land invasion and informal settlements	Poor coordination between stakeholders (COGHSTA, traditional leaders and the municipality).	Devolve the demarcation of site function to LM.
Land claims	Delay in finalizing the claims	Engage the affected claimants
Unplanned growth	Non-implementation of the SDF	Projects to be implemented in line with the SDF (Nodal Plan, Densification Policy &Rural Development Strategy

DRAFT IDP 2025/ 2026 Page **217** of **406**

3. Other Issues

Establishment of a Geographic Naming Committee (Renaming of Tzaneen to the original name and streets).

The following is recommended to achieve optimal sustainable local economic development and address spatial challenges:

- a) Creating an enabling environment (roads, water and electricity).
- b) Nodal and cluster development by focusing investment on key sectors.
- c) Place development at and in proximity to existing arterial routes.

1. SPATIAL DEVELOPMENT FRAMEWORK

The Presidency has assented to new Planning Legislation referred to as "SPATIAL PLANNING AND LAND USE MANAGEMENT ACT, No. 16 of 2013", on 5th August 2013 (from herewith referred to as "SPLUMA").

1.1. The objective of the legislation is:

"To provide a framework for spatial planning and land use management in the Republic; to specify the relationship between the spatial planning and the land use management system and other kinds of planning; to provide for the inclusive, developmental, equitable and efficient spatial planning at the different spheres of government; to provide a framework for the monitoring, coordination and review of the spatial planning and land use management system; to provide a framework for policies, principles, norms and standards for spatial development planning and land use management; to address past spatial and regulatory imbalances; to promote greater consistency and uniformity in the application procedures and decision-making by authorities responsible for land use decisions and development applications; to provide for the establishment, functions and operations of Municipal Planning Tribunals; to provide for the facilitation and enforcement of land use and development measures; and to provide for matters connected therewith".

1.2. General background

A Spatial Development Framework is a key component to the successful completion and implementation of an Integrated Development Plan (IDP). The purpose of a Spatial Development Framework (SDF) is to provide guidance in respect of decision-making and action towards the establishment of an appropriate land use management system.

The formulation of the SDF gives effect to further compliance with the Municipal Systems Act 2002 and the Municipal Performance Management Regulations. The Land Use Bill also stipulates that each municipality shall formulate and implement a Spatial Development Framework. The abbreviated Framework presented below represents a very concise extract of the Greater Tzaneen Spatial Development Framework.

2. SPATIAL OBJECTIVES AND STRATEGIES

2.1. Objectives

The Greater Municipality will pursue the following objectives to achieve the desired form of the municipality.

Table 75

NO	OBJECTIVES	DESCRIPTION
1.	Objective 1	Environmental integrity and sustainability through achieving a balance between safeguarding natural resources,
2.	Objective 2	Integration, synergy and linkages between urban and rural areas supported by appropriate infrastructure.
3.	Objective 3	Community based spatial planning and enforceable land use management
4.	Objective 4	Correction of the historically distorted spatial patterns of settlement with optimum use of existing infrastructure
5.	Objective 5	Achieving integrated development at community
6.	Objective 6	Monitoring and evaluation of achievement in service delivery
7.	Objective 7	Optimum use of existing resources including agriculture, forestry, renewable energy
8.	Objective 8	Reduced settlement sprawl and more compact formalised settlement through densification, infill development and diverse, mixed land uses
9.	Objective 9	Rapid economic growth that is sustained and inclusive.

2.2. STRATEGIES

The achievement of the Spatial Objectives of the GTM revolves around:

- a) Support of natural/inherent potential
- b) Anticipation of growth and timeouts action, and
- c) Manipulation and intervention.

Table 76: The strategies to achieve the listed objectives are presented below:

NO	STRATEGIES	DESCRIPTION
1.	Strategy A	Shifting from road to rail in Greater Tzaneen
2.	Strategy B	The continuous upgrading of the R40 route as high mobility regional route
3.	Strategy C	Increasing accessibility to the proposed regional cargo airport facility at Tzaneen
4.	Strategy D	Diversifying and strengthening the Greater Tzaneen Economy Agriculture
5.	Strategy E	Determine surplus infrastructural capacity areas and plan to optimize utilization.
6.	Strategy F	Place development at and in proximity to existing arterial routes.
7.	Strategy G	Support economic growth opportunities by creating the spatial and infrastructural framework for economic and commercial purposes.
8.	Strategy H	Anticipate growth and plan ahead, both spatially and physically.
9.	Strategy I	Concentrate municipal development in the identified development potential areas.

Table 77: 3. Alignment of National, Provincial, District & Local Spatial Development Frameworks

No.	Local SDF	District	Provincial	National

No.	Local SDF	District	Provincial	National
2.	Identified conservation area supported by the provincial perspective	The District SDF noted similar conservation areas to that of Tzaneen SDF	The provincial perspective is in support of both District and Local SDF	The national legislation on environmental matters serves as guide
3.	Nodal Areas identified in the local SDF are to be intensified through high identified and infrastructure provisioning	District SDF enforce same nodal policies and plans through provision of bulk infrastructure and public transport provisioning	Capital investment in housing provision and infrastructure subsidy programs within the Nodal area as identified by the local and District SDF's	Capital investment in infrastructure development, construction of dams and upgrading of energy provision infrastructure
4.	Rural development	District Capital Investment aligned to		Presidential project in rural upliftment and poverty reduction
5.	Land claim and restoration		Provincial Enforcement through the process of land claims and farm rehabilitations schemes	Land restitution legislation
6.	Land allocation to public facilities such as schools, clinics etc.	District support by bulk infrastructure provision	Budget allocation for public amenities coordinated through IDP consultations	Budget allocations informed by provincial submission
7.	Public transport facilities through IDP process	The district provides public transport guided by the Local SDF and IDP including air transport	Upgrading program of most Provincial Roads	Key Transport legislation and government program on transport logistic and planning for Limpopo

1. GTM IDP HOUSING CHAPTER

ANALYSIS

1. Background

During May 2008 the Limpopo Department of Corporative Governance Human Settlements and Traditional Affairs (Coghsta) launched an initiative to commence with the formulation of an IDP Housing Chapter for each of the local municipalities within the Province. This initiative is undertaken under authority of the Municipal Systems Act of 2000, and specifically in support of Chapter 5 of the Act which requires municipalities to formulate and annually review their Integrated Development Plans.

The Housing Chapter is a summary of the human settlement planning undertaken by a municipality and should be able to be used together with the IDP's spatial framework and summary financial and operational related outputs (such as the 5-year financial plan, 5-year capital investment programme, 5-year action programme and the integrated monitoring and performance management system).

During April 2016 Greater Tzaneen Municipality IDP Housing Chapter is under review for the next 5-years (2016/2021) plan which needs to be reviewed annually. This should be done with the review of the IDP which is also a legislative requirement.

Therefore, the Housing Chapter is done as part of the IDP process and is a chapter in the IDP. It is not a comprehensive, stand-alone plan resulting from a separate planning process, even if the IDP and Housing Chapter processes are undertaken at different times, which ideally they should not be. On this basis the use of the term "Housing Chapter" intends to convey the message that housing planning is part of the IDP process and product and does not require a separate plan to be produced.

The medium to long term objectives of the Housing Chapter initiative can thus be summarised as follows:

To ensure effective allocation of limited resources, financial and human, to a wide variety of potential development initiatives

- a) To provide guidance in prioritising housing projects to obtain consensus for the timing and order of their implementation.
- b) To ensure more integrated development through co-ordinating cross-sector role players to aligning their development interventions in one plan.
- c) To ensure budget allocations to local and district municipalities as well as provinces are most effectively applied for maximum impact.
- d) To provide effective linkages between the spatial development framework and the project locations of physical implementation of a range of social, economic, environmental and infrastructure investments.
- e) To ensure there is a definite housing focus in the IDP and SDF with clear direction for future housing delivery across all social and economic categories and locations in the municipality. The scope of

- the Housing Chapter is not just for those people and developments related to government's subsidised housing programmes.
- f) To provide the IDP process with adequate information about the housing plan, its choices, priorities, benefits, parameters as well as strategic and operational requirements.
- g) Ensuring that the contents and process requirements of planning for housing are adequately catered for in the IDP process; and
- h) To ensure that there is indicative subsidy budgeting and cash flow planning at both the municipal and provincial levels.

However, as with the IDP process itself, it is accepted from the outset that the first attempt at formulating a housing chapter per municipality will not provide all the answers and solutions to housing in the municipalities. This first IDP Housing Chapter initiative should thus rather be approached as a first step in a longer-term process aimed at providing a detailed, widely accepted, housing strategy and projects for each of the municipalities in Limpopo Province, and which will form part of the municipal IDP's and associated annual review processes.

It is thus almost a "stock-taking" exercise to determine what information is available within each of the municipalities, and to formulate and populate the Housing Chapter as comprehensively as possible with this information. During this first round, the most critical outstanding information/issues to be finalised per municipality will also be identified, and recommendations will be made regarding detailed surveys that need to be conducted/ political decisions that need to be taken, etc. in order to enhance the quality and comprehensiveness of the document during the next review processes.

This document thus represents the first IDP Housing Chapter for the Tzaneen Municipality and is based on information currently available within the municipality, the IDP, and the SDF for the area.

1. Responsibilities of Municipalities under the Programme

In terms of Section 9(1) of the Housing Act, 1997 the function of Municipalities includes that: "every municipality must, as part of the municipality's process of integrated development planning, take all reasonable and necessary steps within the framework of national and provincial housing legislation and policy to ensure that:

- a) The inhabitants of its area of jurisdiction have access to adequate housing on a progressive basis.
- b) Conditions not conductive to the health and safety of the inhabitants of its area of jurisdiction are prevented and removed.
- c) Services in respect of water, sanitation, electricity, roads, stormwater drainage and transport are provided in a manner which is economical", (Housing Act 107 of 1997).
- d) Provide development areas.

KPA 2: BASIC SERVICES DELIVERY AND INFRASTRUCTURE PLANNING

1. ENERGY MASTER PLAN

Executive summary

The tangible and phenomenal developer interest for growth and expansion in Tzaneen coupled with insufficiently financially investment in the maintenance and capitalization of the electrical distribution system has placed Tzaneen in a crisis. Fortunately, over the past five years the Municipality has implemented electrical infrastructure projects through a 90 million loan and 10 Million grants from the Development Bank of Southern Africa. Furthermore, over the past 2 years the municipality has spent R 50 Million on electrical infrastructure development trough own funding. The projects aimed at recapitalizing of particular portion of the dilapidated electrical network. The projects included rebuilding overhead 33kV and 11kV lines, replacing current transformers and bulk meters, and replacing dog box breakers with vacuum breakers. The municipality has also initiated a Supervisory, Control and Data Acquisition (SCADA) project to control and monitor the electrical network, the project will be implemented in phases and will assist in reducing operation costs, as results of operating an expansive network. The projects listed above have and will continue assisting in improving the performance of the electrical network. Extensive work still needs to be done in the form of continuous planned maintenance and infrastructure capitalizing to enhance the integrity and quality of the Tzaneen electrical network and cover 3500 square meters of the distribution network. The maximum demand metered for Tzaneen during 2022 was 120 MVA. It must be noted that the maximum demand recorded also includes wheeled power through an existing wheeling agreement between the municipality and Eskom to supply electricity to Nkowankowa and Lenyenye. Eskom is busy constructing its Letaba substation, which is anticipated to be completed by 2026. Once the substation is concluded, the municipality demand is expected to drop to 89MVA. The conclusion of the Eskom group of projects will benefit the municipality in implementing the electrification program, which is currently hindered by capacity constraints issues. If we were to compare the electrical budget of Polokwane and Greater Tzaneen Municipality it will indicate the severe and unrealistic financial challenges the Greater Tzaneen Municipality faced and clarify how the Electrical Department found itself in this crisis. The continuous implementation of electrical network programs will ensure that the electrical network can support any predicted economic growth over the short and long term. The programs will also be covered under the electrical master plan which is currently under review in the 2024/25 financial year.

- a) Implementation of asset management program such as reliability centred maintenance.
- b) Recapitalization of electrical infrastructure.
- c) Implementing of revenue enhancement strategies.
- d) Optimizing of electrical infrastructure network.
- e) Adopting of distribution electrical network key performance indicators for quantitative data analysis.

- f) Adopting of technology standards to enhance activities.
- g) Consider alternative energy sources to reduce electricity purchases and to promote sustainable green energy.
- h) Implementing of electrification program to promote access to electricity.
- i) Review of electricity business model to identify opportunities and threats.

2. The objective of the energy master plan is to:

- a) Provide an orderly and economic expansion of equipment and facilities to meet the GTM future electricity demand.
- b) Ensure that future demands will be within acceptable level of operability and reliability.
- c) Provide a business tool for the GTM to ensure that the capital expenditure required in the short, medium, and long term can be estimated and managed.
- d) Provide guidelines to optimize the network requirements for appropriate performance, quality of supply, refurbishment, and operation.
- e) Provide a geo-based load forecast based on economic and demographic projection, as well as future land- use.
- f) Identify and evaluate all network requirements to ensure that industry standards are met for future loads.
- g) Evaluate the viability and sustainability of existing infrastructure and propose expansion, recapitalization, and refurbishment requirements thereof.

The study should further clearly identify where new infrastructure should be located and what components, either existing or new, will be required.

The Plan should be integrally linked to the IDP of the GTM, and a financial model which would be used by the GTM in the preparation and motivation of both capital and operational budgets.

The plan should also identify other generation resources as alternatives of purchasing power from independent power procedure.

This report details the more pertinent and urgent issues to be addressed in order for Tzaneen to not only maintain its current good status as preferred development area, but to also ensure that the Greater Tzaneen Municipality is able to cope with a high project growth. It should be noted that details and costs mentioned in the report may vary slightly once planning and implementation phases are initiated.

Serious financial intervention into the electrical infrastructure is required to ensure that the Tzaneen area retains its position as preferred and prime development area.

The funding allocated will not only resolve the crisis facing Tzaneen community and Electrical Department, but it will also place us in an ideal position to meet the future demands of the Developers who are flocking to Tzaneen because of the beauty of the area, the friendliest of our people, the strength of our Municipality and the drive of its officials to excel.

The current replacement value (Determined by a recent ring-fencing exercise by outside Consultant) of the Electrical Department and related equipment is around R1, 4 billion, and even at the minimum NERSA or EDI reinvestment benchmarks it is obvious that the upliftment of the Electrical Infrastructure is well beyond the financial capability of the Council with external intervention being the only way forward.

Funding to unlock the full potential of the area and its people is essential to the success story is Tzaneen.

Funding to unlock the full potential of the area and its people is essential to the success story of Tzaneen.

The Municipality has also shown its commitment to sustainable clean energy by continuously participating in the Energy Demand Side Management (EEDSM) program from Department of Minerals Resource and Energy (DMRE), the objective of the program aim at reducing energy consumption from the national grid, by using appliances with less energy consumption.

2. INTEGRATED WASTE MANAGEMENT PLAN

1. Strategic objectives:

(i) Waste minimization

- a) Recycling programme
- b) Composing programme
- c) Re-use programme
- d) Rural Waste management programme

(ii) Collection and transportation

- a) Kerbside collection programme
- b) Bulk waste collections programme
- c) Health Care Waste removals programme
- d) Hazardous Waste removal-facilitation programme
- e) Litter picking programme.
- f) Transport procurement programme by E.S.D.

(iii) Disposal and treatment

- a) Licensed Landfill-site operations programme
- b) Treatment facilitation programme
- c) Drop-of-Centre (D.o.C.) management programme

(iv) Pollution control

- a) Public Toilet cleansing programme
- b) Law Enforcement programme
- c) Awareness & Education programme

(v) Management, administration & logistics

- a) I.C.T. needs programme.
- b) G.I.S. needs programme.
- c) W.I.S. needs programme.
- d) I.W.M.P. review & merger with I.D.P. programme
- e) Budget planning programme
- f) Infrastructure analyses egg. Vehicles, offices, stationery etc. Programme
- g) H.R. needs programme
- h) Public communication via waste calendars programme

2. Scope of the plan

2.1. Aim

The aim is to develop, implement and maintain an Integrated Waste Management System

The Integrated Waste Management System must contribute to sustainable development and measurable quality of life for all communities.

- a) To direct all resources for effective and efficient linkages between the following viz: -
- b) Waste Minimization
- c) Source reduction
- d) Source separation
- e) Source recycling
- f) Composting practices
- g) Collection & transportation
- h) Recycling at source
- i) Storage at source
- j) Collection of waste
- k) Appropriate transportation to treatment/disposal facilities
- I) Treatment & disposal
- m) Treatment practices (Incineration)
- n) Disposal practices (Land filling)
- o) Pollution control
- p) Enforcement mechanisms
- q) Awareness strategies
- r) Public toilet management

2.2. Goals

The International context: -

The Greater Tzaneen Municipality I.W.M.P. forms part of: -

- The strategic goals of the Rio declaration
- The agenda 21 principles
- 19 other international agreements

The National context: -

The Bill of Rights (Section 24) of the National Constitution provides as follows: - "Everyone has the right to an environment that is not harmful to their health or well-being."

The Environmental Management: Waste Act (No 59 of 2008): - "to protect the environment for the benefits of future and present generations through legislative and other measures to prevent pollution and ecological degradation promote conservation to secure sustainable development"

The Tzaneen Integrated Waste Management System must give effect to these requirements of the legal framework.

2.3. Key issues

The Integrated Waste Management System recognizes the following key issues viz: -

- a) Reduce (e.g. reject over packaged and/or disposable products, use both sides of a piece of paper)
- b) Re-use (e.g. choose products in returnable containers and/or use containers yourself)
- c) Recycle (e.g., choose recycled and/or recyclable packaging and make sure that as much of your waste as possible (paper, plastics, glass, metal and organic material) enters the recycling loop.
- d) Recover (e.g. the energy value of a resource can be recovered from waste during incineration)

Landfill (only after the preceding strategies have been followed should the remaining, much reduced, waste be buried in the ground)

Personnel: - of utmost importance is the recognition of human-capital in the approach towards integrated waste management.

2.4. Basic principles:

Table 78: The Integrated Waste Management System is built around the following principles of viz:

No	Principle	Description
1.	Polluter pays	Those responsible for environmental damage must pay the repair costs both to the environment and human health, and 2.the cost of preventive measures to reduce or prevent fu3.rther pollution and environmental damage
2.	Duty of care	Anyone who generates, transports or disposes of waste is responsible for that waste and should take care that it is dealt with legally and safely

No	Principle	Description
3.	Precautionary	If unsure of the nature of the waste, assume the worst case (e.g.
	principle	whether or not waste is hazardous, assume that it is hazardous)
4.	Hierarchical approach	All possible waste utilization and/or reduction options (reduce, re-use,
		recycle etc.) should be pursued before waste is disposed of in a landfill
		site
5.	Best Practical	Waste disposal options that are best for the environment (in both the
	Environmental Option	short and the long term) should be chosen. "Practical" implies that the
	(BPEO):	cost of the chosen method must be acceptable
6.	Public Participation	Public participation is essential and should be facilitated throughout the
		process
7.	Education	Finally, any integrated waste management process should have a
		strong educational component.
		- Integrated Waste Management Hierarchy
		- Waste Minimization programmes.
		- Collection & Transportation programmes
		- Treatment & Disposal programmes
		- Pollution Control programmes
		- Waste Management,
		- Administration & Logistics

INTEGRATED PLANNING

Waste management at the Greater Tzaneen Municipality is an integrated operation and all the Departments and Divisions must be responsible for the development of action plans (outcome based) to compliment the strategic key focus areas per Department / Division.

Internal Role-players

To ensure an integrated approach in achieving a clean & healthy environment the INTERNAL role-players as depicted must form part of the holistic waste-management approach.

Key Focus Areas are of utmost importance to achieve the aims of legal environmental considerations.

Roles & Responsibilities of Internal role-players to manage as follows viz:

- Waste Management
- Waste Minimization
- Collection & Transportation
- Treatment & Disposal
- Pollution control
- Waste Management,

- Administration & Logistics
- Environmental & Parks Management
- Air-Water & Surface
- Food Safety
- Industrial Hygiene
- Education
- I.E.M.P.
- Clean/green & alien plants
- Disaster Management
- Incidents
- Environmental degradation
- I.D.M.P.
- Co-ordination
- Water & Sewage Management
- Public Market, Taxi-+ bus ranks, stations
- Catchment's areas (pollution prevention)
- Clean & green initiatives
- Quality of effluent
- I.W. & S.M.P.
- Law -Enforcement
- Public Market, Taxi- & Bus ranks, Stations
- Enforcement support to all role players
- Policing of markets etc. related pollution + keep clean initiatives.
- Land Management/Town Planning/Tourism
- Public Market
- Taxi-& bus ranks
- Stations
- Open green spaces
- Tourist attractions
- Hawkers
- Settlements
- Squatters
- S.D.F./Plan
- Management Support
- Communication, marketing & education.
- Public Participation & Project Support
- H.R. Services

- Budget Support
- P.M.U. / M.I.G.
- Building Control
- Building plans
- Illegal "shacks"/Hawkers
- Squatters
- Unsightly buildings

GEOGRAPHIC AREAS TO BE ADDRESSED

Locality:

- 1. The Greater Tzaneen Municipality is situated in the eastern quadrant of the Limpopo Province within the Mopani District Municipality's area of jurisdiction.
- 2. The municipality is bordered by Polokwane to the west, Greater Letaba to the north, Ba-Phalaborwa and Maruleng to the east, and Lepelle-Nkumpi to the south.
- 3. Description of the Municipal area:
- 4. The municipality comprises a land area of approximately 3240 sq. km.
- 5. Extending from Haenertsburg in the west, to Rubbervale in the east (85km), and just south of Duiwelskloof in the north, to Trichardsdal in the south (47km)
- 6. The municipal boundaries form an irregular, inverted T-shape, which results in certain developmental implications for the municipality, and more specifically the difficulties in respect of service provision.
- 7. The municipality area encompasses the proclaimed towns of Tzaneen, Nkowankowa, Lenyenye, Letsitele and Haenertsburg.
- 8. In addition, there are 129 rural villages, concentrated mainly in the south-east, and north-west, of the study area.
- 9. The municipal area is further characterized by extensive and intensive farming activities (commercial timber, cash crops, tropical and citrus fruit production)
- 10. Mountainous, inaccessible terrain exist in the west and south, and even topography (gentle slopes) to the north and east, which are areas with exceptional natural beauty, with considerable untapped tourism potential.
- 11. The Phalaborwa S.D.I. transverses the Greater Tzaneen Municipal area, while one of the major links between Gauteng and the Kruger National Park also passes through the area.
- 12. Activities to be addressed as per strategies.

STRATEGY MAP

1. Vision

To create an environment which is safe and healthy to live and work in for all people in the area of jurisdiction.

2. Mission

To provide a comprehensive and integrated waste management service which is equitable, effective, and sustainable through:

- Waste Minimization
- Collection & Transport
- Treatment & Disposal
- Pollution Control
- Management, Information & Logistical Systems
- Values
- Honesty
- Timeously / punctual
- Transparency
- Loyalty
- Fairness
- Tidiness
- Neatness

3. INTEGRATED TRANSPORT PLAN

GREATER TZANEEN MUNICIPALITY LOCAL INTERGRADED TRANSPORT PLAN

1. Executive summary

Local integrated plan provides an overview of the current transport system in the municipality and by identifying gaps and objectives, transport infrastructure interventions are proposed within the municipality. Local integrated transport plan is a specific sector plan that feeds into the municipal integrated development plan and ultimately supports and form part of the development of provincial land transport framework. Transport serves as an enabler for both local and national development, is required to be in place for the provision of other basic services such as health care, education, water and sanitation, electricity, and refuse removal. Municipality high depends on an efficient and integrated transport system and therefore it is imperative that the proposal and recommendations be implemented as far as possible.

2. Structure and Report Context

Preparation of integrated local transport plan by all municipalities in South Africa is a legal requirement in terms of section 36(1) and (2) of the national land transport act, act 5 of 2009. The integrated transport plan considers all modes of transport and aims to identify the issues and concerns surroundings the various modes, through a process of data collection, planning and analysis of the integrated transport plan puts forwards various strategies and prioritised projects.

It is the transport plan to guide and align transportation infrastructure investment in line with the municipal integrated development plan. Local integrated transport plan should enhance the effective functioning of towns and rural areas through planning of transport infrastructure, facilities, and operation.

4. Situational Analysis

For transportation planning purposes, road infrastructure is classified by function, road infrastructure can either serve a mobility function, or an access function. In terms of mobility, roads that serve this function typically carry high volume through traffic, connect regional centres, are carriageway roads and traffic is typically characterised by high speed with limited access to provide land.

Infrastructure and institution considered in greater Tzaneen municipality in terms of the classification of the infrastructure are road network with a focus on municipal roads, public transport facilities, non-motorised transport freight transport and aviation. Major road corridors within greater Tzaneen municipality are Tzaneen to Nkowankowa, Lenyenye, Tzaneen to Boyne, Tzaneen to Modjadjiskloof, Tzaneen to N'wamitwa and Tzaneen to Letsitele.

5. Public Transport Operation

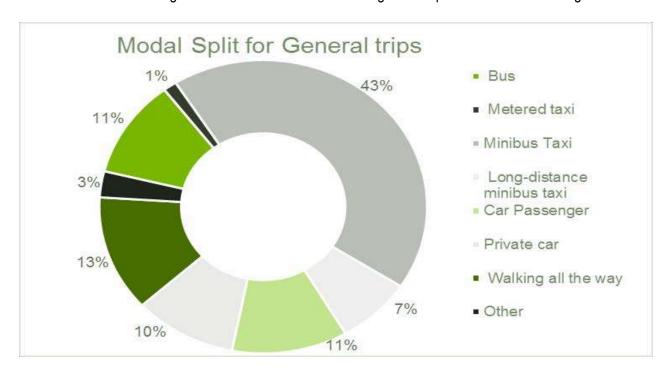

Public transport within greater Tzaneen municipality is limited to bus, minibus-taxi and metered taxi operations. This operation is characterized relatively high directional splits, with the dominant travel pattern of passengers from home to work in the morning with a return trip in the evening. Public transport law

enforcement is an important part of the general landscape in providing safe movement access. Greater Tzaneen municipality has its own traffic department responsible for both traffic violation and public transport enforcement i.e. valid operating licences and road worthy vehicles in operation. Communication and conflict resolution with public transport operators are facilitated through the local transport forums.

Public transport within greater Tzaneen municipality is limited to bus, minibus-taxi and metered taxi operations. This operation is characterized relatively high directional splits, with the dominant travel pattern of passengers from home to work in the morning with a return trip in the evening. Public transport law enforcement is an important part of the general landscape in providing safe movement access. Greater Tzaneen municipality has its own traffic department responsible for both traffic violation and public transport enforcement i.e. valid operating licences and road worthy vehicles in operation. Communication and conflict resolution with public transport operators are facilitated through the local transport forums.

Greater Tzaneen is responsible for the provision of transport infrastructure, signage, and safety considerations along sections of scholar transport routes. Non-motorised transport is universally accessible with the expectation of captive users such as a person with disabilities. Road transport is the predominantly mode of freight in Limpopo province and greater Tzaneen municipality, reflecting an overall national trend. Tourism sector largely contribute to the local economy of Greater Tzaneen Municipality and has also been identified as one of the three priority development sectors in Greater Tzaneen Municipality.

The distribution of the usage for the different travel modes for general trips are indicated in the figure below:

5.1. Bus operators within Greater Tzaneen Municipality

- a) Mathole Bus Services
- b) Great North Transport
- c) Risaba Bus Services

5.2. The taxi associations

- a) Greater Tzaneen Taxi Association
- b) Pusela Taxi Association
- c) N'wamitwa Taxi Association
- d) Nkowakowa Taxi Association
- e) Tzaneen Acornhoek Taxi Association
- f) The formal taxi ranks.
- g) Tzaneen Sanlam Crossing Taxi Rank
- h) Letsitele Taxi Rank
- i) Tzaneen Pick-n-Pay Minibus Taxi Rank
- i) Maake Plaza Taxi Rank
- k) Nkowankowa Minibus Taxi Rank
- 5.3. Scholar Transport Service Providers within Greater Tzaneen Municipality
- a) Mathole Bus Service
- b) Seale Bookshop
- c) Kalamazoo Transport
- d) Norman Luxury Tours
- e) Jes Trading and Projects
- f) Mabaroka construction
- g) Sharon and Morakana
- h) Tshombas transport
- i) JN Mahlangu transport
- j) Ntiyiso transport
- k) N'wamavezi trading
- I) Chango business enterprise
- m) Afro Vumba services
- n) N.R. Mthombeni trading

Schools with Scholar Transport within the boundaries of Greater Tzaneen Municipality, there are 26 schools that are served by the subsidised scholar transport operators daily.

- Appel Combined School
- Tsaneng Combined School
- Glenshiel School

- Politsi Primary School
- Thlalefa Combined School
- Radiskana Primary School
- Silwersee Primary School
- The Junction Primary School
- Lacotte Primary School
- Mahwah Secondary School
- Manorvlei Primary School
- Letaba Landgoed Combined School
- Craighead Primary School
- Mpapatla Secondary School
- Haenertzburg Primary School
- Hudson High School
- Ntsan'wisi High School
- Bankuna High School
- Leonora Primary School
- Minloon Primary School
- Loretto Combined School
- Lehlaba School
- Grysappel School Mathole
- Khesethwane Secondary School
- Minloon Primary School
- Dumela High School

5.4. Passenger Rail

There is no passenger rail service within the Greater Tzaneen Municipality. The Mopani District Municipality (MDM) is however exploring the possibility of passenger rail to alleviate road congestion in growth areas.

Status of Non-Motorised Transport within Greater Tzaneen Municipality

The highest concentration of non-motorised transport within Greater Tzaneen Municipality is observed within the Central Business District (CBD) because of the commercial activity within this area. There are also numerous public transport facilities in the CBD area, resulting in a higher concentration of non-motorised transport activity.

Pedestrians travelling within this area frequently need to crossroads and in some cases walk within the road to access their desired destinations leading to road safety concerns. There is also high pedestrian activity within Nkowankowa and rural villages within the municipality.

5.5. Freight Transport

The agriculture, forestry and tourism industries are the biggest contributors to the local economy of Greater Tzaneen Municipality. The commercial agriculture (mainly cash crops, tropical and citrus fruit production) and forestry activities relies heavily on freight transport for getting their products to market. Both heavy vehicles and agricultural vehicles make use of the road network in Greater Tzaneen Municipality.

5.6. Air Freight Transport

According to the Limpopo Freight Transport Implementation Plan, 2012 air freight transport in Greater Tzaneen LM has low potential. There is very little beneficiation/manufacturing taking place to produce high-value freight in the area.

5.7. Transportation of Hazardous Substances

Hazardous substances include explosives, gases, flammable liquids, flammable solids, toxic and infectious substances, radioactive material, and corrosives. The Mopani District Integrated Transport Plan recommends some roads falling within Greater Tzaneen Municipality to be used for the transport of hazardous substances.

Recommended Routes to be used for the Transportation of Hazardous Substances in Greater Tzaneen Municipality

- R71 From Polokwane to Tzaneen
- R36 From the N1 through Soekmekaar to Tzaneen
- R36 From Tzaneen to Ohrigstad
- R526 From Tzaneen to Mica
- R529 From Road R36 between Tzaneen and Trichardtsdal to Giyani

As far as possible the transportation of hazardous substances should be restricted to major roads and should be kept to a minimum in towns and major residential areas.

5.8. Aviation

The Tzaneen Airfield is situated outside the town of Tzaneen in the Mopani district of Limpopo province. The airfield is in Tarentaal just off the R71 provincial road, approximately 17 km east of Tzaneen. The airfield can be accessed via a 2 km tarred access road from the R71 provincial road.

6. Needs Assessment

The main aim is to analyse transport in the municipality to identify particular needs and issues related to transport within the various sectors of the transport system under the jurisdiction of greater Tzaneen municipality. Strategies, supported by projects, will be identified to enable the municipality to overcome current identified transport problems and issues. Proper methods were used to conduct transport issues/problems in greater Tzaneen municipality. Greater Tzaneen municipality has a very high dependence on the public transport industry providing mobility. Integrated Development Plan is a

process which the municipality prepare strategic development for five years, which is the key instrument for local government to cope with its new development objectives and to arrive at decisions on issues such as municipal budgets, land management and promotion of economic development. Integration between land use and transport plays a role in facilitating social and economic development.

7. Operating Licence Strategy

The data collected as part of this Transport Register (CPTR) for Greater Tzaneen Municipality was used to determine the location of major public transport facilities in the municipality and to determine the utilisation in the current minibus-taxi routes.

Based on the existing public transport operations in the MDM, the primary strategies to be used in restructuring the public transport system are as follows:

- a) Formalisation of the administration process at the PRE/MRE.
- b) Improved assessment of the passenger demand.
- c) Enforcement of illegal operations.
- d) Improved regulation of long-distance transport.
- e) Moratorium of over-traded routes.
- f) Development of an integrated Public Transport Networks (IPTN)

8. Transport Improvement Proposal

Infrastructure and service delivery are considered to be needs driven and having a high priority. The unconstrained list of projects needs to undergo an assessment to develop a prioritised project list to be implemented. Projects must be integrated with the strategic development mission of the municipality to drive future development, while addressing the identified needs of the transport users within the municipality. A project that is prioritised for implementation should therefore be assessed in terms of its merit to satisfy a transport demand by providing and efficient solution while being cost effective.

- a) Assessment Criteria
- b) Promote, support, and enable local economic development and subsequently job creation.
- c) Improve public transport operations.
- d) Provision of public transport infrastructure
- e) Improvement of learner transport operations through improvements in the road network
- f) Improvement of road safety conditions
- g) Improvement of conditions for non-motorised transport users
- h) Promote and support the movement of freight.
- i) Develop a sound and functioning institutional and administrative environment.

9. Budget Constraints

- The available budget for the implementation of transport improvement projects is nearly always insufficient to fund all the identified projects. This further stress the need to prioritise projects to ensure that the funding available is spent in the areas with the biggest need.
- Projects Financing and Implementation
- Public transport facilities in Tzaneen perform a significant economic function as it strengthens the viability of local economic nodes. Lack of sufficient funding resources for the transport sector is one of the key problems to implementation and delivery, it directly and indirectly constrains economic growth and accessibility to opportunity for both urban and rural area residents. The prioritised list of projects primarily dependent on the available fiscal resources for the applicable year.
- Programmes and projects failing because the municipalities do not have an adequately diversified funding basis. It is essential that these scarce resources are put to the most effective use in a transparent and accountable way, and that they help promote a pro-poor development strategy which addresses the real needs of the local community.

10. Conclusion

It is intended that this local integrated transport plan (LITP) would assist in shaping the way goods and services are carried within municipal areas. The plan (LITP) is to investigate passenger transportation and available facilities to accommodate public passenger vehicles and make recommendations for improvement. Transport serves as an enabler for both local and national development and is in most cases required to be in place for the provision of other basic services such as healthcare, education, water and sanitation, electricity, and refuse removal. Greater Tzaneen Municipality is highly dependent on an efficient and integrated transport system and therefore it is imperative that the proposals and recommendations of this report is considered.

The Integrated Transport Plan for Greater Tzaneen Municipality should be updated annually and synchronised with the annual update of the Integrated Development Plan.

5. ENVIRONMENTAL MANAGEMENT PLAN

1. Introduction

Recent South African environmental legislative developments and environmental management practices have necessitated the updating and alignment of the existing Integrated Environmental Management Plan with current National Environmental Assessment and management requirements as well as international trends.

2. Policy and legislative mandate

The mandate to provide services to communities in an equitable and sustainable manner has been conferred to the Municipality by the Constitution. In providing these services, Greater Tzaneen Municipality is a regulator but is also regulated to ensure that legislative requirements are complied with. The Integrated

Environmental Management Plan derives its mandate from the following pieces of legislation government policies:

- a) National Environmental Management Act (Act No 107 of 1998)
- b) National Environmental Management: Air Quality Management Act (Act no 107 of 1998)
- c) National Environment Management: Biodiversity Management Act (Act no 107 0f 1998)
- d) Environmental Conservation Act (Act 73 0f 1989)
- e) National Water Act (Act 73 0f 1989)
- f) Forest Act (Act 122 0f 1984)
- g) Atmospheric Pollution Prevention Act (Act no 45 of 19650
- h) Health Act (Act 107 of 1977)
- i) Development Facilitation Act (Act 67 of 1995)
- j) Housing Act (Act 107 of 1987)
- k) Electricity Act (Act 41 of 1987)
- I) National Building Regulations and Building Standard Act (Act 103 of 1977)
- m) Minerals Act (Act 50 of 1991)
- n) National Road Act (Act 54 of 1971)
- o) Environmental Management Policy- DEAT
- p) Integrated Pollution and Waste Management Policy- DEAT

2. DISASTER RISK MANAGEMENT PLAN

DISASTER MANAGEMENT ACT: NO 16 of 2015, (as amended) section 50, chapter 5.

Each municipality must within the applicable municipal disaster management framework-prepare a disaster management plan for its area according to the circumstances prevailing in the area, section 53 (2)

1. A Disaster Management Plan for municipal area must-

- a) Form an integral part of the municipality's Integrated Development Plan
- b) Anticipate the types of disaster that are likely to occur in the municipal area and their possible effects.
- c) Place emphasis on measures that reduce the vulnerability of disaster- prone areas, communities, and households.
- d) Seek to develop a system of incentive that will promote disaster management in the municipality.
- e) Identify the areas, communities, or households at risk.
- f) Consider indigenous knowledge relating to disaster management,
- g) Promote disaster management research.
- h) Identify and address weaknesses in capacity to deal with possible disaster.
- i) Provide for appropriate prevention and mitigation strategies.
- j) Facilities maximum emergency preparedness and
- k) Contain contingency plans and emergency procedures in the event of a disaster, providing for responsibilities.
- The allocation of responsibilities to the various role players and co-ordination in the carrying out of responsibilities.
- m) Prompt disaster response and relief.
- The procurement of essential goods and services
- o) The establishment of strategic communication links
- p) The dissemination of information and,
- q) Other matter that may be prescribed.

The council of the Greater Tzaneen municipality adopted the reviewed Disaster Management Plan in February 2024. The process began in August 2023 with a review of the risk assessment which led to compilation of the indicative risk profile of the municipality. In terms of the National Disaster Management Centre guidelines on the level of Disaster Management Planning, the Greater Tzaneen municipality DMP can be regarded as a level one (1) plan. The plan identified multiple hazards and some are listed as follows:

2. Flood vulnerability is related to:

- a) Location of settlement in flood plains, flood lines
- b) Poor awareness of flooding hazard
- c) Reduction of absorptive capacity of land (Concrete Erosion)
- d) High risk infrastructural elements
- e) Unprotected crops, food stock and livestock,
- f) Lack of early warning system

3. Main mitigation strategies

- a) Zoning and Land Use Control
- b) Flood control: Dam, retention Basin, Diversion channels.
- c) Flood protection.
- d) Flood proofing: Construct building to reduce the potential for flood damage.
- e) Flood forecasting: Warning systems.
- f) Flood preparedness: protection of forest, wetlands, dam management.
- g) Response plans
- h) Post flood rehabilitation.

3. Wind and severe storms.

In determining the hazard, windstorm, within the Greater Tzaneen Municipal area the geographical layout of the area NP 333 must be taken into consideration. Most of the towns, villages and rural areas are within a natural basin caused by the mountain range. The areas outside this enclosed area are Haenertzburg and Vee kraal area. With statistics and indigenous knowledge received from communities a wind prone area was identified.

4. Mitigation strategies

Planting of trees to form wind breakers.

Proper building construction: training the community in building practices. Workshop with building inspectors, contractors on building methods.

Within wind prone areas, training to the community in placing of shacks or house facing or not facing the wind. (Depending on the building, methods used)

5. Fire

Fire is classified into two categories: structural fires, forest, and veld fires.

6. Structural fires

Structural fires are all building fires.eg, factories, home, businesses, and schools etc.

During the 2023/2024 financial year the Disaster Management unit responded to 64 structural fires, and it is a serious cause for concern. The Municipality is establishing a multi-disciplinary team represented by individuals from the Mopani Fire Service, the department of Social Development and other institutions to turn the situation around through programmes that will reduce the occurrences of household fires.

7. Main mitigation strategies

- a) Fire safety within houses.
- b) Correct usage of electrical appliances
- c) Overloading of electrical wire/supply
- d) Illegal connections
- e) Fire awareness / communities.
- f) Fire prevention inspections by the Fire and Rescue Services on businesses and factories on a regular basis.
- g) Fire resistant building methods.
- h) Fire drill to large businesses.
- i) Fire awareness training/ information sharing at schools and in communities.

8. Forest and veld fires

Plantation and forest fires have a major impact on the economy of South Africa. These fires lead to job losses, shortage of wood for mining, furniture manufacturing and building construction. The paper industry is also affected to such a point that paper must be imported. Rehabilitation of a plantation until in full production can take up to 10 years for Eucalypt and 22 years for pine. Veld forests are common and on annual occurrences. Mostly the land belongs to the municipality is the one which is affected because most of the area (farm) is unoccupied.

The region would suffer severe financial loss if fire should sweep through the plantation area living the George's Valley and Magoebaskloof. Areas most frequently by the fire are-

- a) Georges Valley
- b) Adams farm
- c) Deerpark
- d) California
- e) And other municipal land within the jurisdiction

9. Main mitigation strategies

- Enforcement of the National Forest Veld Fire Act through an active participation in the Fire Protection Association
- The upkeep and maintenance of fire breaks on Municipal land
- The adherence to the fire probation times.
- Strengthen awareness programmes to landowners.
- Enhance community-level teams with fire fighting training and basic equipment to act as first responders.

7. HIV/AIDS PLAN

1. Background

Since the democratic elections in December 2000, the issue of HIV/AIDS which always was a national and provincial matter becomes the responsibility of local government as well.

As the pandemic increase in severity and magnitude the following has inter alia become necessary for Council to consider.

- The approval of an appropriate policy on HIV/AIDS in the workplace.
- The approval of 5 years' strategic plan of action for the whole area of jurisdiction.
- The establishment of a sub-district AIDS-Council from all relevant stakeholder to amalgamate all current ad-hoc HIV/AIDS activities and provide guidance on the way forward.
- The drafting of appropriate awareness programs via the AIDS-Council and the implementation thereof in schools, communities etc.

The proposed policy in (a) above was drafted and served before council during July 2002. Approval by Council for establishing an AIDS-Council as in (c) above was granted recently. This is a major and time-consuming task that requires a lot of research, liaison and negotiations with potential role players. This item serves the purpose of submitting a 5-year strategic action plan as in (b) above. Please note that a District Aids-Council was elected and launched for the Mopani District during December 2001. This council should provide guidance towards all local Municipalities in the Mopani District.

2. The role of the DISTRICT AIDS-COUNCIL (D.A.C) will include inter alia.

- a) Drafting of policies within national and provincial guideline
- b) Advising municipalities in its of jurisdiction
- c) Mobilizing resources
- d) Providing information
- e) Development of action plans
- f) Co-ordination of program and funds
- g) Play mandatory role for municipalities.

- h) Liaise between local, provincial, and national government.
- i) Monitor and evaluate activities and outcomes.

If the District Aids-Council is fulfilling its role and responsibilities as mentioned above will be paved for a local sub-district AIDS-Council, to operate smoothly. Council is therefore urged to liaise and negotiate with the chairperson of the District AIDS-Council as his mandate in the interest of public and community health and well-being.

3. Table 82: IMPLEMENTING STRATEGY

KPA 3: LOCAL ECONOMIC DEVELOPMENT

1. LOCAL ECONOMIC DEVELOPMENT STRATEGY

LED Framework

5.1 Introduction

The purpose of this section is to formulate the strategic framework which will guide the local economic development within the Greater Tzaneen LM. The opportunities will be considered in terms of their ability to broaden the local economic base of the region, create sustainable employment and stimulate business development.

5.2 Development Goal and Objectives

The vision of the Greater Tzaneen LM is:

"To be the most prosperous economy in the country where communities are integrated and have access to sustainable basic services"

While the mission of the LM is:

"To stimulate economic growth and improve the quality of live through sustainable, integrated service delivery and partnerships"

In order to achieve the vision for the LM, the goal for the revised LED strategy is as follows:

To develop an inclusive local economy with opportunities which will generate sustainable economic growth and employment

The following development strategies support the overall LED goal:

- 1. Creating an enabling environment for retaining existing businesses, attracting new investment and supporting SMMEs
- 2. Nodal and cluster development by focusing investment on key sectors
- 3. Linkages and corridor developments

The strategies can be achieved through the following three **development objectives**:

- 1. Policy and strategy development to support development
- 2. Agriculture value chain development
- 3. Environmental sustainability and tourism development
- 4. Rural development

The Diagram below indicates the linkages between the identified strategies and objectives can how their successful implementation will assist the LM to achieve the LED goal:

Diagram 5.1: LED Framework

The following subsections will discuss each of the strategies and objectives identified in the framework as well as identify projects which will assist in achieving the objectives, and ultimately the development goal. The three development objectives can be **further expanded**:

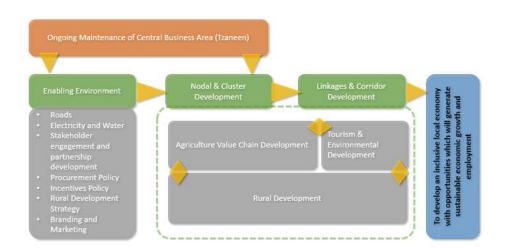

Diagram 5.2: Development Objectives

Agriculture Value Chain Development

- Increase production in citrus, avocadoes and macadamia nuts
- Livestock Production: Poultry, cattle and goats
- · Forestry: Secondary processing and agro-processing
- Agro-processing incubator

Rural Development

- · Farmer Support Unit
- Implementation of Rural Development Stategy
- Skills development through training

Environmental Sustainability and Tourism Development

Environmental Sustainability

- Waste to energy
- · Waste to compost
- Renewable energy
- · Harvesting rain water
- Recycling
- Solar power in new developments

Conservation

- Veld management
- Sustainable farming methods
- Product development in protected areas to generate income

Tourism Development

- Nature based and cultural tourism
- Tourism route development
- Tourism website and marketing material
- Product development

5.3 Creating an Enabling Environment

An efficient and enabling municipality is dependent on the following points:

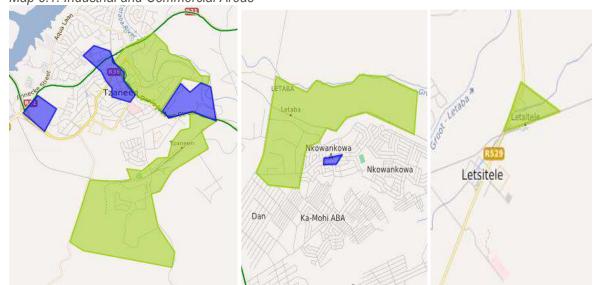

- **Proper internal municipal capacity**: this means that the Municipality must have adequate staff with sufficient skills to ensure that the Municipality can function at its optimal level
- Service delivery & infrastructure: The Municipality is responsible for providing water, electricity and sanitation services to the local communities. These services are necessary for any new developments and assists in creating an enabling environment to attract new investments.
- **Municipal planning**: Policies and by-laws of the Greater Tzaneen LM should be able to create an environment that is conducive of growth, that promotes public private partnerships and that is favourable towards private investment in the local economy. LED is only successful and sustainable if the private and public sector strives towards development and the municipality should thus be encouraging towards such partnerships and private development in its policies and strategies.
- Accountability and Transparency: Accountability and transparency is necessary to create confidence in the local municipality not only for local communities but also for businesses and future investors (Batho Pele Principles)

Creating an enabling environment therefore depends on all Departments within the Local Municipality to work effectively and efficiently.

The following development objectives are directly related to promoting local economic development and link to the LED framework:

5.3.1 Roads, Water and Electricity

To promote economic development and employment creation, roads and service delivery should be improved in commercial and industrial areas of Tzaneen, Nkowankowa and Letsitele and regular maintenance should occur.

Map 5.1: Industrial and Commercial Areas

Source: Urban-Econ via MapAble, 2017

Projects and activities include:

- Improving electricidal capacity in industrial areas
- Improving water service delivery in industrial areas

- Fixing and regular maintenance on roads in industrial areas, and roads leading to industrial areas
- Building working relationships with local manufacturing and creating a platform for open communication between the local municipality and manufacturers

5.3.2 Stakeholder Engagement and Partnership Development

The municipality will not be able to implement projects and programmes and facilitate economic development by working in isolation. An important part of local economic develop is to create partnerships and engaging with the private sector as well as with other government departments. LED Forums, as well as partnership development on specific projects is essential. Building good working relationships with the following stakeholders can be beneficial for local economic development in Greater Tzaneen LM:

- · Local manufacturers, business chambers and associations
- Limpopo Department of Cooperative Governance, Human Settlements and Traditional Affairs
- Limpopo Department of Public Works, Roads and Infrastructure
- Limpopo Department of Agriculture and Rural Development (LDARD)
- National Department of Rural Development and Land Reform
- Department of Economic Development, Environment and Tourism Limpopo (LEDET)
- Sector Education and Training Authorities (SETAs) and T
- Limpopo Economic Development Agency (LEDA)
- Limpopo Tourism Agency and Tourism South Africa
- Roads Agency Limpopo

5.3.3 Local Municipality Policy & Strategies

Implementable policies and strategies will assist to create a framework to promote local economic development in Greater Tzaneen LM.

Preferential Procurement Policy Outdated

Incentive policy for Investment Needs to be developed **LED Strategy** Review in progress Review in progress SDF

Rural Development Strategy Needs to be development

Tourism Development Strategy Outdated

It is very important to educate local communities in rural areas where there are many subsistence farmers on the importance of conservation and sustainable agricultural practises. Not only for its effect on tourism but also on the livelihoods of future generations

(C) Tourism Promotion

Existing resources with tourism potential need to be developed into products that can create employment and generate income.

5.4.3 Rural Development

Factors contributing to rural development include (Department of Rural Development and Land Reform, 2009):

- Agrarian transformation
- Land reform
- The establishment of business initiatives, agro-industries, cooperatives, cultural initiatives and vibrant local markets in local settings;
- The empowerment of rural communities, especially women and youth, through facilitating and mediating strong organisational and institutional capabilities and abilities to take full charge of their collective destiny
- Capacity building initiatives, where local communities are trained in technical skills, combining them with indigenous knowledge to mitigate community vulnerability to, especially climate change, soil erosion, adverse weather conditions and natural disasters, hunger and food insecurity; and
- Revitalisation and revamping of old, and the creation of new economic, social and information communication infrastructure and public amenities and facilities in villages and small rural towns

Projects and activities include:

- Developing a Rural Development Strategy
- Develop a farmer support unit to support farmers with inputs, mechanisation and training
- Skills development through training in rural areas

5.5 Development Strategy 3: Linkages and Corridor Development

Developed nodes and industries will create opportunities for linkages with other sectors (as illustrated in Section 4). Physical linkages, by means of corridors will also promote economic development and employment creation.

As indicated in Section 4, many tourists travel through Tzaneen and Greater Tzaneen LM to reach other destinations, such as the Kruger National Park and Mpumalanga. Developing self-drive routes, proper road signage, road improvements and partnership development with other local municipalities and tourism associations are important.

Projects and activities include:

- Development of tourism routes
- · Incorporate corridor development as part of the SDF
- Regular road maintenance on main transport routes

Project Prioritisation

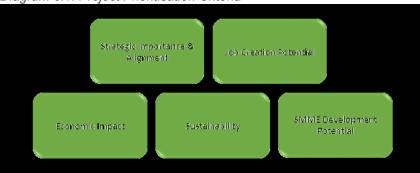

6.1Introduction

The projects identified during the opportunity analysis and strategic framework development needs to be prioritised in terms of each project's importance in the local economy. The prioritisation of projects is done through the employment of prioritisation criteria. The identified prioritisation criteria will form the basis of the prioritisation model and ultimately assist in the identification of anchor LED projects for Greater Tzaneen LM.

6.2 Prioritisation Criteria

The prioritisation criteria have been identified for Greater Tzaneen LM:

Diagram 6.1: Project Prioritisation Criteria

6.2.1 Criteria 1: Strategic Importance and Alignment

A project strategic importance is determined by the project's ability to positively impact on the local economy. Strategic importance as criteria takes into account the scale of development, the use of local resources as well as the effect the project will have on the comparative advantages of the local economy. A project will furthermore obtain a high score in this category if the project has strong linkages with other potential and existing projects. The projects should also be aligned with government policies and legislation to adhere to a regional, provincial and national growth path.

6.2.2 Criteria 2: Job Creation Potential

This criterion evaluates the number of jobs to be created from potential project and the sustainability of jobs in the years to come. The creation of jobs is an important element for both local and national government as it assists with poverty eradication.

6.2.3 Criteria 3: Economic Impact

The criteria utilised for the assessment of projects, include the project's impact in terms of **socio-economic aspects**. Economic impact refers to the sum of the projects' **influences on the local economy** and includes the following aspects:

- Increased and additional levy income
- New business sales
- Potential agglomeration effects and advantages
- Investment

6.2.4 Criteria 4: Sustainability

This criterion evaluates the potential for a project to be sustainable within the local economy. A sustainable project will generate long term benefits for the economy, employment or overall development.

6.2.5 Criteria 5: SMME Development Potential

This criterion evaluates the potential of a specific project to assist with small and medium sized business developments; if the project will benefit or assist with development of SMMEs either directly or indirectly. It is evident that the specific effects of each of the factors mentioned above are directly associated with the establishment of the project. This also includes indirect effects of the local economy and its community (social aspects), which are difficult to accurately measure and include aspects such as sustainable job creation and skills development.

6.3 Project Categorisation

The identified projects are also categorised as follows:

- Quick win projects: These projects can be implemented within a maximum of 6 months and show a quick success. This will ensure that awareness of the strategy is raised, the commitment of stakeholders is proven and assist stimulate the momentum required to implement a wide reaching economic strategy.
- Anchor projects: These projects are flagship projects aimed primarily at facilitating and attaining economic development. These projects should be functionally focused and will represent the primary marketable development drivers in the study area. These projects are generally aimed at the medium to long term.
- **Supportive projects**: These projects will play a supporting role for both the catalytic as well as the community need projects. An example in this regard could be upgrading of roads.
- **Identified need projects:** The needs identified by the local community in the study area are as important as any other project and thus also require facilitation.
- **Skills linkage projects**: These projects relate to opportunities of local economic development service provision such as municipal labour-intensive projects where local community members with the appropriate skills can be employed or up-skilled.

6.4 Project Prioritisation

The Table below indicates the priority of each of the LED projects as well as the type of project.

Section 7: Institutional Framework

7.1 Introduction

The institutional framework is a key driver to creating an enabling environment and ensuring that proposed projects are successful, without the appropriate framework, projects could fail. This purpose of this section is to ensure an effective and efficient LED structure exists to implement this LED Strategy.

The importance of good relationship and partnerships between various stakeholders in the Local Municipality is of utmost importance as this will be the driving factor to implement projects.

7.2 LED Roles and Responsibility

It is important to stress that LED is an on-going process involving numerous role-players and initiatives and that an integrated approach to LED is required.

According to Section 152 of the Constitution, a municipality must strive, within its financial and administrative capacity, to achieve the following objectives of local government:

- To provide democratic and accountable government for local government and local communities;
- To ensure the provision of services to communities in a sustainable manner;
- · To promote social and economic development;
- To promote a safe and healthy environment; and
- To encourage the involvement of communities and community organizations in the matters of local government.

Municipalities need to play a connector role in respect of LED whereby they draw on resources locked in a range of different government support instruments into their localities. For example, municipalities can draw on the support of SETAs to address skills development in their areas, SEDA to assist with the retention and growth of enterprises in their area, etc. Besides government support programmes there are a range of non-governmental support initiatives that municipalities can tap into for resources.

All levels of government have a role to play and a responsibility to facilitate and coordinate LED initiatives in their areas of jurisdiction. Local municipalities are the key implementation agencies of government and

therefore play a significant role in Local responsibilities of Local Municipalities.	l Economic	Development.	The Dia	gram sumn	naries the	roles and

7.3 Current Structure and Strength of the LED Unit

The Local Economic Development Unit forms part of the Planning & Economic Development Department of the Greater Tzaneen Local Municipality. LED will be managed under the sub-department, 'Socio-Economic Development, Tourism and LED'. The Diagram to follow illustrates the organisational structure of the Greater Tzaneen LM, which indicates the organisational location of the LED Unit.

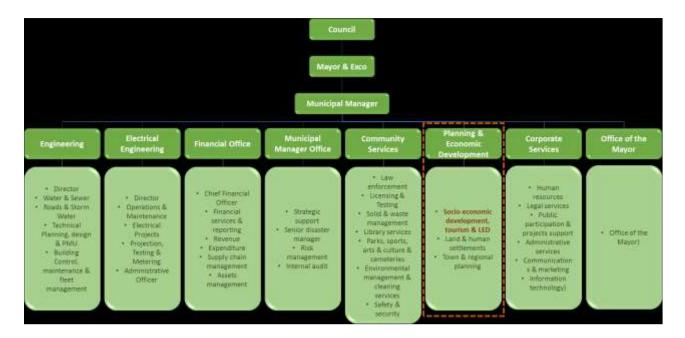

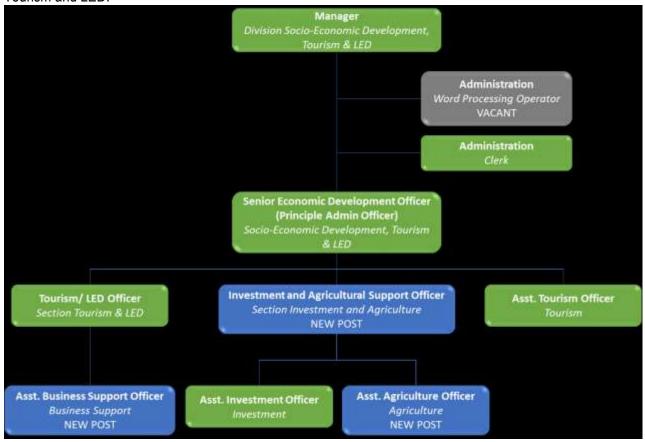

Diagram 7.2: GTLM Organisational Structure

7.3.1 Organogram

The Diagram below indicates the organisational structure of the division of Socio-Economic Development, Tourism and LED.

7.3.2 Communication

Good communication provides a solid foundation for the local economic development and the implementation of projects.

Communication can be improved by:

- Establishing a good communication system:
- Continuous feedback on progress and roadblocks of LED interventions, can be done via email, faxes, telephone or forum meetings
- Advertising LED projects and opportunities in the Local Newspapers
- Communicate with other local municipalities to ensure that potential linkages are established, duplications are prevented and best practises and lessons learnt are discussed amongst the Local Municipalities.
- Ensure that regular meetings are held with traditional authorities and the well-established private sector preferably during the LED forum meetings.

- Inclusion of various organisations, unions and bodies in LED interventions so no group is marginalised. Managing rising tensions among the different organisation is also important.
- Interdepartmental meetings to ensure combined efforts towards development and departmental cooperation in project implementation
- Communicate regularly with Provincial and District Economic Development departments as well as CoGTA to ensure cooperation between spheres of government

Establish good relationships with Provincial and National funding bodies, to connect local businesses to available opportunities.

- Linking local business activities with activities taking place on national level could enhance business performance in the Local Municipality.
- Relationships and networks could be established among the different businesses and SMME in the various provinces.
- SMMEs could benefit greatly knowing which interventions and funding on provincial and national level are available to aid them.
- Effective and well organised meetings, where common goals, project priorities and joint ventures can be establish.
- Establishment of the LED Partnership between local organisations/business and the municipality with the common purpose of promoting local economic development.
- Communicate with and support local organisations and charities to collectively promote business and social development

The Diagram below summarises the departments/authorities with which the LED unit must frequently communicate with to ensure that there is cooperation and a unified vision for economic development in the Greater Tzaneen LM.

Diagram 7.3: Communication links

7.4 Partnerships and Relationships with Local Organisations

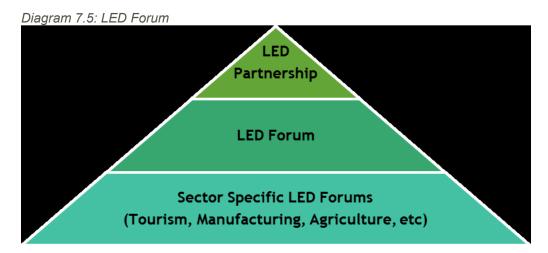

7.4.1 LED Forum

The main objective to establishing a LED Forum is to ensure:

- The participation and input from the local community,
- Businesses and other stakeholders within the local municipality that will enable co-ordination between local stakeholders,
- Mobilisation of resources, obtaining commitment as well as establishing and maintaining a common vision.

The LED Forum is the backbone for implementation of LED projects as the stakeholders will analyse the current economic challenges in the municipality and how to address these challenges, in their specialised field. The forum plays an important role in ensuring community members and local stakeholders are informed of economic happenings in their local areas and how to benefit and contribute to projects.

The LED forum will be a function of the Partnership as indicated in the Diagram below:

These forums are important and critical tools required in bridging the communication gap and obtaining a common understanding between the local municipality and the community at large. Furthermore, these forums also provide the platform for the Local Municipality to form partnerships with the different stakeholders.

In general, an LED Forum consists of the private, public and community sectors. The Municipality should also seek to involve a greater number of representatives from various government departments. This will increase access to resources as well as provide a different perspective on ensuring and enabling economic growth within the local municipality.

Stakeholders

- Various government department
- Funding agencies
- Professional bodies
- Business Chamber
- Private sector
- Local Businesses and Entrepreneurs
- Community sector and ward representatives
- Community development forums

7.4.3 Relationships with Local Organisations

There are numerous organisations who try to have a positive impact on the local community and reduce poverty. It is important for local government to support these initiatives. This will encourage private sector to work together with local government in promoting local economic development. By supporting community organisations, the communities and private sector can become more positive about working and living in the GTLM which will promote good working relationships between public and private sector.

7.5 Conclusion

Strengthening of the LED unit with the necessary skills and capacity is imperative. It is also noted that relationships and partnerships between the LED unit, other departments and stakeholders need to be improved so projects can be implemented by various stakeholders and investment benefits can be shared. An improved institutional framework and structure is needed to improve the performance of the LED unit

and ensure sustainability of projects. Improved communication between the Local Municipality, other

departments and stakeholders will promote good governance and at the same time ensure success of

projects.

2. GENERAL INFRASTRACTURE PLANNING

EXPANDED PUBLIC WORKS PROGRAMME

1. Background

The expanded public works programme (EPWP) is South African Government initiated programme aimed

at creating 5 million work opportunities by 2024. The programme is implemented by all spheres of

Government, across four (4) defined sectors, namely the infrastructure, social, Non-state, and

Environmental and culture sector.

The National EPWP framework provides that local government develop an EPWP policy that is embedded

within the integrated development plan, the policy is expected to promote EPWP principles and the

restructuring of local government activities to facilitate and create greater employment opportunities per

unit of expenditure .it further provides that EPWP projects and programmes must be identified within each

department ,which can be implemented using labour - intensive or community based services delivery

method.

2. Objectives of the Expanded Public Works Programme

The expanded public works programme is about the reorientation of the line function budgets so that

expenditure by government results in increased employment opportunities and training particularly for

unemployed and unskilled labour. The following main objectives of the programme, inter alia, to create an

enable environment to:

Create employment opportunities for unemployed within local communities through the implementation plan

which collectively cuts across the different sectors.

Develop SMME's to execute EPWP work by facilitating the transfer of technical managerial and financial

skills through relevant SETA & DOL courses, in properly structured learnerships programmes. Out of total

annual budget spent, maximise the percentage retained within local communities in form of wages, promote

the procurement of goods and services from local manufacturers, suppliers, and service providers.

Develop skills within communities through EPWP training by accredited training providers aimed at the

developing sustainable skills and capacity within communities. Using clearly defined key performance

indicators -monitor, evaluate and report all EPWP initiatives, including those implemented using provincial

and National government budgets.

KPA 4: GOOD GOVERNANCE AND PUBLIC PARTICIPATION

1. PUBLIC PARTICIPATION STRATEGY

Introduction

The Municipal Structures Act is the primary statute to give effect to the constitutional commitment to community participation in local government. Fundamentally it defines the Municipality as compromising its political structures, its administrative and the community of the municipality. The Act thus makes it clear that communities are an integral part of the municipal governance of local government affairs. A municipality must develop 'a culture of municipal governance that complements formal representative's government with a system of participatory governance" (abstract from local government bulletin)

This document will serve as a framework of the Greater Tzaneen municipality in deepening democracy through Public Participation. This policy shall serve to give a local perspective of the National Policy Framework

2. Legal framework

Section 152(1)(e) of the Constitution stipulates the Municipality must encourage the involvement of the community in the matters of local government.

White paper on local Government defines this new developmental local government as the local government committed to work with citizens to find suitable ways that address the needs of the community. Section 19 (3) of the local Government: Municipal Structures Act 117 of 1998 directs that a municipal council must develop mechanism to consult the community and community organizations in performing its function and exercising its powers.

Section 16 (1) of the Local Government: Municipal Systems Act 32 of 2000 encourages that a municipality must develop a culture of governance that complements formal representative government with a system of participatory governance to encourage and create conditions for the local community to participate in the affairs of the municipality.

3. Municipal strategic objectives (MSO) for community participation

a) To empower Ward Committees, IDP representative forum, project steering committee and other relevant structure/representatives of such structures through various capacity building programs and information dissemination to support the MSOs.

- b) To organise, mobilize, and empower communities to enable them to influence their social-economic conditions.
- c) To organise, mobilize, and empower communities through capacity building programs and set-up information dissemination mechanisms, processes and procedures following the legislative framework i.e., Greater Tzaneen Municipality Ward Committee Establishment Notice, to continuously establish and maintain functioning of ward committees.
- d) To encourage community participation in all relevant processes of the municipality through ward communities, political structures, councillors, locally recognised community organizations and traditional authorities as directed by the Municipal Systems Act
- e) To establish additional mechanisms, processes, and procedures to ensure community participation e.g., IDP Representative Forum, Project Steering Committees etc.
- f) To generate and continuously update community profile for the 34 wards in the four clusters of the municipality.
- g) To actively involve the broad community and appropriate structures in the governance processes aimed at accelerated services delivery for improved socio-economic in all wards.
- h) To develop and maintain a detailed database of potential stakeholders and key resource individuals and organizations within the wards for resource mobilisation.
- i) To foster links between the communities and sector departments in support of the general government programs on services delivery and information dissemination.

2. COMMUNICATION STRATEGY

Background

The Greater Tzaneen Municipality is a Grade B Municipality situated in the Eastern quadrant of the Limpopo Province within the Mopani District Municipality area of jurisdiction, together with Greater Giyani, Ba-Phalaborwa, Greater Letaba and Maruleng. Polokwane is on the West, Greater Letaba to the North, Ba-Phalaborwa and Maruleng to the East, and Lepelle-Nkumpi to the South.

The municipality compromises a land area of approximately 3240 km2, and extends from Haenertsburg in the west, to Rubbervale in the east (85 km), and just upon south of Modjadjiskloof in the north, to Trichardsdal in the south 94km. The municipal boundaries from an irregular, inverted T-shape, which results in certain development implications for the municipality, and more specifically the distance to markets, difficulties in respect of service provision, and constraints to implementing development vision/strategy. The Greater Tzaneen Municipality area encompasses the proclaimed towns of Tzaneen, Nkowankowa, Lenyenye, Letsitele, and Haenertsburg. In addition, there are 125 rural villages, concentrated mainly in the South-East, and North-West, of the study area. Almost 80% of households reside in these rural villages.

There are four dominant languages spoken within the municipality i.e., Xitsonga, Northern Sotho, English and Afrikaans.

2. There are various legislations that give supremacy to this strategy:

- a) Constitution of the Republic of South Africa Act, 1996 (Act 108 of 1996 and Chapter 2 which outlines the Bill of Rights, and Chapter 7 which points the tone of communication for local government
- b) Local Government Municipal Systems Act of 2000 (Act 32 of 2000)
- c) Local Government Municipal Structures Act of 1998 (Act 117 of 1998)
- d) Local government Municipal Finance Management Act of 1999
- e) Promotion of Access to information Act of 200 (Act 2 of 2000)
- f) Intergovernmental Relations Framework Act (Act 13 of 2005)
- g) White paper on Local Government Transformation and:
 - (i) State of the Nation address
 - (ii) State of the Province address
 - (iii) Budget Speech

3. Objectives

3.1. Governance and administration

- (i) To inform and educate the community about the kind of services rendered by the municipality, as well as programs and resolutions of council.
- (ii) To encourage public involvement in the activities of the municipality
- (iii) To foster healthy relations with the communities, the media, and all stakeholders as they identify with Council.
- (iv) To communicate and exhibit the achievements of council.

3.2. Economic growth

- (i) To promote, market and brand Tzaneen as a premier destination for leisure, business, and residence.
- (ii) To communicate economic opportunities to reduce unemployment.

1.3. Social, environmental sustainability and infrastructure development

(i) To encourage communities to look after their environment.

3. ANTI CORRUPTION STRATEGY

3.1. Introduction

The Municipality is committed to protect public funds and ensure that all Council activities are carried out in accordance with the principles of openness, honesty, and integrity. The Council has a zero tolerance to fraud and corruption activities by offenders. In carrying out its functions and responsibilities the Council is fully committed to deterring theft, fraud, corruption, and bribery whether it is attempted on or from within the Council; and is committed to an effective anti-fraud and corruption strategy. The Risk Management Unit is responsible to investigate complaints and allegations on fraud and corruption.

The anti-corruption strategy has been reviewed by Council and will be implemented with effect from 1st July 2023. The strategy is intended to set down the stance for GTM to fraud and corruption and to reinforce existing systems of controls, policies and procedures aimed at deterring, preventing, detecting, and reducing the impact of fraud and corruption.

The anti-corruption strategy of GTM is zero tolerance to fraud and corruption. Fraud and corruption will be investigated and followed up by the application of all remedies available within the full extent of law and implementation of appropriate prevention and detection controls.

3.2 Investigations

Investigations are initiated as and when cases are reported on the anti-corruption hotline. Anonymous reports may warrant a preliminary investigation before any decision to implement an independent investigation is taken. Investigations will be undertaken by appropriate experienced officials. All investigations performed and evidence obtained will be in accordance with acceptable practices and legal requirements. Any investigations initiated must be concluded by issuing a report by the person appointed to conduct such investigations. Reports will be disseminated to Accounting Officer to have access to implement whatever action is deemed appropriate as a result of investigation.

4. GTM FRAUD PREVENTION PLAN

WHISTLE BLOWING POLICY

The municipality has the anti-corruption hotline, 0800 44 66 44. To comply with Protected Disclosure (PDA) Act No 26 of 2000 GTM has approved Whistle Blowing Policy to encourage and enable the employees and the public to raise their concerns.

5. RISK MANAGEMENT

5.1 Risk And Compliance Management

In terms of Section 62 of MFMA, Accounting Officer must maintain an effective, efficient, and transparent systems of financial and risk management and internal control. The municipality is continuously conducting risk assessments in terms of risk management policies, framework, and the relevant standards such as ISO 31000 ensuring that all objectives as set out in the IDP are achieved.

5.2 Risk Management Strategy

Risk management strategy herein set out the rules embedded within the municipality's risk management policy framework. These are the mandatory requirements established by the Accounting Officer for the management of risk in the municipality.

5.3. Strategic risks.

- a) Non-compliance with Section 84 of the MFMA in establishing the municipal entity.
- b) Excessive overtime hours claimed and non-implementation of Ministerial threshold.
- c) Aging Infrastructure.
- d) Non-compliance with Water Service Authority (MDM) & Water Service Provider (GTM) agreements.
- e) Non-adherence to the reporting time frames.
- f) Fraud and corruption.
- g) ICT steering committee not in place.
- h) Theft of municipal infrastructure.
- Non-compliance with SCM Policy and Regulations.
- j) Excessive legal fees.
- k) Inadequate implementation of infrastructure projects.

6. AUDIT COMMITTEE

Greater Tzaneen Municipality has its own independent Audit Committee appointed by Council. The Audit Committee is also the oversight committee of Council which consists of four outside members. Audit committee meetings are held quarterly.

The committee performs amongst others the following duties:

- a) Internal financial control and internal audits
- b) Risk management.
- c) Accounting policies
- d) The adequacy, reliability and accuracy of financial reporting and information
- e) Performance management
- f) Effective governance
- g) Compliance with legislation and
- h) Performance evaluation
- Review the annual financial statements.
- j) Respond to Council on issues raised by the Auditor General

7. INTERNAL AUDIT FUNCTION

Greater Tzaneen Municipality has an in-house Internal Audit Unit with four employees.

The Internal Audit Unit performs the following functions:

Prepare a risk-based audit plan and internal audit program for each financial year.

Advise the Municipal Manager and report to the Audit Committee on the implementation of the internal audit plan and matters relating to:

- a) Internal Audit
- b) Internal controls

- c) Accounting procedures and practices
- d) Risk and risk management.
- e) Performance management
- f) Loss control
- g) Compliance with legislation

8. OVERSIGHT COMMITTEE (MPAC)

The Municipal Public Accounts Committee (MPAC) is a committee established under section 79A of the Local Government Municipal Structures Act, to play an oversight on behalf of Council. The committee comprises of nine (9) councillors including the Chairperson. Its meetings are held in line with the approved Annual Work Plan and the activities of the committee are guided by the approved Terms of Reference.

The Chairperson of the Committee was appointed on a full-time basis. The committee report to Council quarterly or as and when the terms of their duties dictate. The committee also holds its strategic session once yearly and the district wide session which is convened by the district once every year. The committee holds public hearings on the oversight report during the month of March each year which must be held across the municipal clusters rotationally. The Committee is allocated its own budget for the financial year. Administratively, the committee is assisted by the Researcher and the Secretary.

Key objectives:

- a) Submission of reports to Council in line with the time frames guided by relevant legislation.
- b) Fast-tracking the implementation of Council resolutions.
- c) Implementation of the approved annual Work Plan.

The Municipal Public Accounts Committee (MPAC) is a committee established under section 79A of the Local Government Municipal Structures Act, to play an oversight on behalf of Council. The committee comprises of nine (9) councillors including the Chairperson. Its meetings are held in line with the approved Annual Work Plan and the activities of the committee are guided by the approved Terms of Reference.

The Chairperson of the Committee was appointed on a full-time basis. The committee report to Council quarterly or as and when the terms of their duties dictate. The committee also holds its strategic session once yearly and the district wide session which is convened by the district once every year. The committee holds public hearings on the oversight report during the month of March each year which must be held across the municipal clusters rotationally. The Committee is allocated its own budget for the financial year. Administratively, the committee is assisted by the Researcher and the Secretary.

Key objectives:

a) Submission of reports to Council in line with the time frames guided by relevant legislation.

- b) Fast-tracking the implementation of Council resolutions.
- c) Implementation of the approved annual Work Plan.

9. MUNICIPAL CORPORATE GOVERNANCE OF ICT POLICY

1. Executive summary

Information Communication Technology (ICT) Governance has been described as the effective and efficient management of ICT resources and processes to facilitate the achievement of Municipal goals and objectives. The ICT Governance Institute describes ICT Governance as, the responsibility of the board of directors and executive management.

ICT Governance has risen in importance because of the widening gulf between what the organization expects and what ICT delivers. ICT has grown to be seen as a cost centre with growing benefits to the organisation ICT serves. A Governance of ICT framework is meant to align ICT functions to the organizational goals, minimise the risk ICT introduces and ensure that there is value in the investment made in ICT. The view that ICT should be governed and managed at all levels within a given organizational structure is supported by internationally accepted good practice and standards. These practices and standards are defined in the King IV Code of Good Governance, ISO 38500 Standard for the Corporate Governance of ICT, and other best practice ICT Process Frameworks, which forms the basis of the document.

Translated into a municipal operating environment the corporate governance of ICT places a very specific responsibility on the Council and Management within a municipality to ensure that the decision-making process for ICT related investments and the operational efficiencies of the municipality's ICT environments remain transparent and are upheld. This accountability enables the municipality to align the delivery of ICT services with the municipality's Integrated Development Plans and strategic goals.

The Council and Management of municipalities need to extend their governance functions to include the Corporate Governance of ICT. In the execution of the Corporate Governance of ICT, they should provide the necessary strategies, architectures, plans, frameworks, policies, structures, procedures, processes, mechanisms and controls, and culture which are in compliance with the best practise ICT Governance Frameworks.

To strengthen the Corporate Governance of ICT further, responsibility for the decision making of ICT programmes and projects should be placed at a strategic level in the municipality. The Corporate Governance of ICT is a continuous function that should be embedded in all operations of a municipality, from Council and Management level to all areas within a municipality including ICT service delivery.

According to the establish frameworks, the Governance of ICT is implemented in two different layers:

<u>Corporate Governance of ICT</u> – the Governance of ICT through structures, policies, and processes.

<u>Governance of ICT</u> – through Standard Operating Procedures.

The difference between the Corporate Governance of ICT and the Governance of ICT can be defined as follows:

<u>Corporate Governance of ICT</u>: The system by which the current and future use of ICT is directed and controlled.

Governance of ICT: The individual processes and procedure which ensure the compliance of the ICT environment based on a pre-agreed set of principles.

In November 2012, Cabinet approved the Public Service Corporate Governance of ICT Policy Framework and made ICT applicable to National and Provincial Departments, Provincial Administrations, Local Governments, Organs of State and Public Entities for implementation by July 2014. To address the above mentioned, the Western Cape Department of Local Government in collaboration with the Department of Cooperative Governance (DCOG), the Department of Public Service and Administration (DPSA), the South African Local Government Association (SALGA), and the Western Cape Provincial Treasury, developed this Municipal Corporate Governance of ICT Policy for application in the Local Government sphere.

The purpose of the Municipal Corporate Governance ICT Policy is to institutionalise the Corporate Governance of ICT as an integral part of corporate governance within municipalities. This Municipal Corporate Governance ICT Policy provides the Municipal Council and Management within a municipality with a set of principles and practices that must be complied with, together with an implementation approach to be utilised for implementation of ICT Governance within Municipalities.

To enable a municipality to implement this Municipal Corporate Governance of ICT Policy, a threephase approach will be followed:

<u>Phase 1</u> – Enabling Environment: The Corporate Governance of ICT environments will be established in Municipalities through the adoption of this Municipal Corporate Governance of ICT Policy and its associated policies through Council resolution.

<u>Phase 2</u> – Business and Strategic Alignment: Municipalities will plan and implement the alignment between IDP's, strategic goals and ICT strategy (IT Plan).

<u>Phase 3</u> – Continuous Improvement: Municipalities will enter an on-going process to achieve continuous improvement of all elements related the Governance of ICT.

The Corporate Governance of ICT Policy will allow municipalities to maintain alignment of strategic ICT functions to meet their needs and apply best practices to reduce costs and increase the effectiveness of the ICT service delivery to the municipality.

Conclusion

The Corporate Governance of ICT Policy has been designed for the exclusive use and alignment of Municipalities. The implementation thereof had been phased over a longer period to provide municipalities with the time required to implement this Corporate Governance of ICT Governance Policy effectively. The

Corporate Governance of ICT Policy will be supplemented with an implementation plan that will give guidance to the practical implementation of the framework.

INFORMATION AND COMMUNICATION TECHNOLOGY (ICT) PLAN

1. Executive summary

The primary aim of the ICT Plan is to ensure that the information systems and technology plans of the Municipality are aligned with the business and thus with the Greater Tzaneen Municipality (GTM) vision, mission, strategy, and activities as outlined in the Integrated Development Plan (IDP). This is to ensure that ICT not as an entity of its own but exist to serve the interest of the GTM. ICT must enable and assist the GTM to perform its task in a more efficient and cost-effective manner.

To undertake an enterprise-wide /holistic approach to align its information systems and technology with the Business Strategy/ IDP to support the decision-making processes.

The focus should be on information systems and related ICT technologies in support of the business of the Municipality.

This ICT plan addresses issues of change management arising due to the impact of the proposed systems on the current environment, in terms of infrastructure and personnel and the risk management issues identifying risks and risk containment measures associated with the new applications.

The revised ICT plan of the GTM studies current manual and computerized service flows, information flows, business processes, IT infrastructure & systems, the organizational capacity to undertake these services. Information flows and business processes together with an organizational framework would be worked out that are compatible and harmonized with electronic service delivery and service provisioning.

The proposed ideal personnel, computerized systems, and technology required to meet the Business Strategic Objectives are outlined in the five-year implementation plan.

The ICT Plan is strategic planning document that is aligned to the Municipality strategic plan/ IDP. The development of the plan has been done in consultation of the Departments and Divisions within the GTM to align it to business.

2. Conclusion

Realising the importance of Information and Communication Technology in improving the internal efficiencies of the Municipality and the service delivery for the key stakeholders, as well as, playing the role of strategic entity as far as ICT services are concerned.

It is recommended to have an independent Information Security Officer (ISO) reporting directly to Office of the Municipal Manager for monitoring compliance of ICT Security Services of the Municipal ITO (Information Technology Office/ Division). The ISO reports the identified ICT risks to the Executive Management and the Accounting Officer monthly. It is recommended that an IT Manager and IT Engineers respectively,

supported by their respective teams should head the two functional areas namely Project Implementation and Information Management and ICT Infrastructure Management.

A helpdesk to continue to support the municipality through IT Division. Knowledge Management to be under Records Management unit and ICT Training to be the responsibility of HRD.

Note: The various levels proposed in the suggested organizational structure for the ICT Services Division are based on the review team's evaluation of activities involved in implementing the ICT PLAN recommendations, job responsibilities envisaged for various roles proposed, global best practices and learnings from other similar organizations. The Greater Tzaneen Municipality should carry out an internal job evaluation for the proposed positions and decide on the levels as per the guidelines and Municipal requirements.

DISASTER RECOVERY PLAN

1. Executive summary

The Greater Tzaneen Municipality acknowledges dependency on ICT Systems to conduct day-to-day business processes and recognizes importance of protecting ICT systems, including the LAN/WAN, servers, Internet, E-mail, and applications against the loss of operational control that may occur in an event of a disaster. The DRP (Disaster Recovery Plan) provides a written and tested plan depicting the processes of recovering.

ICT (Information Communication Technology) and computer systems play a major in running day-to-day business processes in the Greater Tzaneen Municipality. IT has become the most important resource that enables the Greater Tzaneen Municipality regarding service delivery to its community. It is crucial that ICT systems at the Greater Tzaneen Municipality function efficiently and effectively without excessive interruptions.

The Disaster Recovery Plan (DRP) will establish plans and procedures to enable the Greater Tzaneen Municipality to recover ICT Systems and critical data in an efficient and effective manner with minimal disruption to services following a disaster.

2. Conclusion

The Disaster Recovery plan needs to be tested regularly to meet the following objectives:

To ensure that the plan is robust enough to ensure continuity of critical applications at the time of disaster:

- a) To analyse the plans and to improve this in due course of time.
- b) To ensure that procedures are followed as per the plan.
- c) To ensure recovery of critical data at the time of a disaster.
- d) To verify the components of the DRP; and To test the backup retrieval and restoration capability.

KPA 5: FINANCIAL VIABILITY AND MANAGEMENT

1. REVENUE ENHANCEMENT STRATEGY

Executive summary

The objective of the revenue enhancement strategy is to ensure that the GTM has stable and financial base to fund essential services through increased revenue base. The strategy has attributing factors to identify new investment attraction and capitalise on comparative advantage. The strategy is aligned with the municipality's broader objective for economic development, infrastructure management and financial sustainability.

The strategy ensures that the revenue generating initiatives complement and support local economic growth and business development. Diverse revenue source will make the municipality more reliant to economic downturns and promote economic growth. To achieve investment attraction, the municipality need to create favourable environment for business and development by streaming processes, invest in economic infrastructure, which in turn will stimulates local economic growth. The strategy goes beyond traditional revenue sources and seeks to leverage on municipal assets, land development and strategic partnership that contribute to economic development.

The revenue enhancement capitalise on competitive advantage of the municipality, which include among others natural resources, agriculture, cultural heritage, development of business hubs and maximizing on land use to generate revenue.

The Revenue enhancement strategy is aligned to LED strategy to ensure that both economic growth and financial sustainability go hand in hand, that economic development leads to increased revenue generation, while the revenue generated supports expansion of economic growth.

Municipality is faced with challenges in revenue collection and revenue streams which include but not limited toing infrastructure, data integrity for billing, economic fluctuations, limited revenue sources- reliance is on property rates and services charges within billable area, poor revenue collection due to culture of nonpayment and the debt balance accumulated over a period of time, illegal connections, inadequate capitalisation of competitive advantage and slow economic growth.

The revenue enhancement strategy was reviewed in 2023/24, review of the revenue enhancement strategy involved the analysis of current revenue streams, measures to address emerging challenges, revenue leakages, capacity gaps, assessing potential new sources or uncover new opportunities to diversify income streams, and addressing inefficiencies' in revenue value chain and trading services components.

The strategy incorporates measures to strengthen capacity within revenue division, implementation or upgrading of technology driven systems such as integrated billing system, automated payment portal to improve operational efficiency, enhancement of revenue collection, investigation of revenue leakages to identify area of revenue losses including distribution losses and discrepancies in billing.

2. Conclusion

The Revenue Enhancement Strategy is among key pillar of the municipality's broader strategic plan to ensure long term financial sustainability and provision of sustainable service delivery. The strategy provide comprehensive approach of optimizing revenue generation and position the municipality for future success.

Revenue Enhancement steering committee is established to monitor effective implementation of the strategy, revenue protection, early identification of challenges and make necessary adjustments to ensure revenue goals are achieved.

2. FIVE YEAR FINANCIAL PLAN/CIF

1. Introduction

Greater Tzaneen Municipality uses its Capital Investment Framework (CIF) to identify and prioritize capital projects to be implemented in the following financial year and the medium-term period of three years.

This framework includes the Capital projects of our Municipal Entity, investment opportunities to the Local, National and International Business Communities.

The marketing includes:

- The creation of a positive investment climate for Greater Tzaneen Municipality.
- To facilitate strategic alliance, joint ventures and encourage participation of local communities where appropriate.
- To promote private public partnerships and
- To provide business support services

Regarding the planning and implementation of Capital projects the Municipality has in depth experience and knowledge to ensure that projects are finalized timeously. The Municipality also have an emergency plan in place which provides funding to cater for disaster.

To address these challenges Greater Tzaneen Municipality prepared general guidelines on several key topics. These guidelines include:

- a) Employee Work Plan
- b) Effect on the Municipalities workforce, reduction in productivity.
- c) Supply Chain Disruptions
- d) Not having enough information to make proper decisions.
- e) Implementation of Councils Capital Program.

The Capital Investment Framework (CIF) of Greater Tzaneen Municipality provides the procedures that lead to the implementation of the IDP as far as capital programs and infrastructure is concerned. It is

the framework through which the Municipality identifies and prioritizes capital projects for implementation in the forthcoming financial year.

2. The CIF has two components:

A series of engagements with the Sector Departments, District Municipality and Community to identify critical capital projects.

The production of a list of capital projects that meet the desired developmental and spatial outcomes of the Municipality.

The planning of the CIF is the responsibility of the Municipal Manager and Chief Financial Officer. The responsibility for executing the projects identified through CIF is with all departments.

3. Purpose

The purpose of this Capital Investment Framework is to manage the Municipalities Capital Budget within the approved allocations and Councils Demand Management Plan. To comply with the requirements of Section19 of the MFMA as well as with Section 33 to the extent that the section may be applicable to the projects and that the sources of funding have been considered, are available and have not been committed to other purposes.

It also strives to eradicate the service delivery backlogs and ensure the improvement and the management of existing infrastructure. To achieve this purpose, the CIF has a number of key objectives, namely to:

- a) Promote Rural Development
- b) Contribute towards the eradication of service delivery backlogs.
- Improve service delivery through infrastructure that are planned, delivered, upgraded, or managed in a structured and sustainable manner.
- d) Direct future investment by strategically aligning capital budgets to the priority areas of our Municipality.
- e) Identify types of infrastructure, services planning, and implementation choices in a strategic manner.

6. Principles

This Capital Investment Framework:

a) Ensures that Capital expenditure is directed in a way that maximizes Council Capital programme objectives.

- b) Provide for the creation/purchase of new assets.
- c) Provide for asset replacement.
- d) Sustain and improve the quality of asset.
- e) Maximize the efficiency and capacity of assets.
- f) Identify revenue generating assets and acquire assets to maximize revenue generation.
- g) Identify surplus/redundant assets and maximize revenue from disposal.

7. Objectives

To deliver a defensible asset management / prioritization system to prioritize the projects in Councils IDP. This system must provide planned Capital priorities implementation dates and outcome results with no surprises. It must also ensure that decisions are consistent with National, Provincial and District service priorities and informs the timeline reasonably required to finalize the capital projects and programme.

1. ASSET FINANCING PLAN

A list of the planned capital projects for the 2025/2026 financial year is contained in the IDP, Budget, and in the 2025/2026 Service Delivery and Budget Implementation Plan. (SDBIP).

The Capital funding allocations and cycles are provided as follows under item 5.1 and 5.2 of this report:

- (i) An overview of the Municipalities three years Capital budget.
- (ii) Capital allocations per department for the medium term.

The asset financing plan details how proposed capital expenditure is to be funded and specifically addresses allocations from own financial sources, grants from National Treasury and loans over a period of time.

This plan does not include a detailed asset sale plan or demonstrates how the proceeds of the sale of assets are re-invested in future Capital requirements. The Asset Management Plan details current and medium-term asset requirement as approved by Council. It is informed by the IDP of Council and will be financed by surpluses derived from the operational budget, and Government Grants. It is driven by forecast demand trends and Councils Policies.

The following table is a consolidated overview of the proposed MTREF:

OPERATING AND CAPITAL BUDGET	2025/2026	2026/2027	2027/2028
OPERATING AND CAPITAL BUDGET	DRAFT BUDGET	DRAFT BUDGET	DRAFT BUDGET
TOTAL REVENUE	R 2,188,301,154	R 2,348,527,059	R 2,548,930,986
TOTAL OPERATING EXPENDITURE	R 1,990,250,148	R 2,140,507,986	R 2,305,489,535
TOTAL CAPITAL EXPENDITURE	R 256,442,600	R 271,312,150	R 208,285,900
TOTAL OPEX AND CAPEX BUDGET	R 2,246,692,748	R 2,411,820,136	R 2,513,775,435

The operating revenue increase is mainly attributable to an increase in grant allocations, tariff increase as well as the new valuation roll to be implemented from 1 July 2024. The operating expenditure increase is mainly attributable to the annual increase that is linked to CPI, debt impairment item aligned to audited figures and the increase in bulk electricity cost.

Although the budget is approved by National Treasury and Provincial

Treasury on vote level/department level the revenue and expenditure needs to be discussed on item level to get an overall picture of the 3-year budget.

The following table is a summary of all revenue and expenditure on item level:

BUDGET PER ITEM FOR GTM

Row Labels	Sum of 2025 2026 Budget
Expenditure/Bulk purchases – electricity	763 382 880
Expenditure/Contracted services	117 692 540
Expenditure/Depreciation and amortisation	125 251 665
Expenditure/Employee related costs	493 531 490
Expenditure/Interest	12 354 069
Expenditure/Inventory consumed	107 852 169
Expenditure/Operational costs	204 999 990
Expenditure/Remuneration of councillors	31 414 297
Expenditure/Transfers and subsidies	38 494 048
Gains and Losses/Debt Impairment	95 277 001
Grand Total	1 990 250 148

The Total Revenue budget of Greater Tzaneen Municipality for the 2024/2025 financial year amounts to R2,067 billion. The Municipalities commitment to respond to the communities' demand for a better life is reflected in a budget in which the key priorities are the renewal repairs and maintenance of our electricity distribution network and related critical infrastructure maintenance.

The Revenue and Expenditure Budgets are summarized as follows:

WATER AND SEWER

Although Greater Tzaneen Municipality is not the Water and Sewer Authority, our Engineers will continue with critical as well as planned maintenance on the ageing water and sewer infrastructure. The Municipality will continue to meet the pressing water and sanitation challenges to ensure a better life for all its communities.

No Capital expenditure has been budgeted for the water and sewer services as Capital Expenditure will be done by Mopani District Municipality who is the water and sewer services authorities.

ROADS AND STORMWATER

An amount of R74 million has been set aside over the next three (3) years for the repairs and maintenance of roads and storm water across the Municipality.

This amount can be summarized as follows:

Financial Year	Repair and Maintenance
2024/2025	R23 935 460
2025/2026	R25 046 326
2026/2027	R25 046 326

The repairs and maintenance allocations represent repairs and maintenance on roads and storm water and does not include labour cost.

The amounts allocated for Capital Projects from the MIG Funding are allocated as follows:

Financial Year	Capital Project from MIG	
2024/2025	R111 062 000	
2025/2026	R126 934 000	
2026/2027	R126 934 000	

ELECTRICITY SERVICES

The electricity service has been allocated an amount of R268.4 million over the MTREF 2024/2025 to 2026/2027 for infrastructure and maintenance of the electricity network. This amount excludes labour cost. The amount is allocated as follows:

Financial Year	Operational Expenditure	Capital Expenditure
2024/2025	R45 038 051	R53 320 000
0005/0000	D40 405 070	D45 000 000
2025/2026	R40 485 970	R45 000 000
2026/2027	R30 229 970	R54 400 000
2020/2021	1100 223 310	1134 400 000

The bulk electricity purchases amount to R560 million for the 2024/2025 financial year.

Distribution losses of 11,34 percent, 6,11 percent, and 13,74 percent for the 2020/2021, 2021/2022 and 2022/2023 financial years respectively have been recorded in Councils financial statements.

The inadequate maintenance of the electricity network can be problematic as an electricity grid is enduring and tolerant, it will persevere and withstand long-time abuse. Many grid transformers are overloaded for many hours in a day, when load is increased the windings heat up, when load decreases, they cool down. In most cases, it will take years to destroy a transformer, but when it finally let go it could cost lives.

It is therefore important that the Municipality ensures that the electricity network is maintained adequately. Meter reading audits must also be performed to curb the losses.

SOLID WASTE

Each year the Municipalities solid waste function is brought under pressure due to the fact that +- 33 600 Rural households have access to a basic removal service less frequent than once a week. +- 66 550 Rural households are using communal dump services.

An increase of 4.9% on the previous financial year tariff is proposed, which will provide for an amount of R43 979 397 as service charges on the 2024/2025 Budget.

The increase of 4.9% on the previous year tariffs is within the acceptable norm by National Treasury.

It will not be possible to address this problem in the short term but additional allocations in future budgets will be considered to ensure that all the communities are provided with at least a basic refuse removal service.

LIQUIDITY

The key liquidity metrics are currently deemed to be adequate however to ensure future viability the Municipality needs to determine creative ways in which it can generate funds to comply with the requirements of MFMA Circular 71 which determines that the cash/cost coverage ratio of a Municipality must remain between 1 and 3 months. The Municipality was encouraged by Treasury to adopt an operational budget which provides for a surplus of between one- and three-months actual expenditure.

To comply with this requirement, the Budget Steering Committee recommended that the surplus of between 1 and 3 months must be phased in over a period of time.

The following provision has been made over the next three years:

<u>Year</u>	Surplus Allocation
2024/2025	R30 211 494
2025/2026	R72 836 352
2026/2027	R199 035 215

MULTI-YEAR PROJECTIONS

REVENUE: (Greater Tzaneen Municipality)

ITEM	2025/2026	2026/2027	2027/2028
Revenue	R 2 188 301 154	R 2 348 527 059	R 2 548 930 986

The table above reflects the multi-year projections on revenue which is mainly based on the inflation forecast contained in National Treasuries Budget Circular 126 and 128 as well as the Grants contained in the Division of Revenue Bill (DORA) 2024/2025.

The revenue increased from R1 815 522 342 in the 2023/2024 financial year to R2 067 805 408 in the 2024/2025 financial year.

The main contributors to these increases are:

Grants

Grants are contained in the Division of Revenue Act and the following Grants have been published.

2024/2025 - R708,756,000

2025/2026 - R681,944,000

2026/2027 - R687,525,000

Service Charges

The increase in service charges are based on the inflation forecast contained in National Treasuries Budget Circulars 129.

ITEM	2025/2026	2026/2027	2027/2028
Service charges	R1 127 653 716	R1 266 966 398	R1 423 800 219

EXPENDITURE: (Greater Tzaneen Municipality)

The operating expenditure has increased from R1.717 billion in the 2024/2025 financial year to R1.984 billion in the 2025/2026 financial year. This increase is primarily the result of increases in several expenditure items.

CAPITAL

The Multi-Year capital projections are contained in item "19 summary of detailed capital budget" of this report.

TARIFFS

National Treasury informed Municipalities through Budget Circular's 129 that the under-mentioned Macro Economic forecasts must be considered when preparing the 2025/2026 MTREF Municipal Budget

CATEGORY	2025/2026	2026/2027	2027/2028
	(%)	(%)	(%)
Property Rates	4.4	4.5	2.5
Electricity	12.7	12.7	12.7
Refuse	4.4	4.5	2.5
Water (Haenertsburg)	4.4	4.5	2.5
Water (Other users)	4.4	4.5	2.5
Sewerage	4.4	4.5	2.5

The Municipality strives to project increases that are not above the CPI as advised by National Treasury. This is however hampered by a combination of increases in input cost associated with providing services and the ongoing attempt to ensure that cost reflective tariffs are approved and implemented.

The Municipality will however continue focusing on Budget Management to reduce any inefficiency and thereby reduce the impact on our residents. It must also be mentioned that the Municipalities revenue base is not at the required level due to high rural areas that are part of the Municipalities responsibility. This requires creative and innovative ways of ensuring affordable and cost reflective tariffs as well as efficient service delivery.

The Municipality strives for equal service levels for all communities it service.

10. OVERVIEW OF BUDGET FUNDING

Fiscal Overview

The Greater Tzaneen Municipality is unfortunately not excepted to the economic risks facing the nation and the world and its necessary to table a budget that is balanced and realistic.

According to Stats S.A., people in South Africa have lost their jobs resulted in revenue collection been under pressure. This has a direct impact on the ability of the Municipality to pay for Bulk Services and to spent on service delivery.

New and creative ways will have to be found to ensure financial sustainability.

As part of our financial sustainability strategy an Aggressive Revenue Management Framework has been implemented to increase our Cash flow, not only from current billings but also from debtors that are in arrears. The intention of the strategy is to streamline the revenue value chain by ensuring accurate billing, customer service,

credit control and debt collection.

With regard to creditors management Council is in the process of ensuring that creditors are settled within the legislated 30 days from invoice. All invoices are paid within 30 days with the exception of a few where services have not been provided at an acceptable standard. With regard to expenditure special attention will also be given to the cost containment measures approved by Cabinet on 23 October 2013 and updated on an annual basis by National Treasury to ensure value for money and cost savings.

The free basic service of Council is a social package which assists residents that have difficulty paying for services and are registered as indigent households in terms of Councils Indigent Policy. Only registered indigents qualify for the free basic service.

Cash flow problems are experienced from time to time due to the seasonal electricity tariff of ESKOM.

The implementation of the MFMA required a reform in financial planning within Municipality's. All senior managers are responsible for managing the respective votes or departments of the Municipality, to whom powers and duties for this purpose have been delegated. Top Management must also assist the Accounting Officer in managing and coordinating the financial administration of the Municipality.

OPERATING BUDGET 2025/2026

Operating Revenue

The revenue of Greater Tzaneen Municipality is pre-dominantly raised through rates and tariffs. Grants and subsidies from National and Provincial Government constitute a portion of the total revenue but the budget is based on a strong base of own sources.

Metered services and property rates will contribute the following revenue to Greater Tzaneen Municipality during the 2025/2026 financial year:

Electricity 49.57%

Refuse Removal 2.15%

Property Rates 9.30%

The Greater Tzaneen Municipal operating income will be allocated as follows during 2025/2026 Financial year:

Row Labels	Sum of 2025 2026 Budget
Revenue/Exchange Revenue/Agency services	-16 664 291
Revenue/Exchange Revenue/Interest earned from Current and Non-Current Assets	-31 906 502
Revenue/Exchange Revenue/Interest earned from Receivables	-51 054 235
Revenue/Exchange Revenue/Licence and permits	-505 845
Revenue/Exchange Revenue/Operational Revenue	-22 847 485
Revenue/Exchange Revenue/Rental from Fixed Assets	-1 859 000
Revenue/Exchange Revenue/Service charges - Electricity	-1 080 673 716
Revenue/Exchange Revenue/Service charges - Waste Management	-46 980 000
Revenue/Non-Exchange Revenue/Fines, penalties and forfeits	-1 490 000
Revenue/Non-Exchange Revenue/Interest	-35 890 000
Revenue/Non-Exchange Revenue/Property rates	-202 824 080
Revenue/Non-Exchange Revenue/Transfer and subsidies – Operational	-579 413 400
Revenue/Non-Exchange Revenue/Transfers and subsidies - capital (monetary allocations)	-116 192 600
Grand Total	-2 188 301 154

Operating Expenditure

The budgeted expenditure per item is as follows for the 2025/2026 financial year:

Row Labels	Sum of 2025 2026 Budget
Expenditure/Bulk purchases – electricity	763 382 880
Expenditure/Contracted services	117 692 540
Expenditure/Depreciation and amortisation	125 251 665
Expenditure/Employee related costs	493 531 490
Expenditure/Interest	12 354 069
Expenditure/Inventory consumed	107 852 169
Expenditure/Operational costs	204 999 990
Expenditure/Remuneration of councillors	31 414 297
Expenditure/Transfers and subsidies	38 494 048
Gains and Losses/Debt Impairment	95 277 001
Grand Total	1 990 250 148

CAPITAL BUDGET

An amount of R256 million was approved for capital projects for the 2025/2026 financial year. This was funded as follows:

- Own Sources R140 250 000 - MIG R116 192 600 TOTAL R256 442 600

(d) FUNDING MEASURES

The funding of the budget is based on realistic anticipated revenue to be collected which was calculated on collection levels to date and actual revenue collected in previous financial years.

Financial Challenges

The challenges facing Greater Tzaneen Municipality are, inter alia, the following:

- Electricity remains a constraint with power interruptions expected to continue into 2025.
- Job losses which have a negative effect on payment for services rendered.
- Debt collection and Credit control where services infrastructure is lacking.
- Expenditure Management

Sources of Funding

It is evident from the summary below that the revenue of Council is predominantly raised through rates, service charges and grants. This high level of relative stable revenue source is a key factor in sound financial position, the Municipality will however have to increase its tax base to ensure that the much-needed development can be funded.

The 2025/2026 expenditure will be funded as follows:

Funding source	Amount
Grants & Subsidies	R 695 606 000
Rates & Service Charges	R1 330 477 796
Sundry Income	R 162 217 358

(e) PROPERTY VALUATION RATES TARIFFS AND OTHER CHARGES

To maintain an effective, efficient and sustainable town, tariff increases are inevitable. Tariff setting plays a major role in ensuring desired levels of revenue by assisting in the compilation of a credible and balanced budget to accommodate the basic service provision. The determination of tariffs for the financial year has been guided by our Tariff Policy and guidelines set by National Treasury in the Municipal Budget Circular's 129 for the 2025/2026 MTREF.

R2 188 301 154

Property Rates

Budgeted Revenue

The proposed property rates are to be levied in accordance with existing Council's Policy, and both the Local Government Municipal Property Rates Act 2004 (MPRA) and the Local Government Municipal Finance Management Act 2003.

The Property Rates Policy of Council is attached hereto as prescribed by National Treasury.

Property rates are based on values indicated in the General Valuation Roll. The Roll is updated for properties affected by land sub-division, alterations to buildings, demolitions and new buildings (improvements) through Supplemental Valuation Rolls. New valuation roll will be implemented from 1 July 2025 and the Property Rates Tariff contained in the 2025/2026 Budget is calculated on the Valuation Roll for the period 2024 - 2029.

The proceeds from property rates must cover the shortfall in the provision of general service. It is also seen as the most important source of general revenue for Municipalities, especially in developed areas. The revenue generated from property rates is used to fund services like maintaining streets, roads, sidewalks, storm water drainage, parks and cemeteries.

It is proposed that the cent in the Rand rates will be kept constant on Property Rates (0% tariff increase) due to the implementation of the new General Valuation Roll from 1 July 2025, which will constitute an increase in Property Values. Seeing that this is a tax and not a metered service of which the user has the choice to the extent he/she wants to make use of it.

Water and Sewer Services

Council must take note that Greater Tzaneen Municipality is only the water service provider and not the water service authority.

The water and sewer budgets are drafted by Greater Tzaneen Municipality but submitted to Mopani District Municipality for approval.

The proposed Sanitation Tariffs for 2025/2026 are consistent with National Policy on the extension of free basic services, the National Strategic Framework for Sanitation and with Council's Indigent Relief Measures, Rates and Tariff Policies and Equitable Service Framework.

The progressive nature of the existing domestic stepped tariff structure both for water and sanitation is pro-poor and allows for the needs of the indigent. It is also designed to discourage high water consumption levels, which have an impact on the size of both the water and sanitation portions of a consumer's bill. It enables all consumers to adjust their consumption levels to ensure affordability.

It is proposed that the step tariff structure from the 2024/2025 financial year be retained, with a proposed 4.4% increase in volumetric water tariffs generally, and a proposed 4.4% increase in sanitation tariffs generally.

Indigent Accounts

It is also recommended that the indigent accounts remain at R200.

Electricity Service

The proposed revisions to the tariffs have been formulated in accordance with Section 74 of the Municipal Systems Act as well as the recommendations of the National Energy Regulator of South Africa (NERSA).

The increase in electricity tariffs has not yet been communicated by NERSA through the consultation paper- Municipal Tariff Guideline, Benchmarks and proposed timeline for financial year 2025/2026. The budget steering committee resolved that an increase of 12.7% on the previous year tariffs be approved as communicated by National Treasury

Refuse Removal Service

According to the Constitution of the Republic of South Africa, 1996 (Act 108 of 1996) a municipality must ensure a safe and healthy environment for its residents. Greater Tzaneen Municipality is therefore responsible to adequately maintain its refuse removal service, as well as refuse sites and solid waste disposal efforts.

The solid waste tariffs are levied to recover costs of services provided directly to customers and include collection fees, disposal fees and other ad hoc services.

It is proposed that the tariff be increased by 4.4% on the 2024/2025 tariffs with effect from 1 July 2025.

Tariffs and Charges Book

Council is permitted to levy rates, fees and charges in accordance with the Local Government Municipal Property Rates Act, the Local Government: Municipal Systems Act, Act 32 of 2000, Section 75A and the Municipal Finance Management Act, no. 56 of 2003, 17 (a)(ii).

(e) DEBTORS

The table below illustrates the debtor revenue in millions for the 6 months, July 2024 to December 2024:

	Jul-24	Aug-24	Sep-24	Oct-24	Nov-24	Dec-24
	R000	R000	R000	R000	R000	R000
	120 607	133 346	141 228	111 612	115 158	111 047
Revenue billed	285	198	629	861	269	521
Revenue	91 616	96 607	113 995	117 133	93 856	86 465
collected	221	992	792	969	799	058
% Revenue						
collected	75,96%	72,45%	80,72%	104,95%	81,50%	77,86%

The MFMA requires that the budget be based on realistic forecasts for revenue and the average collection rate for Greater Tzaneen Municipality amounts to 82%.

(f) SAVINGS AND EFFICIENCIES

To ensure value for money and efficient utilization of resources, performance indicators have been set for all Section 57 Directors.

In-year reports (monthly and quarterly) as well as annual reporting are done on functional service delivery against information contained in the approved SDBIP.

Performance plans and productivity measures exist for each Director and it is expected of top management (all Directors) to manage their respective votes / departments.

(g) INVESTMENTS

Adequate provision has been made by way of external investments to ensure that cash is available on the maturity date of external sinking fund loans. Short-term Investment income on the other hand is utilized to fund the operational budget.

Details of the long-term investment of Greater Tzaneen Municipality are disclosed as follows.

Valuation of unlisted Investment

Standard Bank R26 766 012

ABSA R21 326 023

STANDARD BANK

An investment of R11 350 000 has been made with Standard Bank to repay a loan of R30 million on maturity date. The loan bears interest on variable rate and the value of the investment amounts to R26 766 012.

ABSA

An investment of R16 million has been made with ABSA as a security of a R90 million loan taken from DBSA and the value of the investment amounts to R21 326 023.

(h) GRANT ALLOCATION

National Treasury advised Municipalities, through their Budget Circular 129 use the indicative numbers as set out in the Division of Revenue Act to compile their 2025/2026 MTREF.

Greater Tzaneen Municipality however included the Grant allocations as contained in the DORA as published in Government Gazette no. 48017 of 12 February 2024, in the 2025/2026 Draft Budget.

The grant allocations published in the 2025/2026 Division of Revenue Bill are summarized as follows:

MUNICIPAL GRANTS FOR 2025/2026- 2027/2028					
Grant Description	2025/2026 (R)	2026/2027 (R)	2027/2028 (R)		
EQUITABLE SHARE	555 351 000	556 034 000	581 276 000		
MIG	122 308 000	127 697 000	133 722 000

KPA 6: MUNICIPAL TRANSFORMATION AND ORGANISATIONAL DEVELOPMENT

1. MUNICIPAL INSTITUTIONAL PLAN

Background of the municipality

1.1. Establishment

The MEC of Local Government in the Limpopo Province has by notice in the Provincial Gazette established the Greater Tzaneen Municipality. (Provincial Gazette No 28 of 1 October 2000). This area consists of the former Tzaneen Transitional Local Council, Letsitele/Gravelotte and Haenertsburg Rural Local Councils and a vast area under control of the former Northern District Council. Staff, equipment, assets, and liabilities of the latter administrative units were transferred to the newly established Municipality. A new institutional framework was created, and arrangements made accordingly based on the obligation of co-operative governance in terms of the Local Government Municipal Systems Act, 2000.

The Greater Tzaneen Municipality is a category B municipality, which operates on the Executive Committee system. The Municipality has been divided into 35 wards, each ward being represented by a ward Councillor. There are five full time councillors, who occupy the positions of Mayor, Speaker and nine Executive Committee members and leading the various clusters.

1.2. Council committees

The Greater Tzaneen Municipality has 11 Council Committees which assist the Council in the running of the municipality. The Committees have been classified according to the Key Performance Areas for Local Government where possible. Each Committee has been allocated a chairperson who is not an Executive Committee member. The Committees are composed by the Chairperson, the other assigned Councillors, and members of Senior Management. The committees are established as oversight committees of which their main task is to play an oversight over EXCO delegated responsibilities. All the committees are functional and hold meetings accordingly.

The municipality is composed of the Political and Administrative components which are responsible for the decision making and implementation respectively. The Mayor is a head of the Political component and the Municipal Manager heads the Administrative component. The Greater Tzaneen Municipality has 11 Council Committees which assist the Council in the running of the municipality. The Committees have been classified according to the Key Performance Areas for Local Government where possible. Each Committee has been allocated a chairperson who is the Councillor and non-Executive Committee member. The Committees are composed by the Chairperson, the other assigned Councillors, and members of Senior Management. The committees serve as a central nerve centre between the political structure and the administrative structure of Council. EXCO receives recommendations from management and further recommend to Council on matters that they do not have authority to take decisions.

- a) The committees are as follows:
- b) Planning and Economic Development
- c) Infrastructure
- d) Corporate Governance & Shared Services
- e) Budget & Treasury
- f) Sports, Arts and Culture
- g) Health, Environment and Social Development
- h) Public Transport, Safety and Security
- i) Special Programmes
- i) Rules and Ethics

22. MUNICIPAL INSTITUTIONAL PLAN

1. Purpose and benefits

a) Purpose

The purpose of a Municipal Institutional Plan (MIP) is to develop an internal plan that enables the Municipality to organize and deploy its Human Recourses and systems in such a way that it will achieve its strategic objectives.

b) Benefits

The benefits of a MIP are the following:

- a) It improves organizational effectiveness and efficiency.
- b) Better service delivery with the right people and skills.
- c) Assist the Municipality to drive its objectives.
- d) Allows for the integrated implementation of the IDP.
- e) Assist Municipality to comply with legislative requirements.
- f) Allows for optimal utilization of human capital.
- g) Ensures optimal utilization of human capital.
- h) Contributes to clean audit.
- i) Enables the Municipality to perform its powers and functions and its allocation thereof.

2. Adoption and implementation

The draft MIP will be presented to Council together with the draft IDP in March. It will then go for Public Participation together with the IDP. The public comments obtained during consultation will then be incorporated into the final draft. The final draft will then go back to Council for final approval. The operational plans will then be transferred to the SDBIP for implementation. The implementation of the approved MIP will start on the 1st of July.

3. Monitoring, review, and implementation

The monitoring of the implementation of the MIP will be done on a regular basis. The reports on the implementation of the MIP will be done on a quarterly basis. The review of the MIP will be done annually together with the IDP.

WORKPLACE SKILLS PLAN

1. Introduction

It is a requirement of the Skills Development Act, Act No. 97 of 1998 that every employer that employs more than fifty employees with a turn-over of more than R500 000 must have a Workplace Skills Plan (WSP) for the organization. Secondly, the organization must appoint a Skills Development Facilitator (SDF) to deal specifically with training matters.

2. Purpose

The Workplace Skills Plan assists the organization (Municipality) to critically plan and identifies gaps to be addressed through training interventions. Workplace Skills Plan (WSP) ensure that skills development programmes and training initiatives are not only responsive to learning needs that may arise in the Municipality but are also aligned with the overall organisational development strategy which is the IDP. The WSP is compiled by fulfilling the following processes:

3. Skills Audit

- a) Training Needs Analysis (including alignment of the Training needs with the IDP)
- b) Consult with Training Committee
- c) Eventually, the development of Workplace Skills Plan
- d) Legislative requirements
 - (i) Workplace Skills Plan is regulated by the Skills Development Act and Skills Levies Act, coupled to the Act is the National Skills Development Strategy for the period April 2011 to March 2016 which is updated by the Department of Labour every five (5) years.
 - (ii) If the Municipality does not develop and report to the relevant SETA on training matters, the Municipality will not be eligible to claim any of the mandatory and discretionary funds to assist it in implementing their training plan for the next two financial years.
 - (iii) The Greater Tzaneen Municipality has been complying with the Skills Development Act, 1998 since its inception. The Municipality develops the Workplace Skills Plan annually. This Plan, with the Annual Training Report (ATR) for the previous year is available for perusal at the Office of the Skills Development Facilitator.

3. PERSONNEL PROVISIONING POLICY

1. Policy statement

The Personnel provisioning policy and its implementation will be fundamentally aimed at matching the human resource to the strategic and operational needs of the municipality and ensuring the full utilization and continued development of employees. All aspect of staffing, structuring, recruitment, selection, interviewing and appointment of employees will be non-discriminatory and will afford applicants equal opportunity to compete for vacant positions, except as provided in this policy with reference to affirmative action and employment equity. The intention of this policy is to ensure that the Municipality attracts suitable and potential applicants. This policy will ensure a professional approach and the highest possible standards throughout the recruitment and selection process and to promote fairness by addressing all the barriers in existence in line with the Employment Equity Act 55 of 1998. We are committed to create and maintain a diverse workforce in pursuance of Employment Equity and establishing a sound human resources management function.

2. Objective

The policy objective is to ensure that recruitment and selection processes is to get a best applicant available who meets all the selection criteria. The policy further is intended to ensure compliance with applicable laws as and when recruitment and selections are undertaken, limited to the following:

No unfair discriminatory practices exist in the provisioning discipline of Council.

Such policy contributes and enhances a diverse culture and environment whereby all staff can contribute to the goals of Council and where such staff make-up is representative of the demographic environment where recruitment is done.

3. Intent

To ensure that Personnel Provisioning accommodates a comprehensive process which is a result of an agreement reached between all stakeholders concerned. The Policy is inclusive of the following processes:

- a) Recruitment procedure
- b) Selection procedure
- c) Advertising procedure
- d) Interviewing procedure
- e) Objection procedure
- f) Nepotism
- g) Monitoring and evaluation

4. INTEGRATED PERFORMANCE MONITORING AND EVALUATION FRAMEWORK (IPMEF)

1. Introduction

During 2017 GTM reviewed its Performance Management Framework to be in line with legislative prescripts and guidelines as issued by various Departments. Herein the directives of the Departments of Cooperative Governance and Traditional Affairs; Treasury and Performance Monitoring and Evaluation all play an important role. The framework integrates the requirements for managing performance information from the onset of strategic planning, through processes of public participation, continuous performance monitoring,

reporting and periodical evaluations to the eventual interventions. The roles and responsibilities of all stakeholders in each of these processes are clearly outlined. In summary the IPMEF guides the process as follows:

2. Legislative Prescripts

The prescripts contained in legislation forms the backbone of the IPMEF, these include:

- a) Municipal Structures Act of 1998 (Act 117 of 1998)
- b) Municipal Systems Act (Act 32 of 2000)
- c) Municipal Finance Management Act (Act 56 of 2003)
- d) Municipal Planning and Performance Management Regulations (Reg. 796 of 2001)
- e) Municipal Performance Regulations for Municipal Managers and Managers Directly Accountable to Municipal Managers (Reg. 805 of 2006)
- f) Sectoral Guidelines

Various guidelines have been developed by other stakeholders to assist in regulating the management of performance information. The main sectoral guidelines that were considered are:

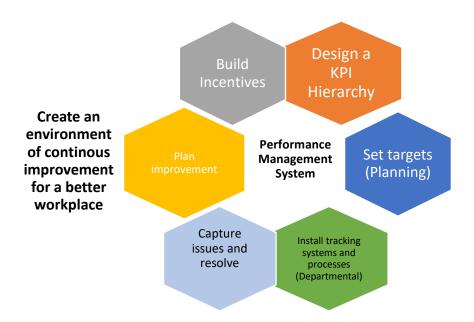

- a) Treasury Framework for Managing Programme Performance Information (FMPPI)
- b) Performance Management Guide for Municipalities (2001) DPLG
- c) Policy Framework for the Government-wide Monitoring and Evaluation System, 2007

3. Objectives of the IPMEF

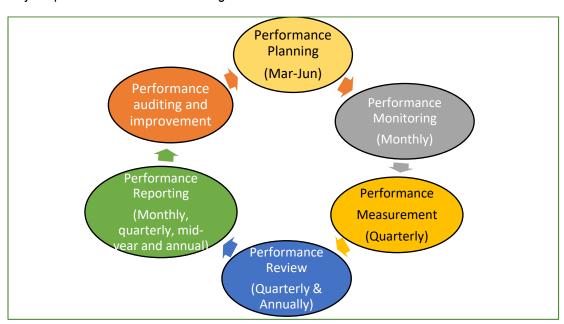

The objective of the framework is to create an efficient and effective Performance Management System for the Greater Tzaneen Municipality to:

- a) Translate the municipality's vision, mission, and objectives from the IDP into clear measurable outcomes, indicators and performance levels that define success and that are shared throughout the municipality and with the municipality's customers and stakeholders.
- b) Ensure the implementation of the plans and programmes.
- c) Provide a tool for assessing, managing, and improving the overall performance of business processes and systems.
- d) Measure development impact.
- e) Ensure efficient utilisation of resources.
- f) Create a culture of best practice.
- g) Promote accountability.
- h) Include measures of quality, cost, customer service and employee alignment, motivation and skills to provide an in-depth and predictive Performance Management System.
- i) Assess performance of the municipality and its employees.

Figure 1: Intention of Performance Management Framework

Key Steps in Performance monitoring and Evaluation

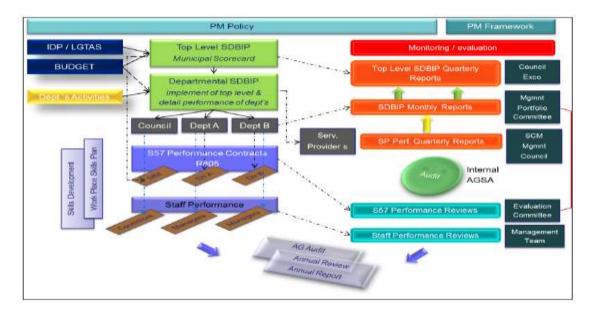

The key steps in implementing the performance cycle (see figure above) are as follows:

- a) IDP consultation and strategic processes to determine.
- b) Priorities of the community.
- c) Establish the Municipal Key Performance Areas,
- d) Strategic Objectives aligned with the National Agenda and local needs,
- e) Design Strategic Focus Areas or Programmes,
- f) Determine Strategic Key Performance Indicators and desired performance levels,

- g) Prioritise projects for budgeting purposes, aligned with municipal strategy and approved methodology.
- h) Start with the allocation of financial resources (budget processes).
- i) Determine organisational KPI's in terms of the IDP and the budget.
- j) Obtain baseline figures and past year performance.
- k) Set multi-year performance targets.
- I) Determine milestones to achieve budget and KPI targets.
- m) Assign strategic focused KPIs to Senior Management (Top Layer SDBIP).
- n) Assign organisational KPIs to directorates and members of management (Departmental SDBIP).
- Prepare individual performance agreements aligned with budget and SDBIP (Municipal Manager and Directors).
- p) Prepare performance plans for all staff and align the Workplace Skills Plan (WSP) with development plans.
- q) Provide monthly/quarterly status reports on progress in achieving KPI targets and with programme and project implementation.
- r) Evaluate performance on individual (½ yearly) and organisational levels (monthly and quarterly).
- s) Compilation of various performance reports (monthly, quarterly, mid-yearly and annually).
- t) Auditing of performance reported and portfolio of evidence (POE's) monthly.
- u) Appoint oversight committee to analyse and prepare report on improvement of performance.
- v) Submit year-end report to various stakeholders.
- w) Performance Management Model

The diagram below depicts the methodology of the adopted performance management model.

Figure 5: Performance management model

Strategic Key Performance Indicators

The IPMEF determines that the Key Performance Indicators should be determined through a process of public participation, and this is managed through the Integrated Development Planning Process. The Strategic Key Performance Indicators and targets for a 5-year period can be found in the IDP Strategies Phase.

Roles and Responsibilities of key stakeholders in PME

The overarching roles and responsibilities of the key stakeholder in the management of performance in the organisation is presented below:

TABLE 100: KEY STAKEHOLDERS IN PME			
Stakeholders	Involvement	Benefits	
Mayor	Facilitate the development of a long-	Ensures Council ownership of	
	term vision regarding IDP and PMS.	SDBIP and accounting	
	Mayor is responsible for the	process
